

SPPI 3B Calculation

Number of children with IEPs scoring at or above proficient against grade level academic achievement standards

Divided by

Total number of children with IEPs who received a valid score and for whom a proficiency level was assigned for the regular assessment

Multiplied by

100

* Calculate separately for reading and math. Calculate separately for grades 4, 8, and high school. The proficiency rate includes both children with IEPs enrolled for a full academic year and those not enrolled for a full academic year and included in the attendance record at the time of testing .

(Data reported in ED Facts File C175 and C178)

SPPI 3B Calculation Example

Children with IEPs at the Time of Testing	#
a. Scoring at or above proficient on regular assessments based on grade-level achievement standards without accommodations	193
b. Scoring at or above proficient on regular assessments based on grade-level achievement standards with accommodations	50
c. Total who received a valid score and for whom a proficiency level was assigned for the regular assessment	250

Proficiency Rate Calculation

$$\begin{aligned}
 \text{Percentage} &= [(a + b) / c] \times 100 \\
 &= [(193 + 50) / 250] \times 100 \\
 &= (243 / 250) \times 100 \\
 &= .97 \times 100 \\
 &= 97\%
 \end{aligned}$$
