<b>DATE:</b>	<b>September 8, 2022</b>
<b>SUBJECT:</b>	<b>Validations of Fiscal Data Reported by LEAs for Federal Grants</b>
<b>CATEGORY:</b>	<b>Federal Fiscal Compliance and Reporting</b>
<b>NEXT STEPS:</b>	<b>LEAs chosen in random sample(s) to provide documentation when requested</b>

The purpose of this letter is to inform local educational agencies (LEAs) that the Federal Fiscal Compliance and Reporting (FFCR) Division of the Texas Education Agency (TEA) will conduct random validations of the self-reported data submitted by LEAs related to fiscal compliance for federal grants programs. Listed below are the data subject to validation this school year. Additional data validations may be added as needed.

- LEA Application for Federal Funding (ESSA, IDEA, Perkins)
- SC5050 Enrollment Data Request
- Title I, Part A Comparability Computation Form (CCF)
- SC9000 Annual Survey of Children in Local Residential Facilities for the Neglected/Delinquent
- SC9010 Survey of Children in Stage Agency Facilities
- LEA-level Maintenance of Equity (MOEquity) Tool
- Substitute System of Time and Effort
- Special Education Consolidated Federal Grant Application, Schedule BS6016– Fiscal Compliance Requirements

One of the ways that an LEA demonstrates compliance with fiscal requirements is by establishing a system of accountability for federal grant funds. An effective system of internal controls must be in place to prevent, detect, and reduce the risks of fraud, waste, and abuse of federal grant funds. The purpose of the system is to ensure that LEAs provide reasonable assurance that grant objectives have been met as required by federal regulations and guidelines. As part of its internal controls process, TEA conducts validations of various LEA self-reported data.

### Data Validation Timeline

The table below provides the deadline date for each of the respective eGrants forms and other reports. Any LEA can reasonably expect to be selected for the data validation. TEA will notify selected LEAs to submit their auditable documentation in support of their self-reported data based on the timeline below. Each notification will include additional information about the specific validation process.
