**Texas Title I Priority Schools Grant**

**Schedule #4--Program Summary and Application Requirements**

**Part 1: Grant Program Information;**

**Summary of Program: Purpose and Goals**

School Improvement Grants, authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA) as amended by ARRA, are grants, through the Texas Education Agency, to local educational agencies (LEAs) for use in Title I schools identified for improvement, corrective action, or restructuring and other eligible campuses that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of their students so as to enable the schools to make adequate yearly progress and exit improvement status. Under the final requirements, as amended through the interim final requirements published in the Federal Register in January 2010 school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools.

Tier I schools are a State's persistently lowest-achieving Title I schools in improvement, corrective action, or restructuring and certain Title I eligible elementary schools that are as low achieving as the State's other Tier I schools. Tier II schools are a State's persistently-lowest achieving secondary schools that are eligible for, but do not receive, Title I, Part A funds and certain additional Title I eligible secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years. An LEA may also use school improvement funds in Title I schools in improvement, corrective action, or restructuring that are not identified as persistently lowest-achieving schools and certain additional Title I eligible schools ("Tier III schools").

In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

**Allowable Activities**

**Tier I and Tier II Grantees**

- Grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

**Tier III Grantees**

- Tier III grantees may select one of the four intervention models in the federal regulations or the state's Tier III Transformation Model.
- If selecting one of the four models in the federal regulations, grantees must expend grant funds for the required activities delineated for the selected intervention model as defined in the final federal regulations. Grantees may expend grant funds for the permissible activities delineated for the selected intervention model as defined in the final federal regulations.
- Grantees may expend grant funds for other school improvement activities deemed needed to address identified needs not addressed by the intervention model selected.

In addition, a Tier I, Tier II, Tier III grantee campus that has implemented, in whole or in part, either the Turnaround, Restart, or Transformation models within the last two years may continue or complete the implementation of the intervention model with the TTIPS grant funds. For example, if a grantee campus has replaced its principal within the last two years, the LEA/campus will not be required to hire another new principal. An LEA/campus that receives TTIPS SIG funds in accordance with this flexibility must fully implement the selected model as required by the final federal requirements. In other words, if the school had been implementing the model only in part, it must use the funds it receives to expand its implementation so that it fully complies with the federal regulatory requirements.

The detailed required and permissible activities for each intervention model, as defined in the final federal regulations are listed on Schedule #4--Program Requirements and are incorporated by reference herein.

**Texas Title I Priority Schools Grant  
Schedule #4B—Program Description**

**Part 2: Project Management Cont.**

**Section A: LEA (District) Capacity** Responses are limited to *one page each*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

**Partnership/Involvement of Others** – Describe how the LEA/campus consulted with relevant stakeholders (students, staff, parents, community) regarding this application and proposed implementation of a school intervention model.

During Spring semester of 2010, LEA presented the four intervention models from the Texas Turnaround Center to the school board and discussed the pros and cons of each model. The Superintendent's Leadership Team (SLT) developed a committee for studying the turnaround school initiative. SLT held scheduled meetings from January through May to discuss next steps in the application and proposed implementation of the intervention model. The Superintendent provided regular updates to the WISD school board. In addition, this committee worked with each campus to determine which model fit their needs. Surveys of district teaching staff were conducted to determine their view points regarding the highlights of the intervention model chosen by the campus. This led to supporting the district and campus regarding the TTIPS application and proposed implementation of the transformation model.

University High School continually maintains a constant communication with relevant stakeholders. Those consulted include such entities as our Partner in Education, Waco Police Department, who assisted in writing this grant who also recently named WISD Secondary Partner of the Year. Members of the Campus Decision Making Committee (CDMC), Instructional Leadership Team (ILT), Advisory Council, Student Council were consulted and contributed to the implementation of the school transformation model. Additionally, the Future Business Leaders of America (FBLA), JROTC who sponsor the Trojan Tykes Boot Camp, Skills USA, Ready Set Teach (RST) and Soccer Buddies were also consulted via surveys and questionnaires on current practices which will enable University High School to implement the transformation model. Media Resources such as WISD-Channel 17, Waco Tribune Herald, The Wacoan, University High School Web site, Parent newsletters, Parent Connection, and School messenger were used as a conduit of distributing the survey information to parents and community. Once the transformation model is implemented, University High School will continue to utilize various mediums of communication in order to effectively communicate with Stakeholders.

A policy issue that may arise will be put in writing and sent to the Executive Director of Secondary Education. The policy issue will be taken to the District's Leadership Team (Superintendent and upper management). The results of the decision will then be reported to the grant participants. Should questions arise regarding a conflict in Waco ISD policies and grant requirements, appropriate TEA officials will be contacted.</p>		
<p>A procedure manual addressing TTIPS grant will be written to assist the new TTIPS coordinators (district and campus) with processing campus TTIPS budget and grant requirements. With coordination among office of State and Federal Programs and the district/campus TTIPS coordinators, the speed of which campus requests can be processed through purchasing/accounting offices will be enhanced since more personnel will be involved in helping to ensure allowable expenditures and process requests/invoices in a timely manner. Campus TTIPS coordinator will be helpful in assuring that required standard business practice/standards are being followed to expedite campus requisitions. Human Resource Office will work with campus to address all required personnel involved with the grant.</p>		
<p>Once funded, University High School will establish an advisory council called, the Trojan Advisory Committee (TAC) to identify needs, set policy, review procedures as necessary to continually review the grant deliverable throughout the next three years and beyond to ensure successful implementation of the transformation model. University High School will transform and re-shape its practices of policies as follows to fully and effectively ensure the implementation of the transformation model. The day to day master schedule will change and expand to include staff and administrative professional learning time through (PLC's) Professional Learning Communities in addition to the teacher conference time. This specific time will reinforce the execution of C-Scope effectively through each teaching discipline.</p>		
<p>University High School has already modified its practices by implementing a standard mode of dress policy school-wide in order directly impact student behavior and discipline issues. By modifying this policy, teachers and students are able to focus on the curriculum and bypass behavioral distractions that come with dress-code violations.</p>		
<p>A practice University High School would institute is an increase in staff levels by adding two behavioral specialists paid for by grant funds. These specialists will assist teachers and administrators in identifying behavioral trends in students to re-direct student behavior for their educational success.</p>		
<p>Teaching assignments within departments Day to day master schedule Staff development/ specific program training Behavioral Specialist look at trends and issues to correct</p>		
<p>Assign duties to the grant advisory committee (TAC) Trojan Advisory Council) to set policy and change practices, continually review the grant deliverables throughout the next three years and beyond to ensure successful implementation of the transformation model.</p>

**Part 2: Project Management Cont.**

**Section A: LEA (District) Capacity** Responses are limited to *one page each*, front side only, with a font size no smaller than 9 point (Arial or Verdana).

**Resource Management** – Describe how the LEA/campus will align other resources (federal, state, local, and community) with the school improvement intervention.

The business office of Waco ISD will be fully involved in the grant administration process and will provide timely updates to the campus concerning grant expenditures. Campus will use its campus allocations and enhance the total campus budget with all grants it receives. The district will assure comparability for campus's foundation budget using a per pupil amount determined by campus average daily attendance.

State funding for special programs are determined on a student enrollment in each program: Bilingual/ESL, Special Education, Gifted/Talented, etc. The largest special program allotment is from State Compensatory Education (SCE) allocation. SCE allocation is aligned to the number of students identified on the campus PEIMS snapshot as "at risk of dropping out of school" using state "at risk" indicators.

Title I, Part A allocations are aligned to the economically disadvantage student counts for the campus. The district uses the free/reduced lunch eligibility as its economically disadvantage determiner for ranking campuses for Title I, Part A allocations. This campus's economically disadvantaged percentage is higher than 70% therefore the district chooses to fund per pupil amount with \$75 more per F/R student than campuses with lower than 70%. The campus has some remaining ARRA Title I, Part A funds to be used during the 2010-2011 school year.

As the recipient of grants, the campus will be able to utilize these funds and resources to further the initiatives outlined in this grant.

Once University High School has established the Trojan Advisory Committee (TAC) transformation team and has implemented necessary changes, we will evaluate local, state and federal resources in order to maximize already received regular operating budgets while also extending proposed transformation objectives as indicated in the needs assessment done at the end of each school year.

University High School will effectively align budgeted resources through use of the two behavioral specialists. These specialist will cohesively train faculty and staff on classroom management skills in order to maximize student learning, and sustain the needs of each individual student.

As a means of increasing the use of instructional technology in the classroom, University will purchase additional laptop computers—enough for each student and faculty member—and "clicker" systems for each of the core teachers.

The CTE department will implement career focused instruction using federal funds supported by the TTIPS grant.

Additional Humanities courses will include more options in foreign language, distance learning, and advanced (college credit) classes.

An additional need includes hiring more personnel to assist with the special education inclusion model on campus.

**Program Continuation and Sustainability** – Describe how the LEA will sustain the campus reforms after the funding period ends.

The district will assist campus in striving to obtain grants. The district and campus foresee the opportunity of this three year grant to create a workable process of using a "sunset review" to determine effective and ineffective programs therefore causing a possible redesign of the campus to more effectively use its allocated budget. However, the campus will be encouraged to apply for grants to assist with campus initiatives to enhance the campus programs.

Through this grant, University High School is creating an on-campus Grant Writer/Coordinator a Trojan Administrative Council (TAC). The purpose of these positions is to conduct research to secure future funding through grants for continued success of pre-set school programs. The goal of the grant writer is to foster what we have set in motion by maintaining the use of materials and equipment purchased to enhance the educational experience. The Trojan Advisory Committee (TAC) will also maintain their evaluations of campus activities and climate. Career and Technology Education will continue to advance student growth, development, and reflection through constant evaluations.

Programmatic change, once in place, will be closely monitored for students' academic success. Local funds will be budgeted to maintain technology accessibility.

Coordinated funds with LEA and State funding will ensure maintenance of programmatic changes.

Improve the systems at University High School to self-sustain our school.

University has an established partnership with Baylor University and will utilize the partnership to refine the search for a solid external evaluator of the project. University officials will also look to the Partners in Education, Parent Teacher Student Association, and the Campus Decision Making Committee to ensure quality providers. University High School will successfully recruit by advertising on the Waco Independent School District web site, University High School web site and the ESC 12 job board. Screening procedures include the Gallup Perceiver, campus/district interviews, reference contacts, resume and pre-set interview questions along with standard background checks. Final selection will be based on the recommendations of committee members, along with school administration.

District will also use ESC Region 13 SIRC as an external provider resource as prescribed in the TTIPS grant. We know that SIRC is an approved agency of TEA and have worked with SIRC in previous school improvement grants.

Responses are limited to **five pages**, front side only, with a font size no smaller than 9 point (Arial or Verdana).

1. During Spring semester of 2010, LEA presented the four intervention models to the school board and discussed the pros and cons of each model. The Superintendent's Leadership Team (SLT) developed a committee for turnaround school initiative. SLT had scheduled meetings from January through May to discuss next step in the application and proposed implementation of the intervention model. The Superintendent provided regular updates to the WISD school board. In addition, this committee worked with each campus to determine which model fit their needs. Surveys of district teaching staff was conducted to determine their view points regarding the highlights of the intervention model chosen by the campus. Thus, supporting the district and campuses regarding the TTIPS application and proposed implementation of the transformation model.

2. The process University High School will follow to select an intervention model that aligns to the identified needs of the campus are as follows:

A. University High School will apply for the appropriate school waiver in order to retain Nolan J. Correa as the active Principal.

B. University High School will reform the curriculum by using the CSCOPE lesson plan layout in all four core areas. CSCOPE offers teachers a basic outline for lessons and the freedom to expand with their own aptitude. CSCOPE is a comprehensive, customizable, user-friendly curriculum management system built on the most current research-based practices in the field. Teachers will be given a significant PLC time (Professional Learning Community) as a department to practice and perfect each lesson for every diverse learner. The primary focus is to impact instructional practices in the classroom to improve student performance.

In addition, they will work with campus administrators and teachers on way to meet the needs of students with severe behavior problems, deliver professional development in the area of behavior management (and other related topics) as part of campus training, maintain a positive working relationship with all stakeholders, and comply with policies established by federal and state law, State Board of Education rule, and the local board policy.

D. University High School will implement the Professional Institute for Trojans (PIT), a Staff Development Institute, to evaluate and critique current campus policies, procedures and practices and to determine their effectiveness as well as create a systemic and proactive approach to policy and procedural changes throughout the campus environment. An additional objective of this Institute is to instill team-building.

E. University High School will create Project: Destination Translation, a program designed to bring Spanish-speaking parents to the school to educate faculty and staff on basic Spanish conversational skills in order to improve communication skills between teachers and Spanish-speaking students.

F. University High School, with the generosity of a community benefactor, has implemented the Teacher Mentorship Award Program, wherein teachers, students and administration write essays nominating teachers and staff who exemplify excellence and who have made a difference in the educational lives of children. Monetary awards in the amount of \$3,000 are awarded to five individuals in each of the next four years.

**Part 4: Waiver Requests**

Applicants must check the waivers in which the LEA/campus intends to implement.

- Extending the period of availability of school improvement funds.  
*This waiver extends the "life" of the funds for two additional years; allowing the state to fund the grant period for three years to the LEA on behalf of the eligible campus, as long as the campus meets the requirements of implementation of the grant program.*

**Note:** Since TEA has requested and received a waiver of the period of availability of these school improvement grant funds, this waiver automatically applies to all LEAs in the State and must be checked.

- "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.  
*Under this waiver, the LEA with an eligible Tier I or Tier II campus implementing the turnaround model or restart model may have their School Improvement status reset regardless of the actual AYP status and other school improvement interventions, such as School Choice and Supplemental Education Services (SES) would not be applicable. This waiver allows the campus two years to effectively implement the selected turnaround or restart model of reform without additional statutory school improvement interventions being required.*
  
- Implementing a school wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.  
*This waiver allows a Tier I Title I campus that otherwise does not qualify to operate a School wide program to do so in order to implement the Tier I reform model selected.*

(Response limited to one page each, font size no smaller than 9 pt, Arial or Verdana)

**Section A: Ongoing Monitoring/Continuous Improvement** - Describe the LEA/campus' process for providing on-going monitoring of grant activities to ensure continuous improvement

**Ongoing, formative evaluations at University will include, but are not limited to, reviewing TAKS testing, PEIMS, Benchmark and Survey Data.**

Monthly, Administration, Behavioral Intervention Specialists, the Parent Campus Liaison (PCL) and Trojan Advisory Council (TAC) will communicate the number of office referrals to faculty and staff to look for trends. In the process of evaluating the data, we will adjust personnel to "high referral" locations throughout the day. Referrals will be decreased by 10 percent throughout the year.

Additionally, the Behavioral Intervention Specialists will share data relating to the number of incidents/conferences they have had with students from targeted populations. With that information, teachers will receive professional development in dealing with issues related to the unique needs of students with diverse learning styles and backgrounds.

With the addition of a new Assistant Principal, an increase in walk-through data is expected. We will increase the presence of the instructional leaders in the classroom by 20 percent. With an increase of a presence in the classroom, not only do we expect to see increased trends of rigorous and relevant instruction, but also more engaging lessons.

A Campus Community Liaison Coordinator will work with members of our community to increase multicultural understanding among our ethnically diverse student and parent population. The coordinator will organize parents as teachers to increase the level of Spanish-speaking skills among the staff as a means of community outreach and promote workplace literacy for all. Additionally, as we have college information nights, we will include members of the community in college readiness training. Any meetings, conferences, or other informational events will be documented with agendas and sign-in sheets.

The Grant Coordinator/Writer will work with the campus and assist Administrators to develop, implement, monitor, and evaluate grant-funded programs as well as file and submit the required reporting.

The addition of technology for all will improve rigor and relevance in the classroom by allowing for more practical, real-world educational practice. With the increase in educational technology, it becomes necessary to have a full-time Campus Technology Facilitator to organize and maintain not only the new technology, but also the current technology on campus.

All data from grant-related interventions will be shared monthly with the Campus Decision Making Committee (CDMC) and the Instructional Leadership Team (ILT) as well as faculty and staff. Ongoing data communication will help to evaluate areas of need and places where we need to modify our systems. The TAC, CDMC, and ILT will evaluate the implementation of the grant components and extend the effectiveness of the implementation through ongoing and continuous evaluation.

**Section C: Qualitative and Quantitative Data Collection Methods-** Describe the LEA/campus' process for data collection methods to be implemented and 1) how the data will be disaggregated; 2) used to improve instruction; and 3) obtain continuous improvement results

**Data is collected regularly in Data Director, which is a computerized Data Collection source for teachers and administrators to use.**

**Data will be disaggregated by teacher, sub-population, campus group, local and state, and socio-economic status.**

**Data will be disseminated weekly, bi-monthly, monthly, by six weeks, etc., to share with faculty and staff. Administration, specialists, and teachers will review data for trends. As various trends are discovered, teachers will use Parent-Campus Liaison and conference time to adjust lessons for a more effective implementation of subject matter.**

**All data related to the transformation grant will be evaluated by faculty and staff, the ILT and TAC as well as the CDMC. At the minimum, PEIMS reports, Data Director and benchmark data will guide future lessons and activities at University High School. Data sources include, but are not limited to: attendance, grades, advanced placement, special education numbers/referrals, discipline, six weeks tests, climate surveys, athletic enrollment, increase in parent involvement, charitable events, scholarships, semester surveys, and student surveys of courses**

- J. **Gun-Free Schools Act:** The local education agency assures that it is in compliance with Section 37.007(e) of the Texas Education Code, which requires expulsion of a student who brings to school or possesses at school a firearm as defined by 18 U.S.C. In addition, the local educational agency certifies that it has a policy requiring referral to the criminal justice or juvenile delinquency system of any student who brings a firearm or weapon to school [P. For the purposes of this section, an elementary school or secondary school has a limited public forum whenever the school involved grants an offering to, or opportunity for, one or more outside youth or community groups to meet on school premises or in school facilities before or after the hours during which attendance at the school is compulsory. Nothing in this section shall be construed to require any school, agency, or a school served by an agency to sponsor any group officially affiliated with the Boy Scouts of America, or any other youth group listed in Title 36 of the United States Code (as a patriotic society). Compliance with this provision will be enforced through rules and orders issued by the Office for Civil Rights. Department of Education, each local educational agency receiving assistance under the No Child Left Behind Act shall provide, on a request made by military recruiters or an institution of higher education, access to secondary school students names, address, and telephone listings, upon prior written consent of a student or the parent of a student. A secondary school student or the parent of the student may request that the student's name, address, and telephone listing not be released without prior written parental consent, and the local educational or private nonprofit school shall notify parents of the option to make a request and shall comply with any request. Each local educational agency receiving assistance under the No Child Left Behind Act shall provide military recruiters the same access to secondary school students as is provided generally to post secondary educational institutions or to prospective employers of those students (P. L. 107-110, section 9528).
- R. Unsafe School Choice Option:** The local educational agency certifies that it shall establish and implement a policy requiring that a student attending a persistently dangerous public elementary school or secondary school, as determined by the Texas Education Agency, or who becomes a victim of a violent criminal offense, while in or on the grounds of a public elementary or secondary school that the student attends, be allowed to attend a safe public elementary or secondary school within the local educational agency, including a public charter school (P. L. 107-110, section 9532).
- S. Civil Rights:** Nothing in the No Child Left Behind Act shall be construed to permit discrimination on the basis of race, color, religion, sex (except as otherwise permitted under Title IX of the Education Amendments of 1972), national origin, or disability in any program funded under the No Child Left Behind Act (P. In addition to the standard terms of award, all funding provided under the Recovery Act will be subject to the provisions, assurances and conditions for American Recovery and Reinvestment Act of 2009 (ARRA or Recovery Act).

**Terms defined:**

**RECIPIENT** – The term "recipient" means a State and includes the Texas Education Agency (TEA). It also includes any entity that applies for and receives a grant directly from the federal government.

**RECOVERY FUNDS** –The term "recovery funds" means any funds that are made available from appropriations made under the Recovery Act.

**RECOVERY ACT** – the American Recovery and Reinvestment Act (ARRA) of 2009 (P.L. 111-5)

**GRANTEE** – the subrecipient of TEA and applicant of funds.

**A. One-Time Funding:** Unless otherwise specified, ARRA funding is considered one-time funding that is expected to be temporary. Grantees should expend funds in ways that do not result in unsustainable continuing commitments after the funding expires. Grantees must move rapidly, while using prudent grant management practices, to develop plans for using funds, consistent with the ARRA's reporting and accountability requirements, and promptly begin spending funds to help drive the nation's economic recovery. All ARRA funds must be separately accounted for and tracked in their obligation, expenditure, and reporting.

**B. Period of Availability and Encumbrances/Obligations:** Unless otherwise specified in the Notice of Grant Award (NOGA), all funds are effective from the beginning date specified on the Notice of Grant Award (NOGA) through June 30, 2013. When an obligation is made is defined in 34 CFR 76.707.

The assignment of a DUNS number is a condition of award of ARRA funds and must be validated by TEA prior to issuing a NOGA for ARRA funds. (Section 1512[c][4] of ARRA and the federal Office of Management and Budget (OMB) to comply with the Federal Funding Accountability and Transparency Act [FFATA], P.L. 109-282.
