Texas Title I Priority Schools Grant, Cycle 2

Schedule #4 – Program Summary and Application Requirements

Part I – Grant Program Information

Summary of Program Purpose and Goals

School Improvement Grants (SIG), authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA), are grants through the Texas Education Agency (TEA) to local educational agencies (LEAs) that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of students in their lowest-performing schools. Under the final requirements published in the *Federal Register* in October 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are the lowest-achieving 5 percent of a State's Title I schools in improvement, corrective action, or restructuring, Title I secondary schools in improvement, corrective action, or restructuring with graduation rates below 60 percent over a number of years, and certain Title I eligible (and participating) elementary schools that are as low achieving as the State's other Tier I schools ("newly eligible" Tier I schools). Tier II schools are the lowest-achieving 5 percent of a State's secondary schools that are eligible for, but do not receive, Title I, Part A funds, secondary schools that are eligible for, but do not receive, Title I, Part A funds with graduation rates below 60 percent over a number of years, and certain additional Title I eligible (participating and non-participating) secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years ("newly eligible" Tier II schools). An LEA also may use school improvement funds in Tier III schools, which are Title I schools in improvement, corrective action, or restructuring that are not identified as Tier I or Tier II schools and , certain additional Title I eligible (participating and non-participating) schools ("newly eligible" Tier III schools).

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must fully implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

Allowable Activities

Tier I and Tier II Grantees

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

Tier III Grantees

- Tier III grantees may select one of the four intervention models in the federal regulations. If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Tier III grantees may select and expend grant funds for the Texas Tier III Transformation model, or the Texas Designed Model for Early College High Schools (ECHS), Texas Science, Technology, Engineering and Math (T-STEM), or College for All reform initiatives. Grantees selecting one of these models may expend grant funds to support the program requirements listed below.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

The Texas Designed Model for Tier III contains the applicant's option of the Texas Early College High School (ECHS), Texas Science, Technology, Engineering and Math (T-STEM) or College for All initiatives which all focus on the basic principles and the key elements as required by the TEA Designed Model for Transformation described above. These three models are described below in further detail.

Schedule #4—Program Summary and Application Requirements

Part 1: Grant Program Information:

Allowable Activities Cont.

- Early College High Schools (ECHS) are autonomous, small schools designed to create a seamless transition between high school and college. ECHS provide a course of study that enables students to receive both a high school diploma and either an associate's degree or at least 60 credit hours towards a baccalaureate degree. Strong collaborative partnerships between schools and the IHE are developed to ensure the ECHS design elements are met. Schools implementing the ECHS model must apply for designation status through the Early College High School designation process. The pre-implementation period is required to design, develop and prepare for implementation with the guidance of the state approved technical assistance provider.
- Texas Science, Technology, Engineering and Math (T-STEM) academies are rigorous secondary schools focusing on improving instruction and academic performance in the STEM areas. T-STEM Academies use the Design Blueprint to build and implement STEM schools that address the seven benchmarks: 1) mission driven leadership; 2) school culture and design; 3) student outreach, recruitment, and retention; 4) teacher selection, development and retention; 5) curriculum, instruction, and assessment; 6) strategic alliances; and 7) academy advancement and sustainability. Schools implementing the T-STEM model must apply for designation status through the T-STEM designation process. The pre-implementation period is required to design, develop and
- College for All infuses college-ready reforms into an LEA model that enables every student to graduate with a minimum of 12 college-level credits and prepared to earn a post-secondary credential or degree. Design elements/strategies for this model include the following: 1) comprehensive district approach; 2) college-ready curriculum and instruction program; 3) strong P-16 partnerships; 4) comprehensive academic and social supports; 5) intensive summer academy for rising ninth graders including administration of a Texas Success Initiative assessment to determine level of readiness for college-level courses; and 6) college-going culture. The pre-implementation period is required to design, develop, and prepare for implementation with the guidance of the state approved technical assistance provider.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

Texas Title I Priority Schools Grant, Cycle 2

Schedule #4A- Program Abstract

Part 1: Grant Eligibility

Tier I Eligible Campus
 Tier II Eligible Campus
 Tier III Eligible Campus

Part 2: Grant Program Summary: Provide a brief overview of the program you plan to implement on the campus. Be sure to address fundamental issues such as your local program goals and objectives that align with the RFA purpose and goals, rationale for program design, etc. Address the specific goals, barriers, or weaknesses to be addressed by the intervention model to be selected. A response to this question must be completed in the original submission regardless of whether the LEA/campus has selected an intervention model at this time or not. Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Elgin ISD along with EHS has selected the Transformation model for improvement. EHS has been in school improvement and is currently at Stage 1-year 2 campus for math academic achievement. The sub-groups that have fallen below have been Limited English Proficient (LEP) and Special Education (Sp.Ed.) in math. The campus continues to make gains with all of the student populations in their academic performance. However, with the continuing increase of expectations for the AYP standard, it is very likely that other sub-groups will fall below the expected pass rate in the 2010-2014 school years in math and reading. Students who fall into the African American (AA), and Economically Disadvantaged (ED) group may not meet the standard for 2011. There is a continuing need for improved academic performance, increased use of data to drive instruction, increased leadership effectiveness, increased learning time, increased parent and community involvement, improved school climate and improved teacher quality. Sound organizational theory demands that any organization participate in a constant cycle improvement starting with an examination of current practice, plan for improvement of current practice and implementation of improvement. The cycle starts over with and examination of current practice.

The campus has made significant progress toward implementation of the 7 critical success factors but continues to work toward the best possible educational and academic opportunities for the diverse and economically disadvantaged students. There are pockets of success at EHS and there are strengths upon which to build. However, there is still need for significant change in order to allow for the success of all students. Many changes in governance have taken place the past year including the implementation of Professional Learning Communities (PLC), implementation of data examination using the Eduphoria system for formative and summative assessments, required tutorials. There has been job-embedded staff development in the area of Math, but the need continues for improvement in teacher quality as demonstrated by the Comprehensive Needs Assessment (CNA). Job-Embedded staff development and instructional coaching is needed in other academic areas and there is a continuing need for the math teachers to improve their practice. The administrative team is in need of coaching. The opportunities for increased learning time are being implemented. The extended learning time needs to be increased and student participation as well as parent and community support need to increase for this campus to continue along the road to academic success.

School climate is an issue to be addressed. The changes in governance and procedures have left some staff members unsure of where they stand in relationship to the goals of the campus. The vision of academic success for all students has not yet been adopted by all staff. Therefore there is a need for the vision of student success to continue to be shared and demonstrated by the leadership of the school.

Elgin High School is on the edge of student success for all. The elementary schools which feed into EHS continue to improve the overall quality of the academic preparation of students bound for EHS. Elgin ISD is willing and committed to doing everything to encourage student success for the diverse student population that is served within the school district boundaries.

Section C - Process Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana)

Describe, in detail, the process the LEA and campus followed to identify the needs of the campus.

The campus principal gathered data used for the yearly Comprehensive Needs Assessment (CAN) for Title I federal funding. That data included demographics for the campus, student achievement on TAKS by sub-group, examination of school culture and climate by looking at survey data from a campus snap-shot, staff quality by examining teacher PDAS documents and walk-through documents as posted on eduphoria and student pass rate by course and class, curriculum and instruction by reviewing CSCOE implementation and examination of family and community involvement by looking at surveys from the campus snap-shot.

The CAN was reviewed by the campus leadership team along with central office staff to establish priorities for services in the TTIPS grant.

1. Provide an alternative schedule or school within a school concept for students who need flexibility to attend and complete high school.

Part 2: Project Management

Section A: LEA (District) Capacity Responses are limited to *one page*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Capacity – Describe the LEA's capacity to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities of the school intervention model selected.

Grant activities will be managed in the office of academic services in EISD. Currently the academic services offices manage all federal programs grants and other state grants procured by EISD. The assistant superintendent of academic services will work closely with the campus and staff to assure that all grant activities are conducted in a timely and correct manor. The Assistant Superintendent has 21 years of public school experience with 14 of those years being at the level of campus administrator or higher. The academic services office staff focus on academic improvement for students in EISD. Over the past 6 years EISD has worked to have one elementary school exit school improvement. The district has also had a second elementary school become a recognized campus for 3 consecutive years. The third elementary school was a state recognized campus for the 2009-10 school year. The LED, with additional financial and technical support available through the TTIPS grant is committed to moving EHS out of the school improvement process.

The assistant superintendent of academic services will monitor the implementation of the activities at the campus and classroom level. The principal at the campuses is supervised by the assistant superintendent. This organizational arrangement should assure the success of the implementation of the grant activities.

The office of academic services works closely with campuses as well as the district's business office to assure payment of contracts to vendors, monitors the implementation of services, completes reports for grants and other funding opportunities.

If granted the pre-implementation time would include interviewing and selecting additional teaching staff to allow for common planning periods and PLCs. The district would also have to select a district Sheppard for the grant. It would be necessary to interview and select a campus parent liaison and community outreach person. Meetings will need to be held with teacher and staff to determine the way to provide entire campus incentives for success as well as decide upon methods for selecting students to be mentored and compensation for mentoring based upon student success. The central office staff will conduct an examination of the effectiveness of the current principal because this is a Tier III campus to determine if the principal may stay in place or if the principal needs to be replaced. Any hiring will be conducted through the Human Resources Department of EISD.

The district will select any external providers to provide assistance for instructional coaching, leadership coaching, and programs to allow for intervention for students who demonstrate academic need. The LEA has worked closely with ESC XIII and will continue to use the services provided for instructional coaching. The LEA will also work with local IHE to locate other candidates for leadership coaching.

Program Continuation and Sustainability - Describe how the LEA will sustain the campus reforms after the funding period ends.

The goal of the reforms is to close achievement gaps for students by changing practices at EHS. Many changes will become part of the campus climate during the three years of the TIPPS grants. The LEA will continue to use program evaluation and student and teacher data to drive decisions about programs at EHS both during the grant and after the grant. By training and supporting staff from the classroom level through the administration level the cycle of organizational change will be self perpetuating.

Changes in instructional practices will be maintained by continued monitoring. Changes in the use of data to drive instruction will be monitored by central office. Teachers and administrators will be encouraged to stay in the district by having the best possible pay and incentives possible.

Part 3: Intervention Model

Section B: Model Selection Process – Describe in detail:

1. The process the LEA and campus followed to select a school intervention model that aligns to the identified needs of the campus.

Responses are limited to **three pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

The needs of the campus were reviewed by the district planning team made up of the campus administrator's, some staff members, parents and central office personnel. After needs for campus intervention were identified, the 4 transition models were reviewed by watching the modules explaining each.

The transformation model was selected by the committee because it best fits the needs of the campus. The campus has been working to improve student achievement. A new principal has been selected for the 2010-2011 school year. The formative assessments show that the academic gains in Math are happening at the campus. However there is still a need for support for teachers, staff and administrators. All of the administrators are very new at their jobs and need continued support that could be allowed by using the transformation model.

There is also a strong need for continuing job-embedded staff development for the teaching and instructional staff. Many of the requirements of the grant transition model aligned with the needs identified by the district planning team. Staff development training would benefit the campus and the LEA. Attending the NSDC conference will be beneficial for all of the team.

The campus has had a campus snapshot, but the district would find out information about specific systEHS by having a district snapshot. The on-site technical assistance would be beneficial to administrators and instructional staff. The availability of ongoing staff development through webinars, podcasts and publications through the support of SIRC would be beneficial to all of the staff as well.

During a principal competency review, the principal was found to be competent but still in need of support because of the number of years of experience. The transformational model will be of great benefit. The leadership coaching would be great for administrators and teacher leaders.

The LEA using the eduphoria system and will continue to provide training for campus personnel to manage student performance as well as teacher performance by sub-groups in both formative and summative assessments.

The team felt very strongly about establishing a larger parent and community support system for students. Parent and community involvement is also needed.

Schedule #4E—Program Waivers

Waiver Requests

Applicants must check the waivers in which the LEA campus intends to implement:

- Extending the period of availability of school improvement funds.

This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.

- "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.

Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.

- Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.

This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.

- L. The applicant agrees to maintain effective control over and accountability for all funds, property, and other assets. Public school districts, open enrollment charter schools, and regional education service centers in Texas must comply with the accounting requirements in the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide*, Texas Education Agency (34 CFR 74.21; 34 CFR 80.20; TEA *Financial Accountability System Resource Guide*).

If Contractor fails to make timely payment, Agency may obtain such money from Contractor by any means permitted by law, including but not limited to offset, counterclaim, cancellation, termination, suspension, total withholding, and/or disapproval of all or any subsequent applications for said funds.
- O. Records Retention:** Contractor shall maintain its records and accounts in a manner which shall assure a full accounting for all funds received and expended by Contractor in connection with the contract project. These records and accounts shall be retained by Contractor and made available for programmatic or financial audit by Agency and by others authorized by law or regulation to make such an audit for a period of not less than five years from the date of completion of the contract project or the date of the receipt by Agency of Contractor's final claim for payment or final expenditure report in connection with this contract, whichever is later. If an audit has been announced, the records shall be retained until such audit has been completed.

Contractor understands that acceptance of funds under this contract acts as acceptance of the authority of the State Auditor's office, or any successor agency, to conduct an audit or investigation in connection with those funds. Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirements to cooperate is included in any subcontract it awards.

- J. **Gun-Free Schools Act:** The local education agency assures that it is in compliance with Section 37.007(e) of the Texas Education Code, which requires expulsion of a student who brings to school or possesses at school a firearm as defined by 18 U.S.C. Section 2891 [pursuant to the requirements in P. L. 107-110, Section 4141(d)(1)]. In addition, the local educational agency certifies that it has a policy requiring referral to the criminal justice or juvenile delinquency system of any student who brings a firearm or weapon to school [P. In addition to the standard terms of award, all funding provided under the Recovery Act will be subject to the provisions, assurances and conditions for American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act). **The applicant understands that failure to comply with one or more of these provisions and assurances may result in the Texas Education Agency (TEA) taking one or more enforcement actions authorized in Title 34 of the Code of Federal Regulations (CFR) §§ 74.62 and 80.43.**

Terms defined:

- RECIPIENT – The term “recipient” means a State and includes the Texas Education Agency (TEA). It also includes any entity that applies for and receives a grant directly from the federal government.
- RECOVERY FUNDS –The term “recovery funds” means any funds that are made available from appropriations made under the Recovery Act.
- RECOVERY ACT – the American Recovery and Reinvestment Act (ARRA) of 2009 (P.L. 111-5)

- GRANTEE – the subrecipient of TEA and applicant of funds.

A. One-Time Funding: Unless otherwise specified, ARRA funding is considered one-time funding that is expected to be temporary. Grantees should expend funds in ways that do not result in unsustainable continuing commitments after the funding expires. Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA’s reporting and accountability requirements, and promptly begin spending funds to help drive the nation’s economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.

B. Period of Availability and Encumbrances/Obligations: Unless otherwise specified in the Notice of Grant Award (NOGA), all funds are effective from the beginning date specified on the Notice of Grant Award (NOGA) through June 30, 2014. Carryover of funds will not be available beyond that date. Unobligated/unexpended funds will be returned to the Department of Treasury. The paragraph in the General Provisions pertaining to Encumbrances and Obligations applies as follows:

All goods must be received and all services rendered between the beginning and ending dates of the contract. The contractor must liquidate (record as an expenditure) all obligations (encumbrances) incurred under the contract no later than 30 days after the ending date of the contract, to coincide with the submission of the final expenditure report, due 30 days after the ending date of the contract. In no manner shall encumbrances be considered or reflected as accounts payable or as expenditures, and an encumbrance cannot be considered an expenditure or accounts payable until the goods have been received and the services have been rendered. Obligations that are liquidated and recognized as expenditures must meet the allowable cost principles in OMB Circular A-87, A-21, or A-122 (as applicable) and program rules, regulations, and guidelines contained elsewhere. This applies to all grant programs, including state and federal, discretionary and formula.

All such are hereby incorporated by reference.

E. DUNS Number: All entities receiving any federal funds, including ARRA funds, are required to have a DUNS (Dunn & Bradstreet) number. The DUNS number serves as the grantee organization's unique identifier for reporting federal funds received and expended. TEA must use this same DUNS number to report grant awards and expenditures for subrecipients under ARRA to the website specifically provided for in ARRA – <http://www.FederalReporting.gov/>. The assignment of a DUNS number is a condition of award of ARRA funds and must be validated by TEA prior to issuing a NOGA for ARRA funds. (Section 1512[c][4] of ARRA and the federal Office of Management and Budget (OMB) to comply with the Federal Funding Accountability and Transparency Act [FFATA], P.L. 109-282. OMB adopted the DUNS number as the "unique identifier" required for reporting under FFATA).

The format for collecting this information has not yet been determined by TEA. Subsequent instructions will be provided to grantees for reporting this information. By submitting this application, the grantee agrees to submit this information in the time, form, and manner requested by TEA. TEA must report the information to the Secretary of Education by March 31, 2010 (ARRA, Title VIII, Department of Education, Education for the Disadvantaged).
2. **Separate Tracking and Monitoring of ARRA Funds:** ARRA funds must be separately tracked and monitored independently of any non-Recovery Act funding. Funds shall not be commingled with non-Recovery Act funds. Grantees must submit certain information to TEA in order for TEA to comply with quarterly reporting requirements established in Section 1512 of the Recovery Act. Recovery Act-related reporting requirements are incorporated as a special condition of this award.
