# College Admissions Testing Results for Graduating Seniors in Texas Public Schools, Class of 2021 

This report presents SAT and ACT examination participation and performance data for graduating seniors in Texas public schools. College admissions examination results are used by colleges and universities to make admissions decisions, to place students in appropriate freshman courses, and to award scholarships to students. However, in recent years, an increasing number of colleges and universities began waiving SAT and ACT testing requirements (National Association for College Admission Counseling [NACAC], 2020). This trend was accelerated by the COVID-19 pandemic. As of spring 2022, over 1,800 postsecondary institutions had eliminated the requirement that applicants submit SAT or ACT scores (NACAC, 2022).

In Texas, SAT and ACT examination results for public school students are also used in the public school accountability system in evaluating the performance of districts and campuses in the assignment of rating labels and in awarding distinction designations, which recognize school districts and campuses for outstanding achievement in specified academic areas (Texas Education Agency [TEA], 2022d; Texas Education Code [TEC] Chapter 39, Subchapter G, 2022). In addition, results are
used in determining eligibility for student exemptions from Texas Success Initiative assessment requirements, in substituting for certain State of Texas Assessments of Academic Readiness (STAAR) end-of-course assessments to meet graduation requirements, and in awarding College, Career, and Military Readiness Outcomes Bonuses to districts (Title 19 of the Texas Administrative Code §101.4002, 2022, amended to be effective March 30, 2021; TEC §§39.025 and 48.110, 2022).

During the 2020-21 school year, as the COVID-19 pandemic continued to affect schooling, Texas public school districts could offer full-time in-person, full-time remote, and hybrid learning throughout the school year. To make up for SAT district testing administrations that were canceled in the spring, the College Board offered SAT testing in schools in the fall of 2020 (College Board, 2020). The College Board also added a weekend SAT administration in September. ACT, Inc., added three weekend ACT administrations to its fall 2020 testing schedule, increased school day testing, and instituted pop-up testing sites (ACT, Inc., 2021). For additional information about SAT and ACT testing during the

COVID-19 pandemic, see College Admissions Testing General Information, Class of 2021 (TEA, 2022a).

It may be informative to compare a group's performance results over time, but the reliability of such comparisons depends on the sizes of all groups. When a group is small, compared to other groups, reliability is reduced, and caution should be used when interpreting change over time. In general, changes in the performance of a large group, such as White SAT examinees in Texas, are less likely to have occurred by chance than changes in the performance of a small group, such as American Indian or Pacific Islander SAT examinees in Texas. The reliability of between-group comparisons also depends on the sizes of the groups. When groups differ substantially in size, comparisons of performance results between them can be misleading and, generally, are not appropriate. For example, the American Indian and Pacific Islander examinee populations are small in number, compared to other racial/ethnic examinee populations. Therefore, performance results for these groups should not be compared from year to year or to other racial/ethnic groups.

Texas public school SAT and ACT performance calculations changed with the class of 2018. For the class of 2017 and earlier classes, performance results were based on each examinee's most recent tests. Beginning with the class of 2018, performance results were based on each examinee's best section scores across all tests taken. Those scores were used to calculate SAT total scores and ACT composite scores. These SAT total scores and ACT composite scores are commonly known as "superscores." Because of the changes in how examinee scores were calculated, performance results for the class of 2018 and later
classes are not comparable to results for the class of 2017 and earlier classes.

Texas public school SAT and ACT participation rate calculations also changed with the class of 2018. For the class of 2017 and earlier classes, TEA received examinees' scores from the testing companies based on studentreported expected year of graduation. Beginning with the class of 2018, TEA received scores from the testing companies based on year of test administration. Because of the changes in how graduating examinees were identified, caution should be used when comparing participation results for the class of 2018 and later classes with results for the class of 2017 and earlier classes.

The College Board began administering a redesigned version of the SAT in March 2016. Beginning with the class of 2020, examinees took only the redesigned version of the SAT. Scores for the small percentages of SAT examinees in the classes of 2018 and 2019 who took the previous version of the test were converted to scores comparable to those for the redesigned version of the test using College Board's concordance tables (College Board, 2022). This made it possible to determine the best scores across the two versions of the SAT and to summarize data for the class of 2018 examinee population and for the class of 2019 examinee population.

For additional information about SAT and ACT examinations and results reported by the TEA Division of Research and Analysis, including definitions of terms and explanations of calculations, please see College Admissions Testing General Information, Class of 2021 (TEA, 2022a) and College Admissions Testing Glossary of Terms, Class of 2021 (TEA, 2022b). Results for Texas public and
nonpublic schools combined are presented in the report College Admissions Testing Results
for Graduating Seniors in Texas and the United States, Class of 2021 (TEA, 2022c).

## Highlights

## Comparison of Results Across Years

Beginning with results for the class of 2012, Texas public school SAT and ACT participation rate calculations were changed to include students served in special education programs in the denominators. Consequently, participation results for the class of 2012 and later classes are not comparable to results for the class of 2011 and earlier classes. Texas public school SAT and ACT participation rate calculations changed again with the class of 2018. For the class of 2017 and earlier classes, the Texas Education Agency (TEA) received examinees' scores from the testing companies based on student-reported expected year of graduation. Beginning with the class of 2018, TEA received scores from the testing companies based on year of test administration. Because of the changes in how graduating examinees were identified, caution should be used when comparing participation results for the class of 2018 and later classes with results for the class of 2017 and earlier classes.

Students may take the SAT and ACT more than once. For the class of 2017 and earlier classes, TEA based performance results on each examinee's most recent tests. Beginning with the class of 2018, TEA based performance results on each examinee's best section scores across all tests taken. Those scores were used to calculate SAT total scores and ACT composite scores. An examinee's best scores on the evidencebased reading and writing (ERW) and mathematics sections were summed to calculate the examinee's SAT total score, and an examinee's best English, mathematics, reading, and science section scores were averaged to calculate the examinee's ACT composite score. These SAT total scores and ACT composite scores are commonly known as "superscores." Because of the changes in how examinee scores were calculated, performance results for the class of 2018 and later classes are not comparable to results for the class of 2017 and earlier classes.

## Academic Achievement and Postsecondary Readiness Distinction Designations

- Of the 358,837 Texas public high school graduates in the class of 2021, a total of 253,963 (70.8\%) took the SAT, the ACT, or both examinations (Table 1 on page 10). The overall SAT/ACT participation rate for the class of 2021 was 5.9 percentage points lower than the rate for the class of 2020 (76.7\%).
- For the 216,553 graduates in the class of 2021 who took the SAT, the average English language arts (ELA) score (where ELA score is defined as an examinee's ERW score) was 504, a decrease of 9 points from the class of 2020 (Table 13 on page 23).
- For the 78,773 graduates in the class of 2021 who took the ACT, the average ELA score (where ELA score is defined as the average of an examinee's English and reading scores) was 19.6, a decrease of 0.3 points from the class of 2020 (Table 26 on page 49 ).
- For graduates in the class of 2021 who took the SAT, the average mathematics score was 498 , a decrease of 8 points from the class of 2020 (Table 13 on page 23).
- For graduates in the class of 2021 who took the ACT, the average mathematics score was 19.9 , a decrease of 0.2 points from the class of 2020 (Table 26 on page 49).
- For graduates in the class of 2021 who took the ACT, the average science score was 20.3 , a decrease of 0.2 points from the class of 2020 .
- Of graduates in the class of 2021 who took the SAT, 35.1 percent met the college-ready graduates Texas Success Initiative (TSI) criteria for the SAT in both ELA and mathematics (a score of 480 or higher on the ERW section and a score of 530 or higher on the mathematics section), a decrease of 2.7 percentage points from the class of 2020 (Table 12 on page 22).
- Of graduates in the class of 2021 who took the ACT, 29.7 percent met the college-ready graduates TSI criteria for the ACT in both ELA and mathematics (a score of 19 or higher on the English section and on the mathematics section and a composite score of 23 or higher), a decrease of 1.2 percentage points from the class of 2020 (Table 25 on page 48).

## SAT and ACT Combined

- Among the 358,837 Texas public high school graduates in the class of 2021, a total of 253,963 ( $70.8 \%$ ) took the SAT, the ACT, or both examinations (Table 1 on page 10). Of those examinees, 32.9 percent met the college-ready graduates TSI criteria for the SAT or the ACT in both ELA and mathematics, a decrease of 2.8 percentage points from the class of 2020 (Table 2 on page 11).
- Of the 358,837 graduates in the class of 2021, 23.3 percent met the college-ready graduates TSI criteria for the SAT or the ACT in both ELA and mathematics, a decrease of 4.1 percentage points from the class of 2020 (Table 7 on page 16).
- Of the graduates in the class of 2021, 14.0 percent scored at or above the criterion score on the SAT (a total score of 1180) or the ACT (a composite score of 24 ), a decrease of 2.9 percentage points from the class of 2020 (Table 8 on page 17).

## SAT

- Of the 358,837 Texas public high school graduates in the class of 2021, a total of 216,553 (60.3\%) took the SAT examination (Table 10 on page 20). The overall SAT participation rate for the class of 2021 was 5.9 percentage points lower than the rate for the class of $2020(66.2 \%)$.
- Of graduates in the class of 2021 who took the SAT, 35.1 percent met the college-ready graduates TSI criteria for the SAT in both ELA and mathematics, a decrease of 2.7 percentage points from the class of 2020 (Table 12 on page 22).
- For SAT examinees in the class of 2021, the average scores on the separate sections of the test were 504 on the ERW section and 498 on the mathematics section, decreases of 9 points and 8 points respectively, compared to the class of 2020 (Table 13 on page 23). The average total score was 1002 , a decrease of 17 points from the class of 2020.
- Of graduates in the class of 2021 who took the SAT, 21.8 percent took the test more than once, a decrease of 25.6 percentage points from the class of 2020 (Table 17 on page 27). The average number of SAT examinations taken was 1.3.
- Of graduates in the class of 2021 who took the SAT once, 26.6 percent met the college-ready graduates TSI criteria for the SAT in both ELA and mathematics (Table 18 on page 28). Of graduates who took the SAT more than once, 65.7 percent met the college-ready graduates TSI criteria for the SAT in both ELA and mathematics.
- For graduates in the class of 2021 who took the SAT once, the average scores on the separate sections of the test were 484 on the ERW section and 475 on the mathematics section (Table 19 on page 31). The average total score was 959 . For graduates who took the SAT more than once, the average scores on the separate sections of the test were 577 on the ERW section and 578 on the mathematics section. The average total score was 1155 .
- The College Board offers school districts the opportunity to administer the SAT during a regular school day, here referred to as "district testing." The SAT is also offered nationally on several weekend testing dates during the year, here referred to as "national testing." Of graduates in the class of 2021 who took the SAT, 11.9 percent participated in national testing only, 73.3 percent participated in district testing only, and 14.8 percent participated in both national and district testing (Table 20 on page 34). The percentages of examinees meeting the college-ready graduates TSI criteria for the SAT in both ELA and mathematics were 57.5 percent for those who participated in national testing only, 24.0 percent for those who participated in district testing only, and 71.9 percent for those who participated in both national and district testing.
- Of graduates in the class of 2021 who participated in SAT national testing only, 25.4 percent took the test more than once (Table 21 on page 38). Of graduates who participated in district testing only, 5.3 percent took the test more than once.
- For graduates in the class of 2021 who participated in SAT national testing only, the average ERW section score was 567 , the average mathematics section score was 559 , and the average total score was 1126 (Table 22 on page 41). For graduates who participated in district testing only, the average ERW section score was 477, the average mathematics section score was 469 , and the average total score was 946 . For graduates who participated in both national and district testing, the average ERW section score was 589 , the average mathematics score was 590 , and the average total score was 1179 .

## ACT

- Of the 358,837 Texas public high school graduates in the class of 2021, a total of 78,773 (22.0\%) took the ACT examination (Table 23 on page 46). The overall ACT participation rate for the class of 2021 was 12 percentage points lower than the rate for the class of $2020(34.0 \%)$.
- Of graduates in the class of 2021 who took the ACT, 29.7 percent met the college-ready graduates TSI criteria for the ACT in both ELA and mathematics, a decrease of 1.2 percentage points from the class of 2020 (Table 25 on page 48).
- For ACT examinees in the class of 2021, the average scores on the separate sections of the test were 18.6 on the English section, 19.9 on the mathematics section, 20.5 on the reading section, and 20.3 on the science section (Table 26 on page 49). The average composite score was 20.0.
- Between the class of 2020 and the class of 2021, average scores decreased by 0.3 points on the English section of the ACT, by 0.2 points each on the mathematics and science sections, and by 0.4 points on the reading section. The average composite score decreased by 0.2 points.
- Of graduates in the class of 2021 who took the ACT, 21.9 percent took the test more than once, a decrease of 9 percentage points from the class of 2020 (Table 30 on page 53). The average number of ACT examinations taken was 1.3.
- Of graduates in the class of 2021 who took the ACT once, 23.4 percent met the college-ready graduates TSI criteria for the ACT in both ELA and mathematics (Table 31 on page 54). Of graduates who took the ACT more than once, 51.8 percent met the college-ready graduates TSI criteria for the ACT in both ELA and mathematics.
- For graduates in the class of 2021 who took the ACT once, the average scores on the separate sections of the test were 17.5 on the English section, 19.1 on the mathematics section, 19.4 on the reading section, and 19.4 on the science section (Table 32 on page 57). The average composite score was 19.0. For graduates who took the ACT more than once, the average scores on the separate sections of the test were 22.5 on the English section, 22.7 on the mathematics section, 24.4 on the reading section, and 23.6 on the science section. The average composite score was 23.4.
- ACT, Inc., offers school districts the opportunity to administer the ACT during a regular school day, here referred to as "district testing." The ACT is also offered nationally on several weekend testing dates during the year, here referred to as "national testing." Of graduates in the class of 2021 who took the ACT, 39.6 percent participated in national testing only, 51.9 percent participated in district testing only, and 8.5 percent participated in both national and district testing (Table 33 on page 60 ). The percentages of examinees meeting the college-ready graduates TSI criteria for the ACT in both ELA and mathematics were 47.0 percent for those who participated in national testing only, 14.3 percent for those who participated in district testing only, and 42.7 percent for those who participated in both national and district testing.
- Of graduates in the class of 2021 who participated in ACT national testing only, 27.3 percent took the test more than once (Table 34 on page 64). Of graduates who participated in district testing only, 5.0 percent took the test more than once.
- For graduates in the class of 2021 who participated in ACT national testing only, the average English section score was 21.9 , the average mathematics section score was 22.3 , the average reading section score was 23.7 , the average science section score was 22.9 , and the average composite score was 22.8 (Table 35 on page 67). For graduates who participated in district testing only, the average English section score was 15.7 , the average mathematics section score was 17.8 , the average reading section score was 17.7 , the average science section score was 18.0 , and the average composite score was 17.4. For graduates who participated in both national and district testing, the average English section score was 21.2 , the average mathematics section score was 21.6 , the average reading section score was 23.0 the average science section score was 22.5 , and the average composite score was 22.2.

## Results for Texas Public Schools: SAT and ACT Combined

## Comparison of Results Across Years

Beginning with results for the class of 2012, Texas public school SAT and ACT participation rate calculations were changed to include students served in special education programs in the denominators. Consequently, participation results for the class of 2012 and later classes are not comparable to results for the class of 2011 and earlier classes. Texas public school SAT and ACT participation rate calculations changed again with the class of 2018. For the class of 2017 and earlier classes, the Texas Education Agency (TEA) received examinees' scores from the testing companies based on student-reported expected year of graduation. Beginning with the class of 2018, TEA received scores from the testing companies based on year of test administration. Because of the changes in how graduating examinees were identified, caution should be used when comparing participation results for the class of 2018 and later classes with results for the class of 2017 and earlier classes.

Students may take the SAT and ACT more than once. For the class of 2017 and earlier classes, TEA based performance results on each examinee's most recent tests. Beginning with the class of 2018, TEA based performance results on each examinee's best section scores across all tests taken. Those scores were used to calculate SAT total scores and ACT composite scores. An examinee's best scores on the evidencebased reading and writing and mathematics sections were summed to calculate the examinee's SAT total score, and an examinee's best English, mathematics, reading, and science section scores were averaged to calculate the examinee's ACT composite score. These SAT total scores and ACT composite scores are commonly known as "superscores." Because of the changes in how examinee scores were calculated, performance results for the class of 2018 and later classes are not comparable to results for the class of 2017 and earlier classes.

Table 1
SAT and/or ACT Participation, Texas Public Schools, Class of 2011 Through Class of 2021

| Class | Graduates | Examinees | Participation <br> rate <br> $(\%)$ |
| :--- | ---: | ---: | ---: |
| 2011 | 264,439 | 182,281 | 68.9 |
| 2012 | 292,636 | 195,682 | 66.9 |
| 2013 | 301,397 | 192,283 | 63.8 |
| 2014 | 303,104 | 200,943 | 66.3 |
| 2015 | 313,387 | 213,939 | 68.3 |
| 2016 | 324,302 | 232,094 | 71.6 |
| 2017 | 334,416 | 245,892 | 73.5 |
| 2018 | 347,883 | 259,546 | 74.6 |
| 2019 | 355,605 | 266,624 | 75.0 |
| 2020 | 360,212 | 276,322 | 76.7 |
| 2021 | 358,837 | 253,963 | 70.8 |

Source. Primary data from ACT, Inc.; College Board; and Texas Education Agency (TEA).
Note. Because of a change to participation rate calculations, Texas public school SAT and ACT participation results for the class of 2012 and later classes are not comparable to results for the class of 2011 and earlier classes. In addition, because of changes in how graduating examinees were identified, caution should be used when comparing participation results for the class of 2018 and later classes with results for the class of 2017 and earlier classes. See College Admissions Testing General Information, Class of 2021 (TEA, 2022a), and College Admissions Testing Glossary of Terms, Class of 2021 (TEA, 2022b), for additional information.

| 2021 | 72.9 | 68.6 | 70.8 |

Source. Primary data from ACT, Inc.; College Board; and Texas Education Agency (TEA).
Note. Because of a change to participation rate calculations, Texas public school SAT and ACT participation results for the class of 2012 and later classes are not comparable to results for the class of 2011 and earlier classes. In addition, because of changes in how graduating examinees were identified, caution should be used when comparing participation results for the class of 2018 and later classes with results for the class of 2017 and earlier classes. See College Admissions Testing General Information, Class of 2021 (TEA, 2022a), and College Admissions Testing Glossary of Terms, Class of 2021 (TEA, 2022b), for additional information.

Table 6
SAT and/or ACT Performance Meeting Texas Success Initiative (TSI) College-Ready Criteria in English Language Arts and Mathematics (\%), by Race/Ethnicity and Gender, Texas Public Schools, Class of 2018 Through Class of 2021

| Class | African <br> American | American <br> Indian | Asian | Hispanic | Pacific <br> Islander | White | Multiracial |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| 2018 | 20.3 | 35.2 | 75.5 | 24.6 | 34.4 | 58.5 | 51.1 |
| 2019 | 19.7 | 36.6 | 74.6 | 23.2 | 35.6 | 56.3 | 50.1 |
| 2020 | 19.5 | 33.3 | 76.1 | 23.4 | 37.7 | 54.6 | 49.2 |
| 2021 | 16.6 | 31.1 | 72.7 | 20.5 | 30.3 | 49.9 | 44.2 |

| Class | Female | Male | State |
| :--- | ---: | ---: | ---: |
| 2018 | 36.2 | 39.8 | 37.9 |
| 2019 | 34.5 | 38.0 | 36.1 |
| 2020 | 34.4 | 37.1 | 35.7 |
| 2021 | 31.2 | 34.7 | 32.9 |

Source. Primary data from ACT, Inc.; College Board; and Texas Education Agency.
Note. A score of 480 or higher on the SAT evidence-based reading and writing section or a score of 19 or higher on the English section and a composite score of 23 or higher on the ACT qualifies for an exemption on the English language arts and reading section of the TSI assessment (TSIA). A score of 530 or higher on the SAT mathematics section or a score of 19 or higher on the mathematics section and a composite score of 23 or higher on the ACT qualifies for an exemption on the mathematics section of the TSIA. The College Board began administering a redesigned version of the SAT in March 2016. Scores for the small percentages of examinees in the classes of 2018 and 2019 who took the previous version of the test were converted to scores comparable to those for the redesigned version of the test using College Board's concordance tables (College Board, 2022). This made it possible to determine the best scores across the two versions of the test. See College Admissions Testing General Information, Class of 2021 (TEA, 2022a), for additional information.

## Results for Texas Public Schools: SAT

## Comparison of Results Across Years

Beginning with results for the class of 2012, Texas public school SAT participation rate calculations were changed to include students served in special education programs in the denominators. Consequently, participation results for the class of 2012 and later classes are not comparable to results for the class of 2011 and earlier classes. Texas public school SAT participation rate calculations changed again with the class of 2018. For the class of 2017 and earlier classes, the Texas Education Agency (TEA) received examinees' scores from the College Board based on student-reported expected year of graduation. Beginning with the class of 2018, TEA received scores from the College Board based on year of test administration. Because of the changes in how graduating examinees were identified, caution should be used when comparing participation results for the class of 2018 and later classes with results for the class of 2017 and earlier classes.

Students may take the SAT more than once. For the class of 2017 and earlier classes, TEA based performance results on each examinee's most recent test. Beginning with the class of 2018, TEA based performance results on each examinee's best section scores across all tests taken. Those scores were used to calculate SAT total scores. An examinee's best scores on the evidence-based reading and writing and mathematics sections were summed to calculate the examinee's SAT total score. This SAT total score is commonly known as a "superscore." Because of the changes in how SAT examinee scores were calculated, performance results for the class of 2018 and later classes are not comparable to results for the class of 2017 and earlier classes.

Table 10
SAT Participation, Texas Public Schools, Class of 2011 Through Class of 2021

| Class | Graduates | Examinees | Participation <br> rate <br> $(\%)$ |
| :--- | ---: | ---: | ---: |
| 2011 | 264,439 | 147,960 | 56.0 |
| 2012 | 292,636 | 156,455 | 53.5 |
| 2013 | 301,397 | 156,859 | 52.0 |
| 2014 | 303,104 | 164,061 | 54.1 |
| 2015 | 313,387 | 178,947 | 57.1 |
| 2016 | 324,302 | 189,416 | 58.4 |
| 2017 | 334,416 | 201,144 | 60.1 |
| 2018 | 347,883 | 214,756 | 61.7 |
| 2019 | 355,605 | 224,887 | 63.2 |
| 2020 | 360,212 | 238,592 | 66.2 |
| 2021 | 358,837 | 216,553 | 60.3 |

Source. Primary data from College Board and Texas Education Agency (TEA). Note. Because of a change to participation rate calculations, Texas public school SAT participation results for the class of 2012 and later classes are not comparable to results for the class of 2011 and earlier classes. In addition, because of changes in how graduating examinees were identified, caution should be used when comparing participation results for the class of 2018 and later classes with results for the class of 2017 and earlier classes. See College Admissions Testing General Information, Class of 2021 (TEA, 2022a), and College Admissions Testing Glossary of Terms, Class of 2021 (TEA, 2022b), for additional information.

## Results for Texas Public Schools: ACT

## Comparison of Results Across Years

Beginning with results for the class of 2012, Texas public school ACT participation rate calculations were changed to include students served in special education programs in the denominators. Consequently, participation results for the class of 2012 and later classes are not comparable to results for the class of 2011 and earlier classes. Texas public school ACT rate calculations changed again with the class of 2018. For the class of 2017 and earlier classes, the Texas Education Agency (TEA) received examinees' scores from ACT, Inc., based on student-reported expected year of graduation. Beginning with the class of 2018, TEA received scores from ACT, Inc., based on year of test administration. Because of the changes in how graduating examinees were identified, caution should be used when comparing participation results for the class of 2018 and later classes with results for the class of 2017 and earlier classes.

Students may take the ACT more than once. For the class of 2017 and earlier classes, TEA based performance results on each examinee's most recent test. Beginning with the class of 2018, TEA based performance results on each examinee's best section scores across all tests taken. Those scores were used to calculate ACT composite scores. An examinee's best English, mathematics, reading, and science section scores were averaged to calculate the examinee's ACT composite score. This ACT composite score is commonly known as a "superscore." Because of the changes in how ACT examinee scores were calculated, performance results for the class of 2018 and later classes are not comparable to results for the class of 2017 and earlier classes.

Table 23
ACT Participation, Texas Public Schools, Class of 2011 Through Class of 2021

| Class | Graduates | Examinees | Participation <br> rate <br> $(\%)$ |
| :--- | ---: | ---: | ---: |
| 2011 | 264,439 | 91,943 | 34.8 |
| 2012 | 292,636 | 99,710 | 34.1 |
| 2013 | 301,397 | 99,725 | 33.1 |
| 2014 | 303,104 | 106,297 | 35.1 |
| 2015 | 313,387 | 113,765 | 36.3 |
| 2016 | 324,302 | 130,993 | 40.4 |
| 2017 | 334,416 | 133,965 | 40.1 |
| 2018 | 347,883 | 131,074 | 37.7 |
| 2019 | 355,605 | 126,323 | 35.5 |
| 2020 | 360,212 | 122,604 | 34.0 |
| 2021 | 358,837 | 78,773 | 22.0 |

Source. Primary data from ACT, Inc., and Texas Education Agency (TEA). Note. Because of a change to participation rate calculations, Texas public school ACT participation results for the class of 2012 and later classes are not comparable to results for the class of 2011 and earlier classes. In addition, because of changes in how graduating examinees were identified, caution should be used when comparing participation results for the class of 2018 and later classes with results for the class of 2017 and earlier classes. See College Admissions Testing General Information, Class of 2021 (TEA, 2022a), and College Admissions Testing Glossary of Terms, Class of 2021 (TEA, 2022b), for additional information.

Abstract. This report presents SAT and ACT examination participation and performance results in Texas public schools for the class of 2021. Data are provided by student characteristics, including race/ethnicity; gender; and economic, at-risk, dyslexia, emergent bilingual student/English learner, foster care, homeless, immigrant, military-connected, and migrant statuses. Data also are provided by participation in bilingual education or English as a second language, career and technical education, gifted and talented, Section 504, special education, and Title I programs.

The report is available in PDF format on the agency website at https://tea.texas.gov/reports-and-data/ school-performance/accountability-research/college-admissions-testing-sat-and-act. Additional information about this report may be obtained by contacting the Texas Education Agency Division of Research and Analysis by phone at (512) 475-3523 or by e-mail at Research@ tea.texas.gov.
For additional information about the SAT, contact the College Board Southwestern Regional Office at (866) 392-3017 or https://www.collegeboard.org/. For additional information about the ACT, contact ACT, Inc., at (319) 337-1270 or http://www.act.org/.
