### 2020-2021 COVID-19 IMPACT NARRATIVE

### 2020-2021 CYCLICAL REVIEW PARENT, TEACHER, ADMINISTRATOR INTERVIEWS/SURVEY

#### Staff and Family Surveys

On April 1, 2021, the TEA Review and Support team received 41 surveys during the comprehensive desk review.

The Review and Support surveys focused on the following review areas:

One Hundred percent of participants felt they receive sufficient communication from their school. The best way the school/district provides information about (trainings, online trainings, support groups, and other available resources) concerning special education services is via email, notices sent home, and phone calls.

The majority of parent/family member participants felt they would be most comfortable attending special education information sessions at school/campus.

All participants indicated they have a clear understanding of special education services.

The most selected areas of special education the participants would like to know about were Small and Rural Schools Network and Child Find, Evaluation and ARD support Network.

The majority of participants felt the training to help meet students' needs with disabilities was

effective.

Seventy four percent of participants felt there were frequent opportunities to collaborate with related service providers and twenty four percent felt there was not frequent opportunities to collaborate with service providers.

The obstacles concerning student's special education programming and services were reported as:

- Scheduling ARD meetings and timely updates on student progress.
- Knowledge of available services and programs.

All participants agree with the importance of including students' interests/life goals in the transition process.

Most participants indicated they chose the in person learning model. Most participants also reported that remote learning for students receiving special education was ineffective.

## **COVID**

Sixty-seven percent of participants felt that during COVID school closure/remote learning, the Emergency Contingency Plan effectively improved student progress.

During COVID closures, the top three ways indicated that teachers provided support to students with moderate to severe disabilities were:

- Teachers provided supports needed for students to be successful.
- Teachers made regular contact with students and parents to meet academic and emotional needs.
- Teachers modified work and provided individualized support.

Participants indicated that during COVID school closure/remote learning, they needed professional development to provide virtual instruction and how to engage students and assess levels of engagement.

Participants indicated that during COVID school closure/remote learning strategies, the district's top two supports that did not work well for students with disabilities were shared device per family and online submission of assignments.

More than 89% of participants indicated that they agreed or somewhat agree that school staff worked with parents/guardians in addressing severe behavior and work refusal.

This survey was approved by the Texas Education Agency's data governance board. Participation in this survey was both voluntary and anonymous. No data was collected identifying a name so that individual responses cannot be linked to any respondent. Participants were given the option to stop the survey at any time.

## FINDINGS OF NONCOMPLIANCE

A finding is made when noncompliance is identified with the Review and Support report findings, SPP notification, and/or individualized education program (IEP) requirements. Noncompliance that is systemic in nature must be included in a comprehensive corrective action plan (CAP) with action steps to address each of the noncompliance findings. ***When noncompliance has been identified as part of this cyclical review, Skidmore-Tynan Independent School District will receive formal notification of noncompliance in addition to this report.***

The TEA Department of Review and Support will further advise the LEA on the corrective action process, if applicable.

The TEA follows procedures for the correction of noncompliance consistent with federal guidelines (OSEP Memo 09-02.)

Before the TEA can report that noncompliance has been corrected, it must first verify the LEA:

- Has corrected each individual case of noncompliance (Prong 1); and
- Is correctly implementing the specific regulatory requirements (i.e., subsequently achieved 100% compliance) (Prong 2).

The TEA is required to monitor the completion of a corrective action plan if any noncompliance is discovered. The corrective action plan must be designed to correct any and all areas of noncompliance ***as soon as possible, but in no case later than one year from the date of notification.***

### Corrective Action Plan (CAP)

The LEA will develop a CAP to address any items identified as noncompliance in this summary report. An approved form for the CAP can be accessed on the Review and Support website or in the resources located in Ascend Texas.

The LEA must submit the CAP in Ascend within 30 school days from the date of this report and/or formal notification of noncompliance. The TEA will review the CAP submitted by the LEA for approval. If the TEA determines that a revision(s) is necessary, the LEA will be required to revise and resubmit. The Review and Support team will contact the LEA to provide notification when the CAP has been approved.

## Individual Correction

The educational agency has **60 school days** from the date of this summary report to correct all identified findings of noncompliance for individual students, unless noted otherwise in the report.

In accordance with Senate Bill 2075 of the 86th Legislature, TEC 38.003 (c-1), and 19 TAC 74.28. regarding noncompliance identified through the dyslexia program evaluation, a finding of noncompliance is identified by the citation (i.e., program or process) that is violated.

### Dyslexia Performance Plan (DPP)

If noncompliance is identified, the LEA is required to demonstrate correction of all noncompliance in the Dyslexia Performance Plan (DPP). This tool guides LEAs through a continuous improvement process. It addresses areas of growth that will positively impact students with dyslexia or other related disorders. LEAs should complete the DPP no later than 120-days after receiving notification of noncompliance. This document will be provided by the TEA or can be accessed in the resources section of the [Review and Support website](#).
