

SPPI 4A Calculation

of LEAs that meet the State-established n and/or cell size (if applicable) that have a significant discrepancy, as defined by the State, in the rates of suspensions and expulsions for more than 10 days during the school year of children with IEPs

Divided by

of LEAs in the State that meet the State-established n and/or cell size (if applicable)

Multiplied by

100

(Data reported in PEIMS Summer Discipline Data Submission)

SPPI 4A Calculation Example

Descriptor	#
a. Number of LEAs that meet the State's minimum n-size	271
b. Number of LEAs that have a significant discrepancy	33

State Level Significant Discrepancy Calculation

$$\begin{aligned}
 \text{Percentage} &= (b / a) \times 100 \\
 &= (33 / 271) \times 100 \\
 &= .12 \times 100 \\
 &= 12\%
 \end{aligned}$$
