(b) The agency shall post each school district's maximum compressed rate for the current tax year, as determined under Section 48.2551, promptly after calculating the rate. If, for the 2023 or a subsequent tax year, the agency calculates a preliminary rate before calculating a final rate, the agency shall post the preliminary rate, and the chief appraiser of each appraisal district and the assessor for each school district shall use the preliminary rate to make the calculations described by Subsection (a).

(c) The agency shall notify the chief appraiser of each appraisal district and the assessor for each school district when the agency has complied with Subsection (b). **HISTORY**

(Added by Acts 2021, 87th Leg., 2nd C.S., Ch. 14 (S.B. 12), Sec. 4, eff. January 1, 2023.)

**Sec. 48.256. Local Share Of Program Cost (Tier One)**

(a) Each school district's share of the Foundation School Program is determined by the following formula:

$LFA = TR \times DPV$  where:

"LFA" is the school district's local share;

"TR" is the school district's adopted tier one maintenance and operations tax rate, as described by Section 45.0032(a) for each hundred dollars of valuation

; and

"DPV" is the taxable value of property in the school district for the current tax year determined under Subchapter M, Chapter 403, Government Code.

(b) The commissioner shall adjust the values reported by the comptroller to reflect reductions in taxable value of property resulting from natural or economic disaster in the year in which the valuations are determined. The decision of the commissioner is final. An adjustment does not affect the local fund assignment of any other school district.

(c) Appeals of district values shall be held pursuant to Section 403.303, Government Code.

(d) This subsection applies to a school district in which the board of trustees entered into a written agreement with a property owner under Section 313.027, Tax Code, for the implementation of a limitation on appraised value under Subchapter B or C, Chapter 313, Tax Code. For purposes of determining "DPV" under Subsection (a) for a school district to which this subsection applies, the commissioner shall exclude a portion of the market value of property not otherwise fully taxable by the district under Subchapter B or C, Chapter 313, Tax Code, before the

expiration of the subchapter. The comptroller shall provide information to the agency necessary for this subsection. A revenue protection payment required as part of an agreement for a limitation on appraised value shall be based on the district's taxable value of property for the preceding tax year.

(e) Subsection (d) does not apply to property that was the subject of an application under Subchapter B or C, Chapter 313, Tax Code, made after May 1, 2009, that the comptroller recommended should be disapproved.

#### **Sec. 48.257. Local Revenue Level In Excess Of Entitlement**

(a) Subject to Subsection (b), if a school district's tier one local share under Section 48.256 exceeds the district's entitlement under Section 48.266(a) (1) less the district's distribution from the state available school fund, the district must reduce the district's tier one revenue level in accordance with Chapter 49 to a level not to exceed the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund.

(b) This subsection applies only to a school district to which Subsection (a) applies. If a district's maintenance and operations tax collections from the tax rate described by Section 45.0032(a) for the current tax year minus the required reduction in a district's tier one revenue level under Subsection (a) results in an amount that is less than the amount of the district's entitlement under Section 48.266(a)(1) less the district's distribution from the state available school fund, the agency shall adjust the amount of the reduction required in the district's tier one revenue level under Subsection (a) up to the amount of local funds necessary for the district's entitlement under Section 48.266(a) (1) less the district's distribution from the state available school fund.

(c) For purposes of Subsection (a), state aid to which a district is entitled under this chapter that is not described by Section 48.266(a)(3) may offset the amount by which a district must reduce the district's revenue level under this section. Any amount of state aid used as an offset under this subsection shall reduce the amount of state aid to which the district is entitled.

(d) Except as provided by Subsection (e), a school district is entitled to retain the total amount of the district's tier two local share described by Section 48.266(a)(5)(A).

(e) In any school year for which the amount of state funds appropriated specifically excludes the amount necessary to provide the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort under Section 48.202(a-1)(1), a district may only retain the amount of the district's tier two local share described by Section 48.266(a)(5)(A) equal to the amount of revenue that would be generated based on the amount appropriated for the dollar amount guaranteed level of state and local funds.

(f) If the amount of a school district's tier two local share described by Section 48.266(a)(5)(B) to which a district is entitled exceeds the amount described by Section 48.202(a-1)(2), the district must reduce the district's revenue in accordance with Chapter 49 to a level not to exceed the amount described by Section 48.202 (a-1)(2).

(g) For a district to which Section 45.003(f) applies, revenue generated from any cents of maintenance and operations tax effort that exceeds the maximum rate permitted under Section 45.003(d) is subject to the revenue limit established under Subsection (f).

#### **Sec. 48.258. Adjustment For Rapid Decline In Taxable Value Of Property**

(a) For purposes of Chapters 46 and 49 and this chapter, and to the extent money specifically authorized to be used under this section is available, the commissioner shall adjust the taxable value of property in a school district that, due to factors beyond the control of the board of trustees, experiences a rapid decline in the tax base used in calculating taxable values in excess of four percent of the tax base used in the preceding year.

(b) To the extent that a sufficient amount of money is not available to fund all adjustments under this section, the commissioner shall reduce adjustments in the manner provided by Section 48.266(f) so that the total amount of adjustments equals the amount of money available to fund the adjustments.

(c) A decision of the commissioner under this section is final and may not be appealed.

### **Sec. 48.259. Adjustment For Optional Homestead Exemption**

(a) In any school year, the commissioner may not provide funding under this chapter or Chapter 46 based on a school district's taxable value of property computed in accordance with Section 403.302(d)(2), Government Code, unless:

(1) funds are specifically appropriated for purposes of this section; or

(2) the commissioner determines that the total amount of state funds appropriated for purposes of the Foundation School Program for the school year exceeds the amount of state funds distributed to school districts in accordance with Section 48.266 based on the taxable values of property in school districts computed in accordance with Section 403.302(d), Government Code, without any deduction for residence homestead exemptions granted under Section 11.13(n), Tax Code.

(b) In making a determination under Subsection (a)(2), the commissioner shall:

(1) notwithstanding Section 48.266(b), reduce the entitlement under this chapter of a school district whose final taxable value of property is higher than the estimate under Section 48.269 and make payments to school districts accordingly; and

(2) give priority to school districts that, due to factors beyond the control of the board of trustees, experience a rapid decline in the tax base used in calculating taxable values in excess of four percent of the tax base used in the preceding year.

(c) In the first year of a state fiscal biennium, before providing funding as provided by Subsection (a)(2), the commissioner shall ensure that sufficient appropriated funds for purposes of the Foundation School Program are available for the second year of the biennium, including funds to be used for purposes of Section 48.258.

(d) If the commissioner determines that the amount of funds available under Subsection (a)(1) or (2) does not at least equal the total amount of state funding to which districts would be entitled if state funding under this chapter were based on the taxable values of property in school districts computed in accordance with Section 403.302(d)(2), Government Code, the commissioner may, to the extent necessary, provide state funding based on a uniform lesser fraction of the deduction under Section 403.302(d)(2), Government Code.

(e) The commissioner shall notify school districts as soon as practicable as to the availability of funds under this section. For purposes of computing a voter-approval tax rate under Section 26.08, Tax Code, a district shall adjust the district's tax rate limit to reflect assistance received under this section.

(a) For purposes of Chapters 46 and 49 and this chapter, the commissioner shall adjust the taxable value of property of a school district all or part of which is located in an area declared a disaster area by the governor under Chapter 418, Government Code, as necessary to ensure that the district receives funding based as soon as possible on property values as affected by the disaster.

(b) The commissioner may fund adjustments under this section using funds specifically appropriated for the purpose or other funds available to the commissioner for that purpose.

(c) A decision of the commissioner under this section is final and may not be appealed.

### **Sec. 48.261. Reimbursement For Disaster Remediation Costs**

(a) This section applies only to a school district all or part of which is located in an area declared a disaster area by the governor under Chapter 418, Government Code, and that incurs disaster remediation costs as a result of the disaster.

(b) During the two-year period following the date of the governor's initial proclamation or executive order declaring a state of disaster, a district may apply to the commissioner for reimbursement of disaster remediation costs that the district pays during that period and does not anticipate recovering through insurance proceeds, federal disaster relief payments, or another similar source of reimbursement.

(c) The commissioner may provide reimbursement under this section only if funds are available for that purpose from:

(1) amounts appropriated for that purpose, including amounts appropriated for school districts for that purpose to the

disaster contingency fund established under Section 418.073, Government Code; or

(2) Foundation School Program funds available for that purpose, based on a determination by the commissioner that the amount appropriated for the Foundation School Program, including the facilities component as provided by Chapter 46, exceeds the amount to which districts are entitled under this chapter and Chapter 46.

(d) A district seeking reimbursement under this section must provide the commissioner with adequate documentation of the costs for which the district seeks reimbursement.

(e) The commissioner shall adopt rules necessary to implement this section, including rules:

(1) defining "disaster remediation costs" for purposes of this section, which must include the cost to repair or replace vehicles or computers damaged in the disaster; and

(2) specifying the type of documentation required under Subsection (d).

(f) Notwithstanding any other provision of this section, the commissioner may permit a district to use amounts provided to a district under this section to pay the costs of replacing a facility instead of repairing the facility. The commissioner shall ensure that a district that elects to replace a facility does not receive an amount under this section that exceeds the lesser of:

(1) the amount that would be provided to the district if the facility were repaired; or

(2) the amount necessary to replace the facility.

(g) This section does not require the commissioner to provide any requested reimbursement. A decision of the commissioner regarding reimbursement is final and may not be appealed.

(b) In awarding grants under this section, the commissioner shall give highest priority to districts with maintenance and operations tax rates at the greatest rates permitted by law. The commissioner shall also give priority to:

(1) districts with maintenance and operations tax rates at least equal to the state maximum compressed tax rate, as defined by Section 48.051(a), and lowest amounts of maintenance and operations tax revenue per weighted student; and

(2) districts with debt service tax rates near or equal to the greatest rates permitted by law.

### **Sec. 48.266. Distribution Of Foundation School Fund**

(a) For each school year the commissioner shall determine:

(1) the amount of money to which a school district is entitled under Subchapters B, C, and D;

(2) the amount of money to which a school district is entitled under Subchapter E;

(3) the amount of money allocated to the district from the available school fund;

(4) the amount of each district's tier one local share under Section 48.256; and

(5) the amount of each district's tier two local share under Section 48.202 for:

(A) the district's maintenance and operations tax effort described by Section 48.202(a-1)(1); and

(B) the district's maintenance and operations tax effort described by Section 48.202(a-1)(2).

(b) Except as provided by this subsection, the commissioner shall base the determinations under Subsection (a) on the estimates provided to the legislature under Section 48.269, or, if the General Appropriations Act provides estimates for that purpose, on the estimates provided under that Act, for each school district for each school year. The commissioner shall reduce the entitlement of each district that has a final taxable value of property for the second year of a state fiscal biennium that is higher than the estimate under Section 48.269

or the General Appropriations Act, as applicable. A reduction under this subsection may not reduce the district's entitlement below the amount to which it is entitled at its actual taxable value of property.

(c) Each school district is entitled to an amount equal to the difference for that district between the sum of Subsections (a)(1) and (a)(2) and the sum of Subsections (a)(3), (a)(4), and (a)(5).

(d) The commissioner shall approve warrants to each school district equaling the amount of its entitlement except as provided by this section. Warrants for all money expended according to this chapter shall be approved and transmitted to treasurers or depositories of school districts in the same manner that warrants for state payments are transmitted. The total amount of the warrants issued under this section may not exceed the total amount appropriated for Foundation School Program purposes for that fiscal year.

(e) If a school district demonstrates to the satisfaction of the commissioner that the estimate of the district's tax rate, student enrollment, or taxable value of property used in determining the amount of state funds to which the district is entitled are so inaccurate as to result in undue financial hardship to the district, the commissioner may adjust funding to that district in that school year to the extent that funds are available for that year.

(f) If the amount appropriated for the Foundation School Program for the second year of a state fiscal biennium is less than the amount to which school districts and open-enrollment charter schools are entitled for that year, the commissioner shall certify the amount of the difference to the Legislative Budget Board not later than January 1 of the second year of the state fiscal biennium. The Legislative Budget Board shall propose to the legislature that the certified amount be transferred to the foundation school fund from the economic stabilization fund and appropriated for the purpose of increases in allocations under this subsection. If the legislature fails during the regular session to enact the proposed transfer and appropriation and there are not funds available under Subsection (h), the commissioner shall adjust the total amounts due to each school district and open-enrollment charter school under this chapter and the total amounts necessary for each school district to comply with the requirements of Chapter 49 by an amount determined by applying to each district and school the same percentage adjustment to the total amount of state and local revenue due to the district or school under this chapter and Chapter 49 so that the total amount of the adjustment to all districts and schools results in an amount equal to the total adjustment necessary. The following fiscal year:

(1) a district's or school's entitlement under this section is increased by an amount equal to the adjustment made under this subsection; and

(2) the amount necessary for a district to comply with the requirements of Chapter 49 is reduced by an amount necessary to ensure a district's full recovery of the adjustment made under this subsection.

(g) Not later than March 1 each year, the commissioner shall determine the actual amount of state funds to which each school district is entitled under the allocation formulas in this chapter for the current school year and shall compare that amount with the amount of the warrants issued to each district for that year. If the amount of the warrants differs from the amount to which a district is entitled because of variations in the district's tax rate, student enrollment, or taxable value of property, the commissioner shall adjust the district's entitlement for the next fiscal year accordingly.

(h) The legislature may appropriate funds necessary for increases under Subsection (g) from funds that the comptroller, at any time during the fiscal year, finds are available.

(i) The commissioner shall compute for each school district the total amount by which the district's allocation of state funds is increased or reduced under Subsection (g) and shall certify that amount to the district.

(b) A school district that has a major taxpayer, as determined by the commissioner, that because of a protest of the valuation of the taxpayer's property

fails to pay all or a portion of the ad valorem taxes due to the district may apply to the commissioner to have the district's taxable value of property or ad valorem tax collections adjusted for purposes of this chapter or Chapter 46 or 49. The commissioner may make the adjustment only to the extent the commissioner determines that making the adjustment will not:

(1) in the fiscal year in which the adjustment is made, cause the amount to which school districts are entitled under this chapter to exceed the amount appropriated for purposes of the Foundation School Program for that year; and

(2) if the adjustment is made in the first year of a state fiscal biennium, cause the amount to which school districts are entitled under this chapter for the second year of the biennium to exceed the amount appropriated for purposes of the Foundation School Program for that year.

(c) The commissioner shall recover the benefit of any adjustment made under this section by making offsetting adjustments in the school district's taxable value of property or ad valorem tax collections for purposes of this chapter or Chapter 46 or 49 on a final determination of the taxable value of property that was the basis of the original adjustment, or in the second school year following the year in which the adjustment is made, whichever is earlier.

(d) This section does not require the commissioner to make any requested adjustment. A determination by the commissioner under this section is final and may not be appealed.

(c) If a district fails to comply with a request for a refund under Subsection (a), the agency shall certify to the comptroller that the amount constitutes a debt for purposes of Section 403.055, Government Code. The comptroller may certify the amount of the debt to the attorney general for collection.

(e) Subject to Subsection (f), the agency may review a school district as necessary to determine if the district qualifies for each allotment received by the district under this chapter. If the agency determines that a school district received an allotment to which the district was not entitled, the agency may establish a corrective action plan or withhold the applicable amount of funding from the district.

(1) 103 percent of the district's or school's total maintenance and operations revenue per student in average daily attendance for the 2019-2020 school year that the district or school would have received under former Chapters 41 and 42, as those chapters existed on January 1, 2019; or

(b) For purposes of calculating maintenance and operations revenue under Subsection (a), the commissioner shall:

(A) in a school year ending in an even-numbered year, the 2019-2020 school year; and

(d-1) Subject to Subsection (d-2), a school district or open-enrollment charter school is entitled to receive an annual allotment for each student in average daily attendance in the amount equal to the difference, if the difference is greater than zero, that results from subtracting the total maintenance and operations revenue per student in average daily attendance for the current school year from the total maintenance and operations revenue per student in average daily attendance that would have been available to the district or school under former Chapters 41 and 42, as those chapters existed on January 1, 2019. #### **Sec. 49.011. Contingency**

(a) If any of the options described by Section 49.002 as applied to a school district are held invalid by a final decision of a court of competent jurisdiction, a school district is entitled to exercise any of the remaining valid options in accordance with a schedule approved by the commissioner.

(b) If a final order of a court of competent jurisdiction should hold each of the options provided by Section 49.002 invalid, the commissioner shall act under Subchapter G or H to reduce the local revenue level in excess of entitlement only after notice and hearing is afforded to each school district affected by the order. The commissioner shall adopt a plan that least disrupts the affected school districts. If because the exigency to adopt a plan prevents the commissioner from giving a reasonable time for notice and hearing, the commissioner shall timely give notice to and hold a hearing for the affected school districts, but in no event less than 30 days from time of notice to the date of hearing.

(c) If a final order of a court of competent jurisdiction should hold an option provided by Section 49.002 invalid and order a refund to a district of any amounts paid by a district choosing that option, the amount shall be refunded but held in reserve and not expended by the district until released by order of the commissioner. The commissioner shall order the release immediately on the commissioner's determination that, through one of

(b) The ballot shall be printed to permit voting for or against the proposition: "Authorizing the board of trustees of \_\_\_\_\_ School District to educate students of other school districts with local tax revenues."

(c) The proposition is approved if the proposition receives a favorable vote of a majority of the votes cast. (b) The agreement is not effective unless the commissioner certifies that:

- (1) implementation of the agreement will not result in any of the affected districts' local

revenue level being greater than the level established under Section 48.257; and

- (2) the agreement requires the district with a local revenue level in excess of entitlement to make expenditures benefiting students from other districts in an amount at least equal to the amount that would be required for the district to purchase attendance credit under Subchapter D necessary, in combination with any other actions taken under this chapter other than an action under this section, to reduce the district's local revenue level to a level that is equal to or less than the level established under Section 48.257.

**Sec. 49.301. Definition**

In this subchapter, "mineral property" means a real property mineral interest that has been severed from the surface estate by a mineral lease creating a determinable fee or by a conveyance that creates an interest taxable separately from the surface estate. A mineral property includes each royalty interest, working interest, or other undivided interest in the mineral property.

**Sec. 49.302. Determination Of Taxable Value**

(a) For purposes of this subchapter, the taxable value of an individual parcel or other item of property and the total taxable value of property in a school district resulting from the detachment of property from or annexation of property to that district is determined by applying the appraisal ratio for the appropriate category of property determined under Subchapter M, Chapter 403, Government Code, for the preceding tax year to the taxable value of the detached or annexed property determined under Title 1, Tax Code, for the preceding tax year.

(b) For purposes of this subchapter, the taxable value of all or a portion of a parcel or item of real property includes the taxable value of personal property having taxable situs at the same location as the real property.

**HISTORY**

(Renumbered from Tex. Educ. Code §41.202 by Acts 2019, Texas Acts of the 86th Leg.- Regular Session, ch. 943, Sec. 1.059, eff. 9/1/2019. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

**Sec. 49.303. Property Subject To Detachment And Annexation**

(a) Only the following property may be detached and annexed under this subchapter:

- (1) a mineral property;
- (2) real property used in the operation of a public utility, including a pipeline, pipeline

gathering system, or railroad or other rail system; and

(3) real property used primarily for industrial or other commercial purposes, other than property used primarily for agriculture or for residential purposes.

(b) If a final judgment of a court determines that a mineral interest may not be annexed and detached as provided by this subchapter without an attendant annexation and detachment of the surface estate or any other interest in the same land, the detachment and annexation of a mineral interest under this subchapter includes the surface estate and each other interest in the land covered by the mineral interest.

#### **Sec. 49.304. Taxation Of Personal Property**

Personal property having a taxable situs at the same location as real property detached and annexed under this subchapter is taxable by the school district to which the real property is annexed.

#### **Sec. 49.305. Detachment Of Property**

(a) The commissioner shall detach property under this section from each school district from which the commissioner is required under Section 49.004 to detach property under this subchapter.

(b) The commissioner shall detach from each school district covered by Subsection (a) one or more whole parcels or items of property in descending order of the taxable value of each parcel or item, beginning with the parcel or item having the greatest taxable value, until the school district's local revenue level is equal to or less than the level established under Section 48.257, except as otherwise provided by Subsection (c).

(c) If the detachment of whole parcels or items of property as provided by Subsection (a) would result in a district's local revenue level that is less than the level established under Section 48.257 by more than the product of \$10,000 multiplied by weighted average daily attendance, the commissioner may not detach the last parcel or item of property and shall detach the next one or more parcels or items of property in descending order of taxable value that would result in the school district having a local revenue level that is equal to or less than the level established under

Section 48.257 by not more than the product of \$10,000 multiplied by weighted average daily attendance.

(d) Notwithstanding Subsections (a), (b), and (c), the commissioner may detach only a portion of a parcel or item of property if:

(1) it is not possible under this subchapter to reduce the district's local revenue level to a level that is equal to or less than the level established under Section 48.257 unless some or all of the parcel or item of property is detached and the detachment of the whole parcel or item would result in the district from which it is detached having a local revenue level that is less than the level established under Section 48.257 by more than the product of \$10,000 multiplied by weighted average daily attendance; or

(2) the commissioner determines that a partial detachment of that parcel or item of property is preferable to the detachment of one or more other parcels or items having a lower taxable value in order to minimize the number of parcels or items of property to be detached consistent with the purposes of this chapter.

#### **Sec. 49.306. Annexation Of Property**

(a) The commissioner shall annex property detached under Section 49.305 to school districts eligible for annexation in accordance with this section. A school district is eligible for annexation of property to it under this subchapter only if, before any detachments or annexations are made in a year, the district's taxable value of property does not exceed the value necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2).

(b) Property may be annexed to a school district without regard to whether the property is contiguous to other property in that district.

(c) The commissioner shall annex property detached from school districts beginning with the property detached from the school district with the greatest local revenue level in excess of entitlement before detachment, and continuing with the property detached from each other school district in descending order of the district's local revenue level in excess of entitlement before detachment.

(d) The commissioner shall annex the parcels or items of property detached from a school district to other school districts that are eligible for annexation of property in descending order of the taxable

value of each parcel or item according to the following priorities:

- (1) first, to the eligible school districts assigned to the same county as the school district from which the property is detached whose total adopted tax rate for the preceding tax year does not exceed by more than \$0.15 the total tax rate adopted for that year by the school district from which the property is detached;
  - (2) second, to the eligible school districts served by the same regional education service center as the district from which the property is detached whose total adopted tax rate for the preceding tax year does not exceed by more than \$0.10 the total tax rate adopted for that year by the school district from which the property is detached; and
  - (3) third, to other eligible school districts whose total adopted tax rate for the preceding tax year does not exceed by more than \$0.05 the total tax rate adopted for that year by the school district from which the property is detached.
- (e) If the districts identified by Subsection (d) for a school district are insufficient to annex all the property detached from the school district, the commissioner shall increase, for purposes of this section, all the maximum difference in tax rates allowed under Subsection (d) in increments of \$0.01 until the districts are identified that are sufficient to annex all the property detached from the district.
- (f) If only one school district is eligible to annex property detached from a school district within a priority group established by Subsections (d) and (e), the commissioner shall annex property to that district until it reaches the taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2), by annexing whole parcels or items of property. Any remaining detached property shall be annexed to eligible school districts in the next priority group as provided by this section.
- (g) If more than one school district is eligible to annex property detached from a school district within a priority group established by Subsections (d) and (e), the commissioner shall first annex property to the district within the priority group to which could be annexed the most taxable value of property without increasing the district's taxable value of property to an amount that exceeds the amount necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2), until that district reaches

a taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2), by annexing whole parcels or items of property. Then any additional detached property shall be annexed in the same manner to other eligible school districts in the same priority group in descending order of capacity to receive taxable value of annexed property without increasing the district's taxable value of property to an amount that exceeds the amount necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2). If every school district in a priority group reaches a taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2), as nearly as possible, the remaining detached property shall be annexed to school districts in the next priority group in the manner provided by this section.

(h) For purposes of this section, a portion of a parcel or item of property detached in that subdivided form from a school district is treated as a whole parcel or item of property.

(i) The commissioner may order the annexation of a portion of a parcel or item of property, including a portion of property treated as a whole parcel or item under Subsection (h), if:

- (1) the annexation of the whole parcel or item would result in the district eligible to receive it in the appropriate priority order provided by this section having a local revenue level greater than the amount by which the product of \$10,000 multiplied by weighted average daily attendance exceeds the taxable value of property necessary to generate maintenance and operations tax revenue in the amount equal to the district's entitlement under Section 48.202(a-1)(2); or

- (2) the commissioner determines that annexation of portions of the parcel or item would reduce disparities in district taxable values of property necessary to generate maintenance and operations tax revenue in the amount equal to a district's entitlement under Section 48.202(a-1)(2) more efficiently than would be possible if the parcel or item were annexed as a whole.

(j) The commissioner may modify the priorities established by this section as the commissioner considers reasonable to minimize or reduce the number of school districts to which the property detached from a school district is annexed, to minimize or reduce the geographic dispersal of property in a school district, to minimize or reduce

disparities in school district taxable values of property necessary to generate maintenance and operations tax revenue in the amount equal to a district's entitlement under Section 48.202(a-1)(2) that would otherwise result, or to minimize or reduce any administrative burden or expense.

(k) For purposes of this section, a school district is assigned to a county if the school district is assigned to that county in the 1992-1993 Texas School Directory published by the Central Education Agency.

(a) An institution of higher education may exempt a non-degree-seeking or non-certificate-seeking student from the requirements of this subchapter.

(b) A student who has achieved a score set by the board on the SAT or ACT is exempt from the requirements of this subchapter. An exemption under this subsection is effective for the five-year period following the date a student takes the test and achieves the standard set by the board.

(c) A student who has achieved scores set by the board on the questions developed for end-of-course assessment instruments under Section 39.0233(a) is exempt from the requirements of this subchapter. The exemption is effective for the three-year period following the date a student takes the last assessment instrument for purposes of this subchapter and achieves the standard set by the board. This subsection does not apply during any period for which the board designates the questions developed for end-of-course assessment instruments under Section 39.0233(a) as the primary assessment instrument under this subchapter, except that the three-year period described by this subsection remains in effect for students who qualify for an exemption under this subsection before that period.

The commissioner of higher education by rule shall establish the period for which an exemption under this subsection is valid.

(e) A student who successfully completes a college preparatory course under Section 28.014 is exempt from the requirements of this subchapter with respect to the content area of the course, provided that the student satisfies the requirements of Subsection (f) of this section. The exemption is effective for the two-year period following the date the student graduates from high school. The exemption applies only at the institution of higher education that partners with the school district in which the student is enrolled to provide the course, except that the commissioner of higher education by rule may determine the manner in which the exemption may be applied to institutions of higher education other than the partnering institution.

(f) A student receiving an exemption under Subsection (e) must enroll in a college-level course in the exempted content area during the student's first year of enrollment at an institution of higher education occurring after the student qualifies for the exemption. If the student earns a grade below a "C" for the course, the institution shall advise the student of non-course-based options for attaining

college readiness, such as tutoring or accelerated learning.

(g) The board shall:

(1) collect and analyze data regarding the effectiveness of college preparatory courses provided under Section 28.014 in assisting students to become ready to perform freshman-level academic coursework, as measured by the rate at which students receiving an exemption under Subsection (e) successfully complete the course described by Subsection (f); and

(2) in November of each even-numbered year, submit a report of the board's findings to the governor, the lieutenant governor, the speaker of the house of representatives, the standing legislative committees with primary jurisdiction over higher education, and each institution of higher education and school district that offers a college preparatory course under Section 28.014.

### Sec. 51.803. Automatic Admission: All Institutions

(a) Subject to Subsection (a-1), each general academic teaching institution shall admit an applicant for admission to the institution as an undergraduate student if the applicant graduated with a grade point average in the top 10 percent of the student's high school graduating class in one of the two school years preceding the academic year for which the applicant is applying for admission and:

(1) the applicant graduated from a public or private high school in this state accredited by a generally recognized accrediting organization or from a high school operated by the United States Department of Defense;

(2) the applicant:

(A) successfully completed:

(i) at a public high school, the curriculum requirements established under Section 28.025 for the distinguished level of achievement under the foundation high school program; or

(ii) at a high school to which Section 28.025 does not apply, a curriculum that is equivalent in content and rigor to the distinguished level of achievement under the foundation high school program; or

(B) satisfied ACT's College Readiness Benchmarks on the ACT assessment applicable to the applicant or earned on the SAT assessment a score of at least 1,500 out of 2,400 or the equivalent; and

(3) if the applicant graduated from a high school operated by the United States Department of Defense, the applicant is a Texas

resident under Section 54.052 or is entitled to pay tuition fees at the rate provided for Texas residents under Section 54.241(d) for the term or semester to which admitted.

(a-1) Beginning with admissions for the 2011-2012 academic year, The University of Texas at Austin is not required to offer admission to applicants who qualify for automatic admission under Subsection (a) in excess of the number required to fill 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students in an academic year. If the number of applicants who qualify for automatic admission to The University of Texas at Austin under Subsection (a) for an academic year exceeds 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students for that academic year, the university may elect to offer admission to those applicants as provided by this subsection and not as otherwise required by Subsection (a). If the university elects to offer admission under this subsection, the university shall offer admission to those applicants by percentile rank according to high school graduating class standing based on grade point average, beginning with the top percentile rank, until the applicants qualified under Subsection (a) have been offered admission in the number estimated in good faith by the university as sufficient to fill 75 percent of the university's enrollment capacity designated for first-time resident undergraduate students, except that the university must offer admission to all applicants with the same percentile rank. After the applicants qualified for automatic admission under Subsection (a) have been offered admission under this subsection in the number estimated in good faith as sufficient to fill 75 percent of the designated enrollment capacity described by this subsection, the university shall consider any remaining applicants qualified for automatic admission under Subsection (a) in the same manner as other applicants for admission as first-time undergraduate students in accordance with Section 51.805.

(a-2) If the number of applicants who apply to a general academic teaching institution during the current academic year for admission in the next academic year and who qualify for automatic admission to a general academic teaching institution under Subsection (a) exceeds 75 percent of the institution's enrollment capacity designated for first-time resident undergraduate students for that next academic year and the institution plans to offer admission under Subsection (a-1) during the next school year, the institution shall, in the manner prescribed by the Texas Education Agency and not later than September 15, provide to each school district, for dissemination

of the information to high school junior-level students and their parents, notice of which percentile ranks of high school senior-level students who qualify for automatic admission under Subsection (a) are anticipated by the institution to be offered admission under Subsection (a-1) during the next school year.

(a-3) [Repealed by 2015 amendment.]

(a-4) If The University of Texas at Austin elects to offer admission to first-time resident undergraduate students under Subsection (a-1) for an academic year, the university must continue its practice of not considering an applicant's legacy status as a factor in the university's decisions relating to admissions for that academic year.

(a-5) A general academic teaching institution that offers admission to first-time resident undergraduate students under Subsection (a-1) shall require that a student admitted under that subsection complete a designated portion of not less than six semester credit hours of the student's coursework during evening hours or other low-demand hours as necessary to ensure the efficient use of the institution's available classrooms.

(a-6) Not later than December 31 of each academic year in which The University of Texas at Austin offers admission under Subsection (a-1), the university shall deliver a written report to the governor, the lieutenant governor, and speaker of the house of representatives regarding the university's progress in each of the following matters:

- (1) increasing geographic diversity of the entering freshman class;
- (2) counseling and outreach efforts aimed at students qualified for automatic admission under this section;
- (3) recruiting Texas residents who graduate from other institutions of higher education to the university's graduate and professional degree programs;
- (4) recruiting students who are members of underrepresented demographic segments of the state's population; and
- (5) assessing and improving the university's regional recruitment centers.

(b) An applicant who does not satisfy the curriculum requirements prescribed by Subsection (a)(2)(A)(i) or (ii) is considered to have satisfied those requirements if the student completed the portion of the distinguished level of achievement under the foundation high school program curriculum or of the curriculum equivalent in content and rigor, as applicable, that was available to the student but was unable to complete the remainder of the curriculum solely because courses necessary to complete the remainder were unavailable to the student at the appropriate times in the student's high

school career as a result of course scheduling, lack of enrollment capacity, or another cause not within the student's control.

(c) To qualify for admission under this section, an applicant must:

- (1) submit an application before the expiration of any application filing deadline established by the institution; and
- (2) provide a high school transcript or diploma that satisfies the requirements of Subsection (d).

(d) For purposes of Subsection (c)(2), a student's official transcript or diploma must, not later than the end of the student's junior year, indicate:

- (1) whether the student has satisfied or is on schedule to satisfy the requirements of Subsection (a)(2)(A)(i) or (ii), as applicable; or
- (2) if Subsection (b) applies to the student, whether the student has completed the portion of the distinguished level of achievement under the foundation high school program curriculum or of the curriculum equivalent in content and rigor, as applicable, that was available to the student.

(d-1) In addition to admissions required under Subsection (a), each general academic teaching institution shall admit an applicant for admission to the institution as an undergraduate student if the applicant graduated as the valedictorian of the student's high school graduating class in one of the two school years preceding the academic year for which the student is applying for admission and satisfies the requirements of Subsections (a)(1) through (3). Subsection (b) applies to an applicant for admission under this subsection. An applicant admitted under this subsection is considered automatically admitted for purposes of Subsection (a), (a-1), or (a-2), as applicable.

(e) Each institution of higher education shall admit an applicant for admission to the institution as an undergraduate student if the applicant:

- (1) is the child of a public servant listed in Section 615.003, Government Code, who was killed or sustained a fatal injury in the line of duty; and
- (2) meets the minimum requirements, if any, established for purposes of this subsection by the governing board of the institution for high school or prior college-level grade point average and performance on standardized tests.

(f) After admitting an applicant under this section, the institution shall review the applicant's record and any other factor the institution considers appropriate to determine whether the applicant may require additional preparation for college-level work or would benefit from inclusion in a retention program. The institution may

require a student so identified to enroll during the summer immediately after the student is admitted under this section to participate in appropriate enrichment courses and orientation programs. This section does not prohibit a student who is not determined to need additional preparation for college-level work from enrolling, if the student chooses, during the summer immediately after the student is admitted under this section.

(g) The Texas Higher Education Coordinating Board by rule shall develop and implement a program to increase and enhance the efforts of general academic teaching institutions in conducting outreach to academically high-performing high school seniors in this state who are likely to be eligible for automatic admission under Subsection (a) to provide to those students information and counseling regarding the operation of this section and other opportunities, including financial assistance, available to those students for success at public institutions of higher education in this state. Under the program, the coordinating board, after gathering information and recommendations from available sources and examining current outreach practices by institutions in this state and in other states, shall prescribe best practices guidelines and standards to be used by general academic teaching institutions in conducting the student outreach described by this subsection.

(h) An institution that admits under this section an applicant qualified for automatic admission under Subsection (a) or (d-1) may admit the applicant for either the fall semester of the academic year for which the applicant applies or for the summer session preceding that fall semester, as determined by the institution.

(i) If a general academic teaching institution denies admission to an applicant for an academic year, in any letter or other communication the institution provides to the applicant notifying the applicant of that denial, the institution may not reference the provisions of this section, including using a description of a provision of this section such as the top 10 percent automatic admissions law, as a reason the institution is unable to offer admission to the applicant unless the number of applicants for admission to the institution for that academic year who qualify for automatic admission under Subsection (a) is sufficient to fill 100 percent of the institution's enrollment capacity designated for first-time resident undergraduate students.

(j) A general academic teaching institution that elects to offer admission under Subsection (a-1) for an academic year may not offer admission to first-time undergraduate students who are not residents of this state for that academic year in excess of the number required to fill 10 percent of

the institution's enrollment capacity designated for first-time undergraduate students for that academic year.

(k) A general academic teaching institution may not offer admission under Subsection (a-1) for an academic year if, on the date of the institution's general deadline for applications for admission of first-time undergraduate students for that academic year:

(1) a final court order applicable to the institution prohibits the institution from considering an applicant's race or ethnicity as a factor in the institution's decisions relating to first-time undergraduate admissions; or

(2) the institution's governing board by rule, policy, or other manner has provided that an applicant's race or ethnicity may not be considered as a factor in the institution's decisions relating to first-time undergraduate admissions, except that this subdivision does not apply to an institution that did not consider, on or before June 1, 2009, an applicant's race or ethnicity as a factor in its admissions of first-time resident undergraduate students for the 2009-2010 academic year.

(l) The Texas Higher Education Coordinating Board shall publish an annual report on the impact of Subsection (a-1) on the state's goal of closing college access and achievement gaps under "Closing the Gaps," the state's master plan for higher education, with respect to students of an institution that offers admission under that subsection, disaggregated by race, ethnicity, socioeconomic status, and geographic region and by whether the high school from which the student graduated was a small school, as defined by the commissioner of education, or a public high school that is ranked among the lowest 20 percent of public high schools according to the percentage of each high school's graduates who enroll in a four-year institution, including a general academic teaching institution, in one of the two academic years following the year of the applicant's high school graduation. On request, a general academic teaching institution that offers admission under Subsection (a-1) shall provide the board with any information the board considers necessary for the completion of the report required by this subsection.

(m) The Texas Higher Education Coordinating Board and the commissioner of education shall jointly adopt rules to establish eligibility requirements for admission under this section as to curriculum requirements for high school graduation under Subsection (a)(2)(A) for students participating under the recommended or advanced high school program so that the admission of those students is not affected by their

participation in the recommended or advanced high school program. This subsection expires September 1, 2020.

**Sec. 51.8045. Graduates Of Certain Special High School Programs**

(a) For purposes of Sections 51.803 and 51.804 only, the governing body of a school district may treat a high school magnet program, academy, or other special program conducted by the school district at a high school attended by high school students who are not students of the special program as an independent high school with its own graduating class separate from the graduating class of other students attending the high school if:

(1) the special program was in operation in the 2000-2001 school year;

It is the intent of the legislature that all institutions of higher education pursue academic excellence by considering students' academic achievements in decisions related to admissions. Because of changing demographic trends, diversity, and population increases in the state, each general academic teaching institution shall also consider all of, any of, or a combination of the following socioeconomic indicators or factors in making first-time freshman admissions decisions:

(e) This section does not apply to an institution that has an open enrollment policy, except that a student may apply to a general academic teaching institution that has an open enrollment policy only if the student satisfies the requirements described by Subsection (a).

(f) This section does not apply to Lamar State College--Orange or Lamar State College--Port Arthur as long as those institutions operate as two-year lower-division institutions of higher education.

(g) The Texas Higher Education Coordinating Board and the commissioner of education shall jointly adopt rules to establish eligibility requirements for admission under this section as to curriculum requirements for high school graduation under Subsection (a)(1) for students participating in the minimum, recommended, or advanced high school program so that the admission requirements for those students under this section are not more stringent than the admission requirements under this section for students participating in the foundation high school program. **Sec. 51.9241. Admission Of Student With Nontraditional Secondary Education**

(1) "Institution of higher education" has the meaning assigned by Section 61.003.

(2) "Nontraditional secondary education" means a course of study at the secondary school level in a nonaccredited private school setting, including a home school.

(b) Because the State of Texas considers successful completion of a nontraditional secondary education to be equivalent to graduation from a public high school, an institution of higher education must treat an applicant for admission to the institution as an undergraduate student who presents evidence that the person has successfully completed a nontraditional secondary education according to the same general standards, including specific standardized testing score requirements, as other applicants for undergraduate admission who have graduated from a public high school.

(c) An institution of higher education may not require an applicant for admission to the institution as an undergraduate student who presents evidence that the person has successfully completed a nontraditional secondary education to:

(1) obtain or submit evidence that the person has obtained a general education development certificate, certificate of high school equivalency, or other credentials equivalent to a public high school degree; or

(2) take an examination or comply with any other application or admission requirement not generally applicable to other applicants for undergraduate admission to the institution.

(d) If an institution of higher education in its undergraduate admission review process sorts applicants by high school graduating class rank, the institution shall place any applicant who presents evidence that the applicant has successfully completed a nontraditional secondary education that does not include a high school graduating class ranking at the average high school graduating class rank of undergraduate applicants to the institution who have equivalent standardized testing scores as the applicant.

#### **Sec. 56.3021. Students Enrolled In Private Or Independent Institutions: Limited Eligibility For Grant**

(a) Notwithstanding any other provision of this subchapter, a student who was awarded a TEXAS grant under this subchapter to pay the costs of enrollment in a private or independent institution of higher education for the 2005 fall semester or an earlier academic period may continue to receive grants under this subchapter while enrolled in a private or independent institution of higher education if the student is otherwise eligible to receive a grant under this subchapter.

(b) For purposes of determining the eligibility of a student to continue to receive a grant under this section, a reference in this subchapter to an eligible institution includes a private or independent institution of higher education.

(c) The amount of a TEXAS grant under this section for a student enrolled full-time at a private or independent institution of higher education is the amount determined by the coordinating board as the average statewide amount of tuition and required fees that a resident student enrolled full-time in a baccalaureate degree program would be charged for that semester or term at general academic teaching institutions.

(d) Notwithstanding Subsection (c) or other law, the total amount of financial aid that a student enrolled in a private or independent institution of higher education is eligible to receive in a state fiscal year from TEXAS grants awarded under this section may not exceed the maximum amount the student may receive in tuition equalization grants in that fiscal year as determined under Subchapter F, Chapter 61.

(e) Notwithstanding Subsection (c) or other law, a student enrolled in a private or independent institution of higher education may not receive a TEXAS grant under this section and a tuition equalization grant under Subchapter F, Chapter 61, for the same semester or other term, regardless of whether the student is otherwise eligible for both grants during that semester or term. A student who but for this subsection would be awarded both a TEXAS grant and a tuition equalization grant for the same semester or other term is entitled to receive only the grant of the greater amount.

(f) This section expires September 1, 2015.

#### **Sec. 56.303. Administration Of Program**

(a) The coordinating board shall administer the TEXAS grant program and shall adopt any rules necessary to implement the TEXAS grant program or this subchapter. The coordinating board shall consult with the student financial aid officers of eligible institutions in developing the rules.

(b) The coordinating board shall adopt rules to provide a TEXAS grant to an eligible student enrolled in an eligible institution in the most efficient manner possible.

(c) The total amount of TEXAS grants awarded may not exceed the amount available for the program from appropriations, gifts, grants, or other funds.

(d) From money appropriated by the legislature for the purposes of this subchapter, the coordinating board annually shall determine the allocation of money available for TEXAS grants among general academic teaching institutions and other eligible institutions and shall distribute the money accordingly.

(d-1) In allocating among eligible institutions money available for initial TEXAS grants for an academic year, the coordinating board shall ensure that each of those institutions' proportional share of the total amount of money for initial grants that is allocated to eligible institutions under this section for that year does not, as a result of the number of students who establish eligibility at the institution for an initial grant under Section 56.3041(2)(A), change from the institution's proportional share of the total amount of money for initial grants that is allocated to those institutions under this section for the preceding academic year.

(e) In determining who should receive a TEXAS grant, the coordinating board and the eligible institutions shall give priority to awarding TEXAS grants to students who demonstrate the greatest financial need and whose expected family contribution, as determined according to the methodology used for federal student financial aid, does not exceed 60 percent of the average statewide amount of tuition and required fees described by Section 56.307(a). In giving priority based on financial need as required by this subsection to students who meet the requirements for the highest priority as provided by Subsection (f), an eligible institution shall determine financial need according to the relative expected family contribution of those students, beginning with students who have the lowest expected family contribution.

(f) Beginning with TEXAS grants awarded for the 2013-2014 academic year, in determining who should receive an initial TEXAS grant, each eligible institution, in addition to giving priority as provided by Subsection (e), shall give highest priority to students who meet the eligibility criteria described by Section 56.3041(2)(A). If there is money available in excess of the amount required to award an initial TEXAS grant to all students meeting those criteria, an eligible institution shall make awards to other students who meet the eligibility criteria described by Section 56.304(a)(2)

(A), provided that the institution continues to give priority to students as provided by Subsection (e).

(B) fosters students' knowledge of real-world mathematics and science issues and applications and teaches students to apply critical and computational thinking and

problem-solving skills to those issues and problems;

(C) includes the study of English, foreign languages, social studies, mathematics, science, and technology; and

(D) offers students learning opportunities related to mathematics and science through in-depth research and field-based studies;

(c) The academy is a coeducational institution for selected Texas high school students with an interest in and the potential to excel in mathematics and science studies. The academy shall admit only high school juniors and seniors, except that the academy may admit a student with exceptional abilities who is not yet a high school junior. The board shall set aside adequate space on the university campus in Brownsville to operate the academy and implement the purposes of this section. The academy must operate on the same fall and spring semester basis as the university. Full-time students of the academy must enroll for both the fall and spring semesters. Faculty members of the university shall teach all academic classes at the academy. (f) The academy shall provide the university-level curriculum in a manner that is appropriate for the social, psychological, emotional, and physical development of high school juniors and seniors. The administrative and counseling personnel of the academy shall provide continuous support to and supervision of students.

(g) For each student enrolled in the academy, the academy is entitled to allotments from the foundation school fund under Chapter 42 as if the academy were a school district without a tier one local share for purposes of Section 42.253. If in any academic year the amount of the allotments under this subsection exceeds the amount of state funds paid to the academy in the first fiscal year of the academy's operation, the commissioner of education shall set aside from the total amount of funds to which school districts are entitled under Section 42.253(c) an amount equal to the excess amount and shall distribute that amount to the academy. #### **Sec. 130.0032. Tuition For Students Residing Outside Of District**

(a) The governing board of a public junior college district may allow a person who resides outside the district and who owns property subject to ad valorem taxation by the district, or a dependent of the person, to pay tuition at the rate applicable to a student who resides in the district.

(b) The governing board of a public junior college district may allow a person who resides outside the district and in the taxing district of a contiguous public junior college district to pay tuition and fees at the rate applicable to a student who resides in the district.

(b-1) The governing board of a public junior college district that includes at least six campuses shall allow a person who resides outside the district and in the taxing district of a contiguous public junior college district to pay tuition and fees at the rate applicable to a student who resides in the district for enrollment at a campus located within an area in which the person resides that, as of January 1, 2013, is designated as a super neighborhood by a municipality with a population greater than two million.

(c) The governing board of a public junior college district may allow a person who resides outside the district to pay tuition and fees at a rate less than the rate applicable to other persons residing outside the district, but not less than the rate applicable to a student who resides in the district, if the person:

(d) The governing board of a junior college district shall establish the rate of tuition and fees charged to a student who resides outside the district by considering factors such as:

(1) the sufficiency of the rate to promote taxpayer equity by encouraging areas benefiting from the educational services of the district to participate in financing the education of students from that area;

(2) the extent to which the rate will ensure that the cost to the district of providing educational services to a student who resides outside the district is not financed disproportionately by the taxpayers residing within the district; and

(3) the rate that would generate tuition and fees equal to the total amount of tuition and fees charged to a similarly situated student who resides in the district plus an amount per credit hour determined by dividing the total amount of ad valorem taxes imposed by the district in the tax year preceding the year in which the academic year begins by the total number of credit hours for which the students who were residents of the district enrolled in the district in the preceding academic year.

#### Sec. 130.0033. Pilot Project: Reduced Tuition For Certain Courses

(a) The Texas Higher Education Coordinating Board shall establish a pilot project to measure the impact of reducing tuition for junior college courses offered at times of low enrollment demand in order to promote greater access to higher education and more efficient use of junior college facilities and resources. The coordinating board shall select a reasonable number of public junior colleges to participate in the pilot project.

(b) The governing board of a public junior college selected to participate in the pilot project may charge tuition for a course or courses at a rate established by the governing board that is less than the rate otherwise required by Section 54.051 or other law if the governing board finds that the reduced tuition rate is reasonably necessary to enable the junior college to make efficient use of its

facilities or faculty. The finding must be stated in the order or resolution establishing the reduced tuition rate.

(c) Charging tuition at a reduced rate under this section does not affect the right of the public junior college to a proportionate share of state appropriations under Section 130.003 for the contact hours attributable to students paying tuition at the reduced rate.

#### Sec. 130.0034. Tuition For Repeated Courses

(a) The governing board of a public junior college district may charge a student a higher rate of tuition than the tuition that would otherwise be charged for a course in which the student enrolls if:

(1) the student has previously enrolled in the same course or a course of substantially the same content and level two or more times; and

(2) the student's enrollment in the course is not included in the contact hours used to determine the junior college's proportionate share of state appropriations under Section 130.003.

(b) This section does not apply to a non-degree-credit developmental course.

(c) The total amount of tuition charged to the student under this section for the repeated course may not exceed the full cost of instruction for the course with respect to the student.

#### Sec. 130.0035. Performance Reports

(a) As soon as practicable after the end of each academic year, a junior college district shall prepare an annual performance report for that academic year. The report shall be prepared in a form that would enable any interested person, including a prospective student, to understand the information in the report and to compare the information to similar information for other junior college districts. A junior college district shall make the report available to any person on request.

(b) The report must include the following information for the junior college district for the academic year covered by the report:

(1) the rate at which students completed courses attempted;

(2) the number and types of degrees and certificates awarded;

(3) the percentage of graduates who passed licensing exams related to the degree or certificate awarded, to the extent the information can be determined;

(5) the passing rates for students required to be tested under Section 51.306;

(6) the percentage of students enrolled who are academically disadvantaged;

(7) the percentage of students enrolled who are economically disadvantaged;

(8) the racial and ethnic composition of the district's student body; and

(a) If the creation of the junior college district and the extension of the boundaries of the independent school district both occurred prior to March 17, 1950, the added territory of the independent school district may be brought into the junior college district in the manner prescribed by this section.

(b) A petition requesting that such territory be added to the junior college district signed by a majority of the registered voters of the territory may be presented to the governing board of the junior college district.

(c) The board shall determine whether the petition is signed by the required majority and if such determination is affirmative and if the board shall also determine that the facilities of the junior college district may be extended to cover adequately the scholastics of the added territory, the board shall pass an order admitting such territory. The order shall describe by metes and bounds the junior college district as extended; and a copy of the order shall be filed with the county

superintendent. Thereafter, the territory shall be a part of the junior college district for all intents and purposes.

#### Sec. 130.065. Annexation By Election

(a) On presentation to the governing board of a junior college district of a petition proposing the annexation of territory to the district, the governing board may call an election on the question of annexing the territory. The petition must:

- (1) contain an accurate description of the territory proposed for annexation; and
- (2) be signed by a number of registered voters in the territory proposed to be annexed equal to at least five percent of the registered voters in that territory as of the most recent general election for state and county officers.

(b) Before the governing board of the junior college district may order an annexation election, the board must hold a public hearing within the territory proposed for annexation. The hearing must be held not earlier than the 45th day and not later than the 30th day before the date the board issues the order for the election.

(c) Not later than the 30th day before the date of a public hearing held under Subsection (b), the board shall complete and publish a service plan for the territory proposed for annexation. The service plan is informational only and must include:

- (1) the maximum property tax rate that the board may adopt;
- (2) the most recent property tax rate adopted by the board and any tax rate increase proposed or anticipated to occur after the annexation;
- (3) the tuition rate that would apply after annexation for a student who resides in the district;
- (4) the tuition and fees that would apply under Section 130.0032(d) for a student who resides outside the district;
- (5) plans for providing educational services in the territory, including proposed or contemplated campus and facility expansion in the territory;
- (6) plans for cooperation with local workforce agencies; and
- (7) any other elements consistent with this subchapter prescribed by rule of the Texas Higher Education Coordinating Board.

(d) The governing board shall issue an order for an election to be held in the territory proposed for annexation on a uniform election date that is not less than 45 days after the date of the order and that affords enough time to hold the election in the manner provided by law. The board shall give notice of the election in the manner provided by law for notice by the county judge of a general election.

(e) The governing board shall conduct the election in accordance with the Election Code.

(f) The election shall be held only in the territory proposed for annexation, and only those registered voters residing in that territory are permitted to vote.

(g) The ballot shall be printed to provide for voting for or against the proposition: "Approving the annexation by the \_\_\_\_\_ (name of junior college district) of the following territory: \_\_\_\_\_ (with the blank filled in with a description of the territory proposed for annexation), and authorizing the imposition of an ad valorem tax for junior college purposes, which is currently set at a rate of \_\_\_\_\_ (with the blank filled in with the ad valorem tax rate of the district for the current year or, if that rate has not been adopted, the tax rate for the preceding year) per \$100 valuation of taxable property."

(h) The measure is adopted if the measure receives a favorable vote of a majority of those voters voting on the measure.

(i) If the measure is adopted, the governing board of the district shall enter an order declaring the result of the election and that the territory is annexed to the junior college district on the date specified in the order.

(j) If the proposition is adopted and the governing board is elected from single-member districts, the governing board in the annexation order entered under Subsection (i) shall assign the new territory to one or more of the current single-member districts.

(k) The annexation of territory and any resulting change in the single-member districts from which members of the governing board are elected does not affect the term of a member of the governing board serving on the date the annexation or redistricting takes effect. The governing board shall provide that each member of the governing board representing a single-member district who is holding office on the date the annexation takes effect serve the remainder of the member's term and represent a single-member district in the expanded junior college district for that term regardless of whether the member resides in that single-member district.

(l) If the measure is not adopted at the election, another election to annex all or part of the same

territory may not be held earlier than one year after the date of the election at which the measure is not adopted.

**Sec. 130.070. Disannexation Of Territory Comprising An Independent School District**

(a) The territory of an independent school district which is the only school district that has been annexed to a countywide independent school district junior college district in an adjoining county may be disannexed from such countywide independent school district junior college district and constituted as a separate independent school district junior college district in accordance with the provisions of this section, provided that the countywide independent school district junior college district has no outstanding bonded indebtedness which was incurred after the annexation of such independent school district.

(b) The proposed disannexation and creation of a separate junior college district shall be initiated by a petition signed by not less than five percent (5%) of the registered voters of the independent school district seeking disannexation. The petition shall be presented to the board of trustees of the independent school district seeking to be disannexed, which shall pass upon the legality and genuineness of the petition and forward the petition, if approved, to the coordinating board.

(c) If the petition is found to be in order and all statutory provisions have been complied with, the coordinating board shall approve the petition and notify the board of trustees of the independent school district seeking to be disannexed, of such

approval. The board of trustees of the independent school district seeking disannexation shall then order an election to be held in the school district within a time not less than twenty (20) days nor more than thirty (30) days after the order is issued. At the election the ballots shall be printed to provide for voting for or against the proposition: "Disannexation of the \_\_\_\_\_ Independent School from the \_\_\_\_\_ Junior College District, and creation of the \_\_\_\_\_ Junior College District with boundaries coterminous with the boundaries of the \_\_\_\_\_ Independent School District" (the blanks to be filled in as appropriate). All expenses incurred in holding the election shall be paid by the independent school district ordering such election.

(d) The board of trustees shall make a canvass of the returns and declare the result of the election within ten (10) days after holding the election and shall enter an order on the minutes of the board as to the result of the election. If a majority of the votes cast are in favor of disannexation and creation of a separate junior college district, such independent school district shall be deemed disannexed and constituted as a separate junior college district.

(e) If the creation of the separate junior college district is approved, it shall be governed by the provisions of this code relating to independent school district junior colleges. The offices of the representatives of the disannexed independent school district on the governing body of the countywide independent school district junior college district shall be terminated, and the remaining members of that governing body shall continue to serve for the terms for which they were elected.

(f) Any petition for disannexation and creation of a separate junior college district may also incorporate a request for the proper authorities, in the event an election is ordered for the creation of a new district, to submit at the same election, either as a part of the disannexation issue or as a separate issue, the questions of issuing bonds and levying bond taxes and levying maintenance taxes, in the event the district is created, not to exceed the limits provided in Section 130.122 of this code.

(Acts 1969, 61st Leg., p. 3004, ch. 889, Sec. 1. Renumbered from Education Code Sec. 51.071 by Acts 1971, 62nd Leg., p. 3293, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.)

### **Sec. 130.082. Governing Board Of Junior College Of Other Than Independent School District**

(a) Except as provided by Section 130.081 or another section of this subchapter, the governing boards of all junior college districts shall be

constituted and chosen as described in the provisions of this section.

(b) The official name of the governing board of the junior college district shall be the board of trustees.

(c) The official name of a junior college district shall be the "\_\_\_\_\_ Junior College District" unless the board of trustees of the district elects to call the district a community college district, in which event the official name of the junior college district shall be the "\_\_\_\_\_ Community College District." The board shall designate an appropriate and locally pertinent descriptive word or words to be filled in the appropriate blank (and may change such designation when deemed advisable) by resolution or order; provided that no two districts shall have the same or substantially similar names. A district may change its name under Section 130.005 or 130.0051. All resolutions or orders designating or changing names shall be filed immediately with the Texas Higher Education Coordinating Board and the first name filed shall have priority, and the district shall be advised of any previous filing of any identical or substantially similar name. The name of any junior college district existing on September 1, 1997, shall remain the same until and unless it is changed under this chapter, and any change in the name of a junior college district made before that date is validated and is deemed to have been properly made. Another district may not use the name of any district whose name change is validated under this subsection.

(d) The number of members or trustees of the governing board shall be either seven or nine, in accordance with the laws applicable to the junior college district on the effective date of this code or on the date of the creation of a new district or a new board. Any seven-member board may be increased to nine, and the two additional members shall be appointed by resolution or order of the board for terms of office as prescribed in Subsection (e) of this section. Any vacancy occurring on the board through death, resignation, or otherwise, shall be filled by a special election ordered by the board or by appointment by resolution or order of the board. A person appointed to fill a vacancy in a trustee district must be a resident of that trustee district. A person appointed to fill a vacancy in the representation of the district at large must be a resident of the district at large. A special election to fill a board vacancy is conducted in the same manner as the district's general election except as provided by the applicable provisions of the Election Code. The person appointed to fill the unexpired term shall serve until the next regular election of members to the board, at which time the position shall be filled by election for a term appropriately shortened to

conform with what regularly would have been the length of the term for that position. Each member of the board shall be a resident, qualified voter of the district and shall take the proper oath of office before taking up the duties thereof. Members of a board shall not receive any remuneration or emolument of office, but they shall be entitled to reimbursement for their actual expenses incurred in performing their duties, to the extent authorized and permitted by the board. The board shall elect one of its members as president of the board, and the president shall preside at meetings of said board and perform such other duties and functions as are prescribed by the board. The president of the board shall have a vote the same as the other members. The board shall elect a secretary of the board who may or may not be a member of the board, and who shall be the official custodian of the minutes, books, records, and seal of said board, and who shall perform such other duties and functions as are prescribed by the board. The board shall be authorized to elect any other officers as deemed necessary or advisable. Officers of the board shall be elected at the first regular meeting of the board following the regular election of members of the board in even-numbered years, or at any time thereafter in order to fill a vacancy. Said board shall be authorized to appoint or employ such agents, employees, and officials as deemed necessary or advisable to carry out any power, duty, or function of said board; and to employ a president, dean, or other administrative officer, and upon the president's recommendation to employ faculty and other employees of the junior college. Said board shall act and proceed by and through resolutions or orders adopted or passed by the board and the affirmative vote of a majority of all members of the board shall be required to adopt or pass a resolution or order, and the board shall adopt such rules, regulations, and bylaws as it deems advisable, not inconsistent with this section.

(e) The basic term of office of a member of the board shall be six years, and one-third of the members of the board shall be elected at large in the district at regular elections to be held on the first Saturday in April in each even-numbered year; provided that with a seven-member board two members shall be elected in two consecutive even-numbered years and three members shall be elected in the following even-numbered year. The members of each board in office at the effective date of this act, and all subsequent members of the board, shall remain in office until the expiration of the terms for which they were elected or appointed, and until their successors shall have been elected and qualified; provided that where any existing board has held its regular elections for members of the board in odd-numbered years prior to the

effective date of this act, the board shall nevertheless hold its next regular election on the first Saturday in April of the next even-numbered year following the effective date of this act, and the term of office of each incumbent member of the board shall, in effect, be lengthened by one year so as to comply with the foregoing provisions of this act. Upon the creation of a new board, or in any other situation where necessary, the members of the board shall choose by lot the terms for which they shall serve, so as to comply with the foregoing provisions. If a board is increased from seven to nine members, one of the members shall be appointed to serve until the first election at which two members otherwise would have been elected, and the other shall be appointed to serve until the second election at which two members otherwise would have been elected, and three members shall be elected for six-year terms at each election.

(f) Members of a board shall be elected at large from each junior college district at regular elections to be called and held by the board for such purpose, at the expense of the district, on the first Saturday in April in each even-numbered year. Said elections shall be held in accordance with the Texas Election Code except as hereinafter provided, and all resident, qualified electors of the district shall be permitted to vote. Each such election shall be called by resolution or order of the board, and notice of each such election shall be given by publishing an appropriate notice, in a newspaper of general circulation in the district, at least 10 days prior to the date of the election, setting forth the date of the election, the polling place or places, the numbers of the positions to be filled, the candidates for each position and any other matters deemed necessary or advisable.

(g) The board shall designate a number for the position held by each member of the board, from one upward in consecutive numerical order in such manner that the lowest numbers shall be assigned to the members whose terms of office expire in the shortest length of time, provided that any such position number designations on existing boards under existing law at the effective date of this act shall remain in effect. At each election candidates shall be voted upon and be elected separately for each position on the board, and the name of each candidate shall be placed on the official ballot according to the number of the position for which he or she is running. A candidate receiving a majority of the votes cast for all candidates for a position shall be declared elected. If no candidate receives such a majority, then the two candidates receiving the highest number of votes shall run against each other for the position. The run-off election for all positions shall be held on a date that complies

with law and shall be ordered, notice thereof given, and held, as provided herein for regular elections. Any resident, qualified elector of the district may have his or her name placed as a candidate on the official ballot for any position to be filled at each regular election by filing with the secretary of the board a written application therefor signed by the applicant, not later than 5 p.m. of the 45th day before the date of the election. An application may not be filed earlier than the 30th day before the date of the filing deadline. Such application must state the number of the position for which he or she is a candidate, or the name of the incumbent member of the board holding the position for which he or she desires to run. The location on the ballot of the names of candidates for each position shall be chosen by lot by the board. A candidate shall be eligible to run for only one position at each election.

(h) Notwithstanding anything in this code to the contrary, the provisions of all or any part of the laws of this state in effect immediately prior to the effective date of this act and relating to the name of any junior college district or the name of its governing board, or to the number of members of its governing board, or the procedures and times of electing or choosing said members, shall remain in effect under the following conditions. If, at any time before the effective date of this act (but not thereafter), the governing board of any junior college district shall specify by resolution or order the particular provisions of the aforesaid laws applicable to it which it desires to remain in effect, then such particular provisions shall continue to apply to said board and its district; provided that at any time thereafter the governing board may make this section in its entirety applicable to it and its district by appropriate resolution or order, and thereby permanently cancel the effect of the aforesaid particular provisions of other laws. All resolutions and orders permitted by this section shall be filed immediately with the Coordinating Board, Texas College and University System.

(i) The election of trustees of a countywide junior or community college district that contains a city with a population of more than 1.18 million located primarily in a county with a population of 2 million or more shall be held on the first Saturday in April of each even-numbered year. When a runoff election is necessary, the board may order the election for a date to coincide with the date of the runoff election for city officials, if the city is holding a runoff election; otherwise, the board shall set the date of the runoff election for not later than three weeks following the regular election.

(j) Notwithstanding the election dates prescribed by this section, an election held under this section

shall be held on a uniform election date as provided by law.

Within 90 days following the effective date of an order or resolution of the board of trustees to increase the number of board members, the board of trustees shall redivide the district into the appropriate number of trustee districts as increased. At the next district election following the redistricting of the district under this subsection, each trustee district shall elect a member of the board unless the board of trustees determines

(a) If an independent school district board that has control and management of a junior college district that contains all or part of a city with a population of more than 1,500,000 divests itself of control and management under Section 130.016 or

130.017 of this code, the appointment and election of trustees of the junior college district are subject to Sections 130.018 and 130.082 of this code, except as otherwise provided by this section.

(b) The board of trustees consists of nine members elected from trustee districts.

(c) If the board of trustees of the independent school district that divests itself of management and control of the junior college district is elected from nine single-member districts, the trustees appointed for the junior college district shall have the same initial single-member district boundaries. For the initial board members of the junior college district appointed by the independent school district board of trustees, three members shall serve terms of two years, three members shall serve terms of four years, and three members shall serve terms of six years. The trustees shall draw lots to determine the length of their terms. The terms of the initial board members shall expire on the last day of December of the odd-numbered year that does not exceed their terms.

(d) Each trustee district must be compact and contiguous and of a population to the extent practicable equal to other trustee districts.

(e) The general election for trustees shall be held every two years on the first Tuesday after the first Monday in November of the odd-numbered year or on the uniform election date chosen by the prior board under prior law.

(f) The board of trustees of the independent school district shall designate a number for each trustee district. At each election candidates are voted on and elected separately for each trustee district, and a candidate's name is placed on the official ballot according to the number of the district for which the candidate is running.

(g) The voters of each trustee district elect one trustee.

(h) If a trustee changes residence to a location outside the district from which the trustee is elected, the trustee vacates the office. Except as provided by Subsection (i) of this section, a district boundary change that results in the trustee who represents the district no longer being a resident of the district does not affect the trustee's term. That trustee serves for the remainder of the term to which elected. If the trustee changes residence to a location that is neither in the district as it existed on the date the trustee was elected to the current term nor in the new district, the trustee's seat on the board is vacated.

(i) If a change in district boundaries occurs as a result of redistricting and places the residence of a trustee whose office is not next up for election outside the numbered district for which the trustee was elected and the trustee fails to move

his residence within the new boundaries of that numbered district before the 75th day preceding the date of the first election for which the boundary changes are effective, the office is vacated and shall be filled at that election.

(j) If new territory is added to the district, the board shall temporarily assign the territory to one or more trustee districts as appropriate. Not later than the 180th day after the publication of a federal census, the board shall revise district boundaries to take account of district population changes.

(k) To be entitled to a place on the ballot, a candidate for trustee must file an application for a place on the ballot with the board secretary not later than 5 p.m. of the 45th day before election day. An application may not be filed earlier than the 30th day before the date of the filing deadline.

(l) To be elected, a trustee candidate must receive a majority of the total number of votes received by all the candidates for the position. If no candidate receives the vote required for election to a position, the board shall order a runoff election to be held in accordance with the applicable provisions of the Election Code.

(m) Trustees serve for six-year staggered terms. The terms of three members expire on the last day of December of each odd-numbered year.

(n) The board shall fill by appointment a board vacancy. The remaining members of the board, not later than the 30th day after the date on which the vacancy occurs, shall select a suitable person who resides in the applicable district to fill the board vacancy until the next regular trustee election. If the board for any reason fails or refuses to appoint a person to fill the board vacancy, the board shall order an election for the purpose of filling the vacancy for the remainder of the unexpired term. The election shall be held on the next uniform election date provided by the Election Code as long as that date does not occur before the 90th day after the date on which the vacancy occurs.

### Sec. 130.122. Tax Bonds And Maintenance Tax

(a) The governing board of each junior college district, and each regional college district for and on behalf of its junior college division, shall be authorized to issue negotiable coupon bonds for the construction and equipment of school buildings and the purchase of the necessary sites therefor, and levy and pledge annual ad valorem taxes sufficient to pay the principal of and interest on said bonds as the same come due, and to levy annual ad valorem taxes for the further maintenance

Such bonds may be issued in various series or issues, and shall mature serially or otherwise not more than 40 years from their date, and shall bear interest at such rate or rates as shall be determined within the discretion of the board. All bonds shall be sold to the highest bidder for not less than their par value and accrued interest.

(b) No such bonds shall be issued and none of the aforesaid taxes shall be levied unless authorized by a majority of the electors voting at an election held for such purpose in accordance with law, at the expense of the district. such voted maximum rate. Said refunding bonds, and the interest coupons appurtenant thereto, shall be negotiable instruments and they may be made redeemable prior to maturity, and may be issued in such form, denomination, and manner, and under such terms, conditions, and details, and shall be signed and executed, as provided by the board in the resolution or order authorizing the issuance of said refunding bonds. (b) For the purpose of carrying out any one or more of the aforesaid powers each board shall be authorized to issue its revenue bonds to be payable from and secured by liens on and pledges of all or any part of any of the revenues from any rentals, rates, charges, fees, or other resources of such board, in the manner hereinafter provided. Said bonds may be issued to mature serially or otherwise not more than 50 years from their date. In the authorization of any such bonds, each board may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other types of bonds, under such terms or conditions as may be set forth in the resolution or order authorizing the issuance of said bonds, all within the discretion of the board. Said bonds, and any interest coupons appertaining thereto, shall be negotiable instruments (provided that such bonds may be issued registrable as to principal alone or as to both principal and interest), and shall be executed, and may be made redeemable prior to maturity, and may be issued in such form, denominations, and manner, and under such terms, conditions, and details, and may be sold in such manner, at such price, and under such terms, and said bonds shall bear interest at such rate or rates, as shall be determined and provided by the board in the resolution or order, authorizing the issuance of said bonds. If so permitted in the bond resolution, and required part of the proceeds from the sale of the bonds may be used for paying interest thereon during the period of the construction of any facilities to be provided through the issuance of said bonds, and for the payment of operation and maintenance expenses of said facilities to the extent, and for the period of time, specified in said bond resolution, and also for the creation of reserves for the payment of the principal of and interest on the bonds; and such moneys be invested, until needed, to the

extent, and in the manner provided, in said bond resolution or order.

(c) Each board shall be authorized to fix and collect rentals, rates, charges, and/or fees, including student union fees, from students and others for the occupancy, use and/or availability of all or any of its property, buildings, structures, activities, operations, or facilities, of any nature, in such amounts and in such manner as may be determined by such board.

(d) Each board shall be authorized to pledge all or any part of any of its revenues from any of the aforesaid rentals, rates, charges, and/or fees to the payment of any bonds issued hereunder, including the payment of principal, interest, and any other amounts required or permitted in connection with said bonds. When any of the revenues from any such rentals, rates, charges, and/or fees are pledged to the payment of bonds, they shall be fixed and collected in such amounts as will be at least sufficient, together with any other pledged resources, to provide for all payments of principal, interest, and any other amounts required in connection with said bonds, and, to the extent required by the resolution or order authorizing the issuance of said bonds, to provide for the payment of operation, maintenance, and other expenses. Each board shall be authorized to establish and enforce such parietal rules for students and others, and to enter into such agreements regarding occupancy, use, and availability, and the amounts and collection of pledged revenues, fees, or other resources as will assure making all said required payments. Fees for the use or availability of all or any property, buildings, structures, activities, operations, or facilities, of any nature, may be pledged to the payment of said bonds, and shall be fixed and collected from all or any designated part of the students enrolled in the institution or institutions, in such amounts and in such manner as shall be determined and provided by the board in the resolution or order authorizing the issuance of the bonds, and said fees may be collected in the full amounts required or permitted herein, without regard to actual use or availability, commencing at any time designated by the board. Said fees may be fixed and collected for the use or availability of any specifically described property, buildings, structures, activities, operations, or facilities, of any nature; or said fees may be fixed and collected as general fees for the general use or availability of the institution or institutions. Such specific and/or general fees may be fixed and collected and pledged to the payment of any issue or series of bonds issued hereunder, in the full amounts required or permitted herein, in addition to, and regardless of the existence of, any other specific or general fees at the institution or

institutions; provided that each board may restrict its power to pledge such additional specific or general fees in any manner that may be provided in the resolution or order authorizing the issuance of any bonds issued hereunder, and provided that no such additional specific fees shall be pledged if prohibited by any resolution or order which authorized the issuance of any then outstanding bonds issued pursuant to any Texas statute.

(e) In addition to the revenues, fees, and other resources authorized to be pledged to the payment of bonds issued hereunder, each board further shall be authorized to pledge irrevocably to such payment, out of the tuition charges required or permitted by law to be imposed at its institution or institutions, an amount not exceeding 25 percent of the tuition charges collected from each enrolled student for each semester or term, and each board also shall be authorized to pledge to such payment all or any part of any grant, donation, or income received or to be received from the United States government or any other public or private source, whether pursuant to an agreement or otherwise.

(f) Any revenue bonds issued by any such board under this act, and any revenue bonds or notes issued by any such board under any other Texas statute and payable from tuition fees and charges and/or any part of the use fees from or revenues of any property, buildings, structures, activities, operations, or facilities at the institution or institutions, may be refunded or otherwise refinanced by such governing board, and in such case all pertinent and appropriate provisions of this section shall be fully applicable to such refunding bonds. In refunding or otherwise refinancing any such bonds or notes the governing board may, in the same authorizing proceedings, refund or refinance bonds issued pursuant to this section and bonds or notes issued pursuant to any other such Texas statute and combine all said refunding bonds and any other additional new bonds to be issued pursuant to this section into one or more issues or series of bonds, and may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other type of bonds. All refunding bonds shall be issued and delivered under such terms and conditions as may be set forth in the authorizing proceedings.

(g) All bonds permitted to be issued under this section, and the appropriate proceedings authorizing their issuance, shall be submitted to the Attorney General of the State of Texas for examination. If he finds that such bonds have been authorized in accordance with law he shall approve them, and thereupon they shall be registered by the Comptroller of Public Accounts of the State of Texas; and after such approval and registration such bonds shall be incontestable in any court, or other forum,

for any reason, and shall be valid and binding obligations in accordance with their terms for all purposes.

(h) All bonds issued under this section shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, small business investment corporations, insurance companies of all kinds and types, fiduciaries, trustees, and guardians, and for all interest and sinking funds and other public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic. Said bonds also shall be eligible and lawful security for all deposits of public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of said bonds, when accompanied by any unmatured interest coupons appurtenant thereto.

(i) All revenue bonds heretofore approved by the Attorney General of the State of Texas and registered by the Comptroller of Public Accounts of the State of Texas which were issued, sold, and delivered by any board, and which are payable from or secured by a pledge of any revenues, use fees, tuition, or other resources of such board, are hereby validated in all respects, together with all proceedings authorizing the issuance thereof, and said bonds and proceedings shall be valid as though they had been duly and legally issued and authorized originally.

#### **Sec. 130.125. Revenue Obligations**

(a) As used in this section:

(1) "Credit agreement" means a loan agreement, revolving credit agreement, agreement establishing a line of credit, letter of credit, reimbursement agreement, insurance contract, commitment to purchase obligations, purchase or sale agreement, or commitment or other contract or agreement authorized and approved by the governing body of the issuer in connection with the authorization, issuance, security, exchange, payment, purchase, or redemption of obligations or interest thereon.

(2) "Eligible project" means any project or purpose for which an issuer is authorized to issue revenue bonds pursuant to Section 130.123 of this code or any other provision of law.

(3) "Governing body" means the governing board of an issuer.

(4) "Issuer" means a junior college district or a regional college district.

(5) "Obligations" means notes, warrants, or other special obligations authorized to be issued by an issuer under the provisions of this section and all "public securities" as defined by Section 1201.002, Government Code, which prior to the delivery thereof, have been rated by a nationally recognized rating agency for municipal securities in either one of the three highest ranking categories for short-term obligations or one of the four highest ranking categories for long-term obligations. It is provided, however, that the term "obligations" does not mean or include any obligations payable from ad valorem taxes.

(6) "Project costs" means all costs and expenses incurred in relation to an eligible project, including without limitation design, planning, engineering, and legal costs, acquisition costs of land, interest in land, rights-of-way, and easements, construction costs, costs of machinery, equipment, and other capital assets incident and related to the operation, maintenance, and administration of an eligible project, and financing costs, including interest during construction and thereafter, underwriter's discount and fees for legal, financial, and other professional services. Project costs attributable to an eligible project and incurred prior to the issuance of any obligations issued to finance an eligible project may be reimbursed from the proceeds of sale of obligations.

(b) The governing body of an issuer is hereby authorized and empowered to issue, sell, and deliver obligations and execute credit agreements in order to finance project costs of an eligible project or to refund obligations issued in connection with an eligible project, subject to the limitations contained herein. Obligations shall be secured solely

by: (1) the proceeds of sale of other obligations; (2) any revenues which the issuer is authorized by any statute or constitutional provision to pledge to the payment of any obligations; or (3) any one or more of such sources, including credit agreements, all as the governing body of the issuer shall provide in the resolution or order authorizing the issuance of the obligations. Obligations shall be repaid from the source or sources securing the payment thereof, funds received from a credit agreement, or from any other revenues otherwise legally available for the payment thereof, except funds derived from ad valorem taxation.

(c) The issuance of obligations shall be authorized by resolution or order of the governing body of an issuer, which resolution or order shall fix the maximum amount of obligations to be issued or, if applicable, the maximum principal amount which may be outstanding at any time, the maximum term obligations issued and delivered pursuant to such authorization shall be outstanding, the maximum interest rate to be borne by the obligations (within the limitations of Chapter 1204, Government Code), the manner of sale (which may be by either public or private sale), price, form, terms, conditions, and covenants thereof. The resolution or order authorizing the issuance of obligations may provide for the designation of a paying agent and registrar for the obligations and may authorize one or more designated officers or employers of the issuer to act on behalf of the issuer from time to time in the selling and delivering of obligations authorized and fixing the dates, price, interest rates, interest payment periods, and other procedures as may be specified in the resolution or order. Obligations may be issued in such form or such denomination, payable at such time or times, in such amount or amounts or installments, at such place or places, in such form, under such terms, conditions, and details, in such manner, redeemable prior to maturity at any time or times, bearing no interest, or bearing interest at any rate or rates (either fixed, variable, floating, adjustable, or otherwise, all as determined in accordance with the resolution or order providing for the issuance of the obligations, which resolution or order may provide a formula, index, contract, or any other arrangement for the periodic determination of interest rates), not to exceed the maximum net effective interest rate allowed by law and may be signed or otherwise executed in such manner, with manual or facsimile signatures, and with or without a seal, all as shall be specified by the governing body of the issuer in the resolution or order authorizing the issuance of the obligations. The proceeds received from the sale of obligations may be deposited or invested in any manner and in such obligations as may be specified

in the resolution or order or other proceedings authorizing the obligations. In the event any officer or officers whose signatures are on any obligations cease to be such officer or officers before the delivery thereof to the purchaser, such signature or signatures shall nevertheless be valid and sufficient for all purposes and the successor or successors in office of any such officers shall be fully authorized to complete the execution, authentication, or delivery of said obligations to the purchaser or purchasers thereof.

(d) The governing body of an issuer may enter into credit agreements in conjunction with the issuance, payment, sale, resale, or exchange of obligations to enhance the security for or provide for the payment, redemption, or remarketing of the obligations and interest on the obligations or to reduce the interest payable on the obligations. A credit agreement is an agreement for professional services and shall contain the terms and conditions and be for the period that the governing body of the issuer approves. The cost to the issuer of the credit agreement may be paid from the proceeds of the sale of the obligations to which the credit agreement relates or from any other source, including revenues of the issuer that are available for the purpose of paying the obligations and the interest on the obligations or that may otherwise be legally available to make those payments.

(e) Obligations, including accrued interest, may from time to time be refinanced, renewed, or refunded by the issuance of other obligations. Credit agreements entered into by an issuer, whether pursuant to the provisions of this section or not, may be refinanced, renewed, refunded, or otherwise terminated and a new credit agreement substituted therefor by amendment to the proceedings which authorized such credit agreements and, if required to accomplish the substitution of credit agreements, outstanding bonds may be refunded with obligations.

(f) Preliminary to the issuance and delivery of obligations, the resolution or order authorizing the issuance thereof, together with any credit agreements and any contracts providing revenues and security to pay the obligations, shall be submitted to the attorney general for his review. If the attorney general shall find that such credit agreement or agreements, if any, contracts, if any, and other authorizing proceedings conform to the requirements of the Texas Constitution and this section, the attorney general shall approve them. Thereafter, the authorized obligations may be executed and delivered, exchanged, or refinanced from time to time in accordance with the authorizing proceedings. Upon such approval by the attorney general and initial delivery of any obligations so authorized, any such

credit agreements, any such contracts providing revenues or security, such initial obligations, and all other obligations thereafter issued pursuant to the authorizing proceedings shall be incontestable for any cause in any court or other forum and shall be valid and binding obligations enforceable in accordance with their respective terms and provisions.

(f-1) The governing body of an "eligible issuer" may enter into credit agreements as described in Subsection (d). As used in this subsection, "eligible issuer" means an issuer that prior to the effective date of this subsection (i) issued bonds which, prior to or simultaneously with the delivery thereof, were rated by a nationally recognized rating agency for municipal securities in one of the four highest ranking categories for long-term obligations, and (ii) reserved in the resolution or order authorizing issuance of the bonds the right, in the event of a change in state law, to substitute a credit agreement in lieu of cash and investments in a reserve fund established pursuant to the resolution or order.

(g) All obligations issued by an issuer shall constitute negotiable instruments and are investment securities governed by Chapter 8, Business & Commerce Code, notwithstanding any provisions of law or court decision to the contrary and are legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, insurance companies, fiduciaries, and trustees and for the sinking funds of cities, towns, villages, school districts, and other political subdivisions or public agencies of the State of Texas. Said obligations also are eligible to secure deposits of any public funds of the state or any political subdivision or public agency of the state and are lawful and sufficient security for the deposits to the extent of their market value.

(h) This section shall be construed liberally to effectuate the legislative intent and purposes of this section and all powers herein granted shall be broadly interpreted to effectuate such intent and purposes and not as a limitation of powers.

(i) In case any one or more of the provisions, clauses, or words of this section or the application of such provisions, clauses, or words to any situation or circumstance shall for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect any other provisions, clauses, or words of this section or the application of such provisions, clauses, or words to any other situation or circumstance, and it is intended that this section shall be severable and shall be construed and applied as if any such invalid or unconstitutional provision, clause, or word had not been included herein.

(j) This section shall be cumulative of all other laws on the subject, but this section shall be wholly sufficient authority within itself for the issuance of obligations and the performance of the other acts and procedures authorized hereby, or under any agreement, without reference to any other laws or any restrictions or limitations contained herein. To the extent of any conflict or inconsistency between any provisions of this section and any provisions of any other law, the provisions of this section shall prevail and control; provided, however, that any issuer shall have the right to use the provisions of any other laws not in conflict with the provisions hereof to the extent convenient or necessary to carry out any power or authority, express or implied, granted by this section.

(k) When the governing body of any issuer provides in the resolution or order or other proceedings authorizing the issuance of any bond, any credit agreement, or any other agreement for a pledge or lien on revenues, income, or other resources of the issuer, or the assets of the issuer, or any fund maintained by the issuer to secure payment of the obligations or to secure payments required by a credit agreement or any other agreement, such pledge or lien shall be valid and binding in accordance with its terms without further action on the part of the issuer and without any filing or recording with respect thereto except in the records of the issuer. All such liens and pledges shall be perfected from the time of payment for and delivery of the obligations and the credit agreement or other agreement until the obligations or other payments, including those under the credit agreement, have been paid or payment of the obligations has been provided for or the terms of the credit agreement or other agreement have been satisfied in accordance with their respective terms and such lien shall be fully perfected as to items then on hand and thereafter received until the satisfaction of such obligations, and said items shall be subject to such liens or pledges without any physical delivery thereof or further act. Nothing contained in this section shall relieve any issuer of any obligation to file or record any lien on realty or submit any issue of obligations for approval by the attorney general and registration by the comptroller of public accounts.

(b) On presentation of a petition for an election to authorize a junior college district branch campus maintenance tax signed by not fewer than five percent of the qualified voters of the jurisdiction in which the proposed tax is to be levied, the governing body of the school district or county, as applicable, shall determine the legality and the genuineness of the petition and, if it is determined to be legal and genuine, forward the petition to the Texas Higher Education Coordinating Board. The governing body of a county with a population of 150,000 or less, on completion of a needs assessment analysis showing adequate need and on approval by the coordinating board, on its own motion and without the presentation of a petition, may propose an election to authorize a branch campus maintenance tax.

(c) The Texas Higher Education Coordinating Board shall determine whether the requirements provided by Subsections (a) and (b) have been satisfied and whether the proposed tax is feasible and desirable under the coordinating board's rules for junior colleges. (d-1) Subsection (d) does not apply to a course offered by a public junior college with a service area located wholly or partly in a county with a population of more than three million for high school students enrolled in a school district located wholly or partly in a county with a population of more than three million.

(g) Any qualified voter residing within the boundaries of the jurisdiction in which the tax may be levied is entitled to vote at the election.

(h) The ballot shall be printed to provide for voting for or against the proposition: "The levy of a junior college district branch campus maintenance tax in an amount not to exceed (insert a number not higher than five) cents on each \$100 valuation of all taxable property in \_\_\_\_\_." (insert name of school district or name of county, as applicable).

(i) To be adopted, the measure must receive a favorable vote of a majority of those voting on the measure.

(j) Not later than the 10th day after the date of the election, the governing body shall canvass the returns of the election and shall enter an order declaring the result of the election.

(k) The proceeds of the junior college district branch campus maintenance tax may be used only as follows:

(1) to operate and maintain a junior college district branch campus and support its programs and services in the area of the political subdivision that levied the tax; and

The reports shall be made available routinely to the governing body of the jurisdiction in which the tax is levied, and to members of the general public on request.

(a) In determining whether a public junior college may offer baccalaureate degree programs and what degree programs may be offered, the coordinating board shall:

(1) apply the same criteria and standards the coordinating board uses to approve baccalaureate degree programs at general academic teaching institutions and medical and dental units; and

(2) consider the following factors:

(B) how those degree programs would complement the other programs and course offerings of the junior college and whether the associate degree program offered by the junior college in the same field has been successful;

(C) whether those degree programs would unnecessarily duplicate the degree programs offered by other institutions of higher education; and

(D) the ability of the junior college to support the degree programs with student enrollment and the adequacy of the junior college's facilities, faculty, administration, libraries, and other resources.

(b) Except as provided by Subsection (b-1), a public junior college may offer a baccalaureate degree program under this subchapter only if its junior college district:

(1) had a taxable property valuation amount of not less than \$6 billion in the preceding year; and

(b-1) The requirement of Subsection (b)(1) does not apply to a public junior college for the purpose of offering a baccalaureate degree program in nursing approved under Section 130.308 if its junior college district:

(4) detailed information regarding existing articulation agreements and dual enrollment agreements indicating:

(A) that at least three articulation agreements have been established with general academic teaching institutions or medical and dental units, or the reasons why no articulation agreements have been established; and

(B) that, with the agreement of the applicable general academic teaching institution or medical and dental unit, established articulation agreements are at capacity.

(2) obtain a letter from each clinical site provided indicating that the clinical site has not refused a similar request from a general academic teaching institution or medical and dental unit; and

(3) establish that the corresponding associate degree program offered by the public junior college has been successful as indicated

by job placement rates and licensing exam scores.

(b) A baccalaureate degree program offered under this subchapter by a public junior college in the field of nursing must:

(1) be a bachelor of science degree program;

(2) meet the standards and criteria the Texas Board of Nursing uses to approve pre-licensure degree programs at general academic teaching institutions and medical and dental units regardless of whether the program is a pre-licensure or post-licensure program; and

(3) be accredited by a national nursing accrediting body recognized by the United States Department of Education.

(c) A public junior college offering a baccalaureate degree program in the field of nursing under this subchapter must demonstrate to the coordinating board that it will maintain or exceed the enrollment available to nursing students enrolled in an associate degree program at the public junior college in the 2016-2017 academic year and must continue to maintain or exceed that level of enrollment in the corresponding associate degree program until the 2021-2022 academic year. (a) Except as provided by Subsection (b), a degree program created under this subchapter may be funded solely by a public junior college's proportionate share of state appropriations under Section 130.003, local funds, and private sources. This subsection does not require the legislature to appropriate state funds to support a degree program created under this subchapter. The coordinating board shall weigh contact hours attributable to students enrolled in a junior-level or senior-level course offered under this subchapter used to determine a public junior college's proportionate share of state appropriations under Section 130.003 in the same manner as a lower division course in a corresponding field.

(b) Notwithstanding Subsection (a), in its recommendations to the legislature relating to state funding for public junior colleges, the coordinating board shall recommend that a public junior college authorized to offer baccalaureate degree programs under Section 130.303(a) or 130.304 receive substantially the same state support for junior-level and senior-level courses in the fields of applied science, applied technology, dental hygiene, and nursing offered under this subchapter as that provided to a general academic teaching institution for substantially similar courses. For purposes of this subsection, in determining the contact hours attributable to students enrolled in a junior-level or senior-level course in the field of applied science, applied technology, dental hygiene, or nursing offered under this subchapter used to determine a public junior college's proportionate share of state appropriations under Section 130.003, the coordinating board shall weigh those contact hours as necessary to provide the junior college the appropriate level of state support to the extent state funds for those courses are included in the appropriations. This subsection does not prohibit the legislature from directly appropriating state funds to support junior-level and senior-level courses to which this subsection applies.

(c) A public junior college may not charge a student enrolled in a baccalaureate degree program offered under this subchapter tuition and fees in an amount that exceeds the amount of tuition and fees charged by the junior college to a similarly situated student who is enrolled in an associate degree program in a corresponding field. This subsection does not apply to tuition and fees charged for a baccalaureate degree program in the field of applied science or applied technology previously offered as part of a pilot project and offered by a public junior college authorized to offer baccalaureate degree programs under Section 130.303(a).

**Sec. 160.01. State Policy**

It is declared to be the policy of the State of Texas to promote the development and maintenance of regional educational services and facilities in the Southern States in the professional, technological, scientific, literary, and other fields so as to provide greater educational advantages for the citizens of the State of Texas and the citizens of the States in the Southern Region. This policy can best be accomplished under the plan embodied in the regional compact entered into by the State of Texas and thirteen other States February 8, 1948, through their respective Governors.

**HISTORY**

(Acts 1971, 62nd Leg., p. 3014, ch. 994, Sec. 15, eff. Aug. 30, 1971.)

**Sec. 160.02. Text Of Compact**

The regional education compact, as amended, reads as follows:

#### THE REGIONAL COMPACT

(As amended)

WHEREAS, The States who are parties hereto have during the past several years, conducted careful investigation looking toward the establishment and maintenance of jointly owned and operated regional educational institutions in the Southern States in the professional, technological, scientific, literary and other fields, so as to provide greater educational advantages and facilities for the citizens of the several States who reside within such region; and

WHEREAS, Meharry Medical College of Nashville, Tennessee, has proposed that its lands, buildings, equipment, and the net income from its endowment be turned over to the Southern States, or to an agency acting in their behalf, to be operated as a regional institution for medical, dental and nursing education upon terms and conditions to be hereafter agreed upon between the Southern States and Meharry Medical College; which proposal, because of the present financial condition of the institution has been approved by the said States who are parties hereto; and

WHEREAS, The said States desire to enter into a compact with each other providing for the planning and establishment of regional educational facilities; now,

THEREFORE, In consideration of the mutual agreements, covenants and obligations assumed by the respective States who are parties hereto (hereinafter referred to as "States"), the said several States do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting States, which, for the purpose of this Compact, shall constitute an area for regional education supported by public funds derived from taxation by the constituent States and derived from other sources for the establishment, acquisition, operation and maintenance of regional educational schools and institutions, for the benefit of citizens of the respective States residing within the region so established, as may be determined from time to time in accordance with the terms and provisions of this Compact.

The States do further hereby establish and create a joint agency which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the "Board"), the members of which Board shall consist of the Governor of each State, ex officio, and four additional citizens of each State to be appointed by the Governor thereof, at least one of whom shall be selected from the field of education and at least one of whom shall be a member of the Legislature of that State. The Governor shall continue as a member of the Board during his tenure of office as Governor of the State but the members of the Board

appointed by the Governor shall hold office for a period of four (4) years except that in the original appointments one Board member so appointed by the Governor shall be designated at the time of his appointment to serve an initial term of two (2) years, one Board member to serve an initial term of three (3) years, and the remaining Board member to serve the full term of four (4) years, but thereafter the successor of each appointed Board member shall serve the full term of four (4) years. Vacancies on the Board caused by death, resignation, refusal or inability to serve, shall be filled by appointment by the Governor for the unexpired portion of the term. The officers of the Board shall be a Chairman, a Vice-Chairman, a Secretary, a Treasurer, and such additional officers as may be created by the Board from time to time. The Board shall meet annually and officers shall be elected to hold office until the next annual meeting. The Board shall have the right to formulate and establish by-laws not inconsistent with the provisions of this Compact to govern its own actions in the performance of the duties delegated to it, including the right to create and appoint an Executive Committee and a Finance Committee with such powers and authority as the Board may delegate to them from time to time. The Board may, within its discretion, elect as its Chairman a person who is not a member of the Board, provided such person resides within a signatory State; and upon such election such person shall become a member of the Board with all the rights and privileges of such membership.

It shall be the duty of the Board to submit plans and recommendations to the States from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the States, of such character and type and for such educational purposes, professional, technological, scientific, literary, or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the States, and to all properties and facilities used in connection therewith, shall be vested in said Board as the agency of and for the use and benefit of the said States and citizens thereof; and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject

to any provisions or limitations which may be contained in the legislative Acts of the State authorizing the creation, establishment and operation of such educational institutions.

In addition to the power and authority heretofore granted, the Board shall have the power to enter into such agreements or arrangements with any of the States and with educational institutions or agencies, as may be required in the judgment of the Board, to provide adequate services and facilities for the graduate, professional, and technical education for the benefit of the citizens of the respective States residing within the region, and such additional and general power and authority as may be vested in the Board from time to time by legislative enactment of the said States.

Any two (2) or more States who are parties of this Compact shall have the right to enter into supplemental agreements providing for the establishment, financing and operation of regional educational institutions for the benefit of citizens residing within an area which constitutes a portion of the general region herein created, such institutions to be financed exclusively by such States and to be controlled exclusively by the members of the Board representing such States, provided such agreement is submitted to and approved by the Board prior to the establishment of such institutions.

Each State agrees that, when authorized by the Legislature, it will from time to time make available and pay over to said Board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the States under the terms of this Compact, the contribution of each State at all times to be in the proportion that its population bears to the total combined population of the States who are parties hereto as shown from time to time by the most recent official published report of the Bureau of the Census of the United States of America; or upon such other basis as may be agreed upon.

This Compact shall not take effect or be binding upon any State unless and until it shall be approved by proper legislative action of as many as six (6) or more of the States whose Governors have subscribed hereto within a period of eighteen (18) months from the date hereof. When and if six (6) or more States shall have given legislative approval to this Compact within said eighteen (18) months period, it shall be and become binding upon such six (6) or more States sixty (60) days after the date of legislative approval by the sixth State, and

the Governors of such six (6) or more States shall forthwith name the members of the Board from their States as hereinabove set out, and the Board shall then meet on call of the Governor of any State approving this Compact, at which time the Board shall elect officers, adopt by-laws, appoint committees and otherwise fully organize. Other States whose names are subscribed hereto shall thereafter become parties hereto upon approval of this Compact by legislative action within two (2) years from the date hereof, upon such conditions as may be agreed upon at the time. Provided, however, that with respect to any State whose constitution may require amendment in order to permit legislative approval of the Compact, such State or States shall become parties hereto upon approval of this Compact by legislative action within seven (7) years from the date hereof, upon such conditions as may be agreed upon at the time.

After becoming effective this Compact shall thereafter continue without limitation of time; provided, however, that it may be terminated at any time by unanimous action of the States; and provided further that any State may withdraw from this Compact if such withdrawal is approved by its Legislature, such withdrawal to become effective two (2) years after written notice thereof to the Board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing State from its obligations hereunder accruing up to the effective date of such withdrawal. Any State so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the Board or of any of the funds of the Board held under the terms of this Compact.

If any State shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said State as authorized by and in compliance with the terms and provisions of this Compact, all rights, privileges and benefits of such defaulting State, its members on the Board and its citizens, shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one year immediately following the date of such default this Compact may be terminated with respect to such defaulting State by an affirmative vote of three-fourths (3/4) of the members of the Board (exclusive of the members representing the State in default), from and after which time such State shall cease to be a party to this

Compact and shall have no further claim to or ownership of any of the property held by or vested in the Board or to any of the funds of the Board held under the terms of this Compact, but such termination shall in no manner release such defaulting State from any accrued obligation or otherwise affect this Compact or the rights, duties, privileges or obligations of the remaining States thereunder.

IN WITNESS WHEREOF this Compact has been approved and signed by Governors of the several States, subject to the approval of their respective Legislatures in the manner hereinabove set out, as of the 8th day of February, 1948.

The Compact for Education is hereby entered into and enacted into law in the form substantially as follows:

*COMPACT FOR EDUCATION*

ARTICLE I

PURPOSE AND POLICY

Section A. It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive,

legislative, professional educational and lay leadership on a nationwide basis at the State and local levels.

2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

3. Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the Nation, so that the executive and legislative branches of State Government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

4. Facilitate the improvement of State and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

Section B. It is the policy of this compact to encourage and promote local and State initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and States.

Section C. The party States recognize that each of them has an interest in the quality and quantity of education furnished in each of the other States, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the Nation, and because the products and services contributing to the health, welfare and economic advancement of each State are supplied in significant part by persons educated in other States.

## ARTICLE II STATE DEFINED

As used in this Compact, "State" means a State, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

## ARTICLE III THE COMMISSION

Section A. The Education Commission of the States, hereinafter called "the Commission," is hereby established. The Commission shall consist of

seven members representing each party State. One of such members shall be the Governor or his designated representative, and six shall be appointed by and serve at the pleasure of the Governor, unless the laws of the State otherwise provide. In addition to any other principles or requirements which a State may establish for the appointment and service of its members of the Commission, the guiding principle for the composition of the membership on the Commission from each party State shall be that the members representing such State shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the State Government, higher education, the State education system, local education, lay and professional, public and non-public educational leadership. Of those appointees, one may be the head of a State agency or institution, designated by the Governor, having responsibility for one or more programs of public education. In addition to the members of the Commission representing the party States, there may be not to exceed ten non-voting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

Section B. The members of the Commission shall be entitled to one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action of the Commission shall be only at a meeting at which a majority of the commissioners are present. The Commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the Commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(j).

Section C. The Commission shall have a seal.

Section D. The Commission shall elect annually, from among its members, a chairman, who shall be a Governor, a vice chairman and a treasurer. The Commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the Commission, and together with the treasurer and such other personnel as the Commission may deem appropriate shall be bonded in such amount as the Commission shall determine. The executive director shall be secretary.

Section E. Irrespective of the civil service, personnel or other merit system laws of any of the

party States, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Commission, and shall fix the duties and compensation of such personnel. The Commission in its bylaws shall provide for their personnel policies and programs of the Commission.

Section F. The Commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

Section G. The Commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any State, the United States, or any other governmental agency or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the Commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this Article shall be reported in the annual report of the Commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

Section H. The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

Section I. The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party States.

Section J. The Commission annually shall make to the Governor and legislature of each party State a report covering the activities of the Commission for the preceding year. The Commission may make such additional reports as it may deem desirable.

#### ARTICLE IV POWERS

In addition to authority conferred on the Commission by other provisions of the compact, the Commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

3. Develop proposals for adequate financing of education as a whole and at each of its many levels.

4. Conduct or participate in research of the types referred to in this Article in any instance where the Commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

#### ARTICLE V COOPERATION WITH FEDERAL GOVERNMENT

Section A. If the laws of the United States specifically so provided, or if administrative provision is made therefor within the Federal Government, the United States may be represented on the Commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to Federal law, and may be drawn from any one or more branches of the Federal Government, but no such representative shall have a vote on the Commission.

Section B. The Commission may provide information and make recommendations to any executive or legislative agency or officer of the Federal Government concerning the common educational policies of the States, and may advise with any such agencies or officers concerning any matter of mutual interest.

#### ARTICLE VI COMMITTEES

Section A. To assist in the expeditious conduct of its business when the full Commission is not meeting, the Commission shall elect a steering

committee of thirty members which, subject to the provisions of this compact and consistent with the policies of the Commission, shall be constituted and function as provided in the bylaws of the Commission. One-third of the voting membership of the steering committee shall consist of Governors, and the remainder shall consist of other members of the Commission. A Federal representative on the Commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the Commission shall be elected as follows: fifteen for one year and fifteen for two years. The chairman, vice chairman, and treasurer of the Commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the Commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

Section B. The Commission may establish advisory and technical committees composed of State, local, and Federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the States concerned, be established to consider any matter of special concern to two or more of the party States.

Section C. The Commission may establish such additional committees as its bylaws may provide.

#### ARTICLE VII FINANCE

Section A. The Commission shall advise the Governor or designated officer or officers of each party State of its budget and estimated expenditures for such period as may be required by the laws of that party State. Each of the Commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party States.

Section B. The total amount of appropriation requests under any budget shall be apportioned among the party States. In making such apportionment, the Commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party States.

Section C. The Commission shall not pledge the credit of any party States. The Commission may

meet any of its obligations in whole or in part with funds available to it pursuant to Article III(g) of this compact, provided that the Commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it pursuant to Article III(g) thereof, the Commission shall not incur any obligation prior to the allotment of funds by the party States adequate to meet the same.

Section D. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the Commission.

Section E. The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party States and by any persons authorized by the Commission.

Section F. Nothing contained herein shall be construed to prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

#### ARTICLE VIII ELIGIBLE PARTIES; ENTRY INTO AND WITHDRAWAL

Section A. This compact shall have as eligible parties all States, Territories, and Possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a Governor, the term "Governor," as used in this compact, shall mean the closest equivalent official of such jurisdiction.

Section B. Any State or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same; provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

Section C. Adoption of the compact may be either by enactment thereof or by adherence thereto by the Governor; provided that in the absence of enactment, adherence by the Governor shall be sufficient to make his State a party only until December 31, 1967. During any period when a State is participating in this compact through gubernatorial action, the Governor shall appoint those persons who, in addition to himself, shall serve as the members of the Commission from his State, and

shall provide to the Commission an equitable share of the financial support of the Commission from any source available to him.

Section D. Except for a withdrawal effective on December 31, 1967, in accordance with paragraph C of this Article, any party State may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing State has given notice in writing of the withdrawal to the Governors of all other party States. No withdrawal shall affect any liability already incurred by or chargeable to a party State prior to the time of such withdrawal.

ARTICLE IX  
CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any State or of the United States, or the application thereof to any Government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any Government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any State participating therein, the compact shall remain in full force and effect as to the State affected as to all severable matters.

### ARTICLE IV EDUCATIONAL RECORDS AND ENROLLMENT

A. Unofficial or "hand-carried" education records--In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial education records containing uniform information as determined by the Interstate Commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records pending validation by the official records, as quickly as possible.

B. Official education records/transcripts --Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state will process and furnish the official education records to the school in the receiving state within ten (10) days or within such time as is reasonably determined under the rules promulgated by the Interstate Commission.

C. Immunizations--Compacting states shall give thirty (30) days from the date of enrollment or within such time that does not exceed thirty (30) days as is reasonably determined under the rules promulgated by the Interstate Commission, for students to obtain any immunization(s) required by the receiving state. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on their validated level from an accredited school in the sending state.

#### ARTICLE V

##### PLACEMENT AND ATTENDANCE

A. Course placement--When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school and/or educational assessments conducted at the school in the sending state if the courses are offered. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course(s).

B. Educational program placement--The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation/placement in like programs in the sending state. Such programs include, but are not limited to: (1) gifted and talented programs; and (2) English as a second language (ESL). This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

C. Special education services--(1) In compliance with the federal requirements of the Individuals with Disabilities Education Act (IDEA) (20 U.S.C. Section 1400 et seq.), the receiving state shall initially provide comparable services to a student with disabilities based on his/her current Individualized Education Program (IEP); and (2) In compliance with the requirements of Section 504 of the Rehabilitation Act (29 U.S.C.A. Section 794), and with Title II of the Americans with Disabilities Act (42 U.S.C.A. Sections 12131 - 12165), the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II Plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility--Local education agency administrative officials shall have flexibility in waiving course/program prerequisites, or other preconditions for placement in courses/programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities--A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

#### ARTICLE VI

##### ELIGIBILITY

##### A. Eligibility for enrollment

1. Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

2. A local education agency shall be prohibited from charging local tuition to a transitioning military child placed in the care of a non-custodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

3. A transitioning military child, placed in the care of a non-custodial parent or

other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he/she was enrolled while residing with the custodial parent.

B. Eligibility for extracurricular participation--State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

#### ARTICLE VII GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

A. Waiver requirements--Local education agency administrative officials shall waive specific courses required for graduation if similar coursework has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

B. Exit exams--States shall accept: (1) exit or end-of-course exams required for graduation from the sending state; or (2) national norm-referenced achievement tests; or (3) alternative testing, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her senior year, then the provisions of Article VII, Section C, shall apply.

C. Transfers during senior year--Should a military student transferring at the beginning or during his or her senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with Sections A and B of this article.

The Texas commissioner of education shall adopt a passing standard on one or more national norm-referenced achievement tests for purposes of permitting a student to whom this compact applies to meet that standard as a substitute for completing a specific course or achieving a score on an assessment instrument otherwise required by this state for graduation. Each passing standard must be at least as rigorous as the applicable requirement otherwise imposed by this state for graduation, and be consistent with college readiness standards adopted under Section 28.008, Texas Education Code. Before adopting or revising a passing standard, the commissioner of education must consider any comments submitted by the Texas Higher Education Coordinating Board or the State Board of Education.

A passing standard adopted by the commissioner of education is available only for a student who enrolls in a public school in this state for the first time after completing the ninth grade or who reenrolls in a public school in this state at or above the 10th grade level after an absence of at least two years from the public schools of this state. Each passing standard in effect when a student first enrolls in a public high school in this state remains applicable to the student for the duration of the student's high school enrollment, regardless of any subsequent revision of the standard.

The commissioner of education may adopt rules as necessary to implement the commissioner's duties and authority under this article of the compact.

The Texas Higher Education Coordinating Board shall monitor the postsecondary educational performance in this state of students permitted to graduate in accordance with passing standards adopted by the commissioner of education for purposes of this compact. Based on the educational performance of those students in private and public institutions, the coordinating board shall make recommendations to the commissioner of education regarding appropriate revisions of the passing standards.

#### ARTICLE VIII STATE COORDINATION

A. Each member state shall, through the creation of a State Council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in, and compliance with, this compact and Interstate Commission activities. While each member

state may determine the membership of its own State Council, its membership must include at least: the state superintendent of education, superintendent of a school district with a high concentration of military children, representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the State Council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the State Council.

B. The State Council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

C. The compact commissioner responsible for the administration and management of the state's participation in the compact shall be appointed by the governor or as otherwise determined by each member state.

D. The compact commissioner and the military family education liaison designated herein shall be ex-officio members of the State Council, unless either is already a full voting member of the State Council.

ARTICLE IX  
INTERSTATE COMMISSION ON  
EDUCATIONAL OPPORTUNITY FOR  
MILITARY CHILDREN

The member states hereby create the "Interstate Commission on Educational Opportunity for Military Children." The activities of the Interstate Commission are the formation of public policy and are a discretionary state function. The Interstate Commission shall:

A. Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

B. Consist of one Interstate Commission voting representative from each member state who shall be that state's compact commissioner.

1. Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

2. A majority of the total member states shall constitute a quorum for the

transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission.

3. A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the Interstate Commission, the governor or State Council may delegate voting authority to another person from their state for a specified meeting.

4. The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

C. Consist of ex-officio, non-voting representatives who are members of interested organizations. Such ex-officio members, as defined in the bylaws, may include but not be limited to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. Department of Defense, the Education Commission of the States, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

E. Establish an executive committee, whose members shall include the officers of the Interstate Commission and such other members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve a one year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rule-making, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact including enforcement and compliance with the provisions of the compact, its bylaws and rules, and other such duties as deemed necessary. The U.S. Department of Defense shall serve as an ex-officio, non-voting member of the executive committee.

F. Establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate

Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

G. Give public notice of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting, or portion thereof, where it determines by two-thirds vote that an open meeting would be likely to:

1. Relate solely to the Interstate Commission's internal personnel practices and procedures;
2. Disclose matters specifically exempted from disclosure by federal and state statute;
3. Disclose trade secrets or commercial or financial information which is privileged or confidential;
4. Involve accusing a person of a crime, or formally censuring a person;
5. Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;
6. Disclose investigative records compiled for law enforcement purposes; or
7. Specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding.

H. Shall cause its legal counsel or designee to certify that a meeting may be closed and shall reference each relevant exemptible provision for any meeting, or portion of a meeting, which is closed pursuant to this provision. The Interstate Commission shall keep minutes which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission.

I. Shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection and data exchange, and reporting requirements. Such methods of data collection, exchange, and reporting shall, in so far as is reasonably

possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

J. Shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the Interstate Commission or any member state.

#### ARTICLE X POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The Interstate Commission shall have the following powers:

A. To provide for dispute resolution among member states.

B. To promulgate rules and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact. The rules shall have the force and effect of statutory law and shall be binding in the compact states to the extent and in the manner provided in this compact.

##### ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

A. The Interstate Commission shall, by a majority of the members present and voting, within 12 months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including, but not limited to:

1. Establishing the fiscal year of the Interstate Commission;
2. Establishing an executive committee, and such other committees as may be necessary;
3. Providing for the establishment of committees and for governing any general

or specific delegation of authority or function of the Interstate Commission;

4. Providing reasonable procedures for calling and conducting meetings of the Interstate Commission, and ensuring reasonable notice of each such meeting;

5. Establishing the titles and responsibilities of the officers and staff of the Interstate Commission;

6. Providing a mechanism for concluding the operations of the Interstate Commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving of all of its debts and obligations;

7. Providing "start-up" rules for initial administration of the compact.

B. The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice-chairperson, and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice-chairperson, shall preside at all meetings of the Interstate Commission. The officers so elected shall serve without compensation or remuneration from the Interstate Commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

C. Executive Committee, Officers, and Personnel

1. The executive committee shall have such authority and duties as may be set forth in the bylaws, including but not limited to:

a. Managing the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission;

b. Overseeing an organizational structure within, and appropriate procedures for the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

c. Planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

2. The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation, as the Interstate Commission may deem appropriate. The executive director shall serve as secretary to the Interstate Commission, but shall not be a member of the Interstate Commission. The executive director shall hire and supervise such other persons as may be authorized by the Interstate Commission.

D. The Interstate Commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities; provided, that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or wilful and wanton misconduct of such person.

1. The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or wilful and wanton misconduct of such person.

2. The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or

responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or wilful and wanton misconduct on the part of such person.

3. To the extent not covered by the state involved, the member state, or the Interstate Commission, the representatives or employees of the Interstate Commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or wilful and wanton misconduct on the part of such persons.

## ARTICLE XII RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. Rulemaking Authority--The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this Act, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

B. Rulemaking Procedure--Rules shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act," of 1981 Act, Uniform Laws Annotated, Volume 15, page 1 (2000), as amended, as may be appropriate to the operations of the Interstate Commission.

C. Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions

of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

D. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

### ARTICLE XIII OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

#### A. Oversight

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the Interstate Commission.

3. The Interstate Commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

B. Default, Technical Assistance, Suspension, and Termination--If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the Interstate Commission shall:

1. Provide written notice to the defaulting state and other member states, of the nature of the default, the means of curing the default and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default.

2. Provide remedial training and specific technical assistance regarding the default.

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

5. The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination including obligations, the performance of which extends beyond the effective date of suspension or termination.

6. The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

7. The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

#### C. Dispute Resolution

1. The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the compact and which may arise among member states and between member and non-member states.

2. The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

#### D. Enforcement

1. The Interstate Commission, in the reasonable exercise of its discretion, shall

enforce the provisions and rules of this compact.

2. The Interstate Commission may, by majority vote of the members, initiate legal action in the U.S. District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices, to enforce compliance with the provisions of the compact, its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

3. The remedies herein shall not be the exclusive remedies of the Interstate Commission. The Interstate Commission may avail itself of any other remedies available under state law or the regulation of a profession.

#### ARTICLE XIV FINANCING OF THE INTERSTATE COMMISSION

A. The Interstate Commission shall pay, or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

B. The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff, which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

C. The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate

Commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

#### ARTICLE XV MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT

A. Any state is eligible to become a member state.

B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than ten (10) of the states. The effective date shall be no earlier than December 1, 2007. Thereafter it shall become effective and binding as to any other member state upon enactment of the compact into law by that state. The governors of non-member states or their designees shall be invited to participate in the activities of the Interstate Commission on a non-voting basis prior to adoption of the compact by all states.

C. The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

#### ARTICLE XVI WITHDRAWAL AND DISSOLUTION

A. Withdrawal

1. Once effective, the compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the compact by specifically repealing the statute which enacted the compact into law.

2. Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until one (1) year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member jurisdiction.

3. The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty (60) days of its receipt thereof.

4. The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

#### B. Dissolution of Compact

1. This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one (1) member state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

### ARTICLE XVII

#### SEVERABILITY AND CONSTRUCTION

A. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

C. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

### ARTICLE XVIII

#### BINDING EFFECT OF COMPACT AND OTHER LAWS

1. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with this compact.

2. All member states' laws conflicting with this compact are superseded to the extent of the conflict.

##### B. Binding Effect of the Compact

1. All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the member states.

### Sec. 51.031. Habitual Felony Conduct

(a) Habitual felony conduct is conduct violating a penal law of the grade of felony, other than a state jail felony, if:

(1) the child who engaged in the conduct has at least two previous final adjudications as having engaged in delinquent conduct violating a penal law of the grade of felony;

(2) the second previous final adjudication is for conduct that occurred after the date the first previous adjudication became final; and

(3) all appeals relating to the previous adjudications considered under Subdivisions (1) and (2) have been exhausted.

(b) For purposes of this section, an adjudication is final if the child is placed on probation or committed to the Texas Juvenile Justice Department.

(c) An adjudication based on conduct that occurred before January 1, 1996, may not be considered in a disposition made under this section.

### Sec. 51.04. Jurisdiction

(a) This title covers the proceedings in all cases involving the delinquent conduct or conduct indicating a need for supervision engaged in by a person who was a child within the meaning of this title at the time the person engaged in the conduct, and, except as provided by Subsection (h) or Section 14, the juvenile court has exclusive original jurisdiction over proceedings under this title.

(b) In each county, the county's juvenile board shall designate one or more district, criminal district, domestic relations, juvenile, or county courts

or county courts at law as the juvenile court, subject to Subsections (c), (d), and (i).

(c) If the county court is designated as a juvenile court, at least one other court shall be designated as the juvenile court. A county court does not have jurisdiction of a proceeding involving a petition approved by a grand jury under Section 53.045 of this code.

(d) If the judge of a court designated in Subsection (b) or (c) of this section is not an attorney licensed in this state, there shall also be designated an alternate court, the judge of which is an attorney licensed in this state.

(e) A designation made under Subsection (b), (c), or (i) may be changed from time to time by the authorized boards or judges for the convenience of the people and the welfare of children. However, there must be at all times a juvenile court designated for each county. It is the intent of the legislature that in selecting a court to be the juvenile court of each county, the selection shall be made as far as practicable so that the court designated as the juvenile court will be one which is presided over by a judge who has a sympathetic understanding of the problems of child welfare and that changes in the designation of juvenile courts be made only when the best interest of the public requires it.

(f) If the judge of the juvenile court or any alternate judge named under Subsection (b) or (c) is not in the county or is otherwise unavailable, any magistrate may make a determination under Section 53.02(f) or may conduct the detention hearing provided for in Section 54.01.

(g) The juvenile board may appoint a referee to make determinations under Section 53.02(f) or to conduct hearings under this title. The referee shall be an attorney licensed to practice law in this state and shall comply with Section 54.10. Payment of any referee services shall be provided from county funds.

(h) A judge exercising jurisdiction over a child in a suit instituted under Subtitle E, Title 5, may refer any aspect of a suit involving a dual status child that is instituted under this title to the appropriate associate judge appointed under Subchapter C, Chapter 201, serving in the county and exercising jurisdiction over the child under Subtitle E, Title 5, if the associate judge consents to the referral. The scope of an associate judge's authority over a suit referred under this subsection is subject to any limitations placed by the court judge in the order of referral.

(i) If the court designated as the juvenile court under Subsection (b) does not have jurisdiction over proceedings under Subtitle E, Title 5, the county's juvenile board may designate at least one other court that does have jurisdiction over

proceedings under Subtitle E, Title 5, as a juvenile court or alternative juvenile court.

65.101. Adjudication Hearing; Judgment

65.106.	Liability For Claims Arising From Community Service
65.107.	Court Cost
65.108.	Hearing To Modify Remedy
65.109.	Motion For New Trial

### Sec. 65.101. Adjudication Hearing; Judgment

(a) A child may be found to have engaged in truant conduct only after an adjudication hearing conducted in accordance with the provisions of this chapter.

(b) At the beginning of the adjudication hearing, the judge of the truancy court shall explain to the child and the child's parent, guardian, or guardian ad litem:

- (1) the allegations made against the child;
- (2) the nature and possible consequences of the proceedings;
- (3) the child's privilege against self-incrimination;
- (4) the child's right to trial and to confrontation of witnesses;
- (5) the child's right to representation by an attorney if the child is not already represented; and
- (6) the child's right to a jury trial.

(c) Trial is by jury unless jury is waived in accordance with Section 65.008. Jury verdicts under this chapter must be unanimous.

(d) The Texas Rules of Evidence do not apply in a truancy proceeding under this chapter except:

- (1) when the judge hearing the case determines that a particular rule of evidence applicable to criminal cases must be followed to ensure that the proceedings are fair to all parties; or
- (2) as otherwise provided by this chapter.

(e) A child alleged to have engaged in truant conduct need not be a witness against nor otherwise incriminate himself or herself. An extrajudicial statement of the child that was obtained in violation of the constitution of this state or the United States may not be used in an adjudication hearing. A statement made by the child out of court is insufficient to support a finding of truant conduct unless it is corroborated wholly or partly by other evidence.

(f) At the conclusion of the adjudication hearing, the court or jury shall find whether the child has engaged in truant conduct. The finding must be based on competent evidence admitted at the hearing. The child shall be presumed to have not engaged in truant conduct and no finding that a child has engaged in truant conduct may be returned

unless the state has proved the conduct beyond a reasonable doubt. In all jury cases the jury will be instructed that the burden is on the state to prove that a child has engaged in truant conduct beyond a reasonable doubt.

(g) If the court or jury finds that the child did not engage in truant conduct, the court shall dismiss the case with prejudice.

(h) If the court or jury finds that the child did engage in truant conduct, the court shall proceed to issue a judgment finding the child has engaged in truant conduct and order the remedies the court finds appropriate under Section 65.103. The jury is not involved in ordering remedies for a child who has been adjudicated as having engaged in truant conduct.

- (2) the procedures for the sealing of the child's records under Section 65.201.

(2) perform more than 16 hours of community service per week under this section.

(c) In addition to any other order authorized by this section, a truancy court may order the Department of Public Safety to suspend the driver's license or permit of a child who has been found to have engaged in truant conduct. (a) If a child has been found to have engaged in truant conduct, the truancy court may:

(1) order the child and the child's parent to attend a class for students at risk of dropping out of school that is designed for both the child and the child's parent;

(2) order any person found by the court to have, by a wilful act or omission, contributed to, caused, or encouraged the child's truant conduct to do any act that the court determines to be reasonable and necessary for the welfare of the child or to refrain from doing any act that the court determines to be injurious to the child's welfare;

(3) enjoin all contact between the child and a person who is found to be a contributing cause of the child's truant conduct, unless that person is related to the child within the third degree by consanguinity or affinity, in which case the court may contact the Department of Family and Protective Services, if necessary;

(4) after notice to, and a hearing with, all persons affected, order any person living in the same household with the child to participate in social or psychological counseling to assist in the child's rehabilitation;

(5) order the child's parent or other person responsible for the child's support to pay all or part of the reasonable costs of treatment programs in which the child is ordered to participate if the court finds the child's parent or person responsible for the child's support is able to pay the costs;

(7) order the child's parent to perform not more than 50 hours of community service with the child.

(b) A person subject to an order proposed under Subsection (a) is entitled to a hearing before the order is entered by the court.

(c) On a finding by the court that a child's parents have made a reasonable good faith effort to prevent the child from engaging in truant conduct

and that, despite the parents' efforts, the child continues to engage in truant conduct, the court shall waive any requirement for community service that may be imposed on a parent under this section.

(a) A municipality or county that establishes a program to assist children and their parents in rendering community service under this subchapter may purchase an insurance policy protecting the municipality or county against a claim brought by a person other than the child or the child's parent for a cause of action that arises from an act of the child or parent while rendering the community service. The municipality or county is not liable for the claim to the extent that damages are recoverable under a contract of insurance or under a plan of self-insurance authorized by statute.

(b) The liability of the municipality or county for a claim that arises from an action of the child or the child's parent while rendering community service may not exceed \$100,000 to a single person and \$300,000 for a single occurrence in the case of personal injury or death, and \$10,000 for a single occurrence of property damage. (b) The court's order to pay the \$50 court cost is not effective unless the order is reduced to writing and signed by the judge. The written order to pay the court cost may be part of the court's order detailing the remedial actions in the case.

(c) The clerk of the court shall keep a record of the court costs collected under this section and shall forward the funds to the county treasurer, municipal treasurer, or person fulfilling the role of

a county treasurer or municipal treasurer, as appropriate.

(d) Notwithstanding any other law, in considering a motion to modify a remedy imposed by the court, the truancy court may consider a written report from a school district official or employee, juvenile case manager, or professional consultant in addition to the testimony of witnesses. The court shall provide the attorney for the child and the prosecuting attorney with access to all written matters to be considered by the court. The court may order counsel not to reveal items to the child or to the child's parent, guardian, or guardian ad litem if the disclosure would materially harm the treatment and rehabilitation of the child or would substantially decrease the likelihood of receiving information from the same or similar sources in the future.

(e) The truancy court shall pronounce in court, in the presence of the child, the court's changes to the remedy, if any. The court shall specifically state the new remedy and the court's reasons for modifying the remedy in a written order. The court shall furnish a copy of the order to the child.

On a finding that probable cause exists, the prosecutor shall determine whether to request an adjudication. Not later than the 20th day after the date the juvenile court receives a request for adjudication from the prosecutor, the juvenile court shall conduct a hearing to determine if the child engaged in conduct that constitutes contempt of the order issued by the truancy court or engaged in direct contempt of court.

(d) This section does not limit the discretion of a juvenile prosecutor or juvenile court to prosecute a child for conduct under Section 51.03.

Before the department may release information under this subsection, the department must edit the information to protect the confidentiality of the identity of any person who makes a report of abuse or neglect.

(c) In addition to Subsection (b), a court, on its own motion, may order disclosure of information that is confidential under this section if:

The department may edit the documents to protect the identity of the biological parents and any other person whose identity is confidential, unless this information is already known to the adoptive parents or is readily available through other sources, including the court records of a suit to terminate the parent-child relationship under Chapter 161.

(e) Before placing a child who was the subject of an investigation, the department shall notify the prospective adoptive parents of their right to examine any report, record, working paper, or other information in the possession, custody, or control of the department that pertains to the history of the child.

(f) The department shall provide prospective adoptive parents an opportunity to examine information under this section as early as practicable before placing a child.

(g) Notwithstanding Subsection (b), the department, on request and subject to department rule, shall provide to the parent, managing conservator, or other legal representative of a child who is the subject of reported abuse or neglect information concerning the reported abuse or neglect that would otherwise be confidential under this section if the department has edited the information to protect the confidentiality of the identity of the person who made the report and any other person whose life or safety may be endangered by the disclosure.

(h) This section does not apply to an investigation of child abuse or neglect in a home or facility regulated under Chapter 42, Human Resources Code.

(i) Notwithstanding Subsection (a), the Texas Juvenile Justice Department shall release a report of alleged or suspected abuse or neglect made under this chapter if:

(1) the report relates to a report of abuse or neglect involving a child committed to the Texas Juvenile Justice Department during the period that the child is committed to that department; and

(2) the Texas Juvenile Justice Department is not prohibited by Chapter 552, Government Code, or other law from disclosing the report.

The investigating agency shall withhold information under this subsection if the parent, managing conservator, or other legal representative of the child requesting the information is alleged to have committed the abuse or neglect.

#### **Sec. 261.301. Investigation Of Report**

(a) With assistance from the appropriate state or local law enforcement agency as provided by this section, the department shall make a prompt and thorough investigation of a report of child abuse or neglect allegedly committed by a person responsible for a child's care, custody, or welfare. The investigation shall be conducted without regard to any pending suit affecting the parent-child relationship.

(b) A state agency shall investigate a report that alleges abuse, neglect, or exploitation occurred in a facility operated, licensed, certified, or registered by that agency as provided by Subchapter E. In conducting an investigation for a facility operated, licensed, certified, registered, or listed by the department, the department shall perform the investigation as provided by:

- (1) Subchapter E; and
- (2) the Human Resources Code.

(c) The department is not required to investigate a report that alleges child abuse, neglect, or exploitation by a person other than a person responsible for a child's care, custody, or welfare. The appropriate state or local law enforcement agency shall investigate that report if the agency determines an investigation should be conducted.

(d) The executive commissioner shall by rule assign priorities and prescribe investigative procedures for investigations based on the severity and immediacy of the alleged harm to the child. The primary purpose of the investigation shall be the protection of the child. The rules must require the department, subject to the availability of funds, to:

- (1) immediately respond to a report of abuse and neglect that involves circumstances in which the death of the child or substantial bodily harm to the child would result unless the department immediately intervenes;
- (2) respond within 24 hours to a report of abuse and neglect that is assigned the highest priority, other than a report described by Subdivision (1); and
- (3) respond within 72 hours to a report of abuse and neglect that is assigned the second highest priority.

(e) As necessary to provide for the protection of the child, the department shall determine:

- (1) the nature, extent, and cause of the abuse or neglect;
- (2) the identity of the person responsible for the abuse or neglect;
- (3) the names and conditions of the other children in the home;
- (4) an evaluation of the parents or persons responsible for the care of the child;
- (5) the adequacy of the home environment;
- (6) the relationship of the child to the persons responsible for the care, custody, or welfare of the child; and
- (7) all other pertinent data.

(f) An investigation of a report to the department that alleges that a child has been or may be the victim of conduct that constitutes a criminal offense that poses an immediate risk of physical or sexual abuse of a child that could result in the death of or serious harm to the child shall be conducted jointly by a peace officer, as defined by Article 2.12, Code of Criminal Procedure, from the appropriate local law enforcement agency and the department or the agency responsible for conducting an investigation under Subchapter E.

(g) The inability or unwillingness of a local law enforcement agency to conduct a joint investigation under this section does not constitute grounds to prevent or prohibit the department from performing its duties under this subtitle. The department shall document any instance in which a law enforcement agency is unable or unwilling to conduct a joint investigation under this section.

(h) The department and the appropriate local law enforcement agency shall conduct an investigation, other than an investigation under Subchapter E, as provided by this section and Article 2.27, Code of Criminal Procedure, if the investigation is of a report that alleges that a child has been or may be the victim of conduct that constitutes a criminal offense that poses an immediate risk of physical or sexual abuse of a child that could result in the death of or serious harm to the child. Immediately on receipt of a report described by this subsection, the department shall notify the appropriate local law enforcement agency of the report.

(i) If at any time during an investigation of a report of child abuse or neglect to which the department has assigned the highest priority the department is unable to locate the child who is the subject of the report of abuse or neglect or the child's family, the department shall notify the Department of Public Safety that the location of the child and the child's family is unknown. If the Department of Public Safety locates the child and the child's family, the Department of Public Safety shall notify

the department of the location of the child and the child's family.

(j) In geographic areas with demonstrated need, the department shall designate employees to serve specifically as investigators and responders for after-hours reports of child abuse or neglect.

(k) In an investigation of a report of abuse or neglect allegedly committed by a person responsible for a child's care, custody, or welfare, the department shall determine whether the person is an active duty member of the United States armed forces or the spouse of a member on active duty. If the department determines the person is an active duty member of the United States armed forces or the spouse of a member on active duty, the department shall notify the United States Department of Defense Family Advocacy Program at the closest active duty military installation of the investigation.

(b) Notwithstanding Section 261.301, the department may, in accordance with this section and department rules, conduct an alternative response to a report of abuse or neglect if the report does not:

- (1) allege sexual abuse of a child;
- (2) allege abuse or neglect that caused the death of a child; or
- (3) indicate a risk of serious physical injury or immediate serious harm to a child.

(c) The department may administratively close a reported case of abuse or neglect without completing the investigation or alternative response and without providing services or making a referral to another entity for assistance if the department determines, after contacting a professional or other credible source, that the child's safety can be assured without further investigation, response, services, or assistance.

(d) In determining how to classify a reported case of abuse or neglect under the alternative response system, the child's safety is the primary concern. The classification of a case may be changed as warranted by the circumstances.

(b) Any agreement between the department and the network or between the Department of State Health Services and the system to provide assistance in connection with abuse and neglect investigations conducted by the department must require the network and the system to have the ability to obtain consultations with physicians licensed to practice medicine in this state and board certified in the relevant field or specialty, including radiologists, geneticists, orthopedists, and endocrinologists, to diagnose and treat certain unique health conditions, including:

- (1) rickets;
- (2) Ehlers-Danlos Syndrome;
- (3) osteogenesis imperfecta;

The parent, legal guardian, or attorney, as applicable, may object to the proposed referral and request referral to another specialist. (d) In providing assessments to the department as provided by Subsection (b), the network and the system must use a blind peer review process to resolve cases where physicians in the network or system disagree in the assessment of the causes of a child's injuries or in the presence of a condition listed under Subsection (b).

(e) This section may not be construed to prohibit a child's parent or legal guardian or, if represented by an attorney, the attorney of the parent or legal guardian from otherwise obtaining an alternative opinion at the parent's, legal guardian's, or attorney's, as applicable, own initiative and expense. The department shall accept and consider an alternative opinion obtained and provided under this section and shall document its analysis and determinations regarding the opinion.

(b) A department supervisor shall review each reported case of child abuse or neglect that has remained open for more than 60 days and administratively close the case if:

(1) the supervisor determines that:

(c) A department supervisor may reassign a reported case of child abuse or neglect that does not qualify for abbreviated investigation or administrative closure under Subsection (a) or (b) to a different department caseworker if the supervisor determines that reassignment would allow the department to make the most effective use of resources to investigate and respond to reported cases of abuse or neglect.

(b) The interview with and examination of the child may:

(1) be conducted at any reasonable time and place, including the child's home or the child's school;

(2) include the presence of persons the department determines are necessary; and

(3) include transporting the child for purposes relating to the interview or investigation.

(b-1) Before the department may transport a child as provided by Subsection (b)(3), the department shall attempt to notify the parent or other person having custody of the child of the transport.

(c) The investigation may include an interview with the child's parents and an interview with and medical, psychological, or psychiatric examination of any child in the home.

(d) If, before an investigation is completed, the investigating agency believes that the immediate removal of a child from the child's home is necessary to protect the child from further abuse or neglect, the investigating agency shall file a petition or take other action under Chapter 262 to provide for the temporary care and protection of the child.

(e) An interview with a child in which the allegations of the current investigation are discussed and that is conducted by the department during the investigation stage shall be audiotaped or videotaped unless:

(3) due to circumstances that could not have been reasonably foreseen or prevented by the department, the department does not have the necessary recording equipment because the department employee conducting the interview does not ordinarily conduct interviews.

(e-1) An interview with a child alleged to be a victim of physical abuse or sexual abuse conducted by an investigating agency other than the department shall be audiotaped or videotaped unless the investigating agency determines that good cause exists for not audiotaping or videotaping the interview in accordance with rules of the agency. Good cause may include, but is not limited to, such considerations as the age of the child and the nature and seriousness of the allegations under investigation. Nothing in this subsection shall be construed as prohibiting the investigating agency from audiotaping or videotaping an interview of a child on any case for which such audiotaping or videotaping is not required under this subsection. The fact that the investigating agency failed to audiotape or videotape an interview is admissible at the trial of the offense that is the subject of the interview.

(f) A person commits an offense if the person is notified of the time of the transport of a child by the department and the location from which the transport is initiated and the person is present at the location when the transport is initiated and attempts to interfere with the department's investigation. An offense under this subsection is a Class B misdemeanor. It is an exception to the application of this subsection that the department requested the person to be present at the site of the transport.

(1) "Study" means a study conducted under Section 403.302.

(2) "Eligible school district" means a school district for which the comptroller has determined the following:

(A) in the most recent study, the local value is invalid under Section 403.302(c) and does not exceed the state value for the school district determined in the study;

(B) in the two studies preceding the most recent study, the school district's local value was valid under Section 403.302(c);

(C) in the most recent study, the aggregate local value of all of the categories of property sampled by the comptroller is not less than 90 percent of the lower limit of the margin of error as determined by the comptroller of the aggregate value as determined by the comptroller of all of the categories of property sampled by the comptroller; and

(D) the appraisal district that appraises property for the school district was in compliance with the scoring requirement of the comptroller's most recent review of the appraisal district conducted under Section 5.102, Tax Code.

(3) "Local value" means the market value of property in a school district as determined by the appraisal district that appraises property for the school district, less the total amounts and values listed in Section 403.302(d) as determined by that appraisal district.

### Sec. 403.302. Determination Of School District Property Values

(a) The comptroller shall conduct a study using comparable sales and generally accepted auditing and sampling techniques to determine the total taxable value of all property in each school district. The study shall determine the taxable value of all property and of each category of property in the district and the productivity value of all land that qualifies for appraisal on the basis of its productive capacity and for which the owner has applied for and received a productivity appraisal. The comptroller shall make appropriate adjustments in the study to account for actions taken under Chapter 49, Education Code.

(a-1) The comptroller shall conduct a study:

(1) at least every two years in each school district for which the most recent study resulted in a determination by the comptroller that the school district's local value was valid; and

(2) each year in a school district for which the most recent study resulted in a determination by the comptroller that the school district's local value was not valid.

(a-2) If in any year the comptroller does not conduct a study, the school district's local value for that year is considered to be valid.

(b) In conducting the study, the comptroller shall determine the taxable value of property in each school district:

(1) using, if appropriate, samples selected through generally accepted sampling techniques;

(2) according to generally accepted standard valuation, statistical compilation, and analysis techniques;

(3) ensuring that different levels of appraisal on sold and unsold property do not adversely affect the accuracy of the study; and

(4) ensuring that different levels of appraisal resulting from protests determined under Section 41.43, Tax Code, are appropriately adjusted in the study.

(c) If after conducting the study the comptroller determines that the local value for a school district is valid, the local value is presumed to represent taxable value for the school district. In the absence of that presumption, taxable value for a school district is the state value for the school district determined by the comptroller under Subsections

(a) and (b) unless the local value exceeds the state value, in which case the taxable value for the school district is the district's local value. In determining whether the local value for a school district is valid, the comptroller shall use a margin of error that does not exceed five percent unless the comptroller determines that the size of the sample of properties necessary to make the determination makes the use of such a margin of error not feasible, in which case the comptroller may use a larger margin of error.

(c-1) This subsection applies only to a school district whose central administrative office is located in a county with a population of 9,000 or less and a total area of more than 6,000 square miles. If after conducting the study for a tax year the comptroller determines that the local value for a school district is not valid, the comptroller shall adjust the taxable value determined under Subsections (a) and (b) as follows:

(1) for each category of property sampled and tested by the comptroller in the school district, the comptroller shall use the weighted mean appraisal ratio determined by the study, unless the ratio is more than four percentage points lower than the weighted mean appraisal ratio determined by the comptroller for that category of property in the immediately preceding study, in which case the comptroller shall use the weighted mean appraisal ratio determined in the immediately preceding study minus four percentage points;

(2) the comptroller shall use the category weighted mean appraisal ratios as adjusted under Subdivision (1) to establish a value estimate for each category of property sampled and tested by the comptroller in the school district; and

(3) the value estimates established under Subdivision (2), together with the local tax roll value for any categories not sampled and tested by the comptroller, less total deductions determined by the comptroller, determine the taxable value for the school district.

(d) For the purposes of this section, "taxable value" means the market value of all taxable property less:

(1) the total dollar amount of any residence homestead exemptions lawfully granted under Section 11.13(b) or (c), Tax Code, in the year that is the subject of the study for each school district;

(2) one-half of the total dollar amount of any residence homestead exemptions granted under Section 11.13(n), Tax Code, in the year that is the subject of the study for each school district;

(3) the total dollar amount of any exemptions granted before May 31, 1993, within a reinvestment zone under agreements authorized by Chapter 312, Tax Code;

(4) subject to Subsection (e), the total dollar amount of any captured appraised value of property that:

(A) is within a reinvestment zone created on or before May 31, 1999, or is proposed to be included within the boundaries of a reinvestment zone as the boundaries of the zone and the proposed portion of tax increment paid into the tax increment fund by a school district are described in a written notification provided by the municipality or the board of directors of the zone to the governing bodies of the other taxing units in the manner provided by former Section 311.003(e), Tax Code, before May 31, 1999, and within the boundaries of the zone as those boundaries existed on September 1, 1999, including subsequent improvements to the property regardless of when made;

(B) generates taxes paid into a tax increment fund created under Chapter 311, Tax Code, under a reinvestment zone financing plan approved under Section 311.011(d), Tax Code, on or before September 1, 1999; and

(C) is eligible for tax increment financing under Chapter 311, Tax Code;

(5) the total dollar amount of any captured appraised value of property that:

(A) is within a reinvestment zone:

(i) created on or before December 31, 2008, by a municipality with a population of less than 18,000; and

(ii) the project plan for which includes the alteration, remodeling, repair, or reconstruction of a structure that is included on the National Register of Historic Places and requires that a portion of the tax increment of the zone be used for the improvement or construction of related facilities or for affordable housing;

(B) generates school district taxes that are paid into a tax increment fund created under Chapter 311, Tax Code; and

(C) is eligible for tax increment financing under Chapter 311, Tax Code;

(6) the total dollar amount of any exemptions granted under Section 11.251 or 11.253, Tax Code;

(7) the difference between the comptroller's estimate of the market value and the productivity value of land that qualifies for appraisal

on the basis of its productive capacity, except that the productivity value estimated by the comptroller may not exceed the fair market value of the land;

(8) the portion of the appraised value of residence homesteads of individuals who receive a tax limitation under Section 11.26, Tax Code, on which school district taxes are not imposed in the year that is the subject of the study, calculated as if the residence homesteads were appraised at the full value required by law;

(9) a portion of the market value of property not otherwise fully taxable by the district at market value because of action required by statute or the constitution of this state, other than Section 11.311, Tax Code, that, if the tax rate adopted by the district is applied to it, produces an amount equal to the difference between the tax that the district would have imposed on the property if the property were fully taxable at market value and the tax that the district is actually authorized to impose on the property, if this subsection does not otherwise require that portion to be deducted;

(10) the market value of all tangible personal property, other than manufactured homes, owned by a family or individual and not held or used for the production of income;

(11) the appraised value of property the collection of delinquent taxes on which is deferred under Section 33.06, Tax Code;

(12) the portion of the appraised value of property the collection of delinquent taxes on which is deferred under Section 33.065, Tax Code;

(13) the amount by which the market value of a residence homestead to which Section 23.23, Tax Code, applies exceeds the appraised value of that property as calculated under that section; and

(14) the total dollar amount of any exemptions granted under Section 11.35, Tax Code.

(d-1) For purposes of Subsection (d), a residence homestead that receives an exemption under Section 11.131, 11.133, or 11.134, Tax Code, in the year that is the subject of the study is not considered to be taxable property.

(e) The total dollar amount deducted in each year as required by Subsection (d)(4) in a reinvestment zone created after January 1, 1999, may not exceed the captured appraised value estimated for that year as required by Section 311.011(c)(8), Tax Code, in the reinvestment zone financing plan approved under Section 311.011(d), Tax Code, before September 1, 1999. The number of years for which the total dollar amount may be deducted under Subsection (d)(4) shall for any zone, including those created on or before January 1, 1999, be

limited to the duration of the zone as specified as required by Section 311.011(c)(9), Tax Code, in the reinvestment zone financing plan approved under Section 311.011(d), Tax Code, before September 1, 1999. The total dollar amount deducted under Subsection (d)(4) for any zone, including those created on or before January 1, 1999, may not be increased by any reinvestment zone financing plan amendments that occur after August 31, 1999. The total dollar amount deducted under Subsection (d)(4) for any zone, including those created on or before January 1, 1999, may not be increased by a change made after August 31, 1999, in the portion of the tax increment retained by the school district.

(e-1) This subsection applies only to a reinvestment zone created by a municipality that has a population of 70,000 or less and is located in a county in which all or part of a military installation is located. Notwithstanding Subsection (e), if on or after January 1, 2017, the municipality adopts an ordinance designating a termination date for the zone that is later than the termination date designated in the ordinance creating the zone, the number of years for which the total dollar amount may be deducted under Subsection (d)(4) is limited to the duration of the zone as determined under Section 311.017, Tax Code.

(f) The study shall determine the values as of January 1 of each year:

(1) for a school district in which a study was conducted according to the results of the study; and

(2) for a school district in which a study was not conducted according to the market value determined by the appraisal district that appraises property for the district, less the amounts specified by Subsection (d).

(g) The comptroller shall publish preliminary findings, listing values by district, before February 1 of the year following the year of the study. Preliminary findings shall be delivered to each school district and shall be certified to the commissioner of education.

(h) On request of the commissioner of education or a school district, the comptroller may audit the total taxable value of property in a school district and may revise the study findings. The request for audit is limited to corrections and changes in a school district's appraisal roll that occurred after preliminary certification of the study findings by the comptroller. Except as otherwise provided by this subsection, the request for audit must be filed with the comptroller not later than the third anniversary of the date of the final certification of the study findings. The request for audit may be filed not later than the first anniversary of the date the chief appraiser certifies a change to the appraisal

roll if the chief appraiser corrects the appraisal roll under Section 25.25 or 42.41, Tax Code, and the change results in a material reduction in the total taxable value of property in the school district. The comptroller shall certify the findings of the audit to the commissioner of education.

(i) If the comptroller determines in the study that the market value of property in a school district as determined by the appraisal district that appraises property for the school district, less the total of the amounts and values listed in Subsection (d) as determined by that appraisal district, is valid, the comptroller, in determining the taxable value of property in the school district under Subsection (d), shall for purposes of Subsection (d) (13) subtract from the market value as determined by the appraisal district of residence homesteads to which Section 23.23, Tax Code, applies the amount by which that amount exceeds the appraised value of those properties as calculated by the appraisal district under Section 23.23, Tax Code. If the comptroller determines in the study that the market value of property in a school district as determined by the appraisal district that appraises property for the school district, less the total of the amounts and values listed in Subsection (d) as determined by that appraisal district, is not valid, the comptroller, in determining the taxable value of property in the school district under Subsection (d), shall for purposes of Subsection (d)(13) subtract from the market value as estimated by the comptroller of residence homesteads to which Section 23.23, Tax Code, applies the amount by which that amount exceeds the appraised value of those properties as calculated by the appraisal district under Section 23.23, Tax Code.

(j) The comptroller shall certify the final taxable value for each school district, appropriately adjusted to give effect to certain provisions of the Education Code related to school funding, to the commissioner of education as provided by the terms of a memorandum of understanding entered into between the comptroller, the Legislative Budget Board, and the commissioner of education.

(j-1) [This subsection Effective on January 1, 2023] In the final certification of the study under Subsection (j), the comptroller shall separately identify the final taxable value for each school district as adjusted to account for the reduction of the amount of the limitation on tax increases provided by Sections 11.26(a-4), (a-5), (a-6), (a-7), (a-8), (a-9), and (a-10), Tax Code, as applicable.

(k) If the comptroller determines in the final certification of the study that the school district's local value as determined by the appraisal district that appraises property for the school district is not valid, the comptroller shall provide notice of the comptroller's determination to the board of directors

of the appraisal district. The board of directors of the appraisal district shall hold a public meeting to discuss the receipt of notice under this subsection.

(k-1) If the comptroller determines in the final certification of the study that the school district's local value as determined by the appraisal district that appraises property for the school district is not valid for three consecutive years, the comptroller shall conduct an additional review of the appraisal district under Section 5.102, Tax Code, and provide recommendations to the appraisal district regarding appraisal standards, procedures, and methodologies. The comptroller may contract with a third party to assist the comptroller in conducting the additional review and providing the recommendations required under this subsection. If the appraisal district fails to comply with the recommendations provided under this subsection and the comptroller finds that the board of directors of the appraisal district failed to take remedial action reasonably designed to ensure substantial compliance with each recommendation before the first anniversary of the date the recommendations were made, the comptroller shall notify the Texas Department of Licensing and Regulation, or a successor to the department, which shall take action necessary to ensure that the recommendations are implemented as soon as practicable. Before February 1 of the year following the year in which the Texas Department of Licensing and Regulation, or a successor to the department, takes action under this subsection, the department, with the assistance of the comptroller, shall determine whether the recommendations have been substantially implemented and notify the chief appraiser and the board of directors of the appraisal district of the determination. If the department determines that the recommendations have not been substantially implemented, the board of directors of the appraisal district must, within three months of the determination, consider whether the failure to implement the recommendations was under the current chief appraiser's control and whether the chief appraiser is able to adequately perform the chief appraiser's duties.

(l) If after conducting the study for a year the comptroller determines that a school district is an eligible school district, for that year and the following year the taxable value for the school district is the district's local value.

(m) [Repealed by 2019 amendment.]

(m-1) [Repealed by 2019 amendment.]

(n) [Repealed by 2019 amendment.]

(o) The comptroller shall adopt rules governing the conduct of the study after consultation with the comptroller's property tax administration advisory board.

**Sec. 403.303. Protest**

(a) A school district or a property owner whose property is included in the study under Section 403.302 and whose tax liability on the property is \$100,000 or more may protest the comptroller's findings under Section 403.302(g) or (h) by filing a petition with the comptroller. The petition must be filed not later than the 40th day after the date on which the comptroller's findings are certified to the commissioner of education and must specify the grounds for objection and the value claimed to be correct by the school district or property owner.

(b) After receipt of a petition, the comptroller shall hold a hearing. The comptroller has the burden to prove the accuracy of the findings. Until a final decision is made by the comptroller, the taxable value of property in the district is determined, with respect to property subject to the protest, according to the value claimed by the school district or property owner, except that the value to be used while a final decision is pending may not be less than the appraisal roll value for the year of the study. If after a hearing the comptroller concludes that the findings should be changed, the comptroller shall order the appropriate changes and shall certify to the commissioner of education the changes in the values of the school district that brought the protest, the values of the school district named by the property owner who brought the protest, or, if the comptroller by rule allows an appraisal district to bring a protest, the values of the school district named by the appraisal district that brought the protest. The comptroller may not order a change in the values of a school district as a result of a protest brought by another school district, a property owner in the other school district, or an appraisal district that appraises property for the other school district. The comptroller shall complete all protest hearings and certify all changes as necessary to comply with Chapter 48, Education Code. A hearing conducted under this subsection is not a contested case for purposes of Section 2001.003.

(c) The comptroller shall adopt procedural rules governing the conduct of protest hearings. The rules shall provide each protesting school district and property owner with the requirements for submitting a petition initiating a protest and shall provide each protesting school district and property owner with adequate notice of a hearing, an opportunity to present evidence and oral argument, and notice of the comptroller's decision on the hearing.

(d) A protesting school district may appeal a determination of a protest by the comptroller to a district court of Travis County by filing a petition with the court. An appeal must be filed not later than the 30th day after the date the school district receives notification of a final decision on a protest. Review is conducted by the court sitting without a jury. The court shall remand the determination to the comptroller if on the review the court discovers that substantial rights of the school district have been prejudiced, and that:

- (1) the comptroller has acted arbitrarily and without regard to the facts; or
- (2) the finding of the comptroller is not reasonably supported by substantial evidence introduced before the court.

(e) If, in a hearing under Subsection (b), the comptroller has not heard the case or read the record, the decision may not be made until a proposal for decision is served on each party and an opportunity to file exceptions is afforded to each party adversely affected. If exceptions are filed, an opportunity must be afforded to all other parties to file replies to the exceptions. The proposal for decision must contain a statement of the reasons for the proposed decision, prepared by the person who conducted the hearing or by a person who has read the record. The proposal for decision may be amended pursuant to the exceptions or replies submitted without again being served on the parties. The parties by written stipulation may waive compliance with this subsection. The comptroller may adopt rules to implement this subsection.

(a) The broadband development office shall create, update annually, and publish on the comptroller's Internet website a map classifying each designated area in this state as:

(1) an eligible area, if:

(A) fewer than 80 percent of the addresses in the designated area have access to broadband service; and

(B) the federal government has not awarded funding under a competitive process to support the deployment of broadband service to addresses in the designated area; or

(2) an ineligible area, if:

(A) 80 percent or more of the addresses in the designated area have access to broadband service; or

(B) the federal government has awarded funding under a competitive process to support the deployment of broadband service to addresses in the designated area.

(b) The comptroller by rule may determine the scope of a designated area under Subsection (a).

(c) After creation of the initial map described in Subsection (a), the office may evaluate the usefulness of the standards for eligible and ineligible areas outlined in Subsection (a) and, if appropriate, make a recommendation to the legislature to revise the standards.

(d) The map required by Subsection (a) must display:

(1) the number of broadband service providers that serve each designated area;

(2) for each eligible area, an indication of whether the area has access to Internet service

that is not broadband service, regardless of the technology used to provide the service; and

(3) each public school campus in this state with an indication of whether the public school campus has access to broadband service.

(e) The office must create, update, and publish the map in a manner consistent with the most current mapping methodology adopted by the Federal Communications Commission.

(f) Except as provided by Subsection (g), the office shall use information available from the Federal Communications Commission to create or update the map.

(g) If information from the Federal Communications Commission is not available or not sufficient for the office to create or update the map, the office may request the necessary information from a political subdivision or broadband service provider, and the subdivision or provider may report the information to the office. The office may not require a subdivision or provider to report information in a format different from the format required by the most current mapping methodology adopted by the Federal Communications Commission.

(h) Information a broadband service provider reports to the office under Subsection (g) and information provided by the Federal Communications Commission, if not publicly available, is confidential and not subject to disclosure under Chapter 552.

(i) The office may contract with a private consultant or other appropriate person who is not associated or affiliated with a commercial broadband provider, including a local governmental entity, to provide technical or administrative assistance to the office for the purpose of creating or updating the map.

(j) The office may release information reported under Subsection (g) to a contractor providing services under Subsection (i). The contractor shall:

(k) A person who contracts under Subsection (i) may not provide services for a broadband provider in this state before the second anniversary of the last day the contract is in effect.

(l) The office shall establish criteria for determining whether a designated area should be

reclassified as an eligible area or an ineligible area. The criteria must include an evaluation of Internet speed test data and information on end user addresses. The criteria may also include community surveys regarding the reliability of Internet service, where available.

(m) A designated area that is classified as an ineligible area on account of the existence of federal funding to support broadband service deployment in the area may be reclassified as an eligible area if:

(1) funding from the federal government is forfeited or the recipient of the funding is disqualified from receiving the funding; and

(2) the designated area otherwise meets the qualifications of an eligible area.

(n) A broadband service provider or political subdivision may petition the office to reclassify a designated area on the map as an eligible area or ineligible area. The office shall provide notice of the petition to each broadband service provider that provides broadband service to the designated area and post notice of the petition on the comptroller's Internet website.

(o) Not later than the 45th day after the date that a broadband provider receives notice under Subsection (n), the provider shall provide information to the office showing whether the designated area should or should not be reclassified.

(p) Not later than the 75th day after the date that a broadband provider receives notice under Subsection (n), the office shall determine whether to reclassify the designated area on the map and update the map as necessary. A determination made by the office under this subsection is not a contested case for purposes of Chapter 2001.

(q) The office is not required to create, update, or publish a map under this section if the Federal Communications Commission produces a map that:

(1) enables the office to identify eligible and ineligible areas, as described by Subsection (a); and

(2) meets the requirements of Subsection (d).

#### **Sec. 490i.0106. Broadband Development Program**

(a) The broadband development office shall establish a program to award grants, low-interest loans, and other financial incentives to applicants for the purpose of expanding access to and adoption of broadband service in designated areas determined to be eligible areas by the office under Section 490I.0105.

(b) The office shall establish and publish criteria for making awards under Subsection (a). The office shall:

(1) take into consideration grants and other financial incentives awarded by the federal government for the deployment of broadband service in a designated area;

(2) prioritize the applications of applicants that will expand access to and adoption of broadband service in eligible areas in which the lowest percentage of addresses have access to broadband service; and

(3) prioritize the applications of applicants that will expand access to broadband service in public and private primary and secondary schools and institutions of higher education.

(c) Notwithstanding Subsection (b)(2), the office may establish criteria that take into account a cost benefit analysis for awarding money to the eligible areas described by that subdivision.

(d) The office may not:

(1) favor a particular broadband technology in awarding grants, loans, or other financial incentives;

(2) award grants, loans, or other financial incentives to a broadband provider that does not report information requested by the office under Section 490I.0105;

(e) The office shall:

(1) post on the comptroller's Internet website information about the application process and the receipt of awards and shall update that information as necessary; and

(2) post on the comptroller's Internet website information from each application, including the applicant's name, the area targeted for expanded broadband service access or adoption by the application, and any other information the office considers relevant or necessary, for a period of at least 30 days before the office makes a decision on the application.

(f) During the 30-day posting period described by Subsection (e) for an application, the office shall accept from any interested party a written protest of the application relating to whether the applicant or project is eligible for an award or should not receive an award based on the criteria prescribed by the office.

(g) Notwithstanding any deadline for submitting an application, if the office upholds a protest

submitted under Subsection (f) on the grounds that one or more of the addresses in an eligible area subject to the application have access to broadband service, the applicant may resubmit the application without the challenged addresses not later than 30 days after the date that the office upheld the protest.

(h) The office shall establish and publish criteria for award recipients. The criteria must include requirements that grants, loans, and other financial incentives awarded through the program be used only for capital expenses, purchase or lease of property, and other expenses, including backhaul and transport, that will facilitate the provision or adoption of broadband service.

(i) An award granted under this section does not affect the eligibility of a telecommunications provider to receive support from the state universal service fund under Section 56.021, Utilities Code.

#### **Sec. 552.001. Policy; Construction**

(a) Under the fundamental philosophy of the American constitutional form of representative government that adheres to the principle that government is the servant and not the master of the people, it is the policy of this state that each person is entitled, unless otherwise expressly provided by law, at all times to complete information about the affairs of government and the official acts of public officials and employees. The people, in delegating authority, do not give their public servants the right to decide what is good for the people to know and what is not good for them to know. The people insist on remaining informed so that they may retain control over the instruments they have created. The provisions of this chapter shall be liberally construed to implement this policy.

(b) This chapter shall be liberally construed in favor of granting a request for information.

### Sec. 552.0038. Public Retirement Systems Subject To Law

(a) In this section, "governing body of a public retirement system" and "public retirement system"

have the meanings assigned those terms by Section 802.001.

(b) Except as provided by Subsections (c) through (i), the governing body of a public retirement system is subject to this chapter in the same manner as a governmental body.

(c) Records of individual members, annuitants, retirees, beneficiaries, alternate payees, program participants, or persons eligible for benefits from a retirement system under a retirement plan or program administered by the retirement system that are in the custody of the system or in the custody of an administering firm, a carrier, or another governmental agency, including the comptroller, acting in cooperation with or on behalf of the retirement system are confidential and not subject to public disclosure. The retirement system, administering firm, carrier, or governmental agency is not required to accept or comply with a request for a record or information about a record or to seek an opinion from the attorney general because the records are exempt from the provisions of this chapter, except as otherwise provided by this section.

(d) Records may be released to a member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits from the retirement system or to an authorized attorney, family member, or representative acting on behalf of the member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits. The retirement system may release the records to:

(1) an administering firm, carrier, or agent or attorney acting on behalf of the retirement system;

(f) The records of an individual member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits from the retirement system remain confidential after release to a person as authorized by this section. The records may become part of the public record of an

administrative or judicial proceeding related to a contested case, and the member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits waives the confidentiality of the records, including medical records, unless the records are closed to public access by a protective order issued under applicable law.

(g) The retirement system may require a person to provide the person's social security number as the system considers necessary to ensure the proper administration of all services, benefits, plans, and programs under the retirement system's administration, oversight, or participation or as otherwise required by state or federal law.

(h) The retirement system has sole discretion in determining whether a record is subject to this section. For purposes of this section, a record includes any identifying information about a person, living or deceased, who is or was a member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits from the retirement system under any retirement plan or program administered by the retirement system.

(i) To the extent of a conflict between this section and any other law with respect to the confidential information held by a public retirement system or other entity described by Subsection (c) concerning an individual member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits from the retirement system, the prevailing provision is the provision that provides the greater substantive and procedural protection for the privacy of information concerning that individual member, annuitant, retiree, beneficiary, alternate payee, program participant, or person eligible for benefits.

A governmental body, by providing public information under this section that is confidential or otherwise excepted from required disclosure under law, does not waive or affect the confidentiality of the information for purposes of state or federal law or waive the right to assert exceptions to required disclosure of the information in the future. The governmental body may require the requesting individual member of the legislature, the requesting legislative agency or committee, or the members or employees of the requesting entity who will view or handle information that is received under this section and that is confidential under law to sign a confidentiality agreement that covers the information and requires that:

(1) the information not be disclosed outside the requesting entity, or within the requesting entity for purposes other than the purpose for which it was received;

(4) the number of copies made of the information or the notes taken from the information that implicate the confidential nature of the information be controlled, with all copies or notes that are not destroyed or returned to the governmental body remaining confidential and subject to the confidentiality agreement.

(b-1) A member, committee, or agency of the legislature required by a governmental body to sign a confidentiality agreement under Subsection (b) may seek a decision as provided by Subsection (b-2) about whether the information covered by the confidentiality agreement is confidential under law. A confidentiality agreement signed under Subsection (b) is void to the extent that the agreement covers information that is finally determined under Subsection (b-2) to not be confidential under law.

(b-2) The member, committee, or agency of the legislature may seek a decision from the attorney general about the matter. The attorney general by rule shall establish procedures and deadlines

for receiving information necessary to decide the matter and briefs from the requestor, the governmental body, and any other interested person. The attorney general shall issue a written decision on the matter and provide a copy of the decision to the requestor, the governmental body, and any interested person who submitted necessary information or a brief to the attorney general about the matter. The requestor or the governmental body may appeal a decision of the attorney general under this subsection to a Travis County district court. A person may appeal a decision of the attorney general under this subsection to a Travis County district court if the person claims a proprietary interest in the information affected by the decision or a privacy interest in the information that a confidentiality law or judicial decision is designed to protect.

(c) This section does not affect:

(1) the right of an individual member, agency, or committee of the legislature to obtain information from a governmental body under other law, including under the rules of either house of the legislature;

(c) A public official may designate a public information coordinator to satisfy the training requirements of this section for the public official if the public information coordinator is primarily responsible for administering the responsibilities of the public official or governmental body under this chapter. Designation of a public information coordinator under this subsection does not relieve a public official from the duty to comply with any other requirement of this chapter that applies to the public official. The designated public information coordinator shall complete the training course regarding the responsibilities of the governmental body with which the coordinator serves and of its officers and employees under this chapter not later than the 90th day after the date the coordinator assumes the person's duties as coordinator.

A governmental body shall maintain and make available for public inspection the record of its public officials' or, if applicable, the public information coordinator's completion of the training.

(f) Completing the required training as a public official of the governmental body satisfies the requirements of this section with regard to the public official's service on a committee or subcommittee of the governmental body and the public official's ex officio service on any other governmental body.

(g) The training required by this section may be used to satisfy any corresponding training requirements concerning this chapter or open records required by law for a public official or public

information coordinator. The attorney general shall attempt to coordinate the training required by this section with training required by other law to the extent practicable.

(h) A certificate of course completion is admissible as evidence in a criminal prosecution under this chapter. However, evidence that a defendant completed a course of training offered under this section is not prima facie evidence that the defendant knowingly violated this chapter.
