### **District & Campus Accountability Data Available in TEAL**

The 2023 Accountability Reports and Data Tables and the 2023 Accountability Data Downloads are now available in TEAL. The data does not include scale scores or A–F ratings. It only includes raw scores of the underlying indicators from students in the accountability subset. The 2023 STAAR, Growth, AEA Retest Growth, and EL Student Listings are also available in TEAL. The data is based on the methodology in the final rule adopting the [2023 Accountability Manual](#), posted on October 31, 2023.

As noted previously, the issuance of 2023 A–F ratings under this final rule is pending and subject to change based on judicial rulings or decisions from the 88<sup>th</sup> Legislature during a special called session. This communication is solely focused on district and campus data reports made available to school systems in TEAL without scale scores or ratings.
