

SPPI 11B Calculation and Example

SPPI 11B Calculation

$$\left(\frac{\text{\# of children at LEA whose eligibility determinations (ED) were completed within 30 calendar days with specified exceptions}}{\text{\# of children the LEA received parental consent as being potential eligibility for Part B}} \right) \times 100$$

Notes

Indicate the delay reason for each child whose ED was completed beyond the timeline.

SPPI 11B data are submitted to the Texas Student Data System (TSDS) Child Find collection.

SPPI 11B Example

a. # of children the LEA received parental consent as being potentially eligible for Part B	100
c. # of children at LEA whose eligibility determinations (ED) were completed within 30 calendar days with specified exceptions	88

Percent Completed Within Timeline Calculation

$$\begin{aligned}\text{Percentage} &= (c / a) \times 100 \\ &= (88 / 100) \times 100 \\ &= .88 \times 100 \\ &= 88\%\end{aligned}$$
