

Educator Preparation Program Data Reporting Manual

Effective 9/15/2020 - 9/14/2021

Updated 06/24/2021

Introduction

The Educator Preparation Program (EPP) Data Reporting Manual includes information to guide EPP data reporting during the current Academic Year (AY). This manual has been updated to reflect changes that became effective in the prior and current AY.

During AY 2020-2021, EPPs submit data about AY 2019-2020 and AY 2020-2021. Where applicable, we have worked to provide clarity on the reporting time frame.

This manual is subject to change over the course of the reporting year. Please refer the updated date on the bottom of the page to ensure you have the most up-to-date edition.

This manual is a service and a resource only. Nothing in this manual overrules statute, code, or other authoritative sources.

This manual can be used in conjunction with training webinars that are available on the TEA website.

We appreciate all you do to prepare outstanding educators for our children and our future.

What's New for 2020-2021?

Observation Reporting

Programs are required to report and record ALL candidate observations, including candidates in certification classes other than classroom teacher. Programs are required to document individual observations and record or enter the observations into ECOS. Beginning with reporting year 2020-2021 there is a new assignment code (NONTCH) for programs to use when entering observation records on the ASEP Observations menu.

Waiver Intern and Waiver Probationary Certificate Reporting

During the Spring and Summer for 2020, the Governor's Office issued a series of waivers allowing candidates who met certain requirements to be issued intern and probationary certificates without first meeting the applicable testing requirements. EPPs are required to submit reports using the linked spreadsheets to TEA with all candidates approved for these certificates under the condition of the waivers.

- Probationary Certificates Recommended under Governor Waiver Spreadsheet
- Intern Certificates Recommended under Governor Waiver Spreadsheet

NOTE: For the 2020-2021 reporting year, candidates issued a Probationary certificate under a waiver (**WPRO**) do NOT need to be submitted for exception because they will be removed from your program's pass rate and observation data.

Updated Request for Exception (RFE) Forms

TEA has introduced several Request for Exception forms in a convenient .pdf file format. In most cases, this will eliminate the requirement for EPPs to prepare a formal letter of request. The following Request for Exception forms are available to download on the TEA Program Provider Resources webpage:

- Test Approval List Exceptions
- ASEP Indicator 2 Principal Survey
- ASEP Indicator 4a Field Supervision (Observations)
- ASEP Indicator 5 Satisfaction of New Teachers

New for the June 24, 2021 Edition

TEA has made a number of updates to ECOS as of June 24, 2021, to fix known issues. These updates include changes to the observation assignment types (p. 30; p.58), summer observation reporting, and admission record update procedures (p.18).

Definitions

Throughout this manual, candidates are described by their status in relation to the EPP and their programs of study. These commonly used terms will appear as capitalized in the text when referring to candidates as a class. These definitions do not overrule anything written in statute or code.

Candidate Definitions

Applied

An individual seeking admission to an educator preparation program for any class of certificate

Admitted

An individual who has been formally or contingently admitted to an educator preparation program

Other Enrolled

Candidates who were admitted in the current reporting year or in any earlier reporting year who were still in the process of completing the program requirements as of August 31 of the academic year

Retained

A designation on the Annual Performance Report that is the same as Other Enrolled

Finisher

Candidates who have finished all educator preparation program requirements of coursework, training, and practicum, clinical teaching, or internship by August 31 of the academic year

Completer

A designation on the Annual Performance Report that is the same as Finisher

Other Definitions

ECOS

Educator Certification Online System (ECOS) is a web-based online application used to manage and facilitate the certification of educators in Texas.

ASEP

Accountability System for Educator Preparation Programs (ASEP) is established under Texas Administrative Code (TAC) Rule §229.1 General Provisions and Purpose of Accountability System for Educator Preparation Programs. Section (b) states, "The purpose of the accountability system for educator preparation is to assure that each EPP is held accountable for the readiness of certification of candidates completing the programs."

⁵ Due to waivers from the Governor's Office, these surveys were not collected in Spring 2020. Consequently, these survey results were not calculated in October-November 2020 based on Spring 2020 data.

Getting ECOS Access

Before you begin you must be able to get into ECOS using your TEAL (TEA Login) account. TEA has provided guidance on how to get access to the necessary reporting features through the ECOS for Entities link on the <u>TEA Secure Applications</u> page. This page includes TEAL Access Instructions for ECOS Entity Users including how to <u>Request Access Online</u>. The Secure Applications link is featured in the blue "Popular Applications" ribbon on the <u>TEA Home Page</u>. If you are unable to get into TEAL and ECOS, speak first to your legal authority or the person at your institution responsible for providing ECOS access permission. If necessary, you can also get help from your program specialist.

Starting in 2020, TEA has shifted from ensuring ECOS functionality in Internet Explorer to ensuring ECOS functionality in Google Chrome. TEA online applications also work well in Firefox. They are less reliable with Safari or other browsers.

ASEP Reporting

The following sections describe how to report data related to the Accountability System for Educator Preparation (ASEP). This data is reported in the Educator Certification Online System (ECOS). This section starts with the admission of a candidate and walks the reporter through the reporting that must take place at different stages of the teacher's candidacy. We will follow one candidate, "Ivana Teach", through her education and training to demonstrate how to report candidate data for ASEP. The details will vary due to differing EPP internal procedures, but the major reporting requirements are the same across programs.

The Big Picture

Imagine a candidate going through a program. Different data points will be reported at different points in her training. Consider a candidate who earns her certificate in about a year.

Training/	APR	Admission	Test Approval	Finisher	Observations	Title II -	Title II -
Report		Reporting		Records List		Westat	Pearson
Apply	Counted as Applied						
Admit	Counted as Admitted	Entered / Uploaded within 7 days of admission date	Automatically created as Eligible for applicable tests	Automatically created as Other Enrolled with admitted certification area(s)		Counted as enrolled	Listed as enrolled with certificate area with Pearson
Pre- internship / Clinical Teaching	Counted as Retained		Test approval granted (determined by EPP)	Listed as Other Enrolled with certification area(s)		Counted as enrolled	Listed as enrolled with cert area with Pearson
Internship / Clinical Teaching	Counted as Retained		Test approval granted (determined by EPP)	Listed as Other Enrolled with certification area(s)	Observations recorded in ECOS	Counted as enrolled	Listed as enrolled with cert area with Pearson
Finisher	Counted as Completer		Test approval granted (determined by EPP)	Listed as Finisher with certification area(s)	Field observations meets SBEC requirements ⁶	Counted as finishing	Listed as completed with cert area with Pearson.

After the candidate finishes your program, if she completes all required tests and obtains a standard certificate, her data will show up in the numbers of certified persons/certificates awarded lists.

©Copyright Texas Education Agency

⁶ Observations must be reported for all teacher candidates completing internships or clinical teaching, even if they complete additional internships or clinical teaching experiences. Observations must be entered in to ECOS in the reporting year when they occur.

Application and Admission

The first point of contact with teacher candidates is likely at the application stage. In our example, Ivana arrived at your program in October 2020 wanting to be an elementary school teacher. She completed an application, submitted her transcripts and other required paperwork, and paid an application fee. Ivana is an Applicant.

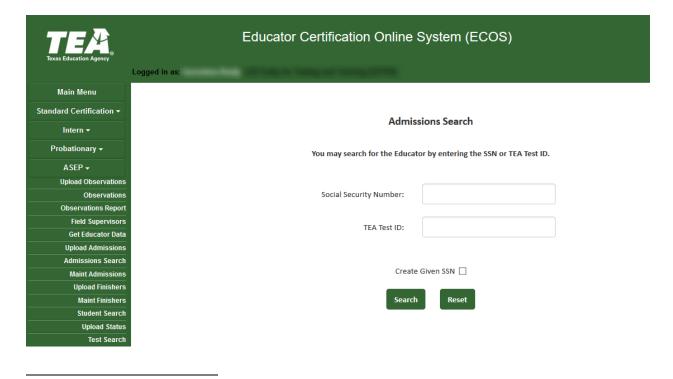

A different person applied the same day, Don Elvin. You decided to admit Ivana but not admit Don. Ivana is Admitted. Don is only an Applicant.

Having decided to admit Ivana to your program, you must notify her of the offer of formal admission in writing by mail, personal delivery, facsimile, email or an electronic notification, including the effective date of formal admission. The applicant must accept your offer to be formally admitted to your program. You must notify the TEA within seven calendar days of a candidate's formal admission date by entering an admission record in ECOS. Please note that you will not be able to enter an admission record until after the formal admission date.

Adding Admissions Individually

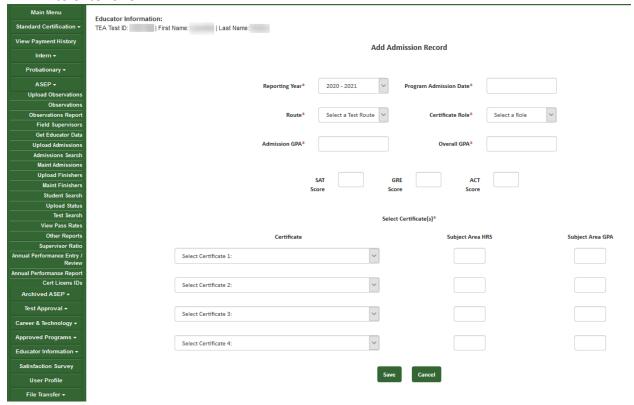

Once you have admitted your candidate, you need to report this admission in ECOS within 7 days following the formal admission date. You can do this one candidate at a time, or multiple candidates at a time. This section demonstrates how to enter one admission record at a time.

1. From the ASEP menu in ECOS, click on the Admissions Search button.

⁷ TAC §227.17

2. Enter the candidate's TEA ID and click **Search.** If the candidate does not have an admission record with your EPP, you will be provided the *Add Admission Record* screen to enter one.

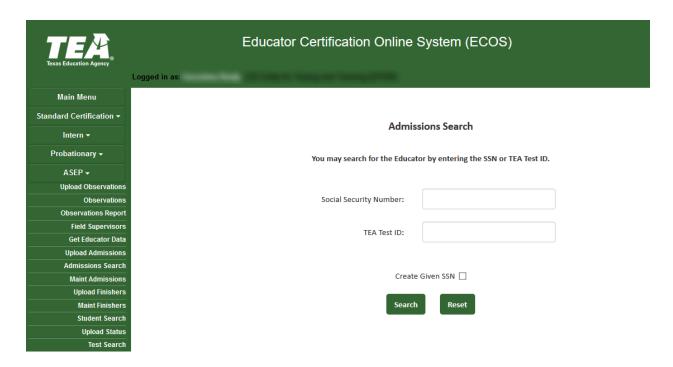

- 3. Enter information for all the applicable fields. If you are admitting the candidate in multiple certificate areas, you will need to enter all certificate areas. You may admit a candidate in up to 4 certificate areas.
- 4. Once you have entered all the information, click Save.
- 5. You will be presented with your entry. To make any changes, select Edit and update any field.

NOTE: EPP users are not allowed to delete admission records once they are entered. Ensure that data is accurate before clicking Save. EPPs can submit a request to TEA to delete an ASEP admission record. Please file a help desk ticket for assistance.

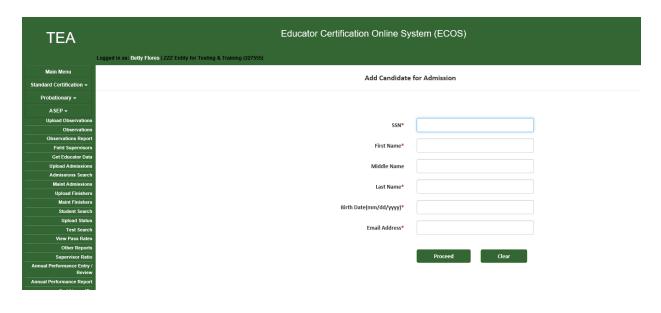

If the candidate does not have an educator record with TEA, she will not have a TEA ID. If you need to generate a TEA ID for your candidate, you will need to use the individual entry.

1. At the *Admissions Search* screen, enter the candidate Social Security Number. The system will note that the educator is not found.

Re-enter the Social Security Number and select the Create Given SSN checkbox. Click Search.

3. Enter the candidate information EXACTLY AS IT APPEARS ON THEIR DRIVER'S LICENSE OR PASSPORT.⁸ You must complete all starred fields.

⁸ Accurate names and social security numbers are critical. Be sure the first and last names you enter are exactly the names that appear on the candidate's driver's license or passport. The candidate will be turned away from testing centers if the names differ.

- 4. Click Proceed
- 5. You may now enter an admission record for your candidate.

Adding Admissions in Bulk

EPPs with many candidates to admit at one time can create a .csv file using Microsoft Excel or another software tool with the relevant candidate data. EPPs can upload as many as 1,000 admission records at one time.

- 1. Select Upload Admissions from the ASEP menu
- 2. Prepare your .csv file using the onscreen instructions. Do not use headers. There should be 16 columns when you are done. These are the same values provided in the individual data entry screen. Please note that even if you do not have data for the optional fields, you will need to ensure that you have the proper number of delimiters in each data row.

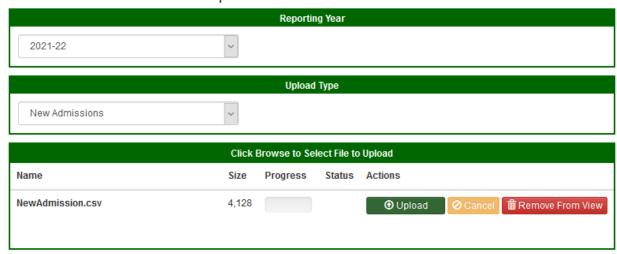

Your completed file will look something like this:

- 3. Save your file as a .csv and close
- 4. On the Upload screen, Select Reporting Year from the dropdown menu
- 5. For **Upload Type**, select New Admissions
- 6. Click Browse...

Upload Admitted Candidates

- 7. Browse to find the .csv file with your new admissions
- 8. Click Upload
- 9. The system will report a successful upload

10. If there are any errors in your file, the system will note them on the screen.

If you are admitting a candidate for multiple certificates, enter one line for each certificate in your .csv file.

Bulk Upload Tips

- Ensure candidates have a valid TEA ID
- Ensure candidate first name and last name match what is in ECOS
- Ensure that the Cert License ID is valid for the selected Route

- Ensure that the Role is valid for the Cert License ID
- Review your data using Notepad or Wordpad. Each row should contain 15 commas. See Example File section on Upload Admitted Candidates screen.
- Using Notepad or Wordpad be sure to remove stray numbers, commas, additional lines, spaces, or columns.
- If you get a message that the upload failed, you will need to identify the error, create a new .csv file with just your corrections, and attempt to upload the file again.

Change a Candidate's Admission Record

Although EPPs do not have access to delete a candidate's admission record in its entirety, there are some changes that can be made to the record by the EPP before the end of the reporting year. The following fields are editable by the EPP after an admission record is created: Overall GPA, Admission GPA, Subject Area HRS, Subject Area GPA, SAT Score, GRE Score, and ACT Score. To change one or more of these fields in the candidate's admission record:

- Select Maintain Admissions from the ASEP menu
- 2. In the Admitted Candidates List, ensure that the current reporting year is selected and enter a TEA ID to pull up that candidate's admission record(s)
- 3. Select Admissions (highlighted in blue) to pull up the Current Admission Record Screen
- 4. Select **EDIT** (last column)
- 5. In the Edit Candidate Admission screen, edit the candidate's GPA and/or HRS and click **SAVE** (multiple fields can be changed)

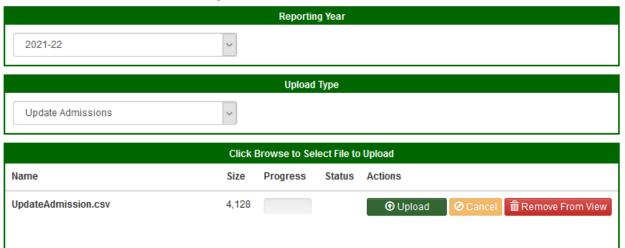

Note: If a candidate has one or more rows associated with one admission record; all rows will need to be changed.

Updating Admissions in Bulk

EPPs with many candidates to update at one time can create a .csv file using Microsoft Excel or another software tool with the relevant candidate data. EPPs can update as many as 1,000 admission records at one time. The following fields are editable: Overall GPA, Admission GPA, Subject Area GPA, SAT Score, GRE Score, and ACT Score. **Note:** For successful upload, admission records must match all non-editable fields exactly.

- 1. Select **Upload Admissions** from the ASEP menu
- 2. Prepare your .csv file for the existing admission records that need the editable fields updated. Save your .csv file.
- 3. On the upload screen, select the Reporting Year.
- 4. For **Upload Type**, select Update Admissions.

Upload Admitted Candidates

Important note for EPPs that admit Reading Specialist Candidates

Due to an historical issue in TEA databases, when admitting a candidate for a Reading Specialist license (Cert License Codes 1110 and 1111), users need to select Classroom Teacher (029) as the role, rather than the currently inactive Reading Specialist (042) role. Similarly, when uploading a .csv file with admission information, please enter 029 for the role when admitting a Reading Specialist candidate.

Important note for EPPs that admit Teacher Candidates

EPPs are required to report content hours and content hour GPA for teacher candidate admissions. This field is optional only for non-teacher candidates.

Congratulations, you have successfully recorded Ivana Teach as a candidate admitted to your program. You will also need to count her as a person who applied to your program. Additionally, you will need to report your admissions for Title II purposes. Please see the Title II section for more information.

Applied Reporting for Annual Performance Report

The Annual Performance Report (APR) data is consolidated from information submitted by EPPs and ECOS data managed by EPPs. APR data includes the number of candidates who applied, were admitted, retained, and completed the program, disaggregated by gender and ethnicity. EPPs are *only* required to report the number of candidates who *applied*, disaggregated by gender and ethnicity, using a form provided by TEA. EPPs must submit their completed APR Applied Form by September 15th.

Reporting Applied Total Counts

- From the TEA <u>Program Provider Resources</u> page, locate and save the 2020-21 APR Applied Spreadsheet.
- 2. Complete the form using the instructions found on the INSTRUCTIONS tab
- 3. Save your file using the recommended naming convention: APR APPLIED (CDN).XLSX
- 4. Open a TEA Help Desk ticket and submit your saved file. See Appendix 3 for additional information about how to file a Help Desk ticket.

Regarding Ethnicity Group Designations

The ethnicity categories available for the APR in ECOS do not match the federal ethnicity categories. Use the following table to match the federal category to the APR category. If you do not know a candidate's ethnicity, you cannot count them in any ethnicity category. However, you will still count them in the "All" value.

APR Category	Federal/ECOS Category
African-American	African American, Black/African American
Hispanic	Hispanic, Hispanic/Latino
Other	Asian, American Indian/Alaska Native, Hawaiian/Pacific Islander, Two or more races
White	White, Caucasian not Hispanic

Candidate Withdrawals

Sometimes a candidate will apply to your program, be admitted to your program, and then change their mind about pursuing certification through your program. Here is how you should report a candidate who withdraws, across the various reporting locations.

- 1. APR Applied: +1
- 2. Admission Record: No Change
- 3. Test Approval: Update to "Removed."
- 4. Finisher Records List: Update to "Removed."
- 5. Title II Contact Pearson Title II support and Westat for guidance.

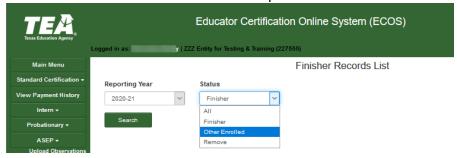

Ongoing Reporting on ECOS

Throughout the reporting year there are several things that must be reported in the ECOS system. These include updating a candidate's status on the Finisher Records list, reporting changes in certification field, providing test approval, and providing information on field observations.

Maintain Finishers

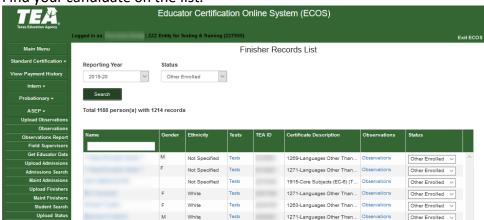

When you added an admission record for Ivana, the system generated an associated record on the Finisher Records list with a status of "Other Enrolled." If you do not make any changes, the system will continue to generate a new record with the same certificate field and status every year. Once Ivana has completed your program, and is ready for a standard certificate, you must mark her as a Finisher on the Finisher Records List.

- 1. Click Maint Finishers in the ASEP menu.
- 2. Select the reporting year from the dropdown menu.
- 3. Select "Other Enrolled" from the dropdown menu.

4. Click Search

5. Find your candidate on the list.

- 6. Select "Finisher" from the dropdown menu in the Status column.
- 7. ECOS will confirm "Status change for Ivana Teach successful."
- 8. Select "Finisher" from the dropdown at the top of the screen. Click **Search**.
- 9. Confirm that Ivana is now listed as a Finisher on the Finisher Records List.

Changing Certification Fields

Suppose Ivana decides that she would prefer to teach older students and wants to pursue a different certification. If your program is approved to offer the certification field, your program can approve this change. You must update Ivana's record in ECOS to reflect this change. You need to go to the *Student Maintenance* screen to make this change. There are two ways to reach the *Student Maintenance* screen.

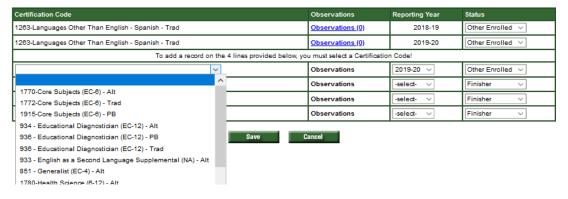

- 1. Select **Student Search** from the ASEP menu, enter Ivana's TEA ID number, click **Search** or
 - Select Maint Finishers from the ASEP menu.
 - 3. Select the relevant year from the dropdown menu.
 - 4. Select "Other Enrolled" from the dropdown menu.
 - Click Continue
 - 6. Select Ivana's name that is linked on the Finisher Records List.

Now that you are on Ivana's record in the *Student Maintenance* screen. You want to remove the old certification field and add the new certification field.

7. Select "Remove" from the dropdown menu in the Status column for the certification you wish to remove.

- 8. Select the new certification from the Certification Code dropdown menu below the cell that says, "To add a record on the 4 lines provided below, you must select a Certification Code!"
- 9. Select the appropriate AY from the Reporting Year dropdown menu.
- 10. Select "Other Enrolled" in the Status column.
- 11. Click Save at the bottom of the screen.

⁹ See the Sample Change of Certification Documentation in the Other Program Resources section.

Updating Finisher Records in Bulk

EPPs can update the finisher status and add additional cert license IDs with finisher statuses to the Finisher Records list using a bulk upload.

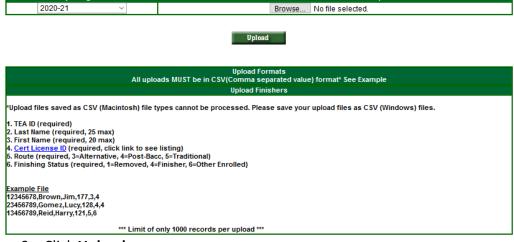

To add a new certification field, the TEA ID, Name, and Route must match an existing finisher record exactly. To update the finisher status, the TEA ID, Name, Cert License ID, and Route must match a finisher existing record exactly.

- 1. In the ASEP menu click Upload Finishers
- 2. Create your .csv file. Do not use headers. There should be 6 columns.
 - A. TEAID
 - B. Last Name
 - C. First Name
 - D. Cert License ID
 - E. Route (3 = Alternative, 4=Post-Baccalaureate, 5 = Traditional)
 - F. Finishing Status (1=Removed, 4 = Finisher, 6 = Other Enrolled)

Your spreadsheet will look something like this.

А	В	С	D	E	F
2000702	Teach	Ivana	177	5	6

- 3. Save your spreadsheet as a .csv file 10
- 4. On the Upload Finishers screen, select the Reporting Year from the dropdown menu
- 5. Click the Choose File button and select your .csv file for uploading

6. Click Upload

The Upload Finishers Screen display will contain:

¹⁰ Please ensure to select the generic .csv file rather that the Macintosh-associated .csv filetype.

[©]Copyright Texas Education Agency

Uploaded file successfully. Records processed: 1.

Click here to view Upload Status Report.

To check on the status of any uploaded file, complete the following steps:

- 1. Click **ASEP** in the Main Menu.
- 2. Click Upload Status
- Check the upload in the "Upload Type" column and look for errors "Upload Results" column.

	End Date 8/20/2019	Submit				
Upload Date/Time	Userld	Upload Type (click to view)	Upload Results (click to view)			
8/20/2019 3:06:42 PM	betty flores	<u>Admitted</u>	8/20/2019 3:06:42 PM			
8/20/2019 3:02:01 PM	betty.flores	Admitted	8/20/2019 3:02:01 PM

8/20/2019 2:33:34 PM	betty.flores	Admitted	8/20/2019 2:33:34 PM			
8/20/2019 2:32:40 PM	betty.flores	Admitted	8/20/2019 2:32:40 PM			
8/20/2019 2:27:48 PM	betty.flores	<u>Admitted</u>	8/20/2019 2:27:48 PM			
8/20/2019 2:26:59 PM	betty.flores	Admitted	8/20/2019 2:26:59 PM			
8/20/2019 2:24:41 PM	betty flores	Admitted	8/20/2019 2:24:41 PM			
8/20/2019 2:22:15 PM	betty.flores	Admitted	8/20/2019 2:22:15 PM			

Note: The list of candidates who are Other Enrolled will roll over when the new academic year is activated, and the past year is closed. You do not have to add Other Enrolled candidates back into the ASEP system each year. You should view your EPPs Other Enrolled list periodically to ensure and certify its accuracy. EPPs are responsible for the timely removal of any candidates who are no longer enrolled.

Adding or Modifying Test Approval

When you added an admission record for Ivana, ECOS automatically generated test approval eligibility for her on the test approval screen. The test approval screen in ECOS is where EPPs approve candidates to take certification exams and remove or add additional exams. This reporting can be done for candidates through individual data entry or as part of a bulk upload.

Adding Test Approval

- 1. Open the **Test Approval** menu in ECOS
- 2. Click on Maintain Test List
- 3. Set the Current Filter for Applicant(s) and Academic Year as needed based on the eligibility status and initial approval date
- 4. Click on Refresh List
 - If necessary, click on "All" from under the Refresh List button to display all records.
- 5. Select the candidate to get to the Maintain Test Approval Information screen
- 6. Click on Add Test Approval

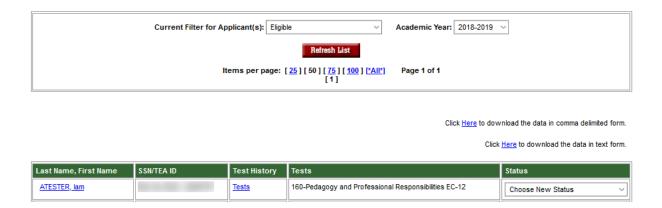

Basic Educator Information					
SSN/TEA ID	First Name	Middle Name	Last Name		
	Test		Today		
Gender	DOB	Ethnicity			
		Not Specified			

Educator Test Information					
Test Code/Description	Route	Active Date	Approved?	Updated By	
160-Pedagogy and Professional Responsibilities EC-12	University Initial with Prep	9/3/2019	Eligible	betty.fl	
291-Core Subjects EC-6	University Initial with Prep	9/3/2019	Eligible	betty.fl	

- Return Add Test Approval
- 7. Enter the candidate's date of admittance.
- 8. Select the Route
- 9. Select the Test
- 10. Select the correct approval level
- 11. Click Save

Updating or Removing Test Approval

- 1. Open the **Test Approval** menu in ECOS
- 2. Click on Maintain Test List
- 3. Set the Current Filter for Applicant(s) and Academic Year as needed based on the eligibility status and initial approval date
- 4. Click on Refresh List
 - If necessary, click on "All" from under the Refresh List button to display all records.

- 5. Find the candidate and confirm that the correct test is displayed
- 6. Click on the dropdown menu in the Status column and select the new status
- 7. Scroll down to the bottom of the screen and click Continue
- 8. Confirm selection by clicking **OK**

Update Test Approval Records in Bulk

- 1. Click on **Upload Test Approvals**. The file layout is shown below with an example.
- 2. Create your .csv file. There should be 7 columns (A-G) when you are done.
 - A. TEAID
 - B. Last Name
 - C. First Name
 - D. Admittance Date (mm/dd/yyyy)
 - E. Route
 - F. Test Code
 - G. Test Approval Status (0-Eligible, 1-Approved for One Attempt, 3-Removed)
- 3. The completed file will look something like this:

- 4. Save the file as .csv to a location where you will be able to locate it
- 5. Click **Yes** as necessary through multiple dialogue windows to save as .csv
- 6. Close the file, ensuring it remains in .csv format
- 7. On the Upload screen, click Choose File
- 8. Browse to find the .csv file you saved
- 9. Click Upload

Upload File Type

Click Browse to Select File to Upload

New Student Demographics (Test optional)

Choose File No file chosen

Upload

Upload Profile/Tests

At the time of test approval upload, you should see an "Entities Affidavit" to affirm your submission. If your file was uploaded/accepted, you will get a message confirming the upload was successful.

Uploaded file successfully. Records processed: 1.

Click here to view Upload Status Report.

Review and Approval of Statement of Qualifications for Standard Certified Educators

Observations

Ivana is progressing in her training, and she is now participating in an internship or clinical teaching experience. Your program supports her by observing her teaching and providing feedback and advice.

Programs must report all clinical teaching, internship, and practicum teacher and non-teacher observations, with a field supervisor (identified by TEA ID) for each observation. All observations must be reported in ECOS in the reporting year in which they occur.

Accurate reporting of observations is vital. The number and duration of observations for each candidate is a performance standard and affects EPP accreditation. ¹¹ The ratio of field supervisors to candidates is reported publicly along with other consumer information.

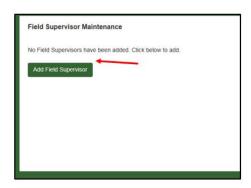

Adding Field Supervisors Individually

Candidate observation records include the field supervisor. Field supervisors need to be added to the system so that they can be included in the candidate observation record. This step must be completed before reporting candidate observations conducted by the field supervisor.

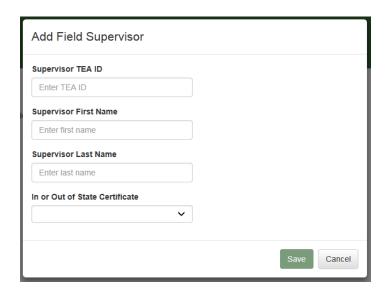

Click the Add Field Supervisors button.

¹¹ See TAC §229.4(a)(4)(A) and TAC 229.4(d), (e), and (f) for additional information.

- 3. Enter the supervisor TEA ID. 12 The supervisor name will populate from their ECOS account.
- 4. Select the state from which the supervisor holds a certificate.
 - If the candidate holds a Texas certificate as well as certificates from other states, select "Texas"
 - If the supervisor holds certificates from multiple states, select the most recent state
 - If the supervisor does not have a certificate, select "Not Certified"
- 5. Click Save

The field supervisor's data will appear in the Field Supervisor Maintenance screen.

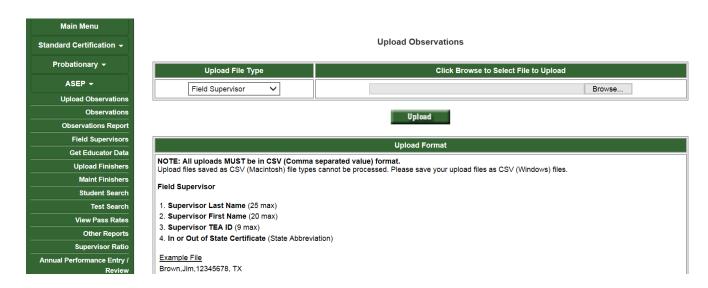

You can add another field supervisor by clicking the **Add Field Supervisor** button. You can delete a field supervisor or change her certification state by clicking on her last name.¹³

Uploading Field Supervisors in Bulk

You can upload field supervisors as a group rather than individually. This requires creating a .csv file and uploading it through the *Upload Observations* screen.

¹² Field supervisors must be reported by their TEA ID numbers.

¹³ Once a field supervisor has been linked to a candidate through an observation, you cannot delete the field supervisor unless you first delete the observation(s) the supervisor is credited with conducting.

- 1. In the ASEP menu click Upload Observations
- Create your .csv file. Do not use headers. Use the guidance on the *Upload Observations* screen to create your .csv file. Your spreadsheet should be 4 columns when you are done.
 - A. Supervisor Last Name (25 max)
 - B. Supervisor First Name (20 max)
 - C. Supervisor TEA ID (9 max)
 - D. In or Out of State Certificate (2-letter Postal Code State Abbreviation)

Your spreadsheet will look something like this.

А	В	С	D
Dumbledore	Albus	123456	TX

- 3. On the *Upload Observations* screen, select "Field Supervisor" from the "Upload File Type" dropdown menu
- 4. Use the **Choose File** button to browse to and select your .csv file for uploading.
- 5. Click Upload
- 6. Check the upload: Click on **ASEP** in the Main Menu.
- 7. Click Upload Status
- 8. Just as you did with the test approval bulk upload, check the upload in the "Upload Type" column and look for errors in the "Upload Results" column.
- 9. Review the list of field supervisors in the *Field Supervisor Maintenance* screen.

Entering Observations

Once you have entered your field supervisors in ECOS, you are ready to record observations. You can record and modify observations individually, or you can upload observations in bulk. Record all observations your program conducts, including those beyond the required minimum

and those for candidates who withdrew or were removed from the program. All observations much be reported in ECOS in the reporting year in which they occur.

Every observation must be reported with an Assignment Type. Please use the information in the table below to determine the correct assignment types. Please note that when reporting non-teacher observations, please use NONTCH.

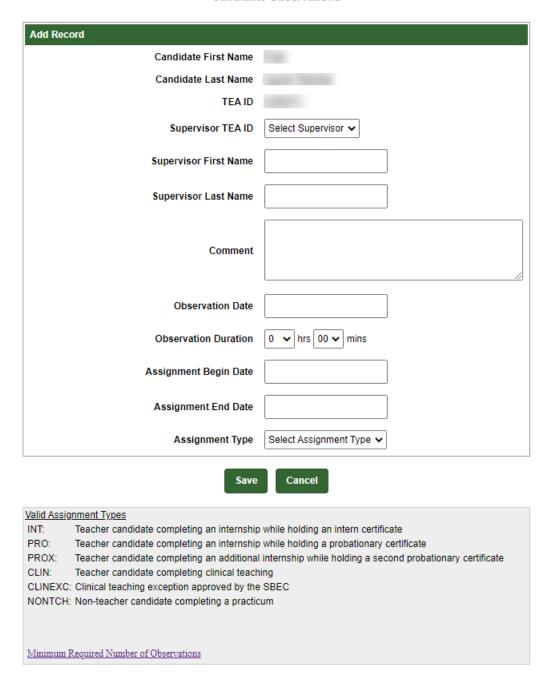

Valid Observation Upload Assignment Types in ECOS			
Assignment Type	Type of Clinical Experience	Minimum Required Number of Observations	
	Internship		
INT	First-year internship under an intern certificate with one assignment	5	
	First-year internship under an intern certificate with two assignments (not concurrent)	6	
PRO	First or second-year internship under probationary certificate with one assignment	3	
	First or second-year internship under probationary certificate with two assignments (not concurrent)	4	
PROX	Second or third-year internship under probationary extension certificate with one assignment	3	
	Second or third-year internship under probationary extension certificate with two assignments (not concurrent)	4	
Clinical Teaching			
CLIN	14-week full-day clinical teaching with one assignment	3	
	14-week full-day clinical teaching with two assignments (not concurrent)	3	
	28-week half-day clinical teaching with one assignment or	4	
	A full-day clinical teaching assignment that exceeds 14 weeks and extends beyond one semester	4	
CLINEXC	Clinical teaching exception approved by the SBEC	Per approved exception	
Practicum			
NONTCH	Practicum for non-teacher candidates	3	

Adding Observations Individually

- 1. In the ASEP menu select **Observations**
- 2. Enter the candidate's TEA ID number
- 3. Click Add Record
- 4. Select the Supervisor TEA ID from the dropdown menu
 - NOTE: The supervisor's first and last names will populate automatically
- 5. Enter a comment
- 6. Select the observation date from the popup calendar

Candidate Observations

- 7. Enter the observation duration using the arrows
- 8. Select or enter the Assignment Begin Date from the popup calendar
 - NOTE: This is the beginning date for the candidate's field experience assignment.
 There should be just one assignment begin date for all observations for a
 candidate in a field experience. A candidate may have an internship that spans
 two reporting periods, such as: 01/05/2020 01/04/2021. This candidate's begin
 date will be 01/05/2020 for all observations reported for this internship.
- 9. Select or enter the Assignment End Date from the popup calendar.

- NOTE: This is the end date for the candidate's field experience assignment. There should be just one assignment end date for all the observations for a candidate in a single field experience. A candidate may have an internship that spans across two reporting periods, such as: 01/05/2020 01/04/2021. This candidate's end date will be 01/04/2021 for all observations reported for this internship.
- 10. Select the Assignment Type from the dropdown list. A legend for the assignment types is provided at the bottom of the screen.
- 11. Click Save
- 12. View the new record

As a reminder, all observations must be reported in ECOS in the reporting year in which they occur, regardless of the internship end date.

Uploading Observations in Bulk

If your program has many observations to enter at one time, you can upload observations in bulk rather than individually.

- 1. In the ASEP menu click **Upload Observations**
- 2. Create your .csv file. Use guidance from the *Upload Observation* screen to create your file. Do not use headers. There should be 12 columns when you are done.
 - A. Supervisor Last Name (maximum 25 characters)
 - B. Supervisor First Name (maximum 20 characters)
 - C. Beginning Date of Assignment (should not be a future date) (mm/dd/yyyy)
 - D. Candidate's TEA ID Number (should be existing TEA ID) (maximum 9 characters)
 - E. Candidate's Last Name
 - F. Candidate's First Name
 - G. Observation Date (should be unlocked year) (should be on or after Beginning Date of Assignment) (should not be a future date) (mm/dd/yyyy)
 - H. Observation Duration (hh:mm) (00:01 to 12:59)
 - I. Supervisor Comments (Length range 1 to 250 characters)
 - J. Supervisor TEA ID (maximum 9 characters)
 - K. Assignment Type (maximum 9 characters)
 - L. End date of Assignment (mm/dd/yyyy)

Your spreadsheet will look something like this:

- 3. Select "Observation Log" from the "Upload File Type" dropdown menu
- 4. Use the **Choose File** button to browse to and select your .csv file for uploading.
- 5. Click **Upload**
- 6. Check the upload: Click on **ASEP** in the Main Menu.

7. Click Upload Status

8. Check the upload in the "Upload Type" column and look for errors in the "Upload Results" column. Review the observation logs for a sample of candidates to ensure the upload was complete and accurate.

NOTE: All uploads MUST be in CSV (Comma separated value) format.

Upload files saved as CSV (Macintosh) file types cannot be processed. Please save your upload files as CSV (Windows) files.

CANDIDATES MUST BE IN THE SYSTEM AS ASEP OTHER ENROLLED OR FINISHER BEFORE OBSERVATIONS CAN BE UPLOADED.

Observation Log

- 1. Supervisor Last Name (25 max)
- 2. Supervisor First Name (20 max)
- 3. Beginning Date of Assignment (should not be a future date) (mm/dd/yyyy)
- 4. Candidates TEA ID# (should be existing TEA ID) (9 max)
- 5. Candidates Last Name (25 max)
- 6. Candidates First Name (20 max)
- Observation Date (should be unlocked year) (should be on or after Beginning Date of Assignment) (should not be a future date) (mm/dd/yyyy)
- 8. Observation Duration (hh:mm) (00:01 to 12:59)
- 9. Supervisor Comments (Length range 1 to 250)
- 10. Supervisor TEA ID (9 max)
- 11. Assignment Type (9 max)
- 12. End Date of Assignment (mm/dd/yyyy)

Example File

Brown, Jim, 09/01/2009, 12345678, cand_Iname, cand_fname, 09/22/2009, 8:30, Candidate has performed above average, 12345678, INT1, 10/22/2009

Gomez,Lucy,09/01/2009,23456789,cand_Iname,cand_fname,09/22/2009,1:25,Candidate has performed above average, 6847895, INT1, 10/22/2009

Reid,Harry,09/01/2009,13456789,cand_Iname,cand_fname,09/22/2009,0:55,Candidate has performed above average, 5879455, INT1, 10/22/2009

Valid Assignment Types INT: Teacher candidate completing an internship while holding an intern certificate PRO: Teacher candidate completing an internship while holding a probationary certificate PROX: Teacher candidate completing an additional internship while holding a second probationary certificate CLIN: Teacher candidate completing clinical teaching CLINEXC: Clinical teaching exception approved by the SBEC NONTCH: Non-teacher candidate completing a practicum Minimum Required Number of Observations

Field Supervisor

- 1. Supervisor Last Name (25 max)
- 2. Supervisor First Name (20 max)
- 3. Supervisor TEA ID (9 max)
- In or Out of State Certificate (State Abbreviation)
 Note: Please use "NOCRT" if not certified

Example File

Brown, Jim, 12345678, TX Gomez, Lucy, 23456789, OK Reid, Harry, 13456789, NOCRT

^{*} Limit of only 500 records per upload

The EPP is responsible for ensuring that all the data is accepted and correct in the system. Do not depend on the "Your file was uploaded successfully" message because it will not detect some errors. Use the Upload Status function to view the data you entered.

Common Observation Upload Issues

There are a few common issues that cause ECOS to error out when entering individual observations or uploading bulk observations. Here are issues we have identified:

- Candidate is not in the Finisher Records List as Other Enrolled or Finisher
- Date of the observation is a future date
- Date of the observation is before the beginning date of the assignment
- Observation date is outside the reporting year
- Incorrect assignment type is selected
- Time is formatted incorrectly. Time must be formatted 00:00
- Comment column contains commas, semicolons, or other punctuation that confuses the .csv format. Keep it simple for example "See student log"
- Cells are blank where they should not be or have stray marks
- Blank rows between candidate records
- "Error Line: 1: Missing Delimiter ',' should be 11 in each row uploaded" means there should be 12 columns and there are either too many or too few columns. Copy the spreadsheet into Notepad to identify missing spaces or other anomalies
- TEA ID numbers are missing or do not match ECOS for the candidate or field supervisor
- There is a name mismatch because a nickname is used rather than the candidate's name in ECOS
- Column headers present the upload cannot distinguish between column headers and data, so if you try to upload a file with column headers you will get an error
- "Error is sqlInsert_a2fieldvisit Command text was not set for the command object". You have an apostrophe in one or more fields. Remove any apostrophes.

Modifying Observation Records

- 1. Click **Observations** on the ASEP menu
- 2. Enter the candidate's TEA ID number.
- 3. Click Search
- 4. Click the hyperlinked observation date.
- 5. Modify the record as needed.
- 6. Click Update

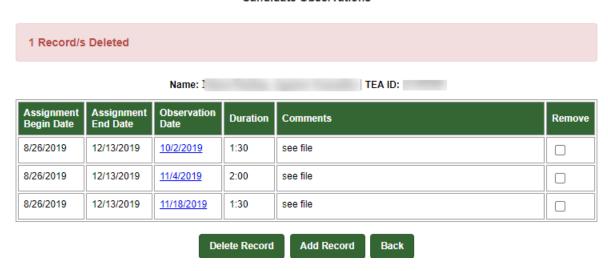

Removing a Record

- 1. Click **Observations** on the ASEP menu
- 2. Enter the candidate's TEA ID number
- 3. Click Search
- 4. Select the **Remove** box in the row you want to remove
- 5. Click Delete Record

ECOS will confirm the observation has been removed.

Candidate Observations

Data Verification

EPPs are required to report accurate and timely data for accountability purposes. Failure to report accurate and timely data can result in negative consequences for EPPs, up to and including negatively impacting their accreditation status.

Exceptions and Errors

NOTE: For the 2020-2021 reporting year, candidates issued a Probationary certificate under a waiver (**WPRO**) do NOT need to be submitted for exception because they will be removed from your program's pass rate and observation data.

EPPs are required to report accurate data. Accurate data must be submitted in the reporting period. We recognize that there are rare instances where you cannot "fix" data that has been submitted due to system access. For this reason, you may submit exceptions requests.

On the test approval list, for example, if a candidate was given test approval with the wrong admittance date or was given permission for two tests with two admittance dates, EPP users are unable to fix that. TEA requires an exception letter to be able to identify the discrepancy and document manual changes. Please note that these errors are necessarily rare, and that EPPs are required in TAC to submit timely and accurate data.

Common Exceptions

Although exceptions are generally rare and decrease as data quality and validation increase, there are still some common cases where programs find cause for exception requests.

For the observations lists, there may be extraordinary circumstances that resulted in a candidate not getting the required observations. For example, a candidate was issued a standard certificate prior to the end of the internship. You may provide an exception letter to petition TEA to change the denominator and modify the percentage of candidates for whom you provided adequate field support. It is required that programs still enter all observations records for any candidates who do not complete their internship.

Common Observation Exceptions

- 1. Incomplete internship due to deactivation of intern or probationary certificate
- 2. Incomplete internship due to issue of standard certificate
- 3. Exempt because candidate qualified for educational aide exemption from THECB
- 4. Exempt because candidate was already initially certified
- 5. Exempt because candidate had previously been employed as an ROTC instructor

Common Principal Survey Exceptions

1. Candidate was not initially certified by the EPP

- 2. Candidate previously taught a complete year
- 3. Candidate was in the classroom for less than 5 months
- 4. Candidate left the position before working for 5 months

Common Teacher Survey Exceptions

- 1. Candidate was not initially certified by the EPP
- 2. Candidate previously taught a complete year on a standard certificate

Please note that forms for these exceptions are available on the <u>Program Provider Resources</u> <u>page</u>. Exception requests must be made using these forms.

Request to Correct Finisher Record(s) for a Previous Reporting Year Form

Programs can request a correction to the ASEP Finisher Records List in ECOS for previous reporting years. Once received, TEA will review and manually correct the finisher records in ECOS for the candidate(s) and reporting year(s) identified on form. This form is available from your program specialist. Please file these requests when you identify the discrepancy – do not wait until the end of the reporting year.

Data Verification Affidavit

Once all data for a reporting year has been submitted and verified, you must provide an affidavit testifying to the completion and accuracy of the EPP data. Here is what you should expect each fall:

- 1. Before September 15 The EPP submits and updates all required data in ECOS, and any other data in the format required by TEA staff.
- 2. On or after September 15 Programs submit the data verification affidavit which can be found on the TEA <u>Program Provider Resources webpage</u>.

Complete the affidavit only when you are sure that all your EPP data has been checked. If the affidavit is submitted prior to EPP data finalization and TEA discovers information is incorrect, the signer and/or EPP may be found in violation of the Texas Educators Code of Ethics and TAC §229. Submit your affidavit using these steps.

- 1. Open and complete information on the *Affidavit for Accountability System for Educator Preparation Programs (ASEP) Data Verification 2020-2021 ASEP Reporting Year* form.
- 2. Ensure that your affidavit form contains the required electronic signature by your EPPs Legal Authority.
- 3. Once you have completed the form, open a <u>TEA Help Desk ticket</u> to attach and submit your form. See Appendix 3 for additional information about the TEA Help Desk. Prior to sending, please insert your CDN and EPP name in the file name.

Other ECOS Data Features

View Pass Rates

ECOS allows you to view the pass rates for candidates in your program. When a candidate takes a test, Pearson scores the results and reports the results to TEA. TEA data for pass rates are then manually updated. As a result, a candidate's score will not be reflected in the test pass rates in real time, as they are updated on a weekly basis.

- 1. Click View Pass Rates in the ASEP menu
- 2. Select the year from the dropdown menu
- 3. Click Continue.

You will get an overview page with pass rate data for your program. The overview page provides valuable information by itself, as well as easy navigation backwards or forwards one year at a time.

By clicking on the hyperlinked percentages in the **All** and demographic columns you can get more information on candidate performance. Clicking on the **All** percentage will list all the certification tests attributed to your program for the academic year as well as the number of tests taken, number of tests passed, and pass rate. Clicking on the demographic group percentage will list the test results for only the candidates in that category.

Alls' Tests for the Completion Year 2016 Combined Reports Requested	5		
Certification Description	Tests taken	Tests Passed	Pass Rate
Core Subjects EC-6	14	<u>14</u>	100%
Total Core Subjects EC-6	14	<u>14</u>	100%
English Language Arts and Reading 7-12	4	4	100%
Total English Language Arts and Reading 7-12	4	<u>4</u>	100%
English as a Second Language (ESL) Supplemental	20	<u>20</u>	100%
Total English as a Second Language Supplemental NA	20	<u>20</u>	100%
	•	•	·
Generalist EC-6	5	<u>5</u>	100%
Total Generalist EC-6	<u>5</u>	<u>5</u>	100%

Clicking the hyperlinked numbers in the **Tests Taken** or **Tests Passed** columns will bring up a list of the candidates and their results. You can click on the hyperlinked candidate's name to view her test history.

All Groups that have Taken the test: 115-Mathematics 4-8 for the Completion Year 2016

Combined Reports Requested

Name	SSN	Admin Date	Ethnicity	Gender	Result
Teach, Ivana	xxx-xx-xxxx	07/24/2015	Other	F	Р

Close Window

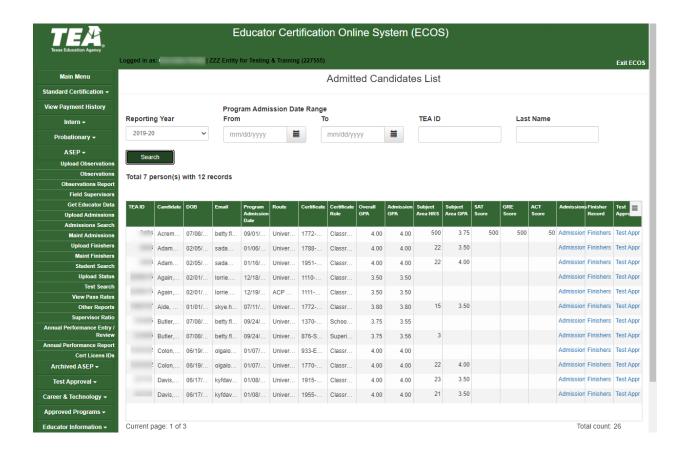

View Admissions

You can view the admissions that you have entered into the system to understand your total admissions for the year or year-to-date.

- 1. Select Maint Admissions from the ASEP Menu
- 2. Select the Reporting Year or Admission Date Range

- 3. Click Search
- 4. Review the resulting report
- 5. Note that the links in the columns on the right direct you to the candidate admission, finisher records list, and test approvals.

View the Annual Performance Report

To view your EPPs APR information in ECOS:

- 1. Select **Annual Performance Report** from the ASEP menu
- 2. Select the year by the last part of the academic year (e.g., AY 2020-2021 \rightarrow 2021)
- 3. Review and consider the following:
 - Retained is the number of Other Enrolled on your Finisher Records List
 - Completed is the number of persons listed as Finisher on your Finisher Records List
 - Retained is a snapshot of all the candidates in your program on August 31. Applied,
 Admitted and Completed are continuously collected data that include anyone who moved in or out of those categories during the academic year.

View Observations

It is in your best interest to check all the observations reported for your program to ensure you haven't missed any observations and that your program is meeting SBEC observation requirements. ECOS allows you to list the observations you conducted during an academic year. Remember, this is only a list of the observations that have been reported. If a candidate should have been observed and was not observed, they will not show up in the report. All teacher and non-teacher candidates listed as Other Enrolled on the Finisher Records List completing clinical

teaching or an internship – including second or third year extensions - must be observed. ¹⁴ Similarly, any teacher and non-teacher candidate listed as a Finisher on the Finisher Records List must have recorded observations.

Observations Report

- 1. Select Observations Report from the ASEP menu
- 2. Select the year
- 3. Select the Observation Type = View All Observations
- 4. Select the Semester/Year (Academic Year 9/1 8/31)
- Click Search

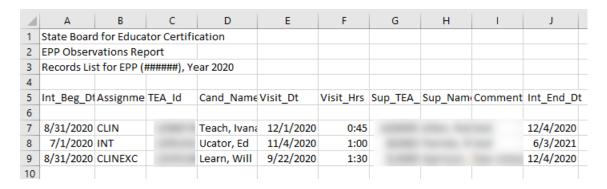

07/01/2020

Observations Report Semester/Year Observation Type 2020-21 View All Observations Academic Year (9/1 - 8/31) Candidate Name Visit Date Duration Assignment End Date Begin Date TEA ID Hours TEA ID 08/31/2020 CLIN141 01:30 12/04/2020 11/17/2020 11/04/2020 06/03/2021 07/01/2020 INT 1:00 07/01/2020 1:45 06/03/2021 01/14/2021

03/10/2021

The resulting page will show you the observation data you entered in ECOS. You can **Click Here** at the bottom of the page to download the data as a .csv which will allow you to manipulate the data more efficiently. The resulting spreadsheet will look something like this.

1:45

¹⁴ See TAC §229.4(a)(4)(A)(iii)

06/03/2021

The "All" and "Academic Year" options provide data for the whole year. You may also select individual semesters from the "Semester/Year" dropdown. These semesters correspond with the candidate-to-supervisor ratio per semester reported in the consumer information.¹⁵

Here are some things to consider as you review observation data for your program¹⁶

- 1. Are all the observations that were conducted by your field supervisors listed? Be sure to record all observations, not just the minimum required number.
- 2. Does each candidate have the same Int Beg Dt ("Beginning Date of Assignment" from the upload or "Assignment Date" from the window)? Individual candidates should not have multiple beginning dates for their internship or clinical teaching.
- Are the visits of sufficient duration at least 45 minutes for teacher candidates?
- 4. Did each candidate get at least the minimum number of observations?
- 5. Are all the candidates who should have been observed included on the list? This would include anyone from your program who had an active intern or probationary certificate including extensions and any person completing clinical teaching or a practicum.

NOTE: Monitor your program's compliance with the minimum SBEC standards for duration and frequency throughout the school year. The requirements of TAC §228.35(g) are specific and include timing requirements, depending on the kind of intern/clinical teaching experience. Missing the timing on a single observation may make the candidate's support non-compliant, so be sure to monitor for frequency, duration, and timing of observations for your candidates.

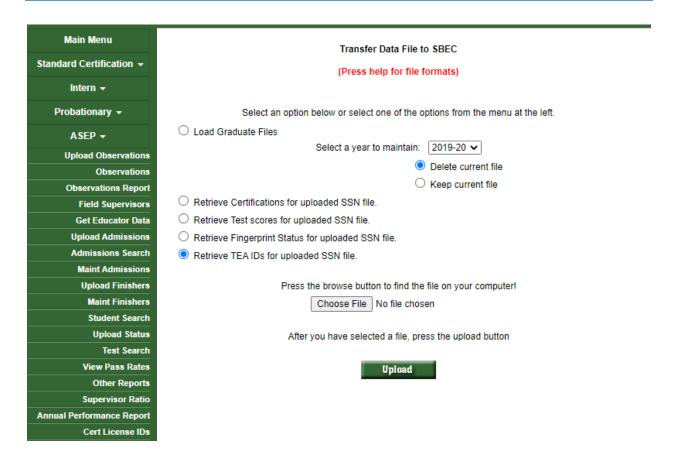

Get Educator Data

Use the **Get Educator Data** screen to upload a.csv file and receive a file containing all certificates, all tests, fingerprint status, or TEA ID associated with the uploaded social security numbers. **Please note: the certificate data and test score data will not be restricted to those earned through the EPP.** EPPs should use the Pearson Results Analyzer for test results of their candidates.

- 1. Create a .csv file with the social security numbers in column A for which you need information.
- 2. Click **Get Educator Data** in the ASEP menu
- 3. Click the radio button for the information you need.
- 4. Click **Choose File** to browse to your .csv file
- 5. Click **Upload**

¹⁵ Please note that as of this writing, technical issues within ECOS result in incorrect Observation reports when an Observation Type other than View All Observations is selected.

¹⁶ See TAC §228.35(g) for specific field supervision requirements.

Test Search

The *Test Search* screen in ECOS provides additional data. Enter search parameters and ECOS will produce a report with test results for candidates from your program. You may find this function is a useful supplement to the test data available through the Pearson Results Analyzer. **Please** note that this will only return results from tests that were approved by your program.

Title II Reporting

The US Department of Education (ED) requires reports on initial teacher certification candidates. As of 9/1/2018 two companies support programs with this reporting - Pearson and Westat. Pearson, as the main testing vendor for TEA, generates pass rate data for the Title II reports. Westat puts the pass rate data and significant amounts of other data into the report that the Secretary of Education submits each year to Congress.

Primary User: Your program should have a primary user who is responsible for federal reporting. You should also have a backup person who knows the data and the systems. If these persons change, contact Pearson <u>es-titlell@pearson.com</u> and Westat at <u>title2@westat.com</u> to coordinate new user accounts.

Title II reporting follows a predictable annual schedule. Each year programs report the previous year's data, so you will report 2019-2020 data in 2020-2021.

- August 31 The reporting year closes
- September December Upload data to the Pearson system.
- January Pearson resolution period
- February Westat Title II reporting opens
- April 30 Westat Title II reporting closes
- July Title II reported data available for review
- October Review/collection period closes
- November Title II report completed

Recording Data for Pearson Title II

In addition to documenting data regarding Ivana Teach in the ASEP system, you must also document data for her with Pearson for Title II reporting purposes. You provide Pearson with information linking the candidate to your program so that Pearson can then link to the candidate's testing data. Pearson uses test results for initial teacher certification candidates to calculate and report pass rates for Title II purposes.

Training and Resources: Pearson has developed a manual to guide you through the necessary Title II reporting. See https://edreports.nesinc.com/TX for additional assistance, or email es-titlell@pearson.com.

Completing the Title II Institutional and Program Report Card (IPRC) Report

In April 2021, you will report on your 2019-2020 cohort. The data you entered in ECOS in September 2020 will help you complete the Westat IPRC report. The IPRC includes only initial teacher candidates from your institution. It does not include administrative, student services, or additional certificate candidates. Extensive guidance regarding how to report Title II data for Westat is available at the Title II website at https://title2.ed.gov/Public/TA.aspx.

If your EPP is approved for both degree-seeking (traditional & post-baccalaureate) and nondegree seeking (alternative) routes to certification, you must report information for candidates in these routes separately.

Here are some ways to learn about Title II reporting:

- 1. Recorded webinars are available at https://title2.ed.gov/Public/Webinars.aspx#iprc. The IPRC Overview and Training is a good place to start.
- Log into ECOS and export your 2019-2020 candidates listed as Finisher on the Finisher Records list and the candidates listed as Other Enrolled on the Finisher Records list to Excel. Remove anyone not pursuing an initial teaching certificate. These are the folks you are reporting on.
- 3. Open the blank Institutional and Program Report Card available with the technical assistance materials here: https://title2.ed.gov/Public/TA.aspx.
- 4. There are a lot of technical assistance materials available through the public Title II website.
 - a. The IPRC guide is helpful if you have specific questions. There are also smaller, subject specific guides if you have questions about individual sections of the report.
- 5. Download the 2020 Texas State Report Data File and look for your program's data. This is what you will be updating for this year. Remember, in April 2021 you are reporting on 2019-2020 data.

Title II is only concerned with initial teacher certification candidates. Do not report on candidates at your program who are pursuing administrative certification, student services certification or a second certification.

Section 1.b & c. Admissions

Your report should, at minimum, reflect the statutory and regulatory minimum requirements. Specifically, it would be expected that the following are required for entry:

- Transcript
- Minimum number of courses/credits/semester hours completed (TEC §21.0441(a)(2) and TAC §227.10(a)(4))
- Minimum GPA (TEC §21.0441(a)(1) and TAC §227.10(a)(3))
- Minimum basic skills test score (TAC §227.10(a)(5))
- Interview or Other Proficiency (TAC §227.10(a)(7))

Section Enrollment

You can use the ECOS data submitted through the year to help you complete the Title II report. NOTE: If your program supports both traditional (degree-seeking) and alternative (non-degree seeking) routes to certification, you must report information about candidates in these routes separately.

1. Click Maint Finishers in the ASEP menu

- 2. Select 2019-2020
- 3. Select Other Enrolled
- 4. Click **Continue**
- 5. Select **Click Here** to download the data as a .csv at the bottom of the page
- 6. Open as an Excel spreadsheet
- 7. Highlight the data columns
- 8. Sort or filter by the Cert Description column
- 9. Delete any candidates not pursuing an initial teacher certificate (principal, superintendent, etc.).
- 10. Sort by TEA ID column
- 11. Remove any duplicates (candidates listed two or more times because they are pursuing multiple certificates or certification and a supplemental).
- 12. Sort or filter by Gender
- 13. Count the number of males and females.
 - If a candidate is listed as "Unk" then use the self-reported gender information for the candidate in ECOS.
- 14. Sort or filter by Ethnicity.
- 15. Count the number of each ethnic group.

Legislative Budget Board Reporting for Public Colleges and Universities

Each fall EPPs that are public colleges and universities are required to report certification rates of teacher education graduates to the Legislative Budget Board (LBB). Private universities and alternative certification programs do NOT report to the LBB. In September, TEA will contact institutions required to submit LBB reports by email. The report is due to TEA based on when TEA must report to the LBB.

To facilitate the reporting process and ensure the consistency and accuracy of data, the LBB, State Auditor's Office, and educator preparation entities asked TEA to collect graduate information from the entities and, using centralized records in the TEA database, calculate the LBB certification rate.

The LBB certification rate is based on the percentage of an institution's undergraduate teacher education program graduates who become certified to teach no later than the end of the fiscal year following the year of graduation from the program.

IMPORTANT: You must report the performance measure to the LBB using ABEST. TEA is simply calculating the rate for you. It is your responsibility to enter the rate in ABEST.

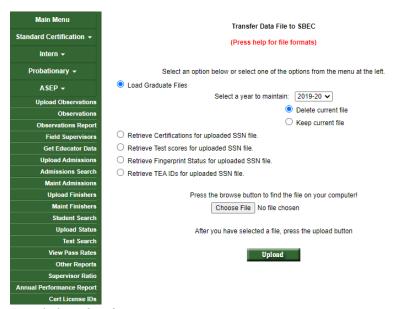

The FY 2021 LBB performance measure will reflect the certification rate of your 2019-2020 graduates. The rate is the percentage of graduates who became certified as of August 31, 2021.

- 1. Create a .csv file listing the teacher candidates who graduated between September 1, 2019 and August 31, 2020. Do not use headers. There should be 4 columns when you are done.
 - A. EPP County/District Number (CDN) (6 characters)
 - B. Graduate's social security number (9 characters no dashes)
 - C. Graduate's last name (maximum 25 characters)
 - D. Graduate's first name (maximum 20 characters)

Your spreadsheet will look something like this.

Α	В	С	D	
	, 11002300	Teach	Ivana	

- 2. Click Get Educator Data in the ASEP menu
- 3. Select the "Load Graduate Files" radio button
- 4. Select "2019-2020" to report on graduates from 2019-2020.
 - NOTE: This is the year the new teachers graduated
- 5. Click **Choose File** to browse to the .csv file you created

6. Click Upload

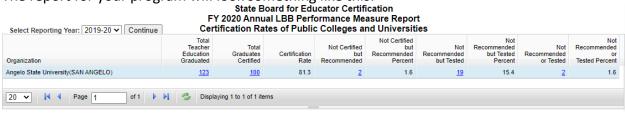

Viewing Legislative Budget Board Report for Public Colleges and Universities
After you submit your list of graduates to the ECOS system, you will need to retrieve and verify the results. Follow these steps to view your results.

- 1. Click Other Reports in the ASEP menu
- 2. Select the "Annual LBB Performance Measure Report" radio button
- 3. Select the reporting year (2020-2021). NOTE: This is the year AFTER your new teachers graduated from your college or university

4. Click Continue

The report for your program will look something like this:

Appendix 1: Sample Letters and Forms

Sample Admission Letter
Use Letterhead of EPP ¹⁷ Date
Name Address City, State, Zip Code
Dear (Candidate Name):
This letter is an invitation of formal admission ¹⁸ into (Name of Educator Preparation Program) to assist you in securing certification in (Name of Certification).
Your official admission date is (Month Day, Year) ¹⁹ . (Provide any other entry information that you might need to communicate.)
You have until (Month Day, Year) to respond to our invitation of admission into our program. If we do not receive written communication of acceptance within that time frame, we will consider that you have declined our invitation ²⁰ .
Sincerely,
(Name and Title of Person Extending the Invitation)
I accept the invitation of admission
I decline the invitation of admission
Signature:
Date:
This letter should be retained in the candidate's record for audit purposes.

¹⁷ See 19 TAC §227.17(b), "the EPP must notify the applicant of the offer of formal admission in writing by mail, personal delivery, facsimile, email, or an electronic notification."

¹⁸ See 19 TAC §227.5(11)

¹⁹ See 19 TAC §227.17(d), "The effective date of formal admission shall be included in the offer of formal admission."

²⁰ See 19 TAC §227.17(e).

Sample Change of Certification Documentation
Use Letterhead of EPP
Date
Name Address City, State, Zip Code
(Candidate Name), TEA ID # (TEA ID) requests a change of certification field from (Old Certification Field and Grade Level) to (New Certification Field and Grade Level).
Printed Name of Candidate
Signature of Candidate
Printed Name of EPP Program Approver
Signature of EPP Program Approver

Appendix 2: Additional Accountability Data

The new <u>TEA Educator Preparation Data Dashboard</u> is now available as a resource to consumers and the public. The dashboard provides users with the ability to interact and customize ASEP and consumer data.

Per TEC §21.045, TEA administers and collects surveys of principals, candidates exiting their teacher preparation program, and teachers who are completing their first year of teaching on a standard teaching certificate. Information about these surveys can be found in the following places:

Principal Survey Overview: Principal Survey Page

Principal Survey Calculations: See ASEP Guide on Consumer Information Page

Principal Survey Results: EPP Data Dashboards

Principal Survey Data: Program Provider Resources Page

Exit Survey Calculations: See ASEP Guide on Consumer Information Page

Exit Survey Data: <u>Program Provider Resources Page</u>

Teacher Survey Overview: <u>Teacher Survey Page</u>

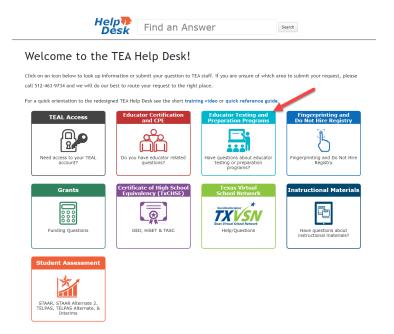

Teacher Survey Calculations: See ASEP Guide on Consumer Information Page

Teacher Survey Results: <u>EPP Data Dashboards</u>

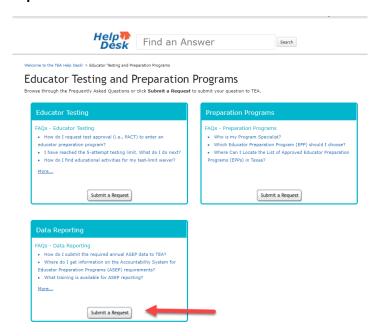

Teacher Survey Data: <u>Program Provider Resources Page</u>

Appendix 3: Testing and Preparation Programs Help Desk Ticket System

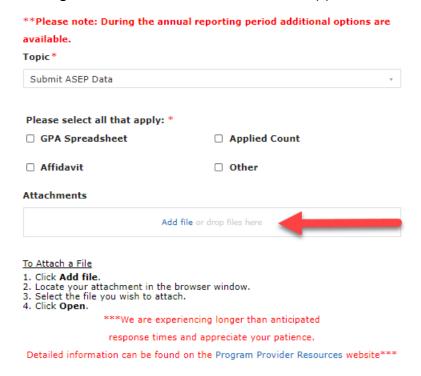

Please submit all ASEP submission files and request for exception forms using the TEA Help Desk System. You can find the Help Desk icon on the main TEA webpage located at top right. Once you select it, click on the Educator Testing and Preparation Programs tile.

In the Data Reporting tile, click the Submit a Request button. This will open a Data Reporting form. **Complete all required fields.**

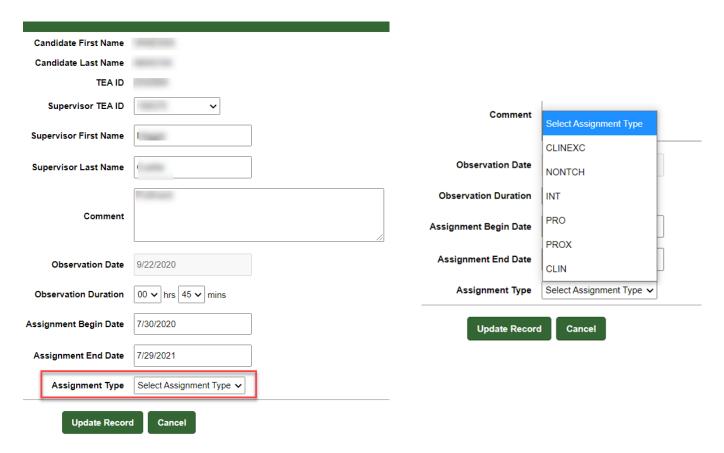

To submit ASEP Data, choose *Submit ASEP Data* found in the Topic drop-down and click on the boxes to identify the submission. To submit A Request for Exception Form, choose *Submit a Request for Exception Form* found in Topic drop-down and use the boxes to identify your form. Click on Add file or drag the file into attachment box. Your file(s) will show below form.

Appendix 4: New Observation Types

The individual observation entry page allows you to see individual observation record. With the update to assignment types, this page no longer displays the old observation types; however, they have still been recorded in the database. If you are reviewing a previously submitted observation that used one of the old Assignment Types, this screen now shows "Select Assignment Type". You do not need to update the assignment type.

If you need to make edits to this page (e.g., edit the number of minutes), you will need to select one of the new assignment types. Choose the closest new assignment type (old: INT1, new: INT) The observation types that were previously selected have been retained and continue to appear on the Observations Report.

As shown below, the Observation Report shows both the new and previous assignment types. We recommend using the Observation Report to review all observations to confirm proper reporting.

Observations Report
