Subject: Release of 2020 TELPAS Materials

To the District and ESC Testing Coordinator Addressed:

This communication is to inform you that the Texas Student Assessment Program is releasing testing materials from the 2020 administration of the Texas English Language Proficiency Assessment System (TELPAS).

The release includes the TELPAS listening and speaking tests and the TELPAS reading tests that were administered for grades 2–12 in spring 2020. These tests are available through the TestNav 8 login screen in the [installable app](#) under the *Practice Tests* link. Answer keys for these released tests are available at [TELPAS Released Tests](#) and at [Texas Resource Center](#).

In addition to the TELPAS released tests, the Texas Student Assessment Program developed speaking scoring guides to accompany the released tests. Each scoring guide includes exemplar student responses to four questions from the speaking assessment for that grade band, the score that each response received, and an explanation of why the response received that score. Scoring guides can be found at the [Texas Resource Center](#).

If you have any questions about the 2020 TELPAS released materials, please contact us at the [Student Assessment Division Help Desk](#) or by phone at (512) 463-9536. For assistance accessing the released materials contact Pearson’s Customer Service Center using the [live chat feature](#), the [Pearson Customer Support Form](#), or by calling 800-627-0225.
