2025–2026 Naming Conventions for Reports and Files

For more information on assessment reports and reporting events, refer to the [Reporting](#) section of the *District and Campus Coordinator Resources*.

Assessment Results

The assessment results data files are located within “DISTRICTNAME_StudentData.zip” zipped district folders. The data files have the same name as the folders but are in a .csv format. The naming convention for file name is “<first three characters of the last name of the first student in the file>-<first three characters of the last name of the last student> in the file”. “TimeGenerated” on the data file is the time of data file generation and follows “HHMMSS <A/P>M” (9 characters) format. Separate files by subject are generated for Spring.
