

DATE:	Thursday, March 5 2026
SUBJECT:	Texas Mathematics Academies Pilot Implementation School Year 2026-27
CATEGORY:	Texas Mathematics Academies
NEXT STEPS:	Share with appropriate staff

Implementation Overview

Classroom teachers who provide mathematics instruction, principals, assistant principals, mathematics instructional coaches, and mathematics interventionists at campuses serving grades K–3 are required to attend Texas Mathematics Academies by the 2030–31 school year, per [Texas Education Code \(TEC\) §28.0071](#).

Districts are encouraged to participate in Texas Mathematics Academies early, and those interested in the pilot should contact their regional education service center (ESC). Large districts with an enrollment of approximately 70,000 or more students may be eligible to participate in the pilot as authorized providers with TEA approval.

In preparation for SY 2027–28, the authorized provider application will open, and organizations and districts may apply. Additionally, districts will have the option to adopt a local implementation model (like the Texas Reading Academies program) in the 2027–28 school year.

School System Rollout Planning

SY 2026–27 (Pilot Year)

- Identify if your school system is interested in participating in the Texas Mathematics Academies pilot year.
- Contact your ESC if interested (limited opportunities available).

Pilot School Systems

- Design an intentional professional learning calendar aligned to pilot needs.
- Partner with an ESC or, if a district has 70,000+students, apply to become an authorized provider.

All School Systems

- Send a district mathematics professional development leader through the Texas Mathematics Academies pilot to become familiar with the content and structure.

SY 2027–28 through 2030–31

- Start Texas Mathematics Academies participation with district planning the year before full implementation.
- Integrate Texas Mathematics Academies into the district professional calendar.

- Plan to send all required educators to Texas Mathematics Academies.
- Monitor implementation of progress and instructional impact.
- If interested, apply to become an authorized provider or partner with an authorized provider for local implementation (like the Reading Academies model).

SY 2031–32 and Beyond

- Sustain districtwide implementation and continuous improvement.
- Continue to meet the Texas Mathematics Academies requirements for required educators.

For More Information

Please refer to the Texas Mathematics Academies Frequently Asked Questions document, available on the [House Bill 2 webpage](#) and directly here: [House Bill 2, Texas Mathematics Academies](#).

Commissioner Morath also hosted a Superintendent call on February 19, providing pilot implementation guidance. The presentation can be found on the [89th Legislature Update webpage](#) under *89th Implementation Timeline* and can be found here: [Math Academies](#).
