The focus is consistent throughout, creating a response that is unified and easy to follow.&lt;br&gt;• <strong>Organization is effective</strong>&lt;br&gt;A purposeful structure that includes an effective introduction and conclusion is evident. The organizational structure is appropriate and effectively supports the development of the controlling idea/thesis. The sentences, paragraphs, or ideas are logically connected in purposeful and highly effective ways.&lt;br&gt;• <strong>Evidence is specific, well chosen, and relevant</strong>&lt;br&gt;The response includes relevant text-based evidence that is clearly explained and consistently supports and develops the controlling idea/thesis. | 2           | • **Controlling idea/Thesis is present and partially developed**<br>A controlling idea/thesis is presented, but it may not be clearly identifiable because it is not fully developed. The focus may not always be consistent and may not always be easy to follow.<br>• **Organization is limited**<br>A purposeful structure that includes an introduction and conclusion is present. An organizational structure may not be consistent and may not always support the logical development of the controlling idea/thesis. Sentence-to-sentence connections and clarity may be lacking.<br>• **Evidence is limited and may include some irrelevant information**<br>The response may include text-based evidence to support the controlling idea/thesis, but it may be insufficiently explained, and/or some evidence may be irrelevant to the controlling idea/thesis. For pairs, evidence is drawn from at least one of the texts. The response reflects partial understanding of the writing purpose.<br>• **Expression of ideas is basic**<br>The writer’s word choice may be general and imprecise and at times may not convey the writer’s ideas clearly. Sentences and phrases are at times ineffective and may interfere with the writer’s intended meaning and weaken the message.
