

SPPI 6A Calculation

Number of children ages 3, 4, and 5 with IEPs attending a regular early childhood program and receiving the majority of special education and related services in the regular early childhood program

Divided by

Total number of children ages 3, 4, and 5 with IEPs

Multiplied by

100

(Data reported in ED Facts File C089)

SPPI 6A Calculation Example

| Educational Environments | # |
|--|----------|
| a. Attending a regular early childhood program and receiving a majority of special education and related services in the regular early childhood program | 39 |
| b. Attending a special education program (not in any regular early childhood program) in a separate special education class, separate school, or residential facility | 15 |
| c. Receiving special education and related services in the home (not in a regular early childhood program) | 3 |
| d. Attending a regular early childhood program and receiving a majority of special education and related services in some other location | 21 |
| e. Attending neither the regular early childhood program nor special education program, and receiving the majority of special education and related services in the service provider location | 10 |

Receiving a Majority of Services in a Regular Early Childhood Program Calculation

$$\begin{aligned}
 \text{Percentage} &= [a / (a + b + c + d + e)] \times 100 \\
 &= [39 / (39 + 15 + 3 + 21 + 10)] \times 100 \\
 &= (39 / 88) \times 100 \\
 &= .44 \times 100 \\
 &= 44\%
 \end{aligned}$$
