## FOREWORD

The Texas public school system is responsible for the education of nearly 5.5 million students every year. To put that in perspective, there are more students in our Texas schools than there are people in more than half of U.S. states. It is a daunting challenge that Texas educators do not shy away from, and through their care and hard work, they continue to produce impressive results for children across the state. During the COVID-19 pandemic, this vital work has become more complex than ever before. Thankfully, members of the 87th Texas Legislature addressed this once-in-a-generation challenge through a host of measures designed to improve education in our state.

One such measure was House Bill (HB) 1525. HB 1525 included COVID learning acceleration supports to combat the learning loss caused by the pandemic, with a significant infusion of both federal stimulus funds and state funds that will help us to get students back on track. But the bill also addressed major elements of the school finance system. Building on the work of the 86th Legislative Session in 2019, which included the passage of the transformative school finance reform bill HB 3, HB 1525 updated funding formulas for the fast growth allotment, career and technology, the small and mid-sized district allotment, Gifted and Talented funding, and more. These changes will serve students for years to come.

Students in our classrooms today are facing once-in-a-lifetime learning disruptions brought on by the pandemic. I am grateful to serve alongside educators who are dedicating their lives to our great state's children and working tirelessly to address the learning loss our students are facing. With their support, I am confident our students will still be able to achieve tremendous academic and career success. I am also thankful for the visionary work of the Texas legislature, in crafting wise public policy to support students throughout Texas.

Mike Morath  
Commissioner of Education

The 87th Legislative Session was unprecedented in its challenges. In addition to the education issues that envelop every legislative session, the COVID-19 Pandemic and Winter Storm Uri created unprecedented continuity of instruction problems for lawmakers and school administrators. Pandemic-related federal relief funds were flowed through the state directly to our districts, and the realities of learning loss of the past year became apparent. The legislature passed many bills dealing with these and other issues, including efforts to accelerate instruction for students who have fallen behind, shore up funding for future generations of Texas students, and resolve unintended consequences of major education finance reform legislation of the previous session.

The state's education response to COVID-19 was begun in the previous biennium by Governor Abbott and Commissioner Morath. In conjunction with the Legislative Budget Board, state leadership guaranteed funding for school districts and charter schools at 2019 levels, meaning students were able to be served in non-traditional ways, such as remote learning, and that districts and charter schools would be "held harmless" for students who failed to return in the 2020 school year. In all, districts and charter schools received three consecutive semesters of funding guaranteed at previous enrollment levels. Additionally, through federal, state, and local funds, Texas was largely able to close the device gap to a 1:1 ratio, meaning every student in the state should have access to the technology necessary to learn remotely. TEA also served as an indispensable resource to our districts, providing best practices, state procured technology, digital learning platforms, and flexibility and grace to our public schools while navigating the COVID-19 landscape.

House Bill 4545 was the 87th Legislature's most direct response to the learning loss created by the pandemic and ensuing shutdowns. Through this bill, the legislature removed high stakes testing for some students while ensuring students not performing on grade level would receive direct and rigorous supports to accelerate their learning and place them on a track to be on grade level. Prior to the pandemic, only 4% of students not on grade level by 3rd grade were ever successfully brought back up to standard. This legislation fundamentally rethinks the methods by which Texas delivers remediation. HB 3643 creates a Commission on Virtual Learning to review best practices for distance and digital education for students and make recommendations to the 88th Legislature. Additionally, SB 15 (87-2) creates a framework by which districts can continue to serve students remotely until the work of the Commission on Virtual Learning is complete. The legislature also acted to codify learning grants provided to special education students during

the pandemic with the passage of SB 1716. Qualifying families can receive stipends to cover the costs associated with ensuring students receive the services to which they are entitled.

House Bill 1525, the cleanup legislation for the preceding legislature's school finance reform bill (HB 3), builds on the increased funding of that effort and, to ensure all districts are receiving their full entitlement, extends state grants for autism and dyslexia, restores the Gifted and Talented allotment previously rolled into the basic allotment, creates "resource campuses" for struggling districts, and establishes a Commission on Special Education Funding to review the methods by which the State finances special education instruction. HB 1525 also served as the vehicle by which the state would disburse roughly \$1.8 billion in state and federal funding for programs such as expanding Pathways in Technology Early College High Schools (PTECH) and the Jobs and Education Training (JET) program, creating an infrastructure for supplemental tutoring, learning acceleration supports, and providing grants for districts who drew little to no federal COVID-19 relief.

Continuing in school finance, Senate Bill 1232 consolidated management of the Texas Permanent School Fund (PSF) and created a new entity to oversee administration of this \$48.3 billion endowment. The Texas Permanent School Fund Corporation, consisting of appointees from the State Board of Education and the General Land Office, will continue to work toward generational equity and providing students with the educational funding they are owed. By removing the previous bifurcated management structure, the fund is estimated to return an additional \$100 million each year to the PSF.

While the focus of the session was geared toward the response to current circumstances, the 87th Legislature also worked to pass several other key pieces of legislation including the permanent establishment of individual graduation committees (House Bill 1603), the protection of learning pods (Senate Bill 1955), continuing reform of the STAAR Test (House Bill 3261), and ensuring students are exposed to foundational documents of American History (House Bill 4509). These are but a few examples of transformative legislation that have made their way to the Governor's desk. The ongoing and rapidly changing landscape in which we passed this legislation will require continuing vigilance and reflection as we move forward.

**Sec. 1.005. Education Research Centers**

(a) In this section:

(1) "Center" means a center for education research authorized by this section.

(1-a) "Cooperating agencies" means the Texas Education Agency, the Texas Higher Education Coordinating Board, and the Texas Workforce Commission.

(2) "Coordinating board" means the Texas Higher Education Coordinating Board.

(b) The coordinating board shall establish not more than three centers for education research to conduct studies or evaluations using the data described by this section.

(c) A center must be established as part of a public junior college, public senior college or university, or public state college, as those terms are defined by Section 61.003, or a consortium of those institutions. The coordinating board shall solicit requests for proposals from appropriate institutions to establish centers under this section and shall select one or more institutions to establish each center based on criteria adopted by the coordinating board.

(d) A center must be operated under an agreement between the coordinating board and the governing board of each institution described by Subsection (c) operating or participating in the operation of the center. The agreement must provide for the operation of the center, so long as the center meets contractual and legal requirements for operation, for a 10-year period.

(e) A center shall conduct education and workforce preparation studies or evaluations for the benefit of this state, including studies or evaluations relating to:

(1) the impact of local, regional, state, and federal policies and programs, including an education program, intervention, or service at any level of education from preschool through postsecondary education;

(2) the performance of educator preparation programs;

(3) public school finance; and

(4) the best practices of school districts with regard to classroom instruction, bilingual education programs, special language programs, and business practices.

(f) Any cooperating agency may request a center to conduct certain studies or evaluations

considered of particular importance to the state, as determined by the cooperating agency, if the cooperating agency provides to the center sufficient funds to finance the study or evaluation.

(g) A center shall comply with rules adopted by the advisory board established under Section 1.006 to protect the confidentiality of information used or stored at the center in accordance with applicable state and federal law, including rules establishing procedures to ensure that confidential information is not duplicated or removed from a center in an unauthorized manner.

(g-1) In conducting studies or evaluations under this section, a center:

(1) may use student and educator data, including data that is confidential if permitted under the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Section 1232g), that the center has collected from a cooperating agency or any other agency, a public or private institution of higher education, a school district, a provider of services to a school district or public or private institution of higher education, or an entity explicitly named in an approved research project of the center;

(2) shall comply with state and federal law governing the confidentiality of student information and shall provide for the review of all study and evaluation results to ensure compliance with those laws and any rules adopted or regulatory guidance issued under those laws;

(3) may provide researchers access to shared data only through secure methods and require each researcher to execute an agreement regarding compliance with the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Section 1232g) and rules adopted under that Act; and

(4) shall conduct regular security audits and report the audit results to the coordinating board and the advisory board established under Section 1.006.

(h) The cooperating agencies and the educational institution or institutions operating a center may accept gifts and grants to be used for the purposes of this section. The educational institution or institutions operating a center may

impose reasonable charges, as appropriate, for the use of a center's research, resources, or facilities.

(i) This section does not authorize the disclosure of student information that may not be disclosed under the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Section 1232g).

(j) The cooperating agencies shall execute agreements for the sharing of data for the purpose of facilitating the studies or evaluations at education research centers described by this section. In

accordance with the agreements, each cooperating agency shall make available all appropriate data, including to the extent possible data collected by the cooperating agency for the preceding 20 years. A cooperating agency shall periodically update the data as additional data is collected, but not less than once each year.

(j-1) In accordance with an agreement under Subsection (j), the coordinating board shall maintain the data contributed by the cooperating agencies in a repository to be known as the P-20/Workforce Data Repository. The repository shall be operated by the coordinating board. As provided by the agreement, the coordinating board shall include other data in the repository, including data from college admission tests and the National Student Clearinghouse. The coordinating board shall conduct data matching using a protocol approved by the cooperating agencies.

(j-2) The coordinating board may enter into data agreements for data required for approved studies or evaluations with the state education agency of another state, giving priority to the agencies of those states that send the highest number of postsecondary education students to this state or that receive the highest number of postsecondary education students from this state. **Sec. 11.051. Governance Of Independent School District; Number Of Trustees**

(a) An independent school district is governed by a board of trustees who, as a body corporate, shall:

- (1) oversee the management of the district; and
- (2) ensure that the superintendent implements and monitors plans, procedures, programs, and systems to achieve appropriate, clearly defined, and desired results in the major areas of district operations.

(a-1) Unless authorized by the board, a member of the board may not, individually, act on behalf of the board. The board of trustees may act only by majority vote of the members present at a meeting held in compliance with Chapter 551, Government Code, at which a quorum of the board is present and voting. The board shall provide the superintendent an opportunity to present at a meeting an oral or written recommendation to the board on any item that is voted on by the board at the meeting.

(b) The board consists of the number of members that the district had on September 1, 1995.

(c) A board of trustees that has three or five members may by resolution increase the membership to seven. A board of trustees that votes to increase its membership must consider whether the district would benefit from also adopting a single-member election system under Section 11.052. A resolution increasing the number of trustees takes effect with the second regular election of trustees that occurs after the adoption of the resolution. The resolution must provide for a transition in the number of trustees so that when the transition is complete, trustees are elected as provided by Section 11.059.

**Sec. 11.0511. Student Trustee For Certain Districts**

(a) This section applies only to a school district described by Section 11.065(a) in which a school in the district is operating under a campus turnaround plan.

(b) Notwithstanding Section 11.051(b), the board of trustees of a school district may adopt a resolution establishing as a nonvoting member a student trustee position as provided by this section.

(c) For a student trustee position under this section, the board shall adopt a policy that establishes:

- (1) the term of the student trustee position;
- (2) the procedures for selecting a student trustee, including the method for filling a vacancy; and
- (3) the procedures for removal of a student trustee.

(d) A student is eligible to serve as a student trustee if the student is enrolled in the student's junior or senior year of high school and is considered in good standing academically and under the district code of conduct.

(e) The board shall adopt a policy regarding student trustee:

- (1) participation, other than voting, in board deliberations, subject to Subsection (f); and
- (2) access to information, documents, and records, consistent with the Family Educational Rights and Privacy Act of 1974 ( 20 U.S.C. Section 1232g).

(f) A student trustee may not participate in a closed session of a board meeting in which any issue related to a personnel matter is considered.

(g) A student trustee is not entitled to receive compensation or reimbursement of the student trustee's expenses for services on the board.

(h) A school district may grant to a student who fulfills the requirements of service of a student trustee not more than one academic course credit in a subject area determined appropriate by the district.

#### **HISTORY**

(Added by Acts 2015, Texas Acts of the 84th Leg. - Regular Session, ch. 1046, Sec. 2, eff. 6/19/2015.)

Notes – Section 19 of Acts 2015, 84th Leg., Ch. 1046 (H.B. 1842) provides: "This Act applies to the academic performance ratings issued to public school campuses beginning with the 2015-2016 school year."

#### **Sec. 11.052. Single-Member Trustee Districts**

(a) Except as provided by Subsection (b), the board of trustees of an independent school district, on its own motion, may order that trustees of the district are to be elected from single-member trustee districts or that not fewer than 70 percent of the members of the board of trustees are to be elected from single-member trustee districts with the remaining trustees to be elected from the district at large.

(b) If a majority of the area of an independent school district is located in a county with a population of less than 10,000, the board of trustees of the district, on its own motion, may order that trustees

of the district are to be elected from single-member trustee districts or that not fewer than 50 percent of the members of the board of trustees are to be elected from single-member trustee districts with the remaining trustees to be elected from the district at large.

(c) Before adopting an order under Subsection (a) or (b), the board must:

- (1) hold a public hearing at which registered voters of the district are given an opportunity to comment on whether or not they favor the election of trustees in the manner proposed by the board; and

- (2) publish notice of the hearing in a newspaper that has general circulation in the district, not later than the seventh day before the date of the hearing.

(d) An order of the board adopted under Subsection (a) or (b) must be entered not later than the 120th day before the date of the first election at which all or some of the trustees are elected from single-member trustee districts authorized by the order.

(e) If at least 15 percent or 15,000 of the registered voters of the school district, whichever is less, sign and present to the board of trustees a petition requesting submission to the voters of the proposition that trustees of the district be elected in a specific manner, which must be generally described on the petition and which must be a manner of election that the board could have ordered on its own motion under Subsection (a) or (b), the board shall order that the appropriate proposition be placed on the ballot at the first regular election of trustees held after the 120th day after the date the petition is submitted to the board. The proposition must specify the number of trustees to be elected from single-member districts. Beginning with the first regular election of trustees held after an election at which a majority of the registered voters voting approve the proposition, trustees of the district shall be elected in the manner prescribed by the approved proposition.

(f) If single-member trustee districts are adopted or approved as provided by this section, the board shall divide the school district into the appropriate number of trustee districts, based on the number of members of the board that are to be elected from single-member trustee districts, and shall number each trustee district. The trustee districts must be compact and contiguous and must be as nearly as practicable of equal population. In a district with 150,000 or more students in average daily attendance, the boundary of a trustee district may not cross a county election precinct boundary except at a point at which the boundary of the school district crosses the county election precinct boundary.

Trustee districts must be drawn not later than the 90th day before the date of the first election of trustees from those districts.

(g) Residents of each trustee district are entitled to elect one trustee to the board. A trustee elected to represent a trustee district at the first election of trustees must be a resident of the district the trustee represents not later than: (1) the 90th day after the date election returns are canvassed; or (2) the 60th day after the date of a final judgment in an election contest filed concerning that trustee district. After the first election of trustees from single-member trustee districts, a candidate for trustee representing a single-member trustee district must be a resident of the district the candidate seeks to represent. A person appointed to fill a vacancy in a trustee district must be a resident of that trustee district. A trustee vacates the office if the trustee fails to move into the trustee district the trustee represents within the time provided by this subsection or ceases to reside in the district the trustee represents. A candidate for trustee representing the district at large must be a resident of the district.

(h) At the first election at which some or all of the trustees are elected in a manner authorized by this section and after each redistricting, all positions on the board shall be filled. The trustees then elected shall draw lots for staggered terms as provided by Section 11.059.

(i) Not later than the 90th day before the date of the first regular school board election at which trustees may officially recognize and act on the last preceding federal census, the board shall redivide the district into the appropriate number of trustee districts if the census data indicates that the population of the most populous district exceeds the population of the least populous district by more than 10 percent. Redivision of the district shall be in the manner provided for division of the district under Subsection (f).

**Sec. 11.053. Option To Continue In Office Following Adoption Of Single-Member Plan Or Redistricting**

(a) The board of trustees of an independent school district that adopts a redistricting plan under Section 11.052 may provide for the trustees in office when the plan is adopted or the school district is redistricted to serve for the remainder of their terms in accordance with this section.

(b) The trustee district and any at-large positions provided by the district's plan shall be filled as the staggered terms of trustees then in office expire.

Not later than the 90th day before the date of the first election from trustee districts and after each redistricting, the board shall determine the order in which the positions will be filled.

**Sec. 11.054. Electing Trustees By Cumulative Voting**

(a) The board of trustees of an independent school district that elects its trustees at large or at large by position may order that elections for trustees be held using the cumulative voting procedure described by this section.

(b) At an election at which more than one trustee position is to be filled, all of the positions that are to be filled at the election shall be voted on as one race by all the voters of the school district. Each voter is entitled to cast a number of votes equal to the number of positions to be filled at the election.

(c) A voter may cast one or more of the specified number of votes for any one or more candidates in any combination. Only whole votes may be cast and counted.

(d) If a voter casts more than the number of votes to which the voter is entitled in the election, none of the voter's votes may be counted in that election. If a voter casts fewer votes than entitled, all of the voter's votes are counted in that election.

(e) The candidates who are elected are those, in the number to be elected, receiving the highest numbers of votes.

(f) If the board of trustees adopts an order requiring the use of cumulative voting, only the trustee positions that were scheduled to be elected at the election are filled through the use of cumulative voting.

(g) An independent school district that adopts an order requiring the use of cumulative voting may not elect its members by position as provided by Section 11.058.

(b) In a district in which the positions on the board of trustees are not authorized to be designated by number, an applicant is not required to state which other candidate, if any, the applicant is opposing.

### Sec. 12.101. Authorization

(a) In accordance with this subchapter, the State Board of Education may grant a charter on the application of an eligible entity for an open-enrollment charter school to operate in a facility of a commercial or nonprofit entity, an eligible entity, or a school district, including a home-rule school district. In this subsection, "eligible entity" means:

- (1) an institution of higher education as defined under Section 61.003;
- (2) a private or independent institution of higher education as defined under Section 61.003;
- (3) an organization that is exempt from taxation under Section 501(c)(3), Internal Revenue Code of 1986 ( 26 U.S.C. Section 501(c)(3)); or
- (4) a governmental entity.

(a) In accordance with this subchapter, the commissioner may grant a charter on the application of an eligible entity for an open-enrollment charter school to operate in a facility of a commercial or nonprofit entity, an eligible entity, or a school district, including a home-rule school district. In this subsection, "eligible entity" means:

- (1) an institution of higher education as defined under Section 61.003;
- (2) a private or independent institution of higher education as defined under Section 61.003;
- (3) an organization that is exempt from taxation under Section 501(c)(3), Internal Revenue Code of 1986 (26 U.S.C. Section 501(c)(3)); or

(4) a governmental entity.

(b) After thoroughly investigating and evaluating an applicant, the commissioner, in coordination with a member of the State Board of Education designated for the purpose by the chair of the board, may grant a charter for an open-enrollment charter school only to an applicant that meets any financial, governing, educational, and operational standards adopted by the commissioner under this subchapter, that the commissioner determines is capable of carrying out the responsibilities provided by the charter and likely to operate a school of high quality, and that:

(1) has not within the preceding 10 years had a charter under this chapter or a similar charter issued under the laws of another state surrendered under a settlement agreement, revoked, denied renewal, or returned; or

(2) is not, under rules adopted by the commissioner, considered to be a corporate affiliate of or substantially related to an entity that has within the preceding 10 years had a charter under this chapter or a similar charter issued under the laws of another state surrendered under a settlement agreement, revoked, denied renewal, or returned.

(b-0) The commissioner shall notify the State Board of Education of each charter the commissioner proposes to grant under this subchapter. Unless, before the 90th day after the date on which the board receives the notice from the commissioner, a majority of the members of the board present and voting vote against the grant of that charter, the commissioner's proposal to grant the charter takes effect. The board may not deliberate or vote on any grant of a charter that is not proposed by the commissioner.

(b-1) In granting charters for open-enrollment charter schools, the commissioner may not grant a total of more than:

- (1) 215 charters through the fiscal year ending August 31, 2014;
- (2) 225 charters beginning September 1, 2014;
- (3) 240 charters beginning September 1, 2015;
- (4) 255 charters beginning September 1, 2016;
- (5) 270 charters beginning September 1, 2017; and
- (6) 285 charters beginning September 1, 2018.

(b-2) Beginning September 1, 2019, the total number of charters for open-enrollment charter schools that may be granted is 305 charters.

(b-3) The commissioner may not grant more than one charter for an open-enrollment charter school to any charter holder. The commissioner may

consolidate charters for an open-enrollment charter school held by multiple charter holders into a single charter held by a single charter holder with the written consent to the terms of consolidation by or at the request of each charter holder affected by the consolidation.

(b-4) Notwithstanding Section 12.114, approval of the commissioner under that section is not required for establishment of a new open-enrollment charter school campus if the requirements of this subsection are satisfied. A charter holder having an accreditation status of accredited and at least 50 percent of its student population in grades assessed under Subchapter B, Chapter 39, or at least 50 percent of the students in the grades assessed having been enrolled in the school for at least three school years may establish one or more new campuses under an existing charter held by the charter holder if:

(1) the charter holder is currently evaluated under the standard accountability procedures for evaluation under Chapter 39 and received a district rating in the highest or second highest performance rating category under Subchapter C, Chapter 39, for three of the last five years with at least 75 percent of the campuses rated under the charter also receiving a rating in the highest or second highest performance rating category and with no campus with a rating in the lowest performance rating category in the most recent ratings;

(2) the charter holder provides written notice to the commissioner of the establishment of any campus under this subsection in the time, manner, and form provided by rule of the commissioner; and

(3) not later than the 60th day after the date the charter holder provides written notice under Subdivision (2), the commissioner does not provide written notice to the charter holder that the commissioner has determined that the charter holder does not satisfy the requirements of this section.

(b-5) The initial term of a charter granted under this section is five years.

(b-6) The commissioner shall adopt rules to modify criteria for granting a charter for an open-enrollment charter school under this section to the extent necessary to address changes in performance rating categories or in the financial accountability system under Chapter 39.

(b-7) A charter granted under this section for a dropout recovery school is not considered for purposes of the limit on the number of charters for open-enrollment charter schools imposed by this section. For purposes of this subsection, an open-enrollment charter school is considered to be a

dropout recovery school if the school meets the criteria for designation as a dropout recovery school under Section 12.1141(c).

(b-8) In adopting any financial standards under this subchapter that an applicant for a charter for an open-enrollment charter school must meet, the commissioner shall not:

(1) exclude any loan or line of credit in determining an applicant's available funding; or

(2) exclude an applicant from the grant of a charter solely because the applicant fails to demonstrate having a certain amount of current assets in cash.

(b-10) The commissioner by rule shall allow a charter holder to provide written notice of the establishment of a new open-enrollment charter school under Subsection (b-4)(2) up to 18 months before the date on which the campus is anticipated to open. Notice provided to the commissioner under this section does not obligate the charter holder to open a new campus.

(c) If the facility to be used for an open-enrollment charter school is a school district facility, the school must be operated in the facility in accordance with the terms established by the board of trustees or other governing body of the district in an agreement governing the relationship between the school and the district.

(d) An educator employed by a school district before the effective date of a charter for an open-enrollment charter school operated at a school district facility may not be transferred to or employed by the open-enrollment charter school over the educator's objection.

#### **Sec. 12.106. State Funding**

(a) A charter holder is entitled to receive for the open-enrollment charter school funding under

Chapter 48 equal to the amount of funding per student in weighted average daily attendance, excluding the adjustment under Section 48.052, the funding under Sections 48.101, 48.110, 48.111, and 48.112, and enrichment funding under Section 48.202(a), to which the charter holder would be entitled for the school under Chapter 48 if the school were a school district without a tier one local share for purposes of Section 48.266.

(a-1) In determining funding for an open-enrollment charter school under Subsection (a), the amount of the allotment under Section 48.102 is based solely on the basic allotment to which the charter holder is entitled and does not include any amount based on the allotment under Section 48.101.

(a-2) In addition to the funding provided by Subsection (a), a charter holder is entitled to receive for the open-enrollment charter school an allotment per student in average daily attendance in an amount equal to the difference between:

- (1) the product of:
  - (A) the quotient of:
    - (i) the total amount of funding provided to eligible school districts under Section 48.101(b) or (c); and
    - (ii) the total number of students in average daily attendance in school districts that receive an allotment under Section 48.101(b) or (c); and

(a-4) In addition to the funding provided by Subsections (a), (a-2), and (a-3), a charter holder is entitled to receive funding for the open-enrollment charter school under Sections 48.110 and 48.112 and Subchapter D, Chapter 48, if the charter holder would be entitled to the funding if the school were a school district.

(a-5) To ensure compliance with the requirements for the maintenance of state financial support for special education under 20 U.S.C. Section 1412 (a)(18), in determining the funding for an open-enrollment charter school under Subsection (a) for the Section 48.102 allotment, the commissioner shall:

(1) if necessary, increase the amount of that allotment to an amount equal to the amount the charter holder was entitled to receive for the charter school under the allotment under former Section 42.151, Education Code, for the 2018-2019 school year; and

(2) reduce the amount of the allotment the charter holder is entitled to receive for the charter school under Subsection (a-2) by the amount of any increase provided for the charter school under Subdivision (1).

(a-6) Subsection (a-5) and this subsection expire September 1, 2025.

(c) The commissioner may adopt rules to provide and account for state funding of open-enrollment charter schools under this section. A rule adopted under this section may be similar to a provision of this code that is not similar to Section 12.104(b) if the commissioner determines that the rule is related to financing of open-enrollment charter schools and is necessary or prudent to provide or account for state funds.

(d) Subject to Subsection (e), in addition to other amounts provided by this section, a charter holder is entitled to receive, for the open-enrollment charter school, funding per student in average daily attendance in an amount equal to the guaranteed level of state and local funds per student per cent of tax effort under Section 46.032(a) multiplied by the lesser of:

(1) the state average interest and sinking fund tax rate imposed by school districts for the current year; or

(2) a rate that would result in a total amount to which charter schools are entitled under this subsection for the current year equal to \$60 million.

(e) A charter holder is entitled to receive funding under Subsection (d) only if the most recent overall performance rating assigned to the open-enrollment charter school under Subchapter C, Chapter 39, reflects at least acceptable performance. This subsection does not apply to a charter holder that operates a school program located at a day treatment facility, residential treatment facility, psychiatric hospital, or medical hospital.

(f) Funds received by a charter holder under Subsection (d) may only be used:

- (1) to lease an instructional facility;

(h) Except as provided by Subsection (i), all remaining funds of a charter holder for an open-enrollment charter school that ceases to operate must be returned to the agency and deposited in the charter school liquidation fund.

(i) The agency may approve a transfer of a charter holder's remaining funds to another charter holder if the charter holder receiving the funds has not received notice of the expiration or revocation of the charter holder's charter for an open-enrollment charter school or notice of a reconstitution of the governing body of the charter holder under Section 12.1141 or 12.115.

(j) The commissioner may adopt rules specifying:

(1) the time during which a former charter holder must return remaining funds under Subsection (h); and

(2) the qualifications required for a charter holder to receive a transfer of remaining funds under Subsection (i).

### Sec. 12.1141. Renewal Of Charter; Denial Of Renewal; Expiration

(a) The commissioner shall develop and by rule adopt a procedure for renewal, denial of renewal, or expiration of a charter for an open-enrollment charter school at the end of the term of the charter. The procedure must include consideration of the performance under Chapters 39 and 39A of the charter holder and each campus operating under the charter and must include three distinct processes, which must be expedited renewal, discretionary consideration of renewal or denial of renewal, and expiration. To renew a charter at the end of the term, the charter holder must submit a petition for renewal to the commissioner in the time and manner established by commissioner rule.

(b) At the end of the term of a charter for an open-enrollment charter school, if a charter holder submits to the commissioner a petition for expedited renewal of the charter, the charter automatically renews unless, not later than the 30th day after the date the charter holder submits the petition, the commissioner provides written notice to the charter holder that expedited renewal of the charter is denied. The commissioner may not deny expedited renewal of a charter if:

(1) the charter holder has been assigned the highest or second highest performance rating under Subchapter C, Chapter 39, for the three preceding school years;

(2) the charter holder has been assigned a financial performance accountability rating under Subchapter D, Chapter 39, indicating financial performance that is satisfactory or better for the three preceding school years; and

(3) no campus operating under the charter has been assigned an unacceptable performance rating under Subchapter C, Chapter 39, for the three preceding school years or such a campus has been closed.

(c) At the end of the term of a charter for an open-enrollment charter school, if a charter holder submits to the commissioner a petition for renewal of the charter and the charter does not meet the criteria for expedited renewal under Subsection (b) or for expiration under Subsection (d), the commissioner shall use the discretionary consideration process. The commissioner's decision under the discretionary consideration process must take into consideration the results of annual evaluations

under the performance frameworks established under Section 12.1181. The renewal of the charter of an open-enrollment charter school that is registered under the agency's alternative education accountability procedures for evaluation under Chapter 39 shall be considered under the discretionary consideration process regardless of the performance ratings under Subchapter C, Chapter 39, of the open-enrollment charter school or of any campus operating under the charter, except that if the charter holder has been assigned a financial accountability performance rating under Subchapter D, Chapter 39, indicating financial performance that is lower than satisfactory for any three of the five preceding school years, the commissioner shall allow the charter to expire under Subsection (d). In considering the renewal of the charter of an open-enrollment charter school that is registered under the agency's alternative education accountability procedures for evaluation under Chapter 39, such as a dropout recovery school or a school providing education within a residential treatment facility, the commissioner shall use academic criteria established by commissioner rule that are appropriate to measure the specific goals of the school. The criteria established by the commissioner shall recognize growth in student achievement as well as educational attainment. For purposes of this subsection, the commissioner shall designate as a dropout recovery school an open-enrollment charter school or a campus of an open-enrollment charter school:

(1) that serves students in grades 9 through 12 and has an enrollment of which at least 60 percent of the students are 16 years of age or older as of September 1 of the school year as reported for the fall semester Public Education Information Management System (PEIMS) submission; and

(2) that meets the eligibility requirements for and is registered under alternative education accountability procedures adopted by the commissioner.

(d) At the end of the term of a charter for an open-enrollment charter school, if a charter holder submits to the commissioner a petition for renewal of the charter, the commissioner may not renew the charter and shall allow the charter to expire if:

(1) the charter holder has been assigned an unacceptable performance rating under Subchapter C, Chapter 39, for any three of the five preceding school years;

(2) the charter holder has been assigned a financial accountability performance rating under Subchapter D, Chapter 39, indicating financial performance that is lower than satisfactory for any three of the five preceding school years;

(3) the charter holder has been assigned any combination of the ratings described by Subdivision (1) or (2) for any three of the five preceding school years; or

(4) any campus operating under the charter has been assigned an unacceptable performance rating under Subchapter C, Chapter 39, for the three preceding school years and such a campus has not been closed.

(e) Notwithstanding any other law, a determination by the commissioner under Subsection (d) is final and may not be appealed.

(f) Not later than the 90th day after the date on which a charter holder submits a petition for renewal of a charter for an open-enrollment charter school at the end of the term of the charter, the commissioner shall provide written notice to the charter holder, in accordance with commissioner rule, of the basis on which the charter qualified for expedited renewal, discretionary consideration, or expiration, and of the commissioner's decision regarding whether to renew the charter, deny renewal of the charter, or allow the charter to expire.

(g) Except as provided by Subsection (e), a decision by the commissioner to deny renewal of a charter for an open-enrollment charter school is subject to review by the State Office of Administrative Hearings. Notwithstanding Chapter 2001, Government Code:

(1) the administrative law judge shall uphold a decision by the commissioner to deny renewal of a charter for an open-enrollment charter school unless the judge finds the decision is arbitrary and capricious or clearly erroneous; and

(2) a decision of the administrative law judge under this subsection is final and may not be appealed.

(h) If a charter holder submits a petition for renewal of a charter for an open-enrollment charter school, notwithstanding the expiration date of the charter, the charter term is extended until the commissioner has provided notice to the charter holder of the renewal, denial of renewal, or expiration of the charter.

(i) The term of a charter renewed under this section is 10 years for each renewal.

(j) The commissioner shall adopt rules to modify criteria for renewal, denial of renewal, or expiration of a charter for an open-enrollment charter school under this section to the extent necessary to address changes in performance rating categories or in the financial accountability system under Chapter 39.

(k) For purposes of determination of renewal under Subsection (b)(1) or (3) or (d)(1) or (4), performance during the 2011-2012 school year may

not be considered. For purposes of determination of renewal under Subsection (b)(1) or (3) or (d)(1) or (4), the initial three school years for which performance ratings under Subchapter C, Chapter 39, shall be considered are the 2009-2010, 2010-2011, and 2012-2013 school years. For purposes of determination of renewal under Subsection (b)(2) or (d)(2), the earliest school year for which financial accountability performance ratings under Subchapter D, Chapter 39, may be considered is the 2010-2011 school year. This subsection expires September 1, 2016.

### ***SUBCHAPTER B***

#### ***DETACHMENT; ANNEXATION***

##### Section

13.051.	Detachment And Annexation Of Territory
13.052.	Dormant School Districts
13.053.	Territory Not In School District
13.054.	Academically Unacceptable School Districts

#### **Sec. 13.051. Detachment And Annexation Of Territory**

(a) In accordance with this section, territory may be detached from a school district and annexed to another school district that is contiguous to the detached territory. A petition requesting the detachment and annexation must be presented to the board of trustees of the district from which the territory is to be detached and to the board of trustees of the district to which the territory is to be annexed. Each board of trustees to which a petition is required to be presented must conduct a hearing and adopt a resolution as provided by this section for the annexation to be effective.

(b) The petition requesting detachment and annexation must:

(1) be signed by a majority of:

(A) the registered voters residing in the territory to be detached and annexed, if the territory has residents; or

(B) the surface owners of taxable property in the territory to be detached and annexed, if the territory does not have residents; and

(2) give the metes and bounds of the territory to be detached and annexed.

(c) Territory that does not have residents may be detached from a school district and annexed to another school district if:

(1) the total taxable value of the property in the territory according to the most recent certified appraisal roll for each school district is not greater than:

(A) five percent of the district's taxable value of all property in that district as determined under Subchapter M, Chapter 403, Government Code; and

(B) \$5,000 property value per student in average daily attendance as determined under Section 48.005; and

(2) the school district from which the property will be detached does not own any real property located in the territory.

(d) The proposed annexation must be approved by the board of trustees of each affected district, subject to the appeal provisions of Subsection (j).

(e) Unless the petition is signed by a majority of the trustees of the district from which the territory is to be detached, territory that has residents may not be detached from a school district under this section if detachment would reduce that district's tax base by a ratio at least twice as large as the ratio by which it would reduce its membership. The first ratio is determined by dividing the assessed value of taxable property in the affected territory by the assessed value of all taxable property in the district, both figures according to the preceding year's tax rolls. The second ratio is determined by dividing the number of students residing in the affected territory by the number of students residing in the district as a whole, using membership on the last day of the preceding school year and the students' places of residence as of that date.

(f) A school district may not be reduced to an area of less than nine square miles.

(g) Immediately following receipt of the petition as required by this section, each affected board of trustees shall give notice of the contemplated change by publishing and posting a notice in the manner required for an election order under Section 13.003. The notice must specify the place and date at which a hearing on the matter shall be held. Unless the districts hold a joint hearing, the districts must hold hearings on separate dates. At

each hearing, affected persons are entitled to an opportunity to be heard.

(h) At the hearing, each board of trustees shall consider the educational interests of the current students residing or future students expected to reside in the affected territory and in the affected districts and the social, economic, and educational effects of the proposed boundary change. After the conclusion of the hearing, each board of trustees shall make findings as to the educational interests of the current students residing or future students expected to reside in the affected territory and in the affected districts and as to the social, economic, and educational effects of the proposed boundary change and shall, on the basis of those findings, adopt a resolution approving or disapproving the petition. The findings and resolution shall be recorded in the minutes of each affected board of trustees and shall be reported to the commissioners court of the county to which the receiving district is assigned for administrative purposes by the agency and to the commissioners court of the county to which the district from which territory is to be detached is assigned for administrative purposes.

(i) If both boards of trustees of the affected districts approve the petition, the commissioners court or commissioners courts to whom the matter is required to be reported shall enter an order redefining the boundaries of the districts affected by the transfer. Title to all real property of the district from which territory is detached within the territory annexed vests in the receiving district, and the receiving district assumes and is liable for any portion of the indebtedness of the district from which the territory is to be detached that is allocated to the receiving district under Section 13.004.

(j) If both boards of trustees of the affected districts disapprove the petition, the decisions may not be appealed. If the board of trustees of only one affected district disapproves the petition, an aggrieved party to the proceedings in either district may appeal the board's decision to the commissioner under Section 7.057. An appeal under this subsection is de novo. In deciding the appeal, the commissioner shall consider the educational interests of the students in the affected territory and the affected districts and the social, economic, and educational effects of the proposed boundary change.

(k) Any additional tax resulting from a change of use, as provided for by Chapter 23, Tax Code, and the interest and penalty on the additional tax, that is imposed for any year on land in the annexed territory shall be paid to the school district that imposed the tax.

#### **HISTORY**

(Amended by Acts 2019, Texas Acts of the 86th Leg.- Regular Session, ch. 943, Sec. 3.010, eff. 9/1/2019. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

#### **Sec. 13.052. Dormant School Districts**

(a) If the commissioner determines that a school district has failed to operate a school for a full school year, the commissioner shall report to each appropriate commissioners court that the district is dormant.

(b) The commissioners court of a county shall by order annex each dormant school district within the county with an adjoining district or districts. If the dormant district is a county-line district, the commissioners court of each county in which the district is located shall annex the territory of the dormant district that is within that county. The commissioners court may annex territory to a school district only if the board of trustees of that district approves the annexation.

(c) The governing board of the district to which a dormant school district is annexed is the governing board for the new district.

(d) The order of the commissioners court shall define by legal boundary description the territory of the new district as enlarged and shall be recorded in the minutes of the commissioners court.

(e) Title to the real property of the dormant district vests in the district to which the property is annexed. Each district to which territory is annexed assumes and is liable for any portion of the dormant district's indebtedness that is allocated to the receiving district under Section 13.004.

#### **HISTORY**

(Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

#### **Sec. 13.053. Territory Not In School District**

(a) All real property must be included within the limits of a school district. At any time it is determined that there is territory located in a county but not within the described limits of a school district, the commissioners court shall annex the territory to one or more adjoining districts.

(b) The annexation order shall define by legal boundary description the territory of the new district and shall be recorded in the minutes of the commissioners court.

#### **HISTORY**

(Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

#### **Sec. 13.054. Academically Unacceptable School Districts**

(a) The commissioner by order may annex to one or more adjoining districts a school district that has been rated as academically unacceptable for a period of two years.

(b) The governing board of a district to which territory of an academically unacceptable district is annexed is the governing board for the new district.

(c) The order of the commissioner shall define by legal boundary description the territory of the new district as enlarged.

(d) Title to the real property of the academically unacceptable district vests in the district to which the property is annexed. Each district to which territory is annexed assumes and is liable for any portion of the academically unacceptable district's indebtedness that is allocated to the receiving district under Section 13.004.

(e) Before the commissioner orders an annexation under this section, the commissioner shall investigate the educational and financial impact of the annexation on the receiving district. The commissioner may order the annexation only if the commissioner finds that the annexation will not substantially impair the ability of the receiving district to educate the students located in the district before the annexation and to meet its financial obligations incurred before the annexation.

(f) For five years beginning with the school year in which the annexation occurs, a school district shall receive additional funding under this subsection or Subsection (h). The amount of funding shall be determined by multiplying the lesser of the enlarged district's local fund assignment computed under Section 48.256 or the enlarged district's total cost of tier one by a fraction, the numerator of which is the number of students residing in the territory annexed to the receiving district preceding the date of the annexation and the denominator of which is the number of students residing in the district as enlarged on the date of the annexation, and multiplying the resulting product by the quotient of the enlarged district's maximum compressed tax rate, as determined under Section 48.2551, for the current school year divided by the receiving district's maximum compressed tax rate, as determined under Section 48.2551, for the year in which the annexation occurred.

(f-1) Notwithstanding Subsection (f), for an annexation that occurred before September 1, 2019, for five years beginning with the school year in which the annexation occurs, a school district shall receive additional funding under this subsection or Subsection (h). The amount of funding shall be determined by multiplying the lesser of the enlarged district's local fund assignment computed under Section 48.256 or the enlarged district's total cost of tier one by a fraction, the numerator of which is the number of students residing in the territory annexed to the receiving district preceding the date of the annexation and the denominator of which is the number of students residing in

the district as enlarged on the date of the annexation, and dividing the receiving district's maximum compressed tax rate, as determined under Section 48.2551. This subsection expires September 1, 2021.

(g) In order to assist with the costs of facility renovation, repair, and replacement, a district to which territory is annexed under this section is entitled to additional state aid for five years, beginning with the school year in which the annexation occurs. The commissioner shall determine the amount of additional state aid provided each year by dividing the amount of debt service taxes received by the district during the tax year preceding the tax year in which the annexation occurs by the number of students enrolled in the district immediately preceding the date of annexation, and multiplying that result by the number of additional students enrolled in the district on September 1 after the date of annexation. The commissioner shall provide additional state aid under this subsection from funds appropriated for purposes of the Foundation School Program. A determination by the commissioner under this subsection is final and may not be appealed.

(h) The commissioner may authorize a district to receive payments provided by Subchapter G, instead of Subsection (f), if the commissioner determines that would result in greater payments for the district. A determination by the commissioner is final and may not be appealed.

(i) The funding provided under Subsection (f), (g), or (h) is in addition to other funding the district receives through other provisions of this code, including Chapters 41 and 42.

(j) The commissioner may adopt rules as necessary to implement this section.

**Sec. 21.101. Definition**

In this subchapter, "teacher" means a principal, supervisor, classroom teacher, school counselor, or other full-time professional employee who is required to hold a certificate issued under Subchapter B or a nurse. The term does not include a superintendent or a person who is not entitled to a probationary, continuing, or term contract under Section 21.002, an existing contract, or district policy.

**HISTORY**

(Amended by Acts 2013, 83rd Leg. - Regular Session, ch. 443, Sec. 9, eff. 6/14/2013. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

**Sec. 21.102. Probationary Contract**

(a) Except as provided by Section 21.202(b), a person who is employed as a teacher by a school district for the first time, or who has not been employed by the district for two consecutive school years subsequent to August 28, 1967, shall be employed under a probationary contract. A person who previously was employed as a teacher by a district and, after at least a two-year lapse in district employment returns to district employment, may be employed under a probationary contract.

(a-1) A person who voluntarily accepts an assignment in a new professional capacity that requires a different class of certificate under Subchapter B than the class of certificate held by the person in the professional capacity in which the person was previously employed may be employed under a probationary contract. This subsection does not apply to a person who is returned by a school district to a professional capacity in which the person was employed by the district before the district employed the person in the new professional capacity as described by this subsection. A person described by this subsection who is returned to a previous professional capacity is entitled to be employed in the original professional capacity under the same contractual status as the status held by the person during the previous employment by the district in that capacity.

(b) A probationary contract may not be for a term exceeding one school year. The probationary contract may be renewed for two additional one-year periods, for a maximum permissible probationary contract period of three school years, except that the probationary period may not exceed one year for a person who has been employed as a teacher in public education for at least five of the eight years preceding employment by the district.

(c) An employment contract may not extend the probationary contract period beyond the end of the third consecutive school year of the teacher's employment by the school district unless, during the third year of a teacher's probationary contract, the board of trustees determines that it is doubtful whether the teacher should be given a continuing contract or a term contract. If the board makes that determination, the district may make a probationary contract with the teacher for a term ending with the fourth consecutive school year of the teacher's employment with the district, at which time the district shall:

- (1) terminate the employment of the teacher;
- or

(2) employ the teacher under a continuing contract or a term contract as provided by Subchapter D or E, according to district policy.

(a) The board of trustees of a school district may terminate the employment of a teacher employed under a probationary contract at the end of the contract period if in the board's judgment the best interests of the district will be served by terminating the employment. The board of trustees must give notice of its decision to terminate the employment to the teacher not later than the 10th day before the last day of instruction required under the contract. The notice must be delivered personally by hand delivery to the teacher on the campus at which the teacher is employed, except that if the teacher is not present on the campus on the date that hand delivery is attempted, the notice must be mailed by prepaid certified mail or delivered by express delivery service to the teacher's address of record with the district. Notice that is postmarked on or before the 10th day before the last day of instruction is considered timely given under this subsection. The board's decision is final and may not be appealed.

(b) If the board of trustees fails to give the notice of its decision to terminate the teacher's employment within the time prescribed by Subsection (a), the board must employ the probationary teacher in the same capacity under:

- (1) a probationary contract for the following school year, if the teacher has been employed by the district under a probationary contract for less than three consecutive school years; or

**Sec. 21.351. Recommended Appraisal Process And Performance Criteria**

(a) The commissioner shall adopt a recommended appraisal process and criteria on which to appraise the performance of teachers. The criteria must be based on observable, job-related behavior, including:

(1) teachers' implementation of discipline management procedures; and

(2) the performance of teachers' students.

(a-1) In adopting criteria described by Subsection (a)(1), the commissioner shall ensure that a teacher may not be assigned an area of deficiency in an appraisal solely on the basis of disciplinary referrals made by the teacher or documentation regarding student conduct submitted by the teacher under Section 37.002. This subsection does not prohibit a teacher from being assigned an area of deficiency based on documented evidence of a deficiency in classroom management obtained through observation or a substantiated report.

(b) The commissioner shall solicit and consider the advice of teachers in developing the recommended appraisal process and performance criteria.

(c) Under the recommended appraisal process, an appraiser must be the teacher's supervisor or a person approved by the board of trustees. An appraiser who is a classroom teacher may not appraise the performance of another classroom teacher who teaches at the same school campus at which the appraiser teaches, unless it is impractical because of the number of campuses or unless the appraiser is the chair of a department or grade level whose job description includes classroom observation responsibilities.

(d) Under the recommended appraisal process, appraisal for teachers must be detailed by category of professional skill and characteristic and must provide for separate ratings for each category. The appraisal process shall guarantee a conference between the teacher and the appraiser. The conference shall be diagnostic and prescriptive with regard to remediation needed in overall performance and by category.

Notes – Section 4 of Acts 2019, 86th Leg., Ch. 630 (S.B. 1451) provides: "This Act applies beginning with the 2019-2020 school year."

#### **Sec. 21.352. Local Role**

(a) In appraising teachers, each school district shall use:

(1) the appraisal process and performance criteria developed by the commissioner; or

(2) an appraisal process and performance criteria:

(A) developed by the district- and campus-level committees established under Section 11.251;

(B) containing the items described by Sections 21.351(a)(1) and (2); and

(C) adopted by the board of trustees.

(a-1) A school district may not assign an area of deficiency to a teacher solely on the basis of disciplinary referrals made by the teacher or

documentation regarding student conduct submitted by the teacher under Section 37.002. This subsection does not prohibit a teacher from being assigned an area of deficiency based on documented evidence of a deficiency in classroom management obtained through observation or a substantiated report.

(b) The board of trustees may reject an appraisal process and performance criteria developed by the district- and campus-level committees but may not modify the process or criteria.

(c) Except as otherwise provided by this subsection, appraisal must be done at least once for each school year. A teacher may be appraised less frequently if the teacher agrees in writing and the teacher's most recent evaluation rated the teacher as at least proficient, or the equivalent, and did not identify any area of deficiency. A teacher who is appraised less frequently than annually must be appraised at least once during each period of five school years. The district shall maintain a written copy of the evaluation of each teacher's performance in the teacher's personnel file. Each teacher is entitled to receive a written copy of the evaluation promptly on its completion. After receiving a written copy of the evaluation, a teacher is entitled to a second appraisal by a different appraiser or to submit a written rebuttal to the evaluation to be attached to the evaluation in the teacher's personnel file. The evaluation and any rebuttal may be given to another school district at which the teacher has applied for employment at the request of that district.

(c-1) In addition to conducting a complete appraisal as frequently as required by Subsection (c), a school district shall require that appropriate components of the appraisal process, such as classroom observations and walk-throughs, occur more frequently as necessary to ensure that a teacher receives adequate evaluation and guidance. A school district shall give priority to conducting appropriate components more frequently for inexperienced teachers or experienced teachers with identified areas of deficiency.

(d) A teacher may be given advance notice of the date or time of an appraisal, but advance notice is not required.

(e) A district shall use a teacher's consecutive appraisals from more than one year, if available, in making the district's employment decisions and developing career recommendations for the teacher.

(f) The district shall notify a teacher of the results of any appraisal of the teacher in a timely manner so that the appraisal may be used as a developmental tool by the district and the teacher to improve the overall performance of the teacher.

- (2) integrates inclusive and evidence-based instructional practices for all students, including students with disabilities.

(b) The staff development described by Subsection (a) must be predominantly campus-based, related to achieving campus performance objectives established under Section 11.253, and developed and approved by the campus-level committee established under Section 11.251.

(d) The staff development:

- (1) may include training in:
  - (A) technology and digital learning; and
  - (B) positive behavior intervention and support strategies, including classroom management, district discipline policies, and the student code of conduct adopted under Chapter 37;

(e) A school district is required to provide the training described by Subsection (d)(2) to an educator who works primarily outside the area of special education only if the educator does not possess the knowledge and skills necessary to implement the individualized education program developed for a student receiving instruction from the educator. A district may determine the time and place at which the training is delivered.

(f) In developing or maintaining the training required by Subsection (d)(2), a school district must consult with persons with expertise in research-based practices for students with disabilities. Persons who may be consulted under this subsection include colleges, universities, private and nonprofit organizations, regional education service centers, qualified district personnel, and any other persons identified as qualified by the district. ### **Sec. 22.003. Minimum Personal Leave Program**

(a) A state minimum personal leave program consisting of five days per year personal leave with no limit on accumulation and transferable among districts shall be provided for school district employees. School districts may provide additional

personal leave beyond this minimum. The board of trustees of a school district may adopt a policy governing an employee's use of personal leave granted under this subsection, except that the policy may not restrict:

(1) the purposes for which the leave may be used; or

(2) the order in which an employee may use the state minimum personal leave and any additional personal leave provided by the school district.

(b) In addition to all other days of leave provided by this section or by the school district, an employee of a school district who is physically assaulted during the performance of the employee's regular duties is entitled to the number of days of leave necessary to recuperate from all physical injuries sustained as a result of the assault. At the request of an employee, the school district must immediately assign an employee to assault leave and, on investigation of the claim, may change the assault leave status and charge the leave against the employee's accrued personal leave or against an employee's pay if insufficient accrued personal leave is available. Days of leave taken under this subsection may not be deducted from accrued personal leave. The period provided by this subsection may not extend more than two years beyond the date of the assault. Notwithstanding any other law, assault leave policy benefits due to an employee shall be coordinated with temporary income benefits due from workers' compensation so that the employee's total compensation from temporary income benefits and assault leave policy benefits equals 100 percent of the employee's weekly rate of pay.

(c) For purposes of Subsection (b), an employee of a school district is physically assaulted if the person engaging in the conduct causing injury to the employee:

(1) could be prosecuted for assault; or

(2) could not be prosecuted for assault only because the person's age or mental capacity makes the person a nonresponsible person for purposes of criminal liability.

(c-1) Any informational handbook a school district provides to employees in an electronic or paper form or makes available by posting on the district website must include notification of an employee's rights under Subsection (b) in the relevant section of the handbook. Any form used by a school district through which an employee may request leave under this section must include assault leave under Subsection (b) as an option.

(d) A school district employee with available personal leave under this section is entitled to use the leave for compensation during a term of active

military service. This subsection applies to any personal or sick leave available under former law or provided by local policy of a school district, including a home-rule school district.

(e) A school district, including a home-rule school district, may adopt a policy providing for the paid leave of absence of employees taking leave for active military service as part of the consideration of employment by the district.

(f) A public school employee who retains any sick leave accumulated under former Section 13.904(a), as that section existed on January 1, 1995, is entitled to use the sick leave provided under that section or the personal leave provided under Subsection (a) in any order to the extent that the leave the employee uses is appropriate to the purpose of the leave.

#### Sec. 22.004. Group Health Benefits For School Employees

(a) A district shall participate in the uniform group coverage program established under Chapter 1579, Insurance Code, as provided by Subchapter D of that chapter.

(b) A district that does not participate in the program described by Subsection (a) shall make available to its employees group health coverage provided by a risk pool established by one or more school districts under Chapter 172, Local Government Code, or under a policy of insurance or group contract issued by an insurer, a company subject to Chapter 842, Insurance Code, or a health maintenance organization under Chapter 843, Insurance Code. The coverage must meet the substantive coverage requirements of Chapter 1251, Subchapter A, Chapter 1364, and Subchapter A, Chapter 1366, Insurance Code, and any other law applicable to group health insurance policies or contracts issued in this state. The coverage must include major medical treatment but may exclude experimental procedures. In this subsection, "major medical treatment" means a medical, surgical, or diagnostic procedure for illness or injury. The coverage may include managed care or preventive care and must be comparable to the basic health coverage provided under Chapter 1551, Insurance Code. The following factors shall be considered in determining whether the district's coverage is comparable

to the basic health coverage specified by this subsection:

- (1) the deductible amount for service provided inside and outside of the network;
- (2) the coinsurance percentages for service provided inside and outside of the network;
- (3) the maximum amount of coinsurance payments a covered person is required to pay;
- (4) the amount of the copayment for an office visit;
- (5) the schedule of benefits and the scope of coverage;
- (6) the lifetime maximum benefit amount; and
- (7) verification that the coverage is issued by a provider licensed to do business in this state by the Texas Department of Insurance or is provided by a risk pool authorized under Chapter 172, Local Government Code, or that a district is capable of covering the assumed liabilities in the case of coverage provided through district self-insurance.

(c) The cost of the coverage provided under the program described by Subsection (a) shall be paid by the state, the district, and the employees in the manner provided by Subchapter F, Chapter 1579, Insurance Code. The cost of coverage provided under a plan adopted under Subsection (b) shall be shared by the employees and the district using the contributions by the state described by Subchapter F, Chapter 1579, Insurance Code, or Subchapter D.

(d) Each district that does not participate in the program described by Subsection (a) shall prepare a report addressing the district's compliance with this section. The report must be available for review, together with the policy or contract for the group health coverage plan, at the central administrative office of each campus in the district and be posted on the district's Internet website if the district maintains a website, must be based on the district group health coverage plan in effect during the current plan year, and must include:

(1) appropriate documentation of:

- (A) the district's contract for group health coverage with a provider licensed to do business in this state by the Texas Department of Insurance or a risk pool authorized under Chapter 172, Local Government Code; or
- (B) a resolution of the board of trustees of the district authorizing a self-insurance plan for district employees and of the district's review of district ability to cover the liability assumed;
- (2) the schedule of benefits;
- (3) the premium rate sheet, including the amount paid by the district and employee;

(4) the number of employees covered by the health coverage plan offered by the district; and

(5) information concerning the ease of completing the report.

(e) [Repealed by 2013 amendment.]

(f) A school district that does not participate in the program described by Subsection (a) may not contract with an insurer, a company subject to Chapter 842, Insurance Code, or a health maintenance organization to issue a policy or contract under this section, or with any person to assist the school district in obtaining or managing the policy or contract unless, before the contract is entered into, the insurer, company, organization, or person provides the district with an audited financial statement showing the financial condition of the insurer, company, organization, or person.

(g) An insurer, a company subject to Chapter 842, Insurance Code, or a health maintenance organization that issues a policy or contract under this section and any person that assists the school district in obtaining or managing the policy or contract for compensation shall provide an annual audited financial statement to the school district showing the financial condition of the insurer, company, organization, or person.

(h) An audited financial statement provided under this section must be made in accordance with rules adopted by the commissioner of insurance or with generally accepted accounting principles, as applicable.

(i) Notwithstanding any other provision of this section, a district participating in the uniform group coverage program established under Chapter 1579, Insurance Code, may not make group health coverage available to its employees under this section after the date on which the program of coverages provided under Chapter 1579, Insurance Code, is implemented.

(j) This section does not preclude a district that is participating in the uniform group coverage program established under Chapter 1579, Insurance Code, from entering into contracts to provide optional insurance coverages for the employees of the district.

(k) Notwithstanding any other law, an employee of a district participating in the uniform group coverage program under Subsection (a) or providing group health coverage under Subsection (b) whose resignation is effective after the last day of an instructional year is entitled to participate or be enrolled in the uniform group coverage plan or the group health coverage through the earlier of:

- (1) the first anniversary of the date participation in or coverage under the uniform group coverage plan or the group health coverage

was first made available to district employees for the last instructional year in which the employee was employed by the district; or

(2) the last calendar day before the first day of the instructional year immediately following the last instructional year in which the employee was employed by the district.

(l) If an employee's resignation is effective after the last day of an instructional year, the district may not diminish or eliminate the amount of a contribution available to the employee under Chapter 1581, Insurance Code, before the last date on which the employee is entitled to participation or enrollment under Subsection (k).

(m) Notwithstanding any other law, group health benefit coverage provided by or offered through a district to district employees under any law is subject to the requirements of Sections 1501.102-1501.105, Insurance Code. This section applies to all group health benefit coverage provided by or offered through a district to district employees, including:

(1) a standard health benefit plan issued under Chapter 1507, Insurance Code; and

(2) health and accident coverage provided through a risk pool established under Chapter 172, Local Government Code.

The fund consists of money contributed by the school district and money deducted from salaries of employees for dependent or employee coverage. Money for the fund may not be deducted from the salary of a school district employee unless the employee authorizes the deduction in writing. The plan shall attempt to protect the school district against unanticipated catastrophic individual loss, or unexpectedly large aggregate loss, by securing individual stop-loss coverage, or aggregate stop-loss coverage, or both, from a commercial insurer.

(c) The board may amend or cancel the district's health care plan at any regular or special meeting of the board. If the plan is canceled, any valid claim against the fund for payment of health care costs resulting from illness or injury occurring during the time the plan was in effect shall be paid out of the fund. If the fund is insufficient to pay the claim, the costs shall be paid out of other available school district funds.

#### Sec. 25.001. Admission

(a) A person who, on the first day of September of any school year, is at least five years of age and under 21 years of age, or is at least 21 years of age and under 26 years of age and is admitted by a school district to complete the requirements for a high school diploma is entitled to the benefits of the available school fund for that year. Any other person enrolled in a prekindergarten class under Section 29.153 or Subchapter E-1, Chapter 29, is entitled to the benefits of the available school fund.

(b) The board of trustees of a school district or its designee shall admit into the public schools of the district free of tuition a person who is over five and younger than 21 years of age on the first day of September of the school year in which admission is sought, and may admit a person who is at least 21 years of age and under 26 years of age for the purpose of completing the requirements for a high school diploma, if:

(1) the person and either parent of the person reside in the school district;

(2) the person does not reside in the school district but a parent of the person resides in the school district and that parent is a joint managing conservator or the sole managing conservator or possessory conservator of the person;

(3) the person and the person's guardian or other person having lawful control of the

person under a court order reside within the school district;

(4) the person has established a separate residence under Subsection (d);

(5) the person is homeless, regardless of the residence of the person, of either parent of the person, or of the person's guardian or other person having lawful control of the person;

(6) the person is a foreign exchange student placed with a host family that resides in the school district by a nationally recognized foreign exchange program, unless the school district has applied for and been granted a waiver by the commissioner under Subsection (e);

(7) the person resides at a residential facility located in the district;

(8) the person resides in the school district and is 18 years of age or older or the person's disabilities of minority have been removed;

(9) the person does not reside in the school district but the grandparent of the person:

(A) resides in the school district; and

(B) provides a substantial amount of after-school care for the person as determined by the board; or

(10) the person and either parent of the person reside in a residence homestead, as defined by Section 11.13(j), Tax Code, that is located on a parcel of property any part of which is located in the school district.

(b-1) A person who is 21 years of age or older and is admitted by a school district for the purpose stated in Subsection (b) is not eligible for placement in a disciplinary alternative education program or a juvenile justice alternative education program if the person engages in conduct that would require or authorize such placement for a student under the age of 21. If the student engages in conduct that would otherwise require such placement, the district shall revoke admission of the student into the public schools of the district.

(b-2) A person who is 21 years of age or older who is admitted by a school district to complete the requirements for a high school diploma and who has not attended school in the three preceding school years may not be placed with a student who is 18 years of age or younger in a classroom setting, a cafeteria, or another district-sanctioned school activity. Nothing in this subsection prevents a student described by this subsection from attending a school-sponsored event that is open to the public as a member of the public.

(c) The board of trustees of a school district or the board's designee may require evidence that a person is eligible to attend the public schools of the district at the time the board or its designee considers an application for admission of the person.

The board of trustees or its designee shall establish minimum proof of residency acceptable to the district. The board of trustees or its designee may make reasonable inquiries to verify a person's eligibility for admission.

(c-1) A person whose parent or guardian is an active-duty member of the armed forces of the United States, including the state military forces or a reserve component of the armed forces, may establish residency for purposes of Subsection (b) by providing to the school district a copy of a military order requiring the parent's or guardian's transfer to a military installation in or adjacent to the district's attendance zone.

(c-2) A person who establishes residency as provided by Subsection (c-1) shall provide to the school district proof of residence in the district's attendance zone not later than the 10th day after the arrival date specified in the order described by that subsection. For purposes of this subsection, "residence" includes residence in a military temporary lodging facility.

(d) For a person under the age of 18 years to establish a residence for the purpose of attending the public schools separate and apart from the person's parent, guardian, or other person having lawful control of the person under a court order, it must be established that the person's presence in the school district is not for the primary purpose of participation in extracurricular activities. The board of trustees shall determine whether an applicant for admission is a resident of the school district for purposes of attending the public schools and may adopt reasonable guidelines for making a determination as necessary to protect the best interests of students. The board of trustees is not required to admit a person under this subsection if the person:

(1) has engaged in conduct or misbehavior within the preceding year that has resulted in:

(A) removal to a disciplinary alternative education program; or

(B) expulsion;

(3) has been convicted of a criminal offense and is on probation or other conditional release.

(e) A school district may request that the commissioner waive the requirement that the district admit a foreign exchange student who meets the conditions of Subsection (b)(6). The commissioner shall respond to a district's request not later than the 60th day after the date of receipt of the request. The commissioner shall grant the request and issue a waiver effective for a period not to

exceed three years if the commissioner determines that admission of a foreign exchange student would:

(1) create a financial or staffing hardship for the district;

(2) diminish the district's ability to provide high quality educational services for the district's domestic students; or

(3) require domestic students to compete with foreign exchange students for educational resources.

(f) A child placed in foster care by an agency of the state or by a political subdivision shall be permitted to attend the public schools in the district in which the foster parents reside free of any charge to the foster parents or the agency. A durational residence requirement may not be used to prohibit that child from fully participating in any activity sponsored by the school district.

(g) A student who was enrolled in a primary or secondary public school before the student entered the conservatorship of the Department of Family and Protective Services and who is placed at a residence outside the attendance area for the school or outside the school district is entitled to continue to attend the school in which the student was enrolled immediately before entering conservatorship until the student successfully completes the highest grade level offered by the school at the time of placement without payment of tuition. The student is entitled to continue to attend the school regardless of whether the student remains in the conservatorship of the department for the duration of the student's enrollment in the school.

(g-1) If a student who is in the conservatorship of the department is enrolled in a primary or secondary public school, other than the school in which the student was enrolled at the time the student was placed in the conservatorship of the department, the student is entitled to continue to attend that school without payment of tuition until the student successfully completes the highest grade level offered by the school at the time of enrollment in the school, even if the child's placement is changed to a residence outside the attendance area for that school or outside the school district. The student is entitled to continue to attend the school regardless of whether the student remains in the conservatorship of the department for the duration of the student's enrollment in the school.

(h) In addition to the penalty provided by Section 37.10, Penal Code, a person who knowingly falsifies information on a form required for enrollment of a student in a school district is liable to the district if the student is not eligible for enrollment in the district but is enrolled on the basis of the false information. The person is liable, for the

period during which the ineligible student is enrolled, for the greater of:

(1) the maximum tuition fee the district may charge under Section 25.038; or

(2) the amount the district has budgeted for each student as maintenance and operating expenses.

(i) A school district may include on an enrollment form notice of the penalties provided by Section 37.10, Penal Code, and of the liability provided by Subsection (h) for falsifying information on the form.

(j) For the purposes of this subchapter, the board of trustees of a school district by policy may allow a person showing evidence of legal responsibility for a child other than an order of a court to substitute for a guardian or other person having lawful control of the child under an order of a court.

### **Sec. 25.092. Minimum Attendance For Class Credit Or Final Grade**

(a) Except as provided by this section, a student in any grade level from kindergarten through grade 12 may not be given credit or a final grade for a class unless the student is in attendance for at least 90 percent of the days the class is offered.

(a-1) A student who is in attendance for at least 75 percent but less than 90 percent of the days a

class is offered may be given credit or a final grade for the class if the student completes a plan approved by the school's principal that provides for the student to meet the instructional requirements of the class. A student under the jurisdiction of a court in a criminal or juvenile justice proceeding may not receive credit or a final grade under this subsection without the consent of the judge presiding over the student's case.

(a-2) Subsection (a) does not apply to a student who receives credit by examination for a class as provided by Section 28.023.

(a-3) A student's excused absence under Section 25.087(b)(3) may not be considered in determining whether the student has satisfied the attendance requirement under Subsection (a) or (a-1).

(a-4) A school district or open-enrollment charter school may adopt a policy to exempt students from the requirements of this section for one or more courses identified in the policy that are offered under a local remote learning program under Section 29.9091. This subsection expires September 1, 2023.

(b) The board of trustees of each school district shall appoint one or more attendance committees to hear petitions for class credit or a final grade by students who are in attendance fewer than the number of days required under Subsection (a) and have not earned class credit or a final grade under Subsection (a-1). Classroom teachers shall comprise a majority of the membership of the committee. A committee may give class credit or a final grade to a student because of extenuating circumstances. Each board of trustees shall establish guidelines to determine what constitutes extenuating circumstances and shall adopt policies establishing alternative ways for students to make up work or regain credit or a final grade lost because of absences. The alternative ways must include at least one option that does not require a student to pay a fee authorized under Section 11.158(a)(15). A certified public school employee may not be assigned additional instructional duties as a result of this section outside of the regular workday unless the employee is compensated for the duties at a reasonable rate of pay.

(c) A member of an attendance committee is not personally liable for any act or omission arising out of duties as a member of an attendance committee.

(d) If a student is denied credit or a final grade for a class by an attendance committee, the student may appeal the decision to the board of trustees. The decision of the board may be appealed by trial de novo to the district court of the county in which the school district's central administrative office is located.

(e) This section does not affect the provision of Section 25.087(b) regarding a student's excused absence from school to observe religious holy days.

(f) The availability of the option developed under Subsection (b) must be substantially the same as the availability of the educational program developed under Section 11.158(a)(15).

#### Sec. 25.093. Parent Contributing To Nonattendance

(a) If a warning is issued as required by Section 25.095(a), the parent with criminal negligence fails to require the child to attend school as required by law, and the child has absences for the amount of time specified under Section 65.003(a), Family Code, the parent commits an offense.

(b) The attendance officer or other appropriate school official shall file a complaint against the parent in:

(1) the constitutional county court of the county in which the parent resides or in which the school is located, if the county has a population of 1.75 million or more;

(2) a justice court of any precinct in the county in which the parent resides or in which the school is located; or

(3) a municipal court of the municipality in which the parent resides or in which the school is located.

(c) An offense under Subsection (a) is a misdemeanor, punishable by fine only, in an amount not to exceed:

(1) \$100 for a first offense;

(2) \$200 for a second offense;

(3) \$300 for a third offense;

(4) \$400 for a fourth offense; or

(5) \$500 for a fifth or subsequent offense.

(c-1) Each day the child remains out of school may constitute a separate offense. Two or more offenses under Subsection (a) may be consolidated and

prosecuted in a single action. If the court orders deferred disposition under Article 45.051, Code of Criminal Procedure, the court may require the defendant to provide personal services to a charitable or educational institution as a condition of the deferral.

(d) A fine collected under this section shall be deposited as follows:

(1) one-half shall be deposited to the credit of the operating fund of, as applicable:

(A) the school district in which the child attends school;

(B) the open-enrollment charter school the child attends; or

(C) the juvenile justice alternative education program that the child has been ordered to attend; and

(2) one-half shall be deposited to the credit of:

(A) the general fund of the county, if the complaint is filed in the justice court or the constitutional county court; or

(B) the general fund of the municipality, if the complaint is filed in municipal court.

(e) At the trial of any person charged with violating this section, the attendance records of the child may be presented in court by any authorized employee of the school district or open-enrollment charter school, as applicable.

(f) The court in which a conviction, deferred adjudication, or deferred disposition for an offense under Subsection (a) occurs may order the defendant to attend a program for parents of students with unexcused absences that provides instruction designed to assist those parents in identifying problems that contribute to the students' unexcused absences and in developing strategies for resolving those problems if a program is available.

(g) If a parent refuses to obey a court order entered under this section, the court may punish the parent for contempt of court under Section 21.002, Government Code.

(h) It is an affirmative defense to prosecution for an offense under Subsection (a) that one or more of the absences required to be proven under Subsection (a) was excused by a school official or should be excused by the court. The burden is on the defendant to show by a preponderance of the evidence that the absence has been or should be excused. A decision by the court to excuse an absence for purposes of this section does not affect the ability of the school district to determine whether to excuse the absence for another purpose.

(i) In this section, "parent" includes a person standing in parental relation.

#### **Sec. 25.151. Student Expression**

A school district shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the district treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and may not discriminate against the student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

#### **HISTORY**

(Added by Acts 2007, 80th Leg., R.S., Ch. 261, Sec. 2, eff. June 8, 2007.)

#### **Sec. 25.152. Limited Public Forum; School District Policy**

(a) To ensure that the school district does not discriminate against a student's publicly stated voluntary expression of a religious viewpoint, if any, and to eliminate any actual or perceived affirmative school sponsorship or attribution to the district of a student's expression of a religious viewpoint, if any, a school district shall adopt a policy, which must include the establishment of a limited public forum for student speakers at all school events at which a student is to publicly speak. The policy regarding the limited public forum must also require the school district to:

(1) provide the forum in a manner that does not discriminate against a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject;

(2) provide a method, based on neutral criteria, for the selection of student speakers at school events and graduation ceremonies;

(3) ensure that a student speaker does not engage in obscene, vulgar, offensively lewd, or indecent speech; and

(b) The school district disclaimer required by Subsection (a)(4) must be provided at all graduation ceremonies. The school district must also continue to provide the disclaimer at any other event in which a student speaks publicly for as long as a need exists to dispel confusion over the district's nonsponsorship of the student's speech.

(c) Student expression on an otherwise permissible subject may not be excluded from the limited public forum because the subject is expressed from a religious viewpoint.

Students may express their beliefs about religion in homework, artwork, and other written and oral assignments free from discrimination based on the religious content of their submissions. Homework and classroom assignments must be judged by ordinary academic standards of substance and relevance and against other legitimate pedagogical concerns identified by the school district. Students may not be penalized or rewarded on account of the religious content of their work.

### **Sec. 25.154. Freedom To Organize Religious Groups And Activities**

Students may organize prayer groups, religious clubs, "see you at the pole" gatherings, or other religious gatherings before, during, and after school to the same extent that students are permitted to organize other noncurricular student activities and groups. Religious groups must be given the same access to school facilities for assembling as is given to other noncurricular groups without discrimination based on the religious content of the students' expression. If student groups that meet for nonreligious activities are permitted to advertise or announce meetings of the groups, the school district may not discriminate against groups that meet for prayer or other religious speech. A school district may disclaim school sponsorship of noncurricular groups and events in a manner that neither favors nor disfavors groups that meet to engage in prayer or religious speech.

### **Sec. 25.155. Adoption Of Policy**

A school district shall adopt and implement a local policy regarding a limited public forum and voluntary student expression of religious viewpoints. If a school district voluntarily adopts and follows the model policy governing voluntary religious expression in public schools as provided by Section 25.156, the district is in compliance with the provisions of this subchapter covered by the model policy.

**HISTORY**

(Added by Acts 2007, 80th Leg., R.S., Ch. 261, Sec. 2, eff. June 8, 2007.)

Notes – Section 3 of Acts 2007, 80th Leg., Ch. 261 (H.B. 3678) provides: "This Act applies beginning with the 2007-2008 school year."

### **Sec. 25.156. Model Policy Governing Voluntary Religious Expression In Public Schools**

In this section, "model policy" means a local policy adopted by the school district that is substantially identical to the following:

#### ARTICLE I STUDENT EXPRESSION OF RELIGIOUS VIEWPOINTS

The school district shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the district treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and may not discriminate against the student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

#### ARTICLE II STUDENT SPEAKERS AT NONGRADUATION EVENTS

The school district hereby creates a limited public forum for student speakers at all school events at which a student is to publicly speak. For each speaker, the district shall set a maximum time limit reasonable and appropriate to the occasion. Student speakers shall introduce:

- (1) football games;
- (2) any other athletic events designated by the district;
- (3) opening announcements and greetings for the school day; and
- (4) any additional events designated by the district, which may include, without limitation, assemblies and pep rallies.

The forum shall be limited in the manner provided by this article.

Only those students in the highest two grade levels of the school and who hold one of the following positions of honor based on neutral criteria are eligible to use the limited public forum: student council officers, class officers of the highest grade level in the school, captains of the football team, and other students holding positions of honor as the school district may designate.

An eligible student shall be notified of the student's eligibility, and a student who wishes to participate as an introducing speaker shall submit the student's name to the student council or other designated body during an announced period of not less than three days. The announced period may be at the beginning of the school year, at the end of the preceding school year so student speakers are in place for the new year, or, if the selection process will be repeated each semester, at the beginning of each semester or at the end of the preceding semester so speakers are in place for the next semester. The names of the volunteering student speakers shall be randomly drawn until all names have been selected, and the names shall be listed in the order drawn. Each selected student will be matched chronologically to the event for which the student will be giving the introduction. Each student may speak for one week at a time for all introductions of events that week, or rotate after each speaking event, or otherwise as determined by the district. The list of student speakers shall be chronologically repeated as needed, in the same order. The district may repeat the selection process each semester rather than once a year.

The subject of the student introductions must be related to the purpose of the event and to the purpose of marking the opening of the event, honoring the occasion, the participants, and those in attendance, bringing the audience to order, and focusing the audience on the purpose of the event. The subject must be designated, a student must stay on the subject, and the student may not engage in obscene, vulgar, offensively lewd, or indecent speech. The school district shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the district treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and may not discriminate against the student based on a religious viewpoint

expressed by the student on an otherwise permissible subject.

For as long as there is a need to dispel confusion over the nonsponsorship of the student's speech, at each event in which a student will deliver an introduction, a disclaimer shall be stated in written or oral form, or both, such as, "The student giving the introduction for this event is a volunteering student selected on neutral criteria to introduce the event. The content of the introduction is the private expression of the student and does not reflect the endorsement, sponsorship, position, or expression of the school district."

Certain students who have attained special positions of honor in the school have traditionally addressed school audiences from time to time as a tangential component of their achieved positions of honor, such as the captains of various sports teams, student council officers, class officers, homecoming kings and queens, prom kings and queens, and the like, and have attained their positions based on neutral criteria. Nothing in this policy eliminates the continuation of the practice of having these students, irrespective of grade level, address school audiences in the normal course of their respective positions. The school district shall create a limited public forum for the speakers and shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the district treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and may not discriminate against the student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

### ARTICLE III STUDENT SPEAKERS AT GRADUATION CEREMONIES

The school district hereby creates a limited public forum consisting of an opportunity for a student to speak to begin graduation ceremonies and another student to speak to end graduation ceremonies. For each speaker, the district shall set a maximum time limit reasonable and appropriate to the occasion.

The forum shall be limited in the manner provided by this article.

Only students who are graduating and who hold one of the following neutral criteria positions of honor shall be eligible to use the limited public forum: student council officers, class officers of the graduating class, the top three academically

ranked graduates, or a shorter or longer list of student leaders as the school district may designate. A student who will otherwise have a speaking role in the graduation ceremonies is ineligible to give the opening and closing remarks. The names of the eligible volunteering students will be randomly drawn. The first name drawn will give the opening and the second name drawn will give the closing.

The topic of the opening and closing remarks must be related to the purpose of the graduation ceremony and to the purpose of marking the opening and closing of the event, honoring the occasion, the participants, and those in attendance, bringing the audience to order, and focusing the audience on the purpose of the event.

In addition to the students giving the opening and closing remarks, certain other students who have attained special positions of honor based on neutral criteria, including, without limitation, the valedictorian, will have speaking roles at graduation ceremonies. For each speaker, the school district shall set a maximum time limit reasonable and appropriate to the occasion and to the position held by the speaker. For this purpose, the district creates a limited public forum for these students to deliver the addresses. The subject of the addresses must be related to the purpose of the graduation ceremony, marking and honoring the occasion, honoring the participants and those in attendance, and the student's perspective on purpose, achievement, life, school, graduation, and looking forward to the future.

The subject must be designated for each student speaker, the student must stay on the subject, and the student may not engage in obscene, vulgar, offensively lewd, or indecent speech. The school district shall treat a student's voluntary expression of a religious viewpoint, if any, on an otherwise permissible subject in the same manner the district treats a student's voluntary expression of a secular or other viewpoint on an otherwise permissible subject and may not discriminate against the student based on a religious viewpoint expressed by the student on an otherwise permissible subject.

A written disclaimer shall be printed in the graduation program that states, "The students who will be speaking at the graduation ceremony were selected based on neutral criteria to deliver messages of the students' own choices. The content of each student speaker's message is the private expression of the individual student and does not reflect any position or expression of the school district or the board of trustees, or the district's administration, or employees of the district, or the views of any other graduate. The contents

of these messages were prepared by the student volunteers, and the district refrained from any interaction with student speakers regarding the student speakers' viewpoints on permissible subjects."

#### ARTICLE IV RELIGIOUS EXPRESSION IN CLASS ASSIGNMENTS

Students may express the students' beliefs about religion in homework, artwork, and other written and oral assignments free from discrimination based on the religious content of the students' submission. Homework and classroom work shall be judged by ordinary academic standards of substance and relevance and against other legitimate pedagogical concerns identified by the school. Students may not be penalized or rewarded on account of religious content. If a teacher's assignment involves writing a poem, the work of a student who submits a poem in the form of a prayer (for example, a psalm) should be judged on the basis of academic standards, including literary quality, and not penalized or rewarded on account of its religious content.

#### ARTICLE V FREEDOM TO ORGANIZE RELIGIOUS GROUPS AND ACTIVITIES

Students may organize prayer groups, religious clubs, "see you at the pole" gatherings, and other religious gatherings before, during, and after school to the same extent that students are permitted to organize other noncurricular student activities and groups. Religious groups must be given the same access to school facilities for assembling as is given to other noncurricular groups, without discrimination based on the religious content of the group's expression. If student groups that meet for nonreligious activities are permitted to advertise or announce the groups' meetings, for example, by advertising in a student newspaper, putting up posters, making announcements on a student activities bulletin board or public address system, or handing out leaflets, school authorities may not discriminate against groups that meet for prayer or other religious speech. School authorities may disclaim sponsorship of noncurricular groups and events, provided they administer the disclaimer in a manner that does not favor or disfavor groups that meet to engage in prayer or other religious speech.

(2) training educators in administering the reading instruments; and

(3) applying the results of the reading instruments to the instructional program.

(b) The commissioner shall adopt a list of reading instruments that a school district may use to diagnose student reading development and comprehension. For use in diagnosing the reading development and comprehension of kindergarten students, the commissioner shall adopt a multidimensional assessment tool that includes a reading instrument and tests at least three developmental skills, including literacy. A multidimensional assessment tool administered as provided by this subsection is considered to be a reading instrument for purposes of this section. A district-level committee established under Subchapter F, Chapter 11, may adopt a list of reading instruments for use in the district in a grade level other than kindergarten in addition to the reading instruments on the commissioner's list. Each reading instrument adopted by the commissioner or a district-level committee must be based on scientific research concerning reading skills development and reading comprehension. A list of reading instruments adopted under this subsection must provide for diagnosing the reading development and comprehension of students participating in a program under Subchapter B, Chapter 29.

(b-1) The commissioner may approve an alternative reading instrument for use in diagnosing the reading development and comprehension of kindergarten students that complies with the requirements under Subsection (b).

(c) Each school district shall administer, at the first and second grade levels, a reading instrument on the list adopted by the commissioner or by the district-level committee. The district shall administer the reading instrument in accordance with the

commissioner's recommendations under Subsection (a)(1).

(c-1) Each school district shall administer at the beginning of the seventh grade a reading instrument adopted by the commissioner to each student whose performance on the assessment instrument in reading administered under Section 39.023(a) to the student in grade six did not demonstrate reading proficiency, as determined by the commissioner. The district shall administer the reading instrument in accordance with the commissioner's recommendations under Subsection (a)(1).

(c-2) Each school district shall administer at the kindergarten level a reading instrument adopted by the commissioner under Subsection (b) or approved by the commissioner under Subsection (b-1). The district shall administer the reading instrument in accordance with the commissioner's recommendations under Subsection (a)(1).

The district shall implement an accelerated reading instruction program that provides reading instruction that addresses reading deficiencies to those students and shall determine the form, content, and timing of that program. The admission, review, and dismissal committee of a student who participates in a district's special education program under

Subchapter B, Chapter 29, and who does not perform satisfactorily on a reading instrument under this section shall determine the manner in which the student will participate in an accelerated reading instruction program under this subsection.

(g-1) A school district shall provide additional reading instruction and intervention to each student in seventh grade assessed under Subsection (c-1), as appropriate to improve the student's reading skills in the relevant areas identified through the assessment instrument. Training and support for activities required by this subsection shall be provided by regional education service centers and teacher literacy achievement academies established under Section 21.4552, and may be provided by other public and private providers.

(g-2) In accordance with a notification program developed by the commissioner by rule, a school district shall notify the parent or guardian of each student determined, on the basis of a screening under Section 38.003 or other basis, to have dyslexia or a related disorder, or determined, on the basis of reading instrument results, to be at risk for dyslexia or other reading difficulties, of the program maintained by the Texas State Library and Archives Commission providing students with reading disabilities the ability to borrow audiobooks free of charge.

(h) The school district shall make a good faith effort to ensure that the notice required under this section is provided either in person or by regular mail and that the notice is clear and easy to understand and is written in English and in the parent or guardian's native language.

(i) The commissioner shall certify, not later than July 1 of each school year or as soon as practicable thereafter, whether sufficient funds have been appropriated statewide for the purposes of this section. A determination by the commissioner is final and may not be appealed. For purposes of certification, the commissioner may not consider Foundation School Program funds.

(j) No more than 15 percent of the funds certified by the commissioner under Subsection (i) may be spent on indirect costs. The commissioner shall evaluate the programs that fail to meet the standard of performance under Section 39.301(c)(5) and may implement interventions or sanctions under Chapter 39A. The commissioner may audit the expenditures of funds appropriated for purposes of this section. The use of the funds appropriated for purposes of this section shall be verified as part of the district audit under Section 44.008.

(k) The provisions of this section relating to parental notification of a student's results on the reading instrument and to implementation of an accelerated reading instruction program may be implemented only if the commissioner certifies

that funds have been appropriated during a school year for administering the accelerated reading instruction program specified under this section.

(l) The commissioner may adopt rules as necessary to implement this section. Section 2001.0045, Government Code, does not apply to rules adopted under this subsection.

(m) The agency by rule shall develop procedures designed to allow the agency to:

(1) effectively audit and monitor and periodically conduct site visits of all school districts to ensure that districts are complying with this section;

(2) identify any problems school districts experience in complying with this section; and

(6) five elective credits;

(7) one credit in fine arts under Section 28.002(a)(2)(D); and

(8) except as provided by Subsection (b-11), one credit in physical education under Section 28.002(a)(2)(C).

(b-2) In adopting rules under Subsection (b-1), the State Board of Education shall:

(1) provide for a student to comply with the curriculum requirements for an advanced English course under Subsection (b-1)(1), for an advanced mathematics course under Subsection (b-1)(2), and for any advanced science course under Subsection (b-1)(3) by successfully completing a course in the appropriate content area that has been approved as an advanced course by board rule or that is offered as an advanced course for credit without board approval as provided by Section 28.002(g-1); and

(2) allow a student to comply with the curriculum requirements for the third and fourth mathematics credits under Subsection (b-1)(2) or the third and fourth science credits under Subsection (b-1)(3) by successfully completing an advanced career and technical course designated by the State Board of Education as containing substantively similar and rigorous academic content.

(b-3) In adopting rules for purposes of Subsection (b-2), the State Board of Education must approve a variety of advanced English, mathematics, and science courses that may be taken to comply with the foundation high school program requirements, provided that each approved course prepares students to enter the workforce successfully or postsecondary education without remediation.

(b-4) A school district may offer the curriculum described in Subsections (b-1)(1) through (4) in an applied manner. Courses delivered in an applied manner must cover the essential knowledge and skills, and the student shall be administered the applicable end-of-course assessment instrument as provided by Sections 39.023(c) and 39.025.

(b-5) A school district may offer a mathematics or science course to be taken by a student after completion of Algebra II and physics. A course approved under this subsection must be endorsed by an institution of higher education as a course for which the institution would award course credit or as a prerequisite for a course for which the institution would award course credit.

(b-6) A school district may allow a student to enroll concurrently in Algebra I and geometry.

(b-7) The State Board of Education, in coordination with the Texas Higher Education Coordinating Board, shall adopt rules to ensure that a student may comply with the curriculum requirements

under the foundation high school program or for an endorsement under Subsection (c-1) by successfully completing appropriate courses in the core curriculum of an institution of higher education under Section 61.822. Notwithstanding Subsection (b-15) or (c) of this section, Section 39.025, or any other provision of this code and notwithstanding any school district policy, a student who has completed the core curriculum of an institution of higher education under Section 61.822, as certified by the institution in accordance with commissioner rule, is considered to have earned a distinguished level of achievement under the foundation high school program and is entitled to receive a high school diploma from the appropriate high school as that high school is determined in accordance with commissioner rule. A student who is considered to have earned a distinguished level of achievement under the foundation high school program under this subsection may apply for admission to an institution of higher education for the first semester or other academic term after the semester or other academic term in which the student completes the core curriculum.

(b-8) [Repealed.]

(b-9) A school district, with the approval of the commissioner, may allow a student to satisfy the fine arts credit required under Subsection (b-1) (7) by participating in a community-based fine arts program not provided by the school district in which the student is enrolled. The fine arts program must provide instruction in the essential knowledge and skills identified for fine arts by the State Board of Education under Section 28.002(c). The fine arts program may be provided on or off a school campus and outside the regular school day.

(b-10) A school district, with the approval of the commissioner, may allow a student to comply with the curriculum requirements for the physical education credit required under Subsection (b-1) (8) by participating in a private or commercially sponsored physical activity program provided on or off a school campus and outside the regular school day.

(b-11) In adopting rules under Subsection (b-1), the State Board of Education shall allow a student who is unable to participate in physical activity due to disability or illness to substitute one credit in English language arts, mathematics, science, or social studies, one credit in a course that is offered for credit as provided by Section 28.002(g-1), or one academic elective credit for the physical education credit required under Subsection (b-1)(8). A credit allowed to be substituted under this subsection may not also be used by the student to satisfy a graduation requirement other than completion of the physical education credit. The rules must

provide that the determination regarding a student's ability to participate in physical activity will be made by:

(1) if the student receives special education services under Subchapter A, Chapter 29, the student's admission, review, and dismissal committee;

(2) if the student does not receive special education services under Subchapter A, Chapter 29, but is covered by Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794), the committee established for the student under that Act; or

(3) if each of the committees described by Subdivisions (1) and (2) is inapplicable, a committee established by the school district of persons with appropriate knowledge regarding the student.

(b-12) In adopting rules under Subsection (b-1), the State Board of Education shall adopt criteria to allow a student to comply with the curriculum requirements for the two credits in a language other than English required under Subsection (b-1)(5) by substituting two credits in computer programming languages, including computer coding.

(b-13) In adopting rules under Subsection (b-1), the State Board of Education shall allow a student to substitute credit in another appropriate course for the second credit in the same language in a language other than English otherwise required by Subsection (b-1)(5) if the student, in completing the first credit required under Subsection (b-1) (5), demonstrates that the student is unlikely to be able to complete the second credit. The board rules must establish:

(1) the standards and, as applicable, the appropriate school personnel for making a determination under this subsection; and

(2) appropriate substitute courses for purposes of this subsection.

(b-14) In adopting rules under Subsection (b-1), the State Board of Education shall allow a student who, due to disability, is unable to complete two courses in the same language in a language other than English, as provided under Subsection (b-1) (5), to substitute for those credits two credits in English language arts, mathematics, science, or social studies or two credits in career and technology education, technology applications, or other academic electives. A credit allowed to be substituted under this subsection may not also be used by the student to satisfy a graduation credit requirement other than credit for completion of a language other than English. The rules must provide that the determination regarding a student's ability to participate in language-other-than-English courses will be made by:

(1) if the student receives special education services under Subchapter A, Chapter 29, the student's admission, review, and dismissal committee; or

(2) if the student does not receive special education services under Subchapter A, Chapter 29, but is covered by Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794), the committee established for the student under that Act.

(b-15) A student may earn a distinguished level of achievement under the foundation high school program by successfully completing:

(1) four credits in mathematics, which must include Algebra II and the courses described by Subsection (b-1)(2);

(2) four credits in science, which must include the courses described by Subsection (b-1)(3);

(3) the remaining curriculum requirements under Subsection (b-1); and

(4) the curriculum requirements for at least one endorsement under Subsection (c-1).

(b-16) A student may satisfy an elective credit required under Subsection (b-1)(6) with a credit earned to satisfy the additional curriculum requirements for the distinguished level of achievement under the foundation high school program or an endorsement under Subsection (c-1). This subsection may apply to more than one elective credit.

(b-17) The State Board of Education shall adopt rules to ensure that a student may comply with the curriculum requirements under Subsection (b-1)(6) by successfully completing an advanced career and technical course, including a course that may lead to an industry-recognized credential or certificate or an associate degree.

(b-18) In adopting rules under Subsection (b-1), the State Board of Education shall allow a student to comply with the curriculum requirements under Subsection (b-1) by successfully completing a dual credit course.

(b-19) In adopting rules under Subsection (b-1), the State Board of Education shall adopt criteria to allow a student to comply with curriculum requirements for the world geography or world history credit under Subsection (b-1)(4) by successfully completing a combined world history and world geography course developed by the State Board of Education.

(b-20) The State Board of Education shall adopt rules to include the instruction developed under Section 28.012 in one or more courses in the required curriculum for students in grade levels 9 through 12.

(b-21) In adopting rules under Subsection (b-1), the State Board of Education shall adopt criteria to allow a student to comply with the curriculum requirement for one credit under Subsection (b-1)(5)

by successfully completing at an elementary school either a dual language immersion program under Section 28.0051 or a course in American Sign Language.

(c) A person may receive a diploma if the person is eligible for a diploma under Section 1. In other cases, a student may graduate and receive a diploma only if:

(1) the student successfully completes the curriculum requirements identified by the State Board of Education under Subsection (a) and complies with Sections 28.0256 and 39.025; or

(2) the student successfully completes an individualized education program developed under Section 29.005.

(c-1) A student may earn an endorsement on the student's transcript by successfully completing curriculum requirements for that endorsement adopted by the State Board of Education by rule. The State Board of Education by rule shall provide students with multiple options for earning each endorsement, including, to the greatest extent possible, coherent sequences of courses. The State Board of Education by rule must permit a student to enroll in courses under more than one endorsement curriculum before the student's junior year. An endorsement under this subsection may be earned in any of the following categories:

(1) science, technology, engineering, and mathematics (STEM), which includes courses directly related to science, including environmental science, technology, including computer science, cybersecurity, and computer coding, engineering, and advanced mathematics;

(2) business and industry, which includes courses directly related to database management, information technology, communications, accounting, finance, marketing, graphic design, architecture, construction, welding, logistics, automotive technology, agricultural science, and heating, ventilation, and air conditioning;

(3) public services, which includes courses directly related to health sciences and occupations, mental health, education and training, law enforcement, and culinary arts and hospitality;

(4) arts and humanities, which includes courses directly related to political science, world languages, cultural studies, English literature, history, and fine arts; and

(5) multidisciplinary studies, which allows a student to:

(A) select courses from the curriculum of each endorsement area described by Subdivisions (1) through (4); and

(B) earn credits in a variety of advanced courses from multiple content areas sufficient to complete the distinguished level of achievement under the foundation high school program.

(c-2) In adopting rules under Subsection (c-1), the State Board of Education shall:

(1) require a student in order to earn any endorsement to successfully complete:

(A) four credits in mathematics, which must include:

(i) the courses described by Subsection (b-1)(2); and

(ii) an additional advanced mathematics course authorized under Subsection (b-2) or an advanced career and technology course designated by the State Board of Education;

(B) four credits in science, which must include:

(i) the courses described by Subsection (b-1)(3); and

(ii) an additional advanced science course authorized under Subsection (b-2) or an advanced career and technology course designated by the State Board of Education; and

(C) two elective credits in addition to the elective credits required under Subsection (b-1)(6); and

(2) develop additional curriculum requirements for each endorsement with the direct participation of educators and business, labor, and industry representatives, and shall require each school district to report to the agency the categories of endorsements under Subsection (c-1) for which the district offers all courses for curriculum requirements, as determined by board rule.

(c-3) In adopting rules under Subsection (c-1), the State Board of Education shall adopt criteria to allow a student participating in the arts and humanities endorsement under Subsection (c-1)(4), with the written permission of the student's parent or a person standing in parental relation to the student, to comply with the curriculum requirements for science required under Subsection (c-2)(1)(B)(ii) by substituting for an advanced course requirement a course related to that endorsement.

(c-4) Each school district must make available to high school students courses that allow a student to complete the curriculum requirements for at least one endorsement under Subsection (c-1). A school district that offers only one endorsement curriculum must offer the multidisciplinary studies endorsement curriculum.

(c-5) A student may earn a performance acknowledgment on the student's transcript by satisfying the requirements for that acknowledgment adopted by the State Board of Education by rule. An acknowledgment under this subsection may be earned:

(1) for outstanding performance:

(A) in a dual credit course;

(C) on a college advanced placement test or international baccalaureate examination; or

(D) on the PSAT, the ACT-Plan, the SAT, or the ACT; or

(2) for earning a nationally or internationally recognized business or industry certification or license.

(c-6) A student may earn a performance acknowledgment on the student's transcript by satisfying the requirements for that acknowledgment adopted by the State Board of Education by rule. An acknowledgment under this subsection may be earned:

(1) for outstanding performance:

(A) in a dual credit course;

(B) in bilingualism and biliteracy;

(C) on a college advanced placement test or international baccalaureate examination;

(D) on an established, valid, reliable, and nationally norm-referenced preliminary college preparation assessment instrument used to measure a student's progress toward readiness for college and the workplace; or

(E) on an established, valid, reliable, and nationally norm-referenced assessment instrument used by colleges and universities as part of their undergraduate admissions process; or

(2) for earning a state recognized or nationally or internationally recognized business or industry certification or license.

(c-7) Notwithstanding Subsection (c), a person may receive a diploma if the person is eligible for a diploma under Section 28.0258.

(c-8) Subject to Subsection (c-8), a student who is enrolled in a special education program under Subchapter A, Chapter 29, may earn an endorsement on the student's transcript by:

(1) successfully completing, with or without modification of the curriculum:

(A) the curriculum requirements identified by the State Board of Education under Subsection (a); and

(B) the additional endorsement curriculum requirements prescribed by the State Board of Education under Subsection (c-2); and

(2) successfully completing all curriculum requirements for that endorsement adopted by the State Board of Education:

(A) without modification of the curriculum; or

(B) with modification of the curriculum, provided that the curriculum, as modified, is sufficiently rigorous as determined by the student's admission, review, and dismissal committee.

(c-8) For purposes of Subsection (c-7), the admission, review, and dismissal committee of a student in a special education program under Subchapter A, Chapter 29, shall determine whether the student is required to achieve satisfactory performance on an end-of-course assessment instrument to earn an endorsement on the student's transcript.

(c-10) In adopting rules under Subsection (c-1), the State Board of Education shall adopt or select five technology applications courses on cybersecurity to be included in a cybersecurity pathway for the science, technology, engineering, and mathematics endorsement.

(d) A school district may issue a certificate of coursework completion to a student who successfully completes the curriculum requirements identified by the State Board of Education under Subsection (a) but who fails to comply with Section 39.025. A school district may allow a student who receives a certificate to participate in a graduation ceremony with students receiving high school diplomas.

(e) Each school district shall report the academic achievement record of students who have completed the foundation high school program on transcript forms adopted by the State Board of Education. The transcript forms adopted by the board must be designed to clearly identify whether a student received a diploma or a certificate of coursework completion.

(e-1) A school district shall clearly indicate a distinguished level of achievement under the foundation high school program as described by Subsection (b-15), an endorsement described by Subsection (c-1), and a performance acknowledgment described by Subsection (c-5) on the transcript of a student who satisfies the applicable requirements. The State Board of Education shall adopt rules as necessary to administer this subsection.

(e-2) At the end of each school year, each school district shall report through the Public Education Information Management System (PEIMS) the number of district students who, during that school year, were:

(1) enrolled in the foundation high school program;

(2) pursuing the distinguished level of achievement under the foundation high school program as provided by Subsection (b-15); and

(3) enrolled in a program to earn an endorsement described by Subsection (c-1).

(e-3) Information reported under Subsection (e-2) must be disaggregated by all student groups served by the district, including categories of race, ethnicity, socioeconomic status, sex, and populations served by special programs, including students in special education programs under Subchapter A, Chapter 29.

(f) A school district shall issue a certificate of attendance to a student who receives special education services under Subchapter A, Chapter 29, and who has completed four years of high school but has not completed the student's individualized education program. A school district shall allow a student who receives a certificate to participate in a graduation ceremony with students receiving high school diplomas. A student may participate in only one graduation ceremony under this subsection. This subsection does not preclude a student from receiving a diploma under Subsection (c)(2).

(g) [Repealed.]

(g-1) Expired.

(h) [Expired.]

(i) If an 11th or 12th grade student who is homeless or in the conservatorship of the Department of Family and Protective Services transfers to a different school district and the student is ineligible to graduate from the district to which the student transfers, the district from which the student transferred shall award a diploma at the student's request, if the student meets the graduation requirements of the district from which the student transferred.

### **Sec. 28.025. [Operative beginning with the 2022-2023 school year] High School Diploma And Certificate; Academic Achievement Record**

(a) The State Board of Education by rule shall determine curriculum requirements for the foundation high school program that are consistent with the required curriculum under Section 28.002. The State Board of Education shall designate the specific courses in the foundation curriculum under Section 28.002(a)(1) required under the foundation high school program. Except as provided by this section, the State Board of Education may not designate a specific course or a specific number of credits in the enrichment curriculum as requirements for the program.

(b) A school district shall ensure that each student, on entering ninth grade, indicates in writing an endorsement under Subsection (c-1) that the student intends to earn. A district shall permit a student to choose, at any time, to earn an endorsement other than the endorsement the student previously indicated. A student may graduate under the foundation high school program without earning an endorsement if, after the student's sophomore year:

(1) the student and the student's parent or person standing in parental relation to the student are advised by a school counselor of the specific benefits of graduating from high school with one or more endorsements; and

(2) the student's parent or person standing in parental relation to the student files with a school counselor written permission, on a form adopted by the agency, allowing the student to graduate under the foundation high school program without earning an endorsement.

(b-1) The State Board of Education by rule shall require that the curriculum requirements for the foundation high school program under Subsection (a) include a requirement that students successfully complete:

(1) four credits in English language arts under Section 28.002(a)(1)(A), including one credit in English I, one credit in English II, one credit in English III, and one credit in an advanced English course authorized under Subsection (b-2);

(2) three credits in mathematics under Section 28.002(a)(1)(B), including one credit in Algebra I, one credit in geometry, and one credit in any advanced mathematics course authorized under Subsection (b-2);

A credit allowed to be substituted under this subsection may not also be used by the student to satisfy a graduation requirement other than completion of the physical education credit. The rules must provide that the determination regarding a student's ability to participate in physical activity will be made by:

(1) if the student receives special education services under Subchapter A, Chapter 29, the student's admission, review, and dismissal committee;

(2) if the student does not receive special education services under Subchapter A, Chapter 29, but is covered by Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794), the committee established for the student under that Act; or

(3) if each of the committees described by Subdivisions (1) and (2) is inapplicable, a committee established by the school district of persons with appropriate knowledge regarding the student.

(2) appropriate substitute courses for purposes of this subsection.

(b-14) In adopting rules under Subsection (b-1), the State Board of Education shall allow a student who, due to disability, is unable to complete two courses in the same language in a language other than English, as provided under Subsection (b-1)(5), to substitute for those credits two credits in English language arts, mathematics, science, or social studies or two credits in career and technology education, technology applications, or other academic electives. A credit allowed to be substituted under this subsection may not also be used by the student to satisfy a graduation credit requirement other than credit for completion of a language other than English. The rules must provide that the determination regarding a student's ability to participate in language-other-than-English courses will be made by:

(1) if the student receives special education services under Subchapter A, Chapter 29, the student's admission, review, and dismissal committee; or

- (2) one-third of instruction time to instruction in economics.

(b-23) The agency shall:

(1) develop a list of free, open-source, and publicly available curricula that may be used by a school district to provide a personal financial literacy & economics course that satisfies the curriculum requirement under Subsection (b-1)(4); and

(2) seek, accept, and spend any federal or private grant funds and gifts that are available for the purpose of providing a personal financial literacy & economics course as part of the foundation high school program.

(c) A person may receive a diploma if the person is eligible for a diploma under Section 1. In other cases, a student may graduate and receive a diploma only if:

(c-2) In adopting rules under Subsection (c-1), the State Board of Education shall:

(1) require a student in order to earn any endorsement to successfully complete:

(j) A student who has received a diploma under the program is exempt from the compulsory school attendance requirements under Section 25.085.

(d) If a school counselor notifies a school district or open-enrollment charter school whether a student has complied with this section for purposes of determining whether the student meets high school graduation requirements under Section 28.025, the school counselor may only indicate whether the student has complied with this section and may not indicate the manner in which the student complied, except as necessary for the district or school to comply with rules adopted under Subsection (e) (2). A school counselor may not indicate that a student has not complied with this section if the school district or open-enrollment charter school fails to provide the form adopted under Subsection (c) to the student or the student's parent or other person standing in parental relation to the student.

The statewide design shall include the provision of services primarily through school districts and shared services arrangements, supplemented by regional education service centers. The agency shall also develop and implement a statewide plan with programmatic content that includes procedures designed to:

- (1) ensure state compliance with requirements for supplemental federal funding for all state-administered programs involving the delivery of instructional or related services to students with disabilities;

(2) facilitate interagency coordination when other state agencies are involved in the delivery of instructional or related services to students with disabilities;

(3) periodically assess statewide personnel needs in all areas of specialization related to special education and pursue strategies to meet those needs through a consortium of representatives from regional education service centers, local education agencies, and institutions of higher education and through other available alternatives;

(4) ensure that regional education service centers throughout the state maintain a regional support function, which may include direct service delivery and a component designed to facilitate the placement of students with disabilities who cannot be appropriately served in their resident districts;

(5) allow the agency to effectively monitor and periodically conduct site visits of all school districts to ensure that rules adopted under this section are applied in a consistent and uniform manner, to ensure that districts are complying with those rules, and to ensure that annual statistical reports filed by the districts and not otherwise available through the Public Education Information Management System under Sections 48.008 and 48.009 are accurate and complete;

(6) ensure that appropriately trained personnel are involved in the diagnostic and evaluative procedures operating in all districts and that those personnel routinely serve on district admissions, review, and dismissal committees;

(7) ensure that an individualized education program for each student with a disability is properly developed, implemented, and maintained in the least restrictive environment that is appropriate to meet the student's educational needs;

(8) ensure that, when appropriate, each student with a disability is provided an opportunity to participate in career and technology and physical education classes, in addition to participating in regular or special classes;

(9) ensure that each student with a disability is provided necessary related services;

(10) ensure that an individual assigned to act as a surrogate parent for a child with a disability, as provided by 20 U.S.C. Section 1415(b), is required to:

(A) complete a training program that complies with minimum standards established by agency rule;

(B) visit the child and the child's school;

(C) consult with persons involved in the child's education, including teachers, caseworkers, court-appointed volunteers, guardians ad litem, attorneys ad litem, foster parents, and caretakers;

(D) review the child's educational records;

(E) attend meetings of the child's admission, review, and dismissal committee;

(F) exercise independent judgment in pursuing the child's interests; and

(G) exercise the child's due process rights under applicable state and federal law; and

(11) ensure that each district develops a process to be used by a teacher who instructs a student with a disability in a regular classroom setting:

(A) to request a review of the student's individualized education program;

(B) to provide input in the development of the student's individualized education program;

(C) that provides for a timely district response to the teacher's request; and

#### **Sec. 29.008. Contracts For Services; Residential Placement**

(a) A school district, shared services arrangement unit, or regional education service center may contract with a public or private facility, institution, or agency inside or outside of this state for the provision of services to students with disabilities. Each contract for residential placement must be approved by the commissioner. The commissioner may approve a residential placement contract only after at least a programmatic evaluation of personnel qualifications, adequacy of physical plant and equipment, and curriculum content. The commissioner may approve either the whole or a part of a facility or program.

(b) Except as provided by Subsection (c), costs of an approved contract for residential placement may be paid from a combination of federal, state, and local funds. The local share of the total contract cost for each student is that portion of the local tax effort that exceeds the district's local fund assignment under Section 48.256, divided by the average daily attendance in the district. If the contract involves a private facility, the state share of the total contract cost is that amount remaining after subtracting the local share. If the contract involves a public facility, the state share is that amount remaining after subtracting the local share from the portion of the contract that involves the costs of instructional and related services. For purposes of this subsection, "local tax effort" means the total amount of money generated by taxes imposed for debt service and maintenance and operation less any amounts paid into a tax increment fund under Chapter 311, Tax Code.

(c) When a student, including one for whom the state is managing conservator, is placed primarily for care or treatment reasons in a private residential facility that operates its own private education program, none of the costs may be paid from public education funds. If a residential placement primarily for care or treatment reasons involves a private residential facility in which the education program is provided by the school district, the portion of the costs that includes appropriate education services, as determined by the school district's admission, review, and dismissal committee, shall be paid from state and federal education funds.

(d) A district that contracts for the provision of education services rather than providing the services itself shall oversee the implementation of the student's individualized education program and shall annually reevaluate the appropriateness of the arrangement. An approved facility, institution, or agency with whom the district contracts shall periodically report to the district on the services the student has received or will receive in accordance with the contract as well as diagnostic or other evaluative information that the district requires in order to fulfill its obligations under this subchapter.

The monitoring system must provide for ongoing analysis of district special education data and of complaints filed with the agency concerning special education services and for inspections of school districts at district facilities. The agency shall use the information obtained through analysis of district data and from the complaints management system to determine the appropriate schedule for and extent of the inspection.

(b) To complete the inspection, the agency must obtain information from parents and teachers of students in special education programs in the district.

(c) The agency shall develop and implement a system of sanctions for school districts whose most recent monitoring visit shows a failure to comply with major requirements of the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.), federal regulations, state statutes, or agency requirements necessary to carry out federal law or regulations or state law relating to special education.

(d) For districts that remain in noncompliance for more than one year, the first stage of sanctions shall begin with annual or more frequent monitoring visits. Subsequent sanctions may range in severity up to the withholding of funds. If funds are withheld, the agency may use the funds to provide, through alternative arrangements, services to students and staff members in the district from which the funds are withheld.

(e) The agency's complaint management division shall develop a system for expedited investigation and resolution of complaints concerning a district's failure to provide special education or related services to a student eligible to participate in the district's special education program.

**Sec. 29.051. State Policy**

English is the basic language of this state. Public schools are responsible for providing a full opportunity for all students to become competent in speaking, reading, writing, and comprehending the English language. Large numbers of students in the state come from environments in which the primary language is other than English. Experience has shown that public school classes in which instruction is given only in English are often inadequate for the education of those students. The mastery of basic English language skills is a prerequisite for effective participation in the state's educational program. Bilingual education and special language programs can meet the needs of those students and facilitate their integration into the regular school curriculum. Therefore, in accordance with the policy of the state to ensure equal educational opportunity to every student, and in recognition of the educational needs of emergent bilingual students, this subchapter provides for the establishment of bilingual education and special language programs in the public schools and provides supplemental financial assistance to help school districts meet the extra costs of the programs.

**HISTORY**

(Amended by Acts 2021, Texas Acts of the 87th Leg. - Regular Session, ch. 973, Sec. 5, eff. 9/1/2021. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

**Sec. 29.052. Definitions**

In this subchapter:

- (1) "Emergent bilingual student " means a student whose primary language is other than English and whose English language skills are such that the student has difficulty performing ordinary classwork in English.

- (2) "Parent" includes a legal guardian of a student.

**HISTORY**

**Sec. 29.053. Establishment Of Bilingual Education And Special Language Programs**

(a) The agency shall establish a procedure for identifying school districts that are required to offer bilingual education and special language programs in accordance with this subchapter.

(b) Within the first four weeks following the first day of school, the language proficiency assessment committee established under Section 29.063 shall determine and report to the board of trustees of the district the number of emergent bilingual students on each campus and shall classify each student according to the language in which the student possesses primary proficiency. The board shall report that information to the agency before November 1 each year.

(c) Each district with an enrollment of 20 or more emergent bilingual students in any language classification in the same grade level shall offer a bilingual education or special language program.

(d) Each district that is required to offer bilingual education and special language programs under this section shall offer the following for emergent bilingual students:

- (1) bilingual education in kindergarten through the elementary grades;
- (2) bilingual education, instruction in English as a second language, or other transitional language instruction approved by the agency in post-elementary grades through grade 8; and

The student's parent must approve a student's entry into the program, exit from the program, or placement in the program. The school district or parent may appeal the decision under Section 29.064. The criteria for identification, assessment, and classification may include:

(1) results of a home language survey conducted within four weeks of each student's enrollment to determine the language normally used in the home and the language normally used by the student, conducted in English and the home language, signed by the student's parents if the student is in kindergarten through grade 8 or by the student if the student is in grades 9 through 12, and kept in the student's permanent folder by the language proficiency assessment committee;

(2) the results of an agency-approved English language proficiency test administered to all students identified through the home survey as normally speaking a language other than English to determine the level of English language proficiency, with students in kindergarten or grade 1 being administered an oral English proficiency test and students in grades 2 through 12 being administered an oral and written English proficiency test; and

(3) the results of an agency-approved proficiency test in the primary language administered to all students identified under Subdivision (2) as being of limited English proficiency to determine the level of primary language proficiency, with students in kindergarten or grade 1 being administered an oral primary language proficiency test and students in grades 2 through 12 being administered an oral and written primary language proficiency test.

(b) Tests under Subsection (a) shall be administered by professionals or paraprofessionals with the appropriate English and primary language skills and the training required by the test publisher.

(c) The language proficiency assessment committee may classify a student as emergent bilingual if:

(1) the student's ability in English is so limited or the student's disabilities are so severe that assessment procedures cannot be administered;

(2) the student's score or relative degree of achievement on the agency-approved English proficiency test is below the levels established by the agency as indicative of reasonable proficiency;

(3) the student's primary language proficiency score as measured by an agency-approved test is greater than the student's proficiency in English; or

(4) the language proficiency assessment committee determines, based on other information, including a teacher evaluation, parental viewpoint, or student interview, that the student's primary language proficiency is greater than the student's proficiency in English or that the student is not reasonably proficient in English.

(d) Not later than the 10th day after the date of the student's classification as an emergent bilingual student, the language proficiency assessment committee shall give written notice of the classification to the student's parent. The notice must be in English and the parent's primary language. The parents of students eligible to participate in the required bilingual education program shall be informed of the benefits of the bilingual education or special language program and that it is an integral part of the school program.

(e) The language proficiency assessment committee may retain, for documentation purposes, all records obtained under this section.

(f) The district may not refuse to provide instruction in a language other than English to a student solely because the student has a disability.

(g) A district may transfer an emergent bilingual student out of a bilingual education or special language program for the first time or a subsequent time if the student is able to participate equally in a regular all-English instructional program as determined by:

(1) agency-approved tests administered at the end of each school year to determine the extent to which the student has developed oral and written language proficiency and specific language skills in English;

(2) satisfactory performance on the reading assessment instrument under Section 39.023(a) or an English language arts assessment instrument under Section 39.023(c), as applicable, with the assessment instrument administered in English, or, if the student is enrolled in the first or second grade, an achievement score at or above the 40th percentile in the reading and language arts sections of an English standardized test approved by the agency; and

(3) agency-approved criterion-referenced tests and the results of a subjective teacher evaluation.

(h) If later evidence suggests that a student who has been transferred out of a bilingual education or special language program has inadequate English proficiency and achievement, the language proficiency assessment committee may reenroll the student in the program. Classification of students for reenrollment must be based on the criteria required by this section.

(b) Each district shall provide accelerated instruction to a student enrolled in the district who has taken an end-of-course assessment instrument administered under Section 39.023(c) and has not performed satisfactorily on the assessment instrument or who is at risk of dropping out of school.

(b-1) Each school district shall offer before the next scheduled administration of the assessment instrument, without cost to the student, additional accelerated instruction to each student in any subject in which the student failed to perform satisfactorily on an end-of-course assessment instrument required for graduation.

(b-2) A district that is required to provide accelerated instruction under Subsection (b-1) shall separately budget sufficient funds, including funds under Section 42.152, for that purpose. (2) regardless of the student's age, participates in an adult education program provided under the adult high school charter school program under Subchapter G, Chapter 12.

(d-1) Notwithstanding Subsection (d)(1)(A), a student is not considered a student at risk of dropping out of school if the student did not advance from prekindergarten or kindergarten to the next grade level only as the result of the request of the student's parent.

(e) A school district may use a private or public community-based dropout recovery education program to provide alternative education programs for students at risk of dropping out of school. The program may be offered:

(e) A student who attends at least 90 percent of the program days of a program under this section and who satisfies the requirements for promotion prescribed by Section 28.021 shall be promoted to the next grade level at the beginning of the next school year unless a parent of the student presents

a written request to the school principal that the student not be promoted to the next grade level. As soon as practicable after receiving the request from a parent, the principal shall hold a formal meeting with the student's parent, extended year program teacher, and school counselor. ### **Sec. 29.0821. Optional Flexible Year Program**

(a) A school district may provide a flexible year program for students who did not or are likely not to perform successfully on an assessment instrument administered under Section 39.023 or who would not otherwise be promoted to the next grade level.

- (1) provide a number of days of instruction during the regular school year that is not more than 10 days fewer than the number required under Section 25.081(a); and

- (2) use for instructional purposes not more than five days that would otherwise be used for staff development or teacher preparation.

(c) Notwithstanding any reduction in the number of instructional days in the regular school year or in the number of staff development days, each educator employed under a 10-month contract must provide the minimum days of service required under Section 21.401.

(d) A school district may require educational support personnel to provide service as necessary for an optional flexible year program.

(e) The commissioner may adopt rules for the administration of programs provided under this section.

#### **HISTORY**

(Added by Acts 2003, 78th Leg., ch. 824, Sec. 1, eff. June 20, 2003.)

### **Sec. 29.0822. Optional Flexible School Day Program**

(a) Notwithstanding Section 25.081 or 25.082, a school district may apply to the commissioner to provide a flexible school day program for students who:

- (1) have dropped out of school or are at risk of dropping out of school as defined by Section 29.081;

- (2) attend a campus that is implementing an innovative redesign of the campus or an early college high school under a plan approved by the commissioner; or

- (3) as a result of attendance requirements under Section 25.092, will be denied credit for one or more classes in which the students have been enrolled.

(b) To enable a school district to provide a program under this section that meets the needs of students described by Subsection (a), a school district that meets application requirements may:

- (1) provide flexibility in the number of hours each day a student attends;

- (2) provide flexibility in the number of days each week a student attends;

- (3) allow a student to enroll in less than or more than a full course load; or

- (4) allow a student to enroll in a dropout recovery program in which courses are conducted online.

(c) [Amended by Acts 2017, Texas Acts of the 85th Leg. - Regular Session, ch. 1094] Except in the case of a course designed for a student described by Subsection (a)(3) or enrolled in a course described by Subsection (b)(4), a course offered in a program under this section must provide for at least the same number of instructional hours as required for a course offered in a program that meets

the required minimum number of instructional days under Section 25.081 and the required length of school day under Section 25.082.

(c) [Amended by Acts 2017, Texas Acts of the 85th Leg. - Regular Session, ch. 851] Except in the case of a course designed for a student described by Subsection (a)(3), a course offered in a program under this section must provide for at least the same number of instructional hours as required for a course offered in a program that meets the required minimum number of minutes of operation under Section 25.081.

(d) The commissioner may adopt rules for the administration of this section, including rules establishing application requirements. Subject to Subsection (d-1), the commissioner shall calculate average daily attendance for students served under this section. The commissioner shall allow accumulations of hours of instruction for students whose schedule would not otherwise allow full state funding. Funding under this subsection shall be determined based on the number of instructional days in the school district calendar and a seven-hour school day, but attendance may be cumulated over a school year, including any summer or vacation session. The attendance of students who accumulate less than the number of attendance hours required under this subsection shall be proportionately reduced for funding purposes. The commissioner may:

(1) set maximum funding amounts for an individual course under this section; and

(2) limit funding for the attendance of a student described by Subsection (a)(3) in a course under this section to funding only for the attendance necessary for the student to earn class credit that, as a result of attendance requirements under Section 25.092, the student would not otherwise be able to receive without retaking the class.

(d-1) In calculating average daily attendance for students served under this section, the commissioner shall ensure that funding for attendance in a course in a program under this section is based on the same instructional hour requirements of the regular program rather than a full-time equivalent student basis that requires six hours of student contact time to qualify for a full day of attendance.

(e) A student described by Subsection (a)(3) may enroll in a course in a program under this section offered during the school year or during the period in which school is recessed for the summer to enable the student to earn class credit that, as a result of attendance requirements under Section 25.092, the student would not otherwise be able to receive without retaking the class.

(b) A program under this section must emphasize basic skills in areas of the required curriculum under Section 28.002 and must offer students the opportunity to increase credits required for high school graduation under state or school district policy. A program under this section may be provided by a school district or an entity contracting with a school district to provide the program.

(c) The commissioner shall award funds to districts in accordance with a competitive grant process developed by the commissioner. A grant may be made to a consortium of school districts. The criteria by which the commissioner awards a grant must include the quality of the proposed program and the school district's demonstrated need for the program. An approved program must include criteria that permit measurement of student progress, and the district shall:

(1) annually evaluate the progress of students in the program; and

(2) submit the results of the evaluation to the commissioner at the end of the school year.

Except for a student ordered to participate under Subsection (d)(1), a student participating in the program may not take the high school equivalency examination unless the student has taken the assessment instruments required by this subsection.

(g) A student enrolled in a program authorized by this section may not participate in a competition or other activity sanctioned or conducted by the University Interscholastic League.

(d) An entity that obtains approval of a coordination-of-resources demonstration project is entitled to a waiver or modification of any existing rule, policy, or procedure of the agency, the Texas Workforce Commission, or the Department of Protective and Regulatory Services that impairs the coordinated provision of government-funded child-care services, provided that the waiver or modification does not adversely affect the health, safety, or welfare of the children receiving services under the project. In addition, if applicable, the appropriate state agency must seek on behalf of the entity any available federal waiver from a federal rule, policy, or procedure imposed in connection with a Head Start program that impairs the coordinated provision of government-funded child-care services. Not later than the 30th day after the date on which a state agency becomes aware of an applicable federal waiver under this subsection, the state agency shall notify the appropriate entity of the date by which the state agency intends to seek the waiver.
