## SPPI 14A Calculation

\# of youth who are no longer in secondary school, had IEPs in effect at the time they left school and were enrolled in higher education within one year of leaving high school

## Divided by

\# of respondent youth who are no longer in secondary school and had IEPs in effect at the time they left school

## Multiplied by

## SPPI 14A Calculation Example

| Respondent youth who are no longer in secondary school and had IEPs in effect at <br> the time they left school | \# |
| :--- | :---: |
| a. enrolled in higher education within one year of leaving high school | 1,000 |
| b. competitively employed within one year of leaving high school | 1,500 |
| c. enrolled in some other post-secondary education or training program within <br> one year of leaving high school (but not enrolled in higher education or <br> competitively employed) | 200 |
| d. in some other employment within one year of leaving high school (but not <br> enrolled in higher education, some other post-secondary education or training <br> program, or competitively employed) | 400 |
| e. Total respondent youth who are no longer in secondary school and had IEPs <br> in effect at the time they left school (a+b $+\mathbf{c}+\mathbf{d})$ | $\mathbf{4 , 0 0 0}$ |

## Enrolled in Higher Education Calculation

$$
\begin{aligned}
\text { Percentage } & =(\mathrm{a} / \mathrm{e}) \times 100 \\
& =(1,000 / 4,000) \times 100 \\
& =.25 \times 100 \\
& =25 \%
\end{aligned}
$$
