**Comment:** I want the Bible added back to k-12 in the State of Texas. Including Math and English. I'd like to see it added to every subject including History and Science as well. Why did yall make this so complicated for anyone to leave a public comment ?

No revision made. OER materials in English have a broad base of topics including history, literature, the arts, and culture which, when contextually relevant, can include religious references sampling from a range of faiths. Furthermore, TEC Sec. 28.002 requires that the curriculum includes "religious literature, including the Hebrew Scriptures (Old Testament) and New Testament, and its impact on history and literature."
