

IMRA Cycle 2024 Materials Under Consideration and Commissioner Recommendations

In accordance with [Texas Education Code \(TEC\), §31.023\(c\)](#) the agency shall provide the results of the annual review of instructional materials and any related recommendations to the State Board of Education for approval or rejection of the instructional material and the inclusion of the instructional material on a list maintained by the State Board of Education under TEC, §31.022.

The table below presents two types of recommendations regarding instructional materials.

- Place on List of Approved Instructional Materials:** These are materials the Commissioner recommends for approval, to be included on the official list of approved instructional materials.
- Place on List of Rejected Instructional Materials:** These are materials the Commissioner recommends for rejection, to be included on the official list of rejected instructional materials, because of low quality scores, inadequate TEKS coverage, phonics rule non-compliance, and/or suitability noncompliance.
