Agenda

1. Overview of HB 4545
2. HB 4545 Compliance vs High Impact Tutoring
3. Resources and Supports
4. Q & A
Overview of HB 4545
Each time a student fails to perform satisfactorily* on a grade 3-8 STAAR assessment or an EOC assessment, a school district must provide accelerated instruction to the student in the applicable subject area during the subsequent summer or school year. Accelerated instruction requires either:

**Option 1**
Assign student to a teacher who is certified as a master, exemplary, or recognized teacher for the subsequent school year in the applicable subject area

**Option 2**
Students receive at least 30 hours of supplemental instruction (i.e., tutoring) during the school year and/or in summer

Parents are allowed to request a particular classroom teacher if more than one is available

---

*This means a student achieved an Approaching Grade Level or higher score. If a student was in grades 3-8 or in a high school course with an EOC, and did not take STAAR last year, they can be given a beginning of year test this year to demonstrate satisfactory performance.

[https://tea.texas.gov/sites/default/files/covid/house-bill-4545-frequently-asked-questions_0.pdf](https://tea.texas.gov/sites/default/files/covid/house-bill-4545-frequently-asked-questions_0.pdf)
Option 2 – Supplemental Instruction Requirements

When tutoring is provided to meet accelerating learning requirements:

- Targeted instruction in the TEKS

- **Supplement** normal instruction

- Min. 30 total hours during the subsequent summer or school year
  - If in the school year, must occur at least once per week

- Must help the student in achieving satisfactory performance

- Be provided individually or in a group of no more than three students*

- Be provided by a person with training in the applicable instructional materials and under the oversight of the school district

- Be provided by one person, when possible, for the entirety of the student's supplemental instruction period

As part of HB 1525, school systems were provided **$1290 per student** in need of supplemental instruction

*Unless the parent or guardian of each student in the group authorizes a larger group
What does supplement normal instruction mean?

Students cannot be removed from...

- Instruction in grade level content for the foundation curriculum (i.e. Reading, Math, Science, etc.)
- Instruction in enrichment curriculum for the grade in which the student is enrolled (i.e. LOTE, Fine Arts, CTE, Health/P.E., Technology Apps, etc.)
- Recess or physical activity that is available to other students enrolled in the same grade

This means schools may make changes to their daily school schedule, may support before/after school tutoring, and may expand summer school offerings to include tutoring.
• A student in 5 & 8 is no longer required by state law to be retained at the same grade level based on STAAR, and grade placement committees have been eliminated. (School systems still have the flexibility to retain students if deemed appropriate locally).

• In grades 5 & 8, there is now only one reading & math assessment opportunity. Prior law incorporated up to two re-taking opportunities for students, required if the student did not perform satisfactorily on the initial assessment.

• The optional end-of-course assessments for Algebra II and English III will no longer be offered.

Taken as a whole, these changes effectively remove high stakes for students from STAAR testing in grades 3-8.
The Legislature Provided Significant Supports to Improve the Ability of our Schools to Accelerate Learning

**Learning Acceleration**

**HB 4545**
Clarifies prior accelerated learning requirements to provide additional supports for students scoring behind grade level on STAAR and EOCs

Well over **$16 Billion** in new resources, above HB 3 formula funding levels, have been provided to Texas schools

**Tutors**

**SB 1356**
Creates retired teacher tutor registry

**SB 288**
Addresses retirement benefits for tutor

**HB 1525**
Provides formula funding for tutoring, and many other funding & COVID supports
HB 4545 Compliance Vs. HIT
High quality tutoring programs can significantly accelerate student learning

High quality tutoring programs have a few key attributes¹…

- **Well-trained, consistent tutor** (can be a teacher, paraprofessional, teacher candidate) who builds a strong relationship with students
- **High quality instructional material** aligned to standards and core classwork
- **One-to-one or small group** for individualized support (1-to-3 maximum ratio recommended)²
- **Embedded** in the school day or immediately before or after, to maximize student access
- **At least three sessions per week** for sustained support, 30 minutes minimum
- **Data-driven** with tutors building sessions around student strengths and needs

...and can have a significant impact on student outcomes

A 2020 meta-analysis of 96 studies of high-quality tutoring programs found that students made **5 months of additional progress** on average, a large pooled 0.37 effect size³

“The average effect of tutoring programs on student achievement is larger than the effects found in approximately 85% of studies evaluating education interventions and equivalent to moving a student at the 35th percentile of the achievement distribution to the 50th” – Dr. Matthew Kraft, Annenberg Institute, Brown University¹,⁴

<tbody>
<tr>
<td>Effective for grades PK-12</td>
<td>Specific to grades 3-8 or EOC</td>
</tr>
<tr>
<td>Can be required or voluntary (opt-in or opt-out)</td>
<td>Required for students who fail to perform satisfactorily on STAAR*</td>
</tr>
<tr>
<td>Can be universal, needs-driven, or curriculum-driven</td>
<td>Is needs-driven</td>
</tr>
<tr>
<td>Effective for up to 4 students per trained tutor</td>
<td>Must have student to tutor ratio of 3:1 or less**</td>
</tr>
<tr>
<td>Highest effect sizes are for 10+ week programs, 3-5 tutoring sessions/week, 30-60 minutes per session</td>
<td>Provides no less than 30 hours of instruction, at least one session/week during school year</td>
</tr>
</tbody>
</table>

**Similarities**

- Supplements core instruction *(does not supplant)*
- Utilizes high quality instructional material that is designed for supplemental instruction, i.e., tutor-friendly, skill-based curriculum
- Employs well trained, consistent tutors with ongoing support and oversight from program leads

*If not assigned to master, exemplary, or recognized classroom teacher in the applicable subject area

**Unless caregiver authorizes larger group
Resources and Supports
Key Supports

HIT Workshop Series Cohorts
- ESC (HIT TOT) & LEA HIT Workshop Series

TEA-Subsidized Providers
- Provide product-specific support to ESCs
- TOT to ESC for training of tutors
- Provide licenses for LEAs
- Data reporting to TEA

TEA Approved Providers
- 50+ vendors currently on the approved list
- Available for LEAs to contract with, no TEA contract
- Can support access to in-person and virtual tutors (200k + tutors available virtually)

TCLAS Decision 6
- 299 participating LEAs
- 100% are using at least 1 of the subsidized provider
- Impacting 470k students with individual reading licenses & Math: 1300 school licenses (90k students)

ESC Grants
- Training and technical support for LEAs
- Tutor training, tutor recruitment target 20K Tutor staffing hubs (4 ESCs: 1,2,20)
Supports for Implementation

Three Approaches

Approach 1: Build it Yourself

**Resources:** Statewide Webinar Series, High Impact Tutoring Toolkit, High Impact Tutoring Workshop Series

Approach 2: TEA-Approved Providers

**Resources:** Clearinghouse of TEA-approved full and partial tutor program providers in the VTTC

Approach 3: TEA-Subsidized Providers

**Resources:** Vetted instructional materials, tutoring platform, aligned tutor training by ESCs, subsidized costs
Texas Tutoring Supports

The High Impact Tutoring Toolkit - Outlines the foundational principles and key considerations that all LEAs should consider when implementing a high impact tutoring program

Tutoring Toolkit 2.0 Available Now
Approach 1: Build it Yourself

What does this approach entail?
The LEA will design, coordinate, and implement their own tutoring program. LEAs will utilize existing instructional materials for tutoring, determine the individuals serving as tutors, and will be responsible for designing and delivering the training for tutors.

What resources are available for this approach?
Resources posted on the Texas Tutoring Supports web page (Statewide Webinar Series, Scheduling Resources and High Impact Tutoring Toolkit) and opportunities like the High Impact Tutoring Workshop Series offered regionally via ESCs.

ESCs are currently offering technical assistance to LEAs with HB 4545 supports via the High Impact Workshop Series and Decision 6 and 11 with specific subsidized provider tutor training, and recruitment.

LEAs were in an implementation phase for SY 21-22 and the expectation for SY 22-23 is that: "School districts should plan and prepare for full implementation of the necessary requirements in the 2022-23 school year. Starting in the 2022-23 school year, compliance with and adherence to HB 4545 statutory requirements will be enforced."
HB 4545 and ESC Tutoring Supports

On 4.8.22 TEA held a scheduling webinar where the best practices with master scheduling were presented.

- Spring ISD
- Corpus Christi ISD
- Austwell-Tivoli ISD
- Corrigan-Camden ISD
- Poteet ISD

Many LEAs provided example schedules and discussed the challenges and successes that they have had with scheduling for this year and beyond.

TEA stressed consideration for teacher commitments such as the reading academies, extracurricular activities, and compliance with HB 4545 statute.
