Accessing the SPP Indicator Reports

SPP LEA Level Reports

Users can access and download the LEA level SPP indicator reports by visiting the “[District Profile of State Performance Plan Indicators Report](#)” TEA webpage. Here, users can customize their search by selecting the school year, report format, report level, and entering the LEA name or county-district number (CDN). The CDN is an LEA’s unique 6-digit identification number registered with TEA. The system generates reports in PDF or HTML formats.

Users can search for an LEA’s CDN online using the [Texas Education Directory \(AskTED\)](#).

SPP Regional and Statewide Reports

Users can access and download the SPP indicator regional and statewide public reports by visiting the “[Local Education Agency Public Reporting](#)” TEA webpage. Navigate to the “State and Regional SPP/APR Indicator Reports” section and choose the FFY 2022 State and Regional SPP Indicator Reports (SY 2022-23). Here, users can access the statewide SPP indicator report along with the 20 regional ESC reports.

The TEA encourages all Texans to review the SPP Indicator Regional, Statewide, and LEA reports and participate in meaningful conversations about public education within their local communities.
