Texas Title I Priority Schools Grant, Cycle 2

Schedule #4—Program Summary and Application Requirements

Part 1: Grant Program Information;

Summary of Program: Purpose and Goals

School Improvement Grants (SIG), authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA), are grants through the Texas Education Agency (TEA) to local educational agencies (LEAs) that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of students in their lowest-performing schools. Under the final requirements published in the *Federal Register* in October 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are the lowest-achieving 5 percent of a State's Title I schools in improvement, corrective action, or restructuring, Title I secondary schools in improvement, corrective action, or restructuring with graduation rates below 60 percent over a number of years, and certain Title I eligible (and participating) elementary schools that are as low achieving as the State's other Tier I schools ("newly eligible" Tier I schools). Tier II schools are the lowest-achieving 5 percent of a State's secondary schools that are eligible for, but do not receive, Title I, Part A funds, secondary schools that are eligible for, but do not receive, Title I, Part A funds with graduation rates below 60 percent over a number of years, and certain additional Title I eligible (participating and non-participating) secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years ("newly eligible" Tier II schools). An LEA also may use school improvement funds in Tier III schools, which are Title I schools in improvement, corrective action, or restructuring that are not identified as Tier I or Tier II schools and , certain additional Title I eligible (participating and non-participating) schools ("newly eligible" Tier III schools).

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must fully implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

Allowable Activities

Tier I and Tier II Grantees

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

Tier III Grantees

- Tier III grantees may select one of the four intervention models in the federal regulations. If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Tier III grantees may select and expend grant funds for the Texas Tier III Transformation model, or the Texas Designed Model for Early College High Schools (ECHS), Texas Science, Technology, Engineering and Math (T-STEM), or College for All reform initiatives. Grantees selecting one of these models may expend grant funds to support the program requirements listed below.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

The Texas Designed Model for Tier III contains the applicant's option of the Texas Early College High School (ECHS), Texas Science, Technology, Engineering and Math (T-STEM) or College for All initiatives which all focus on the basic principles and the key elements as required by the TEA Designed Model for Transformation described above. These three models are described below in further detail.

Schedule #4—Program Summary and Application Requirements

Part 1: Grant Program Information:

Allowable Activities Cont.

- Early College High Schools (ECHS) are autonomous, small schools designed to create a seamless transition between high school and college. ECHS provide a course of study that enables students to receive both a high school diploma and either an associate's degree or at least 60 credit hours towards a baccalaureate degree. Strong collaborative partnerships between schools and the IHE are developed to ensure the ECHS design elements are met. Schools implementing the ECHS model must apply for designation status through the Early College High School designation process. The pre-implementation period is required to design, develop and prepare for implementation with the guidance of the state approved technical assistance provider.
- Texas Science, Technology, Engineering and Math (T-STEM) academies are rigorous secondary schools focusing on improving instruction and academic performance in the STEM areas. T-STEM Academies use the Design Blueprint to build and implement STEM schools that address the seven benchmarks: 1) mission driven leadership; 2) school culture and design; 3) student outreach, recruitment, and retention; 4) teacher selection, development and retention; 5) curriculum, instruction, and assessment; 6) strategic alliances; and 7) academy advancement and sustainability. Schools implementing the T-STEM model must apply for designation status through the T-STEM designation process. The pre-implementation period is required to design, develop and
- College for All infuses college-ready reforms into an LEA model that enables every student to graduate with a minimum of 12 college-level credits and prepared to earn a post-secondary credential or degree. Design elements/strategies for this model include the following: 1) comprehensive district approach; 2) college-ready curriculum and instruction program; 3) strong P-16 partnerships; 4) comprehensive academic and social supports; 5) intensive summer academy for rising ninth graders including administration of a Texas Success Initiative assessment to determine level of readiness for college-level courses; and 6) college-going culture. The pre-implementation period is required to design, develop, and prepare for implementation with the guidance of the state approved technical assistance provider.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4—Program Requirements and are incorporated by reference herein.

Schedule #4A—Program Abstract

Part 1: Grant Eligibility

Tier I Eligible Campus
 Tier II Eligible Campus
 Tier III Eligible Campus

Part 2: Grant Program Summary. Provide a brief overview of the program you plan to implement on the campus. Be sure to address fundamental issues such as your local program goals and objectives that align with the RFA purpose and goals, rationale for program design, etc. Address the specific gaps, barriers, or weaknesses to be addressed by the intervention model to be selected. A response to this question must be completed in the original submission regardless of whether the LEA/campus has selected an intervention model at this time or not. Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

The Bridges Center is an alternative academic learning center or "School of Choice" established by the Athens Independent School District to address the academic needs of at-risk students in AISD. Currently the enrollment includes high school students in grades 9 through 12. There is a process in place to make sure that the highest priority is given to students with the greatest needs. These needs include fifth year seniors, students who are one to two years behind grade level, students who are teen parents or pregnant, over-aged students in grades nine through eleven, potential dropouts, and other students depending on extenuating circumstances. Priority is important due to available space and staff available.

Our objectives include:

- Recruit and retain highly qualified, motivated and committed personnel.
- Staff development that includes classroom management, technology, and research based best practices.
- Increased parental involvement.
- Increase graduation/completion rate and attendance while reducing dropout rate
- Increase success on state assessments such as TAKS as well as college preparation/readiness
- Address special needs/accommodations of all students.
- Develop working relationship with different agencies with the community such as TVCC and the HELP Center
- Ensure school receives ongoing, intensive technical assistance and related support from within our campus, our district, Region Seven ESC, and SIRC.

This is the first year for the current administrator of the Bridges Center. The Bridges Center will have one more staff member assigned to the campus. The computers on the campus are being replaced with upgraded machines. The Bridges Center has recovered five students who dropped out and four have received their high school diplomas; the fifth one will graduate during the summer.

Strategies to support the three principles of the Transformation model include:

- Develop and increase teacher and school leader effectiveness.
 - Recruit and retain qualified personnel from a variety of racial, ethnic, and language groups
 - Provide mentor program for new teachers or teachers new to the district
 - Provide on-going, embedded staff development in appropriate areas
 - Implement comprehensive instructional reform strategies.
 - Use data to drive instructional strategies such as TAKS and other assessment data
 - Promote continuous use of student data
 - More comprehensive program to meet needs with effective accommodations/success on state assessments
 - Increase learning time and create a community-oriented school.
 - Implement an innovated schedule that meets the needs of varied learners.
 - Campus will seek to develop a summer program to meet the needs of students.
 - Provide operational flexibility and sustained support.
 - Implement an innovated schedule that meets the needs of varied learners.
 - Develop effective and sustainable parental involvement program.
- Ensure school receives ongoing, intensive technical assistance and related support from within our campus, our district, Region Seven and SIRC.

Schedule #4B—Program Description

Part 1: Comprehensive Needs Assessment Cont.

Section C: Process Responses are limited to the space provided, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Describe, in detail, the process the LEA and campus followed to identify the needs of the campus.

The AISD faces several challenges in addressing low student achievement. While some static or recurring factors such as demographics or student populations cannot be changed, other variables, such as student achievement, teacher training, and instruction systematically can be addressed. The needs assessment included the review of data from many sources. Although many factors were examined while determining the focus of the proposed project, ultimately it was those variables that the District could have the greatest influence upon that guided the final decision.

Input from the Campus Needs Assessment Committee was crucial in identifying the needs which they feel will make the most impact at this time. Based on the decisions of the Committee we have developed a plan that will meet the needs of our students. Our team has gathered information from the following data:

1. The first part of the plan is the need for additional staff (an ELA teacher, a science teacher, a counselor, and an instructional aide). These individuals would make a meaningful impact on students in the content areas, TAKS preparation and success, college readiness, attendance, and graduation/completion rates.
2. TAKS records—we will be looking at the TAKS historical data for the past three years of our students to determine the specific needs of our students and percent of objectives mastered for both regular students and students with special needs. The results of this endeavor will enable us to evaluate the data and to address our teaching strategies to target specific needs.
3. Attendance records—we will use the attendance for the purpose of targeting truant students who need the assistance for TAKS preparation, attaining credits for graduation, and preparation for work and college which also affect school resources.
4. We will be reviewing and updating our parent involvement program to insure that all parents and stakeholders are aware of all of the programs and activities that their children are participating in, attendance, grades, and TAKS scores. We also want parents to be able to address any of their concerns in a timely manner.
5. We will make more effective use of PDAS records, walk-through documentation and other data to allow for the identification of our teachers' strengths and weaknesses, allowing us to choose specific professional development and training.
6. We will continue to monitor the dropout rates of our students.
7. Graduation/completion rates will be monitored closely to allow us to meet any needs in a more timely basis.
8. Monitoring of discipline records will allow us to target students who are in need of counseling or other services.
9. Working more closely with the Special Programs staff will allow us to identify students who are needing targeted service and meet the needs of all students who need accommodations.
10. We need to ensure that all of our stakeholders receive accurate and timely information about our AEP program, the activities of their children, campus activities, and district activities both in English and their native language.

Capacity -- Describe the LEA's capacity to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities of the school intervention model selected.

The Athens Independent School district has the experience of managing other grant programs such as the PreK Expansion Grant, TAPS.

The district directors and coordinators collaborate with the finance department to ensure compliance with required accounting procedures and campus personnel to ensure implementation and appropriate documentation requirements are followed. The district procedural manual is utilized when requesting and utilizing funds. The district has a partnership with our local community college, Trinity Valley Community College, to implement our Early College High School Program. The guidance and procedures established will guarantee the ability of the district and campus to use grant funds to provide adequate resources and related services/support to the campus to implement, fully and effectively, the required activities for the intervention model selected for our district.

The resources and services will include additional personnel to enhance instruction; staff development; supplemental materials in reading, math and science to promote college readiness; flexible time schedule to accommodate student needs and improve attendance; promote a positive school climate and increased parental involvement opportunities. The Human Resource department will assist in providing guidance and support for hiring highly quality and qualified staff. The directors, coordinators and secondary curriculum specialist will work together to provide appropriate staff development through webinars, on-site training and utilizing the regional service center. Researched based materials and programs, such as Study Island will be utilized to supplement the core subject areas. A flexible time schedule will be implement to encourage and improve student attendance. Part 2: Project Management Cont.

Section A: LEA (District) Capacity Responses are limited to *one page*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Partnership/Involvement of Others – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of the school intervention model.

Currently this year our campus has made a few changes that have allowed us to better serve our students at The Bridges Center. While these changes have been targeted at specific student needs, we have consulted with the necessary individuals involved with the particular student.

The campus coordinator/administrator has held several meetings with parents during the year. These meetings allowed the campus administrator to discuss with each parent various issues of their child such as attendance, student progress in both academic and behavioral areas, student goals both for the immediate future and school year, TAKS, etc.

The campus administrator also met with each student at least once a week. These discussions included immediate and long range academic goals, behavior concerns, attendance issues, as well as other concerns and any concern the student might have that needed to be addressed.

Members of the Athens ISD District Support Center were approached for assistance on issues where their expertise or coordination was needed. Some of the staff members consulted included the Curriculum Director, Director of Special Programs, Technology Director, Financial Officer, Information Office, Director of Federal Programs, Assistant Superintendent, and Superintendent.

The Bridges administrator also consulted with the HELP Center on several individual student issues and general programs such as the PEP program. Various individuals at Trinity Valley Community College were also on behalf of student questions and needs as it related to college preparation.

The grant was discussed at the last Needs Assessment Committee meeting, and it was agreed to apply for this grant. More work is being done at this time.

Schedule #4B—Program Description

Part 2: Project Management Cont.

Section A: LEA (District) Capacity Responses are limited to *one page*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Management of Grant Activities – Describe how the LEA and campus will modify its practices and/or policies, as necessary, to ensure its implementation of the intervention(s) fully and effectively.

The Bridges Center will contract with Region Seven ESC and Region 13 ESC SIRC to secure technical assistance and professional development to implement the TEA approved Transformational Model. Necessary adjustments will be addressed to follow the required activities of the transformation model. The Grant Project Manager will be trained in all aspects of the TTIPS Grant Transformational Model and will be familiar with the accountability components that the LEA/campus will be required to implement. Additional activities will be added to the required activities as necessary and the LEA will identify the performance measures for the campus.

Athens ISD will provide support as needed via implementation of current district curriculum, the use of Odyssey Ware and other delivery systems available, and other support personnel and resources as needed to implement the programs and interventions recommended as part of the intervention model. On behalf of the campus, the grant project manager will follow the proper channels to request the necessary assistance for implementation of the program with the understanding that the grant requirements are a priority and must be given the proper attention. The departments that provide support in specific areas will continue to monitor using the same monitoring procedures except where new models will need to be implemented to align with new programs. In this case, the assisting departments will work in concert with the campus to develop monitoring systems to track progress and increase capacity in the specific areas

The grant project manager will oversee operational activities that are in place and identify the necessary purchases/costs that will be needed to fully implement the school's transformational model. On-going monitoring and formative evaluation/assessment will occur to ensure full and effective implementation of the grant.

Section A: LEA (District) Capacity Responses are limited to **one page**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

Resource Management – Describe how the LEA/campus will align other resources (federal, state, local, and community) with the school improvement intervention.

The Athens ISD Superintendent and Chief Financial Officer will, before full implementation funds are made available, insure that all early implementation activities have been completed . Successful completion of the early implementation will be measured in the Quarterly Implementation Reports, the Model Selection and Description Report, and through participation in TEA technical assistance. Athens ISD will submit the Model Selection and Description Report to TEA no later than the required deadline. Athens ISD will demonstrate successful completion of the following activities: 1) Comprehensive Needs Assessment process, 2) Establish the grant budget by the required categories, 3) Identification and Selection of the intervention model, 4) Development of activities to implement selected intervention model, 5) Development of Timeline of Grant Activities. Athens ISD currently oversees various state and federal grants and funding sources, with proven history of fiscal accountability and resource procurement.

The District shall provide sufficient resources and related services/support to effectively implement the project by continuing to provide the same amount of local (199) funding that is determined by the funding source for this campus to improve even if the campus were not to be selected for the grant. This also includes the State Compensatory Education (163) funding for students determined to be at risk and meet all of the program criteria for funding.

Additionally, this campus receives supplemental federal funds such as Title I, Part A (211), Title I, Part C (212), Title II, Part A (255), Title II, Part D (262), and Title III, Part A (263) and all other federal funds associated with the Special Education Program. These supplementary shall continue to be afforded to the campus as long as they are available.

The assigned local funds are for the day-to-day operations and for the state and local requirements. While the federal funds and SCE funds are supplemental to those funds. Additional ARRA funds will be included according to the formula of distribution.

The District shall commit to provide funds for the custodial staff, maintenance materials and crews, yard maintenance equipment and crews, utilities and communications, classroom and office furniture, transportation, security, staff members, and food services. These resources shall continue at this campus and shall be increased as needed.

All supplemental funds will continue to be used as determined through a local comprehensive needs assessment (CNA) and according to program design and rules of acceptable use and not acceptable use as determined by the particular regulations that accompany the funding. The Grant funds will provide extra supplementary funds that shall be specific to the CNA for this campus as well as the programs that are listed for school improvement in the grant.

LEA Support – Describe how the LEA will structure and implement an individual or office with responsibility for supporting the campus' school improvement efforts.

Athens ISD will designate the Director of Federal Programs as the primary office with the responsibility for supporting the campus with improvement efforts. The Director of Federal Programs, Dr. Diana Vaughn, will serve as the district liaison to TEA and those providing technical assistance and/or contracted service to Athens ISD and/or campus as part of the approved grant. Dr. Vaughn will have the authority for ensuring the effective implementation of the grant option approved by TEA at The Bridges Center as follows:

1. Insure that financial assistance provided under the grant program will supplement, and not supplant, the amount of state and local funds allocated to the campus.
2. Utilize School Improvement Grant to implement fully and effectively an intervention in each Tier I and Tier II school that the LEA commits to serve consistent with the final federal requirements.
3. Establish annual goals for student achievement on the State's assessments in both reading/language arts and mathematics and measure progress on the leading indicators in section III of the final federal requirements in order to monitor one Tier II school, The Bridges Center,
4. Report to the TEA the school-level data required under section III of the final federal requirements.
5. Participate in any evaluation of the grant conducted by the U.S. Department of Education, including contractors, or the Texas Education Agency, including its contractors.
6. Insure that a team from the grantee LEA/campus will attend and participate in grant orientation meetings, technical assistance meetings, other periodic meetings of grantees, the Texas School Improvement Conference, and sharing of best practices.

Program Continuation and Sustainability – Describe how the LEA will sustain the campus reforms after the funding period ends.

The Athens ISD is committed to sustain and maintain the campus reforms efforts beyond the TTIPS Grant. Interventions, programs, or changes will be monitored, reviewed, and evaluated to determine level of implementation and successful transformation of the campus. Effective practices, programs, along with the plan shall be sustained, improved, and the necessary funding shall be continued. This is a common practice in Athens ISD. As a result of the transformation efforts with The Bridges Center, staff development, supplies, materials, equipment and technology acquired as per grant funding, will allow the academic achievement to continue. Start up costs, sustained with grant funding, will not be reoccurring expenditures. Athens ISD is committed to the success of all students; therefore any costs related to sustaining the transformation model components will be part of the district yearly budgeting process to insure continued improvement. Athens ISD will also continue pursuing other funding sources to enhance district program offerings and resources.

Section A: LEA (District) Capacity Responses are limited to *one page*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

External Providers -- Describe how the LEA will recruit, screen, and select external providers to ensure their quality.

The Athens ISD currently secures services from Region Seven ESC and will also secure services from Region 13 ESC SIRC to implement the TTIPS Grant Transformational Model. Athens Independent School District is a member of several state and local purchasing cooperatives. Membership in these buying cooperatives ensures that competitive pricing and services will be provided on all purchases.

Texas Education Code 44.031 (a);(b), states that all contracts, except contracts for the purchase of produce or vehicle fuel, valued at \$50,000 or more in the aggregate, for each 12-month period are to be made by the methods that provide the best value to the district. The law enumerates several options for competitive procurement that are available to school districts.

Request for Proposals or Request for Qualifications is a formal process that is an option available to Athens ISD to recruit and select external providers. This process ensures that Athens ISD is compliant with all Federal Procurement Laws for goods and services. In addition, Athens ISD will require any external provider that has direct contact with students to comply with Senate Bill 9. Senate Bill 9 directs school district contractors to obtain State and National criminal history background searches on all who will have direct contact with students, and to receive those results through the DPS criminal history clearinghouse.

Furthermore, local district procedures require that all state and federal purchasing guidelines are adhered to and call for a more stringent local policy. Local requirements are: Local district purchasing procedures strongly recommend purchasing from Board Approved Vendors and Purchasing Cooperatives. Any deviation from the vendor list is non-negotiable unless the item being purchased is a sole source but all efforts should be made to obtain quotes and or purchase from vendors participating in local bid and purchasing cooperatives that the school district belongs to. Purchasing a single item over \$1,000.00 requires a minimum of three price quotes from board approved vendors. If an item must be purchased from a vendor that has not participated in a formal bid or cooperative three quotes must be obtained for a \$1000.00 purchase. Purchases of over \$25,000.00 require competitive bids. Once the quotations or bids have been received, the purchases are approved by Athens ISD School Board of Trustees. In general this process can be completed within a 15-30 day time frame.

Site Visits – If the intervention program includes site visits to other campuses successfully implementing the intervention model, describe the process for selecting the locations and the expected outcomes of the site visit/s.

Although AEPs have been in operation for several decades and continue to expand in scope and numbers, limited empirical research is available on developing or implementing effective intervention approaches for at-risk students (Aron, 2006; Carswell, Hanion, O’Grady, Watts, & Pothong, 2009; Gilson, 2006). Research on alternative education in rural areas is even more limited. However, based on her case study, Bates (1993) stated that “the four characteristics of successful urban schools for at-risk students can also be found in rural communities as well.” The factors she listed were size, a caring staff, school as a community, and flexibility.

The research that does exist on AEPs shows some additional characteristics of successful programs:

- Academic instruction based on high standards and engaging, creative instruction
- High expectations for all students, in terms of performance, attendance, and behavior
- Personalized, self-paced academic programs
- Instructors who choose to be part of the program, are committed, receive ongoing professional development, and have a role in governance
- Site-based, autonomous management
- Student voice in school operations
- Safe learning environment and a sense of community
- Meaningful, caring relationships between students and teachers
- Student supports to meet social and emotional needs, as well as academic needs
- Clear rules of behavior that are fairly and consistently enforced
- Links to community organizations
- Work readiness
- Parent involvement

(Aron, 2006; Bates, 1993; Cable et al., 2009; Foley & Pang, 2006; Gilson, 2006; Johnston, Cooch, & Pollard, 2004; Pollard & Thorne, 2003)

Based on the above research that does exist on AEPs characteristics of successful programs and inquiring about AEPs in comparison to our school district, location and the successful implementation of the Transformation intervention model. It was determined that we would scheduled on-site visits to at least two of the following campuses listed below.

- **Azleway Charter School, Tyler, TX**
- **Academy High School, Buda, TX**
- **Paul A. Brown Alternative Center, Beaumont, TX**

The on-site visits will assists us with the implementation of the Transformational model. Staff will be able to view what this model might look like when implemented properly, ask questions and share their thought s and ideas of how this might be carried out in our district. The site-visits will also insure compliance of the grant.

Part 3: Intervention Model

Section B: Model Selection Process –Describe in detail:

1. The process the LEA and campus followed to select a school intervention model that aligns to the identified needs of the campus.

Responses are limited to **three pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

The Needs Assessments Committee identified both assets for The Bridges Center to build on and deficits for the campus to address. With these assets and deficits in mind, the campus set to select a school intervention model that aligns with both. Having examined the data available and the progress being made in graduation/completion rates, attendance, and the current situation, the closure, restart, and turnaround models were not acceptable solutions. The transformation model offered the best solution for achieving the goals of The Bridges Center and the Needs Assessment Committee and instituting positive change in the school.

A large percentage of the graduating students indicated that they were going to pursue education after high school. Accordingly, parents indicate that they want their child to continue his/her education. The goal of the AISD is to graduate "every student college or work ready." The transformation model seemed to better support students in becoming both career ready and college ready. The Association for Career and Technical Education (ACTE) speaks to the need to produce students who are both career ready and college ready. ACTE defines career ready as having: 1) core academic skills and the ability to apply those skills to concrete situations; 2) employability skills such as critical thinking, team work, responsibility and technology use which are needed in all professions; and 3) technical, job specific skills related to a specific pathway.

Research shows that students who have traditionally disengaged from the learning process can become engaged provided they are challenged and their educational experience is relevant to them as individuals. Although technology is used by all students, the campus and the Needs Assessment Committee recognize the need to increase the use of technology as a skill for students to be career and college ready as well as a tool to improve the quality of instruction.

The Needs Assessment Committee recognized that The Bridges Center is currently staffed by one administrator and one teacher. A second teacher will be added during the 2011-2012 school year. However, the Committee recommended that a ELA teacher and a science teacher be added to the staff of The Bridges Center along with a counselor and an educational aide. The additional staff would be provided for by the TTIPS grant for the three year period of the grant. The additional staff would also provide more direct instructional assistance in the areas of ELA and science directly impacting student success in both mastering the TEKS as well as being more successful in mastering the states assessments.

The addition of a counselor would allow for a staff member to become involved at a very deep level with assisting Bridges Center students with college preparation and readiness. This assistance would begin with the selection of courses, selection of appropriate colleges/universities, filling out the appropriate forms, testing requirements, assisting with securing financial aid and scholarships, being a liaison between The Bridges Center and centers of higher education as well as working with parents. The counselor would also provide valuable assistance to students when it comes to career choices, aptitudes, and preparations for their chosen careers.

Since almost every student in The Bridges Center is an at-risk student, the counselor would provide invaluable assistance in working with each of the students in addressing personal issues, stress related to both school and home, and address any mental health issue that might arise.

The additional instructional staff, counselor, and instructional aide will provide the students with additional resources to assist them in mastery of the TEKS, more opportunities for success on state assessments, assistance in college preparedness and readiness, career preparedness, increased attendance, and provide additional avenues for working through outside influences which tend to deter students from coming to school, achieving credits, and completing the work for a high school diploma.

The effort would include regularly scheduled meetings with students, both individually and in groups, regularly scheduled parent meetings, scheduled parent conferences, providing all information concerning the Bridges Program (AEP) in both English and Spanish, updating and regularly monitoring the information on the AISD website concerning Bridges.

Section A: Ongoing Monitoring/Continuous Improvement - Describe the LEA/campus' process for providing on-going monitoring of grant activities to ensure continuous improvement

The Athens Bridges campus supports ongoing monitoring to correct deficiencies and find ways to promote improvement during TTIPS grant cycle. The evaluation of the TTIPS grant actually was ongoing from inception. At the first planning meeting it was decided that there would be weekly meetings to monitor progress. The Campus Advisory Committee, includes the directors, coordinators, staff, parents and community members meeting weekly to celebrate the successes of the grant and to correct the deficiencies. This will be done by using assessment tools, and inviting feedback from stakeholders. When a concern is brought before this group, it must be done in writing. If it cannot be resolved by discussion and consensus, it will be necessary for the Intervention Coordinator to appoint a subcommittee from the Site-based committee to study the problem and to report to the larger group by the next weekly meeting. In this way the progress will be ongoing. Assessment tools will include the following: surveys, focus groups, interviews, case studies, observations given in writing, and school records. Confidential information must be kept inside this executive group to guard the continuous improvement of the grant. These tools will be collected at regularly scheduled intervals. They may also be used when a subcommittee is seeking answers to a stated concern. All data results will be reviewed for constant improvement performance of the students to address deregulation and restructuring. The site-based committee will backup the Campus Advisory Committee to give direct input to parents and community stakeholders. They may attend any and all of the weekly meetings to monitor progress.

Part 1: Component Description. By submitting this application, the applicant agrees to comply with any reporting and evaluation requirements that TEA may establish and to submit the reports in the format TEA requests. (Response limited to one page, font size no smaller than 9 pt, Arial or Verdana)

Section B: Formative Evaluation- Describe the LEA/campus' process for formative evaluation, including how the results of the evaluation will be used to improve the grant program

As we go through the school year, we will provide time every six weeks to meet as a grant committee to ensure the progress of our newly implemented programs such as technology software, new educational strategies in the classroom that will target differentiated student learning, parental involvement and the latest research based curriculum. We will develop a spreadsheet to keep us on track. This spreadsheet will provide feedback on programs being conducted by the teachers and support staff. As the grant committee meets we will use data to ensure compliance with the grant.

In an effort to ensure continuous improvement in all performance indicators, The Bridges Center plans to solicit feedback and monitor progress through various means including:

Utilization of DMAC software as a tool in disaggregating data for all student populations.

Administrator evaluation of individual class teacher performance based on assessment scores every sixth week.

Random campus and class walk-thru and observations by district administrators

Regularly scheduled meetings with parents and other stakeholders

TBC plans to use the information gathered through above methods to identify and correct program deficiencies in a systematic manner.

Disaggregate assessment data by utilizing DMAC software.

Schedule # 4D—Performance Assessment and Evaluation

Part 2: Process for Development of Performance Goals

Describe the process used to develop the campus' performance goals. **Include** the groups participating in the development of the goals.

Responses are limited to **two pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

The Bridges Center performance goals are aligned with the District and campus improvement plans. The performance goals include increasing academic performance, increasing campus leadership effectiveness, increase learning time, maintaining teacher quality and improving school climate. Participation in the Comprehensive Needs Assessment allowed for our committees to identify academic performance goals for reading, math, and science based on district, state and federal performance requirements. To ensure that the goals are met, the following data was reviewed:

- 1) Previous year's Exit Level TAKS scores (Scale scores, raw scores and vertical scale scores)
- 2) Students'test history
- 3) Exit Level TAKS Benchmarks
- 4) Accelerated Instruction mini-assessments
- 5) Student semester credits/completion

Based on the quantitative and qualitative of the accumulated disaggregation, the administrative team and teachers will decide on specific interventions for individual students, groups and overall school.

To increase campus leadership effectiveness, the campus will establish job embedded staff-development for all staff in The Bridges Center. The Bridges Center will develop campus performance goals by:

- Monitoring academic progress of students within their team
- Discussing and trouble-shooting behavior and nonacademic student concerns
- Disaggregating data (including test data)to determine interventions and modifications to curriculum maps, and assessments
- Engaging in professional development
- Determining the content of professional development based on teacher needs

Texas Title I Priority Schools Grant, Cycle 2
Schedule #4E—Program Waivers

Waiver Requests

Applicants must check the waivers in which the LEA/campus intends to implement.

Extending the period of availability of school improvement funds.

This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.

Note: Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and *must* be checked. In addition, if funds are requested for a second and third year on the budget schedule, the LEA/campus is requesting this waiver.

"Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.

Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.

Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.

This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a Schoolwide program to do so in order to implement the Tier I reform model selected.

- L. Financial Management and Accounting:** Grantee assures it will maintain a financial management system that complies with federal standards established in 34 CFR 80.20 and 74.21 and that provides for accurate, current, and complete disclosure of the financial results of each grant project. The financial management system records will identify adequately the source and application of funds and will contain information pertaining to grant awards, authorizations, obligations, unobligated balances, assets, outlays (i.e., expenditures), income, and interest. Fiscal control and accounting procedures will permit the tracing of funds to a level of expenditure adequate to establish that funds have been used in accordance with the approved grant application. The applicant agrees to maintain effective control over and accountability for all funds, property, and other assets. Public school districts, open enrollment charter schools, and regional education service centers in Texas must comply with the accounting requirements in the Financial Accounting and Reporting (FAR) module of the *Financial Accountability System Resource Guide*, Texas Education Agency (34 CFR 74.21; 34 CFR 80.20; TEA *Financial Accountability System Resource Guide*).

These records and accounts shall be retained by Contractor and made available for programmatic or financial audit by Agency and by others authorized by law or regulation to make such an audit for a period of not less than five years from the date of completion of the contract project or the date of the receipt by Agency of Contractor's final claim for payment or final expenditure report in connection with this contract, whichever is later. If an audit has been announced, the records shall be retained until such audit has been completed.
- Contractor understands that acceptance of funds under this contract acts as acceptance of the authority of the State Auditor's office, or any successor agency, to conduct an audit or investigation in connection with those funds. Contractor further agrees to cooperate fully with the State Auditor's Office or its successor in the conduct of the audit or investigation, including providing all records requested. Contractor will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Contractor and the requirements to cooperate is included in any subcontract it awards.

If the Works are, under applicable law, not considered works made for hire, Contractor hereby assigns to TEA all worldwide ownership of all rights, including the Intellectual Property Rights, in the Works, without the necessity of any further consideration, and TEA can obtain and hold in its own name all such rights to the Works. Contractor agrees to maintain written agreements with all officers, directors, employees, agents, representatives and subcontractors engaged by Contractor for the Contract Project, granting Contractor rights sufficient to support the performance and grant of rights to TEA by Contractor. Copies of such agreements shall be provided to TEA promptly upon request.

For Education Service Centers (ESCs): The foregoing Intellectual Property Ownership provisions apply to an Education Service Center (ESC) and its employees, agents, representatives, consultants, and subcontractors. If an ESC or any of its subcontractor(s) wish to obtain a license agreement to use, advertise, offer for sale, sell, distribute, publicly display, publicly perform or reproduce the Works, or make derivative works from the Works, then express written permission must first be obtained from the TEA Copyright Office.

For Colleges and Universities: The foregoing Intellectual Property Ownership provisions apply to any colleges and universities and their employees, agents, representatives, consultants, and subcontractors; provided, that for all Works and derivative works created or conceived by colleges or universities under the Contract, they are granted a non-exclusive, non-transferable, royalty-free license to use the Works for their own academic and educational purposes only. The license for academic and educational purposes specifically excludes advertising, offering for sale, selling, distributing, publicly displaying, publicly performing, or reproducing the Works, or making derivative works from the Works that are created or conceived under this Contract and colleges and universities and their employees, agents, representatives, consultants, and subcontractors are prohibited from engaging in these uses and activities with regard to the Works unless the prior express written permission of the TEA Copyright Office is obtained.

T. Subcontracting: Contractor shall not assign or subcontract any of its rights or responsibilities under this contract, except as may be otherwise provided for in this application, without prior formal written amendment to this contract properly executed by both Agency and Contractor.

V. Capital Outlay: If Contractor purchases capital outlay (furniture and/or equipment) to accomplish the objective(s) of the project, title will remain with Contractor for the period of the contract. Agency reserves the right to transfer capital outlay items for contract noncompliance during the contract period or as needed after the ending date of the contract. This provision applies to any and all furniture and/or equipment regardless of unit price and how the item is classified in Contractor's accounting record.

Nonprofit organizations (other than charter schools) and universities/colleges shall submit the audit report to the TEA Division of Discretionary Grants. Audit reports must be submitted to TEA within 30 days of receipt of the report from the auditor. - I. Before the application was submitted, the applicant afforded a reasonable opportunity for public comment on the application and has considered such comment.
- J. **Gun-Free Schools Act:** The local education agency assures that it is in compliance with Section 37.007(e) of the Texas Education Code, which requires expulsion of a student who brings to school or possesses at school a firearm as defined by 18 U.S.C. Section 2891 [pursuant to the requirements in P. L. 107-110, Section 4141(d)(1)]. In addition, the local educational agency certifies that it has a policy requiring referral to the criminal justice or juvenile delinquency system of any student who brings a firearm or weapon to school [P. L. 107-110, Section 4141(h)(1)].
- K. **Student Records Transfer:** The local educational agency shall ensure that a student's records and, if applicable, a student's individualized education program as defined in section 602(11) of the Individuals with Disabilities Education Act, are transferred to a charter school upon the transfer of the student to the charter school, and to another public school upon the transfer of the student from a charter school to another public school, in accordance with applicable state law (P. In addition to the standard terms of award, all funding provided under the Recovery Act will be subject to the provisions, assurances and conditions for American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act). **The applicant understands that failure to comply with one or more of these provisions and assurances may result in the Texas Education Agency (TEA) taking one or more enforcement actions authorized in Title 34 of the Code of Federal Regulations (CFR) §§ 74.62 and 80.43.**

Terms defined:

- RECIPIENT – The term “recipient” means a State and includes the Texas Education Agency (TEA). It also includes any entity that applies for and receives a grant directly from the federal government.
- RECOVERY FUNDS –The term “recovery funds” means any funds that are made available from appropriations made under the Recovery Act.
- RECOVERY ACT – the American Recovery and Reinvestment Act (ARRA) of 2009 (P.L. 111-5)

- GRANTEE – the subrecipient of TEA and applicant of funds.

A. One-Time Funding: Unless otherwise specified, ARRA funding is considered one-time funding that is expected to be temporary. Grantees should expend funds in ways that do not result in unsustainable continuing commitments after the funding expires. Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA’s reporting and accountability requirements, and promptly begin spending funds to help drive the nation’s economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.

B. Period of Availability and Encumbrances/Obligations: Unless otherwise specified in the Notice of Grant Award (NOGA), all funds are effective from the beginning date specified on the Notice of Grant Award (NOGA) through June 30, 2014. Carryover of funds will not be available beyond that date. Unobligated/unexpended funds will be returned to the Department of Treasury. The paragraph in the General Provisions pertaining to Encumbrances and Obligations applies as follows:

The contractor must liquidate (record as an expenditure) all obligations (encumbrances) incurred under the contract no later than 30 days after the ending date of the contract, to coincide with the submission of the final expenditure report, due 30 days after the ending date of the contract. In no manner shall encumbrances be considered or reflected as accounts payable or as expenditures, and an encumbrance cannot be considered an expenditure or accounts payable until the goods have been received and the services have been rendered. Obligations that are liquidated and recognized as expenditures must meet the allowable cost principles in OMB Circular A-87, A-21, or A-122 (as applicable) and program rules, regulations, and guidelines contained elsewhere. This applies to all grant programs, including state and federal, discretionary and formula.

E. DUNS Number: All entities receiving any federal funds, including ARRA funds, are required to have a DUNS (Dunn & Bradstreet) number. The DUNS number serves as the grantee organization's unique identifier for reporting federal funds received and expended. TEA must use this same DUNS number to report grant awards and expenditures for subrecipients under ARRA to the website specifically provided for in ARRA – <http://www.FederalReporting.gov/>. The assignment of a DUNS number is a condition of award of ARRA funds and must be validated by TEA prior to issuing a NOGA for ARRA funds. (Section 1512[c][4] of ARRA and the federal Office of Management and Budget (OMB) to comply with the Federal Funding Accountability and Transparency Act [FFATA], P.L. 109-282.
