Public Comments

Public Comment ID 9641976

Comment: The pacing calendars are for 165 days with an ADSY of 30 days. The state assessment is given approximately 130 days into the school year. Will the state be providing a recommendation to compact the curriculum so all is taught before the STAAR test is given? This comment applies to the Math K - Algebra 1 program.

Maintain current scope and sequence for all grades.

Public Comment ID 9646406

Comment: As an elementary principal and former math teacher, I am loving the math facts memorization and sequential lay out of the OER math curriculum. Texas has needed to return to a structured program for mathematics instruction. Kudos to TEA for creating such a dynamic and much needed curriculum! I can't wait to see it implemented in Texas schools!

Public Comment ID 9648266

Comment: Correlating the metric system to place value using a horizontal chart is excellent. This can later be used for converting from one metric unit to another. Other curricula often use vertical charts, but horizontal charts give a better visual aid for understanding the relationship to place value.
