

SPPI 3C Calculation

Number of children with IEPs scoring at or above proficient against alternate academic achievement standards

Divided by

Total number of children with IEPs who received a valid score and for whom a proficiency level was assigned for the alternate assessment

Multiplied by

100

* Calculate separately for reading and math. Calculate separately for grades 4, 8, and high school. The proficiency rate includes both children with IEPs enrolled for a full academic year and those not enrolled for a full academic year and included in the attendance record at time of testing.

(Data reported in ED Facts File C175 and C178)

SPPI 3C Calculation Example

Children with IEPs at the Time of Testing	#
a. Scoring at or above proficient on alternate assessments based on alternate achievement standards	20
b. Total who received a valid score and for whom a proficiency level was assigned for the alternate assessment	25

Proficiency Rate Calculation

$$\begin{aligned}
 \text{Percentage} &= (a / b) \times 100 \\
 &= (20 / 25) \times 100 \\
 &= 0.8 \times 100 \\
 &= 80\%
 \end{aligned}$$
