However, to achieve continuity in education, a school district may give preference over at-risk students to enrolled students and to the siblings of enrolled students residing in the same household or other children residing in the same household as enrolled students for the convenience of parents, guardians, or custodians of those children.

(e) A school district chosen by a student's parent under Section 29.201 may not charge the student tuition.

### Sec. 29.302. Findings

(a) The legislature finds that it is essential for the well-being and growth of students who are deaf or hard of hearing that educational programs recognize the unique nature of deafness and the hard-of-hearing condition and ensure that all students who are deaf or hard of hearing have appropriate, ongoing, and fully accessible educational opportunities. Students who are deaf or hard of hearing may choose to use a variety of language modes and languages, including oral and manual-visual language. Students who are deaf may choose to communicate through the language of the deaf community, American Sign Language, or through any of a number of English-based manual-visual languages. Students who are hard of hearing may choose to use spoken and written English, including speech reading or lip reading, together with amplification instruments, such as hearing aids,

cochlear implants, or assistive listening systems, to communicate with the hearing population. Students who are deaf or hard of hearing may choose to use a combination of oral or manual-visual language systems, including cued speech, manual signed systems, and American Sign Language, or may rely exclusively on the oral-aural language of their choice. Students who are deaf or hard of hearing also may use other technologies to enhance language learning.

(b) The legislature recognizes that students who are deaf or hard of hearing should have the opportunity to develop proficiency in English, including oral or manual-visual methods of communication, and American Sign Language.

(a) The agency shall develop and administer a comprehensive statewide plan for the education of children with visual impairments who are under 21 years of age that will ensure that the children

(c) The comprehensive statewide plan for the education of children with visual impairments must:

(1) adequately provide for comprehensive diagnosis and evaluation of each school-age child with a serious visual impairment;

(2) include the procedures, format, and content of the individualized education program for each child with a visual impairment;

(3) emphasize providing educational services to children with visual impairments in their home communities whenever possible;

(4) include methods to ensure that children with visual impairments receiving special education services in school districts receive, before being placed in a classroom setting or within a reasonable time after placement:

(A) evaluation of the impairment; and

(B) instruction in an expanded core curriculum, which is required for students with visual impairments to succeed in classroom settings and to derive lasting, practical benefits from the education provided by school districts, including instruction in:

(i) compensatory skills, such as braille and concept development, and other skills needed to access the rest of the curriculum;

(ii) orientation and mobility;

(iii) social interaction skills;

(iv) career planning;

(v) assistive technology, including optical devices;

(vi) independent living skills;

(vii) recreation and leisure enjoyment;

(viii) self-determination; and

(ix) sensory efficiency;

(5) provide for flexibility on the part of school districts to meet the special needs of children with visual impairments through:

(A) specialty staff and resources provided by the district;

(B) contractual arrangements with other qualified public or private agencies;

(C) supportive assistance from regional education service centers or adjacent school districts;

(D) short-term or long-term services through the Texas School for the Blind and Visually Impaired or related facilities or programs; or

(E) other instructional and service arrangements approved by the agency;

(6) include a statewide admission, review, and dismissal process;

(7) provide for effective interaction between the visually impaired child's classroom setting and the child's home environment, including providing for parental training and counseling either by school district staff or by representatives of other organizations directly involved in the development and implementation of the individualized education program for the child;

(8) require the continuing education and professional development of school district staff providing special education services to children with visual impairments;

(9) provide for adequate monitoring and precise evaluation of special education services provided to children with visual impairments through school districts; and

(10) require that school districts providing special education services to children with visual impairments develop procedures for assuring that staff assigned to work with the children have prompt and effective access directly to resources available through:

(A) cooperating agencies in the area;

(B) the Texas School for the Blind and Visually Impaired;

(C) the Central Media Depository for specialized instructional materials and aids made specifically for use by students with visual impairments;

(D) sheltered workshops participating in the state program of purchases of blind-made goods and services; and

(E) related sources.

(c-1) To implement Subsection (c)(1) and to determine a child's eligibility for a school district's special education program on the basis of a visual impairment, the full individual and initial evaluation of the student required by Section 29.004 must, in accordance with commissioner rule:

(1) include an orientation and mobility evaluation conducted:

(A) by a person who is appropriately certified as an orientation and mobility specialist, as determined under commissioner rule; and

(B) in a variety of lighting conditions and in a variety of settings, including in the student's home, school, and community and in settings unfamiliar to the student; and

(2) provide for a person who is appropriately certified as an orientation and mobility specialist to participate, as part of a multidisciplinary team, in evaluating data on which the determination of the child's eligibility is based.

(c-2) The scope of any reevaluation by a school district of a student who has been determined, after the full individual and initial evaluation, to be eligible for the district's special education program on the basis of a visual impairment shall be determined, in accordance with 34 C.F.R. Sections 300.122 and 300.303 through 300.311, by a multidisciplinary team that includes, as provided by commissioner rule, a person described by Subsection (c-1)(1)(A).

(d) In developing, administering, and coordinating the statewide plan, the agency shall encourage the use of all pertinent resources, whether those resources exist in special education programs or in closely related programs operated by other public or private agencies, through encouraging the development of shared services arrangement working relationships and by assisting in the development of contractual arrangements between school districts and other organizations. The agency shall discourage interagency competition, overlap, and duplication in the development of specialized resources and the delivery of services.

(e) Each eligible blind or visually impaired student is entitled to receive educational programs according to an individualized education program that:

(1) is developed in accordance with federal and state requirements for providing special education services;

(f) In the development of the individualized education program for a student with a visual impairment, proficiency in reading and writing is a significant indicator of the student's satisfactory educational progress. The individualized education program for a student with a visual impairment must include instruction in braille and the use of braille unless the student's admission, review, and dismissal committee determines and documents that braille is not an appropriate literacy medium for the student. The committee's determination must be based on an evaluation of the student's appropriate literacy media and literacy skills and the student's current and future instructional needs. Braille instruction:

(1) may be used in combination with other special education services appropriate to the student's educational needs; and

(2) shall be provided by a teacher certified to teach students with visual impairments.

(f-1) Each person assisting in the development of the individualized education program for a student with a visual impairment shall receive information describing the benefits of braille instruction.

(g) To facilitate implementation of this section, the commissioner shall develop a system to distribute from the foundation school fund to school districts or regional education service centers a special supplemental allowance for each student with a visual impairment and for each student with a serious visual disability and another medically diagnosed disability of a significantly limiting nature who is receiving special education services through any approved program. The supplemental allowance may be spent only for special services uniquely required by the nature of the student's disabilities and may not be used in lieu of educational funds otherwise available under this code or through state or local appropriations.

### **Sec. 30.003. Support Of Students Enrolled In Texas School For The Blind And Visually Impaired Or Texas School For The Deaf**

(a) For each student enrolled in the Texas School for the Blind and Visually Impaired or the Texas School for the Deaf, the school district that is responsible for providing appropriate special education services to the student shall share the cost of the student's education as provided by this section.

(b) If the student is admitted to the school for a full-time program for the equivalent of two long semesters, the district's share of the cost is an amount equal to the dollar amount of maintenance and debt service taxes imposed by the district for that year divided by the district's average daily attendance for the preceding year.

(c) If the student is admitted for a program less than two complete semesters in duration, other than a summer program, the district's share of the cost is an amount equal to the amount that would be the district's share under Subsection (b) for a full-time program multiplied by the quotient resulting from the number of full-time equivalent days in the program divided by the minimum number of days of instruction for students as provided by Section 25.081.

(d) Each school district and state institution shall provide to the commissioner the necessary information to determine the district's share under this section. The information must be reported to the commissioner on or before a date set by rule of the State Board of Education. After determining the amount of a district's share for all students for which the district is responsible, the commissioner shall deduct that amount from the payments of foundation school funds payable to the district. Each deduction shall be in the same percentage of the total amount of the district's share as the percentage of the total foundation school fund entitlement being paid to the district at the time of the deduction, except that the amount of any deduction may be modified to make necessary adjustments or to correct errors. The commissioner shall provide for remitting the amount deducted to the

appropriate school at the same time at which the remaining funds are distributed to the district. If a district does not receive foundation school funds or if a district's foundation school entitlement is less than the amount of the district's share under this section, the commissioner shall direct the district to remit payment to the commissioner, and the commissioner shall remit the district's share to the appropriate school.

(e) For each student enrolled in the Texas School for the Blind and Visually Impaired or the Texas School for the Deaf, the appropriate school is entitled to the state available school fund apportionment.

(f) The commissioner, with the assistance of the comptroller, shall determine the amount that the Texas School for the Blind and Visually Impaired and the Texas School for the Deaf would have received from the available school fund if Chapter 28, Acts of the 68th Legislature, 2nd Called Session, 1984, had not transferred statutorily dedicated taxes from the available school fund to the foundation school fund. That amount, minus any amount the schools do receive from the available school fund, shall be set apart as a separate account in the foundation school fund and appropriated to those schools for educational purposes.

(f-1) The commissioner shall determine the total amount that the Texas School for the Blind and Visually Impaired and the Texas School for the Deaf would have received from school districts in accordance with this section if the following provisions had not reduced the districts' share of the cost of providing education services:

- (1) H.B. No. 1, Acts of the 79th Legislature, 3rd Called Session, 2006;
- (2) Section 45.0032;
- (3) Section 48.255; and
- (4) Section 48.2551.

(f-2) The amount determined under Subsection (f-1), minus any amount the schools do receive from school districts, shall be set aside as a separate account in the foundation school fund and appropriated to those schools for educational purposes.

(g) The State Board of Education may adopt rules as necessary to implement this section.

(h) Expired.

(a) The Texas School for the Blind and Visually Impaired is a state agency established to serve as a special school in the continuum of statewide alternative placements for students who are 21 years of age or younger on September 1 of any school year and who have a visual impairment and who may have one or more other disabilities. The school is intended to serve students who require specialized or intensive educational or related services related to the visual impairment. The school is not intended to serve:

(1) students whose needs are appropriately addressed in a home or hospital setting or in a residential treatment facility; or

(2) students whose primary, ongoing needs are related to a severe or profound emotional, behavioral, or cognitive deficit.

(b) The school district in which a student resides is responsible for assuring that a free appropriate public education is provided to each district student placed in the regular school year program of the school and that all legally required meetings for the purpose of developing and reviewing the student's individualized educational program are conducted. If the school disagrees with a district's individualized education program committee recommendation that a student be evaluated for placement, initially placed, or continued to be placed at the school, the district or the school may seek resolution according to a procedure established by the commissioner or through any due process hearing to which the district or school is entitled under the Individuals with Disabilities Education Act ( 20 U.S.C. Those services must include:

(1) developing and providing local, regional, and statewide training for parents of students with visual impairments and professionals who work with persons with visual impairments;

(2) providing consultation and technical assistance to parents and professionals related to special education and related services for students;

(6) facilitating the preparation of teachers for visually impaired students by providing assistance to colleges and universities as well as other teacher preparation programs.

(e) The school shall cooperate with public and private agencies and organizations serving students and other persons with visual impairments in the planning, development, and implementation of effective educational and rehabilitative service delivery systems associated with educating students with visual impairments. To maximize and make efficient use of state facilities, funding, and resources, the services provided in this area may include conducting a cooperative program with other agencies to serve students who have graduated from high school by completing all academic requirements applicable to students in regular education, excluding satisfactory performance under Section 39.025, who are younger than 22 years of age on September 1 of the school year and who have identified needs related to vocational training, independent living skills, orientation and mobility, social and leisure skills, compensatory skills, or remedial academic skills.

(f) The school may operate an on-campus canteen to offer food service at mealtimes and during other times of the day.

(g) If a school district or another educational entity requests an assessment of a student's educational or related needs related to visual impairment, the school may conduct an assessment and charge a reasonable fee for the assessment.

(e) A student in a department educational program may not be released on parole from the department unless the student participates, to the extent required by department rule, in the positive behavior support system under Subsection (c). A student in a department educational program who exhibits deficits in reading on the assessments adopted under Subsection (b)(1) must also participate in reading instruction to the extent required by this section and by department rule before the student may be released on parole.

(1) is not required to review and adopt instructional materials for all grade levels in a single year; and

(2) shall give priority to instructional materials in the following subjects:

(A) foundation curriculum subjects for which the essential knowledge and skills have been substantially revised and for which assessment instruments are required under Subchapter B,

Chapter 39, including career and technology courses that satisfy foundation curriculum requirements as provided by Section 28.002(n);

(B) foundation curriculum subjects for which the essential knowledge and skills have been substantially revised, including career and technology courses that satisfy foundation curriculum requirements as provided by Section 28.002(n);

(C) foundation curriculum subjects not described by Paragraph (A) or (B), including career and technology courses that satisfy foundation curriculum requirements as provided by Section 28.002(n); and

(b) The board shall organize the cycle for subjects in the foundation curriculum so that not more than one-fourth of the instructional materials for subjects in the foundation curriculum are reviewed each biennium. The board shall adopt rules to provide for a full and complete investigation of instructional materials for each subject in the foundation curriculum every eight years. The adoption of instructional materials for a subject in the foundation curriculum may be extended beyond the eight-year period only if the content of instructional materials for a subject is sufficiently current.

(b-1) For purposes of the cycle described by Subsection (b), the State Board of Education is considered to have adopted instructional materials for English language arts, English as a second language, and prekindergarten, as included in Proclamation 2011, for the biennium beginning September 1, 2011. This subsection expires September 1, 2013.

(c) The board shall adopt rules to provide for a full and complete investigation of instructional materials for each subject in the enrichment curriculum on a cycle the board considers appropriate.

(d) At least 12 months before the beginning of the school year for which instructional materials for a particular subject and grade level will be adopted under the review and adoption cycle, the board shall publish notice of the review and adoption cycle for those instructional materials. A request for production must allow submission of open education resource instructional materials that are available for use by the state without charge on the same basis as instructional materials offered for sale.

(d-1) A notice published under Subsection (d) must state that a publisher of adopted instructional materials for a grade level other than prekindergarten must submit an electronic sample of the instructional materials as required by Sections 31.027(a) and (b) and may not submit a print sample copy.

(e) The board shall designate a request for production of instructional materials in a subject area and

grade level by the school year in which the instructional materials are intended to be made available in classrooms and not by the school year in which the board makes the request for production.

(f) The board shall amend any request for production issued for the purchase of instructional materials to conform to the instructional materials funding levels provided by the General Appropriations Act for the year of implementation.

(g) In determining the disbursement of money to the available school fund and the amount of that disbursement that will be used, in accordance with Section 43.001(d), to fund the instructional materials and technology allotment under Section 31.0211, the board must consider the cost of all district technology requirements, as estimated by the commissioner under Section 31.0211(d), and instructional materials for that state fiscal biennium.

(h) The board shall include information regarding open education resource instructional materials during the adoption cycle, including any cost savings associated with the adoption of open education resource instructional materials.

(i) During any state fiscal biennium beginning on or after September 1, 2023, the total projected cost of instructional materials under requests for production issued by the board may not exceed 75 percent of the total amount used to fund the instructional materials and technology allotment under Section 31.0211 for that biennium.

**Sec. 31.104. Distribution And Handling**

(a) The board of trustees of a school district or the governing body of an open-enrollment charter school may delegate to an employee the authority to requisition, distribute, and manage the inventory of instructional materials in a manner consistent with this chapter and rules adopted under this chapter.

(b) A school district or open-enrollment charter school may order replacements for instructional materials that have been lost or damaged directly from the publisher of the instructional materials or any source for a printed copy of open education resource instructional material.

(c) Except as provided by Subsection (g), a student must return all instructional materials to the teacher at the end of the school year or when the student withdraws from school.

(d) Each student, or the student's parent or guardian, is responsible for all instructional materials and technological equipment not returned in an acceptable condition by the student. A student who fails to return in an acceptable condition all instructional materials and technological equipment forfeits the right to free instructional materials and technological equipment until all instructional materials and technological equipment previously issued but not returned in an acceptable condition are paid for by the student, parent, or guardian. As provided by policy of the board of trustees or governing body, a school district or open-enrollment charter school may waive or reduce the payment requirement if the student is from a low-income family. The district or school shall allow the student to use instructional materials and technological equipment at school during each school day. The commissioner by rule shall adopt criteria for determining whether instructional materials and technological equipment are returned in an acceptable condition.

(e) The board of trustees of a school district may not require an employee of the district who acts in good faith to pay for instructional materials or technological equipment that is damaged, stolen, misplaced, or not returned. A school district employee may not waive this provision by contract or any other means, except that a district may enter into a written agreement with a school employee whereby the employee assumes financial responsibility for electronic instructional material or technological equipment usage off school property or outside of a school-sponsored event in consideration for the ability of the school employee to use the electronic instructional material or technological equipment

for personal business. Such a written agreement shall be separate from the employee's contract of employment, if applicable, and shall clearly inform the employee of the amount of the financial responsibility and advise the employee to consider obtaining appropriate insurance. An employee may not be required to agree to such an agreement as a condition of employment.

(g) At the end of the school year for which open education resource instructional material that a school district or open-enrollment charter school does not intend to use for another student is distributed, the printed copy of the open education resource instructional material becomes the property of the student to whom it is distributed.

(h) This section does not apply to an electronic copy of open education resource instructional material.

The rules must, to the extent possible, preserve the school day for academic activities without interruption for extracurricular activities. In

scheduling those activities and practices, a school district must comply with the rules of the board.

(b) A student enrolled in a school district in this state or who participates in an extracurricular activity or a University Interscholastic League competition is subject to school district policy and University Interscholastic League rules regarding participation only when the student is under the direct supervision of an employee of the school or district in which the student is enrolled or at any other time specified by resolution of the board of trustees of the district.

(c) A student who is enrolled in a school district in this state or who participates in a University Interscholastic League competition shall be suspended from participation in any extracurricular activity sponsored or sanctioned by the school district or the University Interscholastic League after a grade evaluation period in which the student received a grade lower than the equivalent of 70 on a scale of 100 in any academic class other than a course described by Subsection (d-1). A suspension continues for at least three school weeks and is not removed during the school year until the conditions of Subsection (d) are met. A suspension does not last beyond the end of a school year. For purposes of this subsection, "grade evaluation period" means:

- (1) the six-week grade reporting period; or
- (2) the first six weeks of a semester and each grade reporting period thereafter, in the case of a district with a grade reporting period longer than six weeks.

(d) Until the suspension is removed under this subsection or the school year ends, a school district shall review the grades of a student suspended under Subsection (c) at the end of each three-week period following the date on which the suspension began. At the time of a review, the suspension is removed if the student's grade in each class, other than a course described by Subsection (d-1), is equal to or greater than the equivalent of 70 on a scale of 100. The principal and each of the student's teachers shall make the determination concerning the student's grades.

(d-1) Subsections (c) and (d) do not apply to an advanced placement or international baccalaureate course, or to an honors or dual credit course in the subject areas of English language arts, mathematics, science, social studies, economics, or a language other than English. The agency shall review on a biennial basis courses described by this subsection to determine if other courses should be excluded from the requirement that a student be suspended from participation in an extracurricular activity under Subsection (c). Not later than January 1 of each odd-numbered year, the agency shall report the findings under this subsection to the legislature.

(e) Suspension of a student with a disability that significantly interferes with the student's ability to meet regular academic standards must be based on the student's failure to meet the requirements of the student's individualized education program. The determination of whether a disability significantly interferes with a student's ability to meet regular academic standards must be made by the student's admission, review, and dismissal committee. For purposes of this subsection, "student with a disability" means a student who is eligible for a district's special education program under Section 29.003(b).

(e-1) A student who is enrolled in a school district in this state or who participates in a University Interscholastic League competition shall be prohibited from participation in any future extracurricular activity sponsored or sanctioned by the school district or the University Interscholastic League if the state executive committee of the league determines that the student intentionally, knowingly, or recklessly causes bodily injury to a person serving as referee, judge, or other official of an extracurricular activity in retaliation for or as a result of the person's actions taken in performing the duties of a referee, judge, or other official of the extracurricular activity.

(e-2) A student prohibited from participation in an extracurricular activity under Subsection (e-1) may submit to the University Interscholastic League a request that the student be permitted to participate in future extracurricular activities sponsored or sanctioned by the University Interscholastic League if:

(1) the request is submitted at least:

(A) one year after the date the student engaged in the conduct that resulted in the prohibition under Subsection (e-1) if the student was enrolled in eighth grade or below at the time of the conduct; or

(B) two years after the date the student engaged in the conduct that resulted in the prohibition under Subsection (e-1) if the student was enrolled in ninth grade or above at the time of the conduct;

(2) the student:

(A) completed a course in anger management since engaging in the conduct that resulted in the prohibition under Subsection (e-1);

(B) completed any other course, activity, or action required by the school district in which the student is enrolled as a result of the conduct that resulted in the prohibition under Subsection (e-1); and

(C) demonstrates, to the satisfaction of the school district and the University

Interscholastic League, that the student has been rehabilitated and is unlikely to again engage in the conduct described by Subsection (e-1); and

(3) a previous request submitted by the student under this section has not been denied during the school year in which the request is submitted.

(e-3) When determining whether to grant a request under Subsection (e-2), the University Interscholastic League:

(1) shall take into account the severity of the conduct that resulted in the prohibition under Subsection (e-1); and

(2) may set conditions for the student's future participation in extracurricular activities.

(e-4) The University Interscholastic League may prohibit a student from participating in any future extracurricular activity sponsored or sanctioned by the University Interscholastic League if the student violates a condition set by the University Interscholastic League under Subsection (e-3)(2).

(f) Except for a student prohibited from participation under Subsection (e-1), a student suspended under this section may practice or rehearse with other students for an extracurricular activity but may not participate in a competition or other public performance.

(g) An appeal to the commissioner is not a contested case under Chapter 2001, Government Code, if the issues presented relate to a student's eligibility to participate in extracurricular activities, including issues related to the student's grades, the school district's grading policy as applied to the student's eligibility, or the student's eligibility based on conduct described by Subsection (e-1). The commissioner may delegate the matter for decision to a person the commissioner designates. The decision of the commissioner or the commissioner's designee in a matter governed by this subsection may not be appealed except on the grounds that the decision is arbitrary or capricious. Evidence may not be introduced on appeal other than the record of the evidence before the commissioner.

(h) A request made under Subsection (e-2) is not a contested case subject to Chapter 2001, Government Code.

**Sec. 33.0832. [Multiple versions] Equal Opportunity For Certain Students To Participate In University Interscholastic League Activities [As added by ch. 996]**

(a) In this section:

(1) "League" means the University Interscholastic League.

(2) "Non-enrolled student" means a student who receives instruction as described by Section 29.916(a)(1) from a nonpublic school.

(b) Nothing in this section may be construed to affect the holding in *Texas Educ. Agency v. Leeper*, 893 S.W.2d 432 (Tex. 1994), classifying home schools as private schools. The legislature finds that a home school is a private school for purposes of this section.

(c) Except as provided by Subsection (i), a public school that participates in an activity sponsored by the league may provide a non-enrolled student, who otherwise meets league eligibility standards to represent that school in a league activity, with the opportunity to participate in the activity on behalf of the school in the same manner that the school provides the opportunity to participate to students enrolled in the school.

(d) A non-enrolled student who seeks to participate or participates in a league activity on behalf of a school is subject to the following relevant policies that apply to students enrolled in the school:

- (1) registration for league activities;
- (2) age eligibility;
- (3) fees;
- (4) insurance;
- (5) transportation;
- (6) physical condition;
- (7) qualifications;
- (8) responsibilities;
- (9) event schedules;
- (10) standards of behavior; and
- (11) performance.

(e) A non-enrolled student may only participate in a league activity for the school in the school district that the student would be eligible to attend based on the student's residential address. A non-enrolled student who seeks to participate in a league activity on behalf of a school shall be required to establish minimum proof of residency acceptable to the district in the same manner as an applicant to attend a school in the district under Section 25.001.

(f) The parent or person standing in parental relation to a non-enrolled student is responsible for oversight of academic standards relating to the student's participation in a league activity. As a condition of eligibility to participate in a league activity during the first six weeks of a

school year, a non-enrolled student must demonstrate grade-level academic proficiency on any nationally recognized, norm-referenced assessment instrument, such as the Iowa Test of Basic Skills, Stanford Achievement Test, California Achievement Test, or Comprehensive Test of Basic Skills. A non-enrolled student demonstrates the required academic proficiency by achieving a composite, core, or survey score that is within the average or higher than average range of scores, as established by the applicable testing service. For purposes of this subsection, a school district shall accept assessment results administered or reported by a third party.

(g) A non-enrolled student's demonstration of academic proficiency under Subsection (f) is sufficient for purposes of that subsection for the school year in which the student achieves the required score and the subsequent school year.

(h) After the first six weeks of a school year, the parent or person standing in parental relation to a non-enrolled student participating in a league activity on behalf of a public school must periodically, in accordance with the school's grading calendar, provide written verification to the school indicating that the student is receiving a passing grade in each course or subject being taught.

(i) A non-enrolled student is not authorized by this section to participate in a league activity during the remainder of any school year during which the student was previously enrolled in a public school.

(j) The league may not prohibit a non-enrolled student from participating in league activities in the manner authorized by this section.

(k) With respect to a non-enrolled student's education program, nothing in this section shall be construed to permit an agency of this state, a public school district, or any other governmental body to exercise control, regulatory authority, or supervision over a non-enrolled student or a parent or person standing in parental relation to a non-enrolled student beyond the control, regulatory authority, or supervision required to participate in a league activity.

(l) Subject only to eligibility requirements under this section for a non-enrolled student to participate in a league activity:

(1) the curriculum or assessment requirements, performance standards, practices, or creed of the education program provided to a non-enrolled student may not be required to be changed in order for the non-enrolled student to participate in a league activity; and

(2) for a non-enrolled student participating in an education program on January 1, 2021,

the education program provided to that student may not be required to comply with any state law or agency rule relating to that education program unless the law or rule was in effect on January 1, 2021.

(m) Notwithstanding any other law, a non-enrolled student who participates in a league activity under this section is subject to the immunization requirements and exceptions of Section 38.001 in the same manner as a public school student.

(1) the student's official birth certificate, as described by Subsection (c); or

(2) if the student's official birth certificate described by Subdivision (1) is unobtainable, another government record.

(b) An interscholastic athletic team described by Subsection (a) may allow a female student to compete in an interscholastic athletic competition that is designated for male students if a corresponding interscholastic athletic competition designated for female students is not offered or available.

(c) For purposes of this section, a statement of a student's biological sex on the student's official birth certificate is considered to have correctly stated the student's biological sex only if the statement was:

(1) entered at or near the time of the student's birth; or

(2) modified to correct any type of scrivener or clerical error in the student's biological sex.

(d) The University Interscholastic League shall adopt rules to implement this section, provided that the rules must be approved by the commissioner in accordance with Section 33.083(b). The rules must ensure compliance with state and federal law regarding the confidentiality of student medical information, including Chapter 181, Health and Safety Code, and the Health Insurance

The term includes a referee, umpire, linesman, judge, or any other person similarly involved in supervising competitive play. The term does not include a league board member or a league official who is acting in an official capacity to supervise, administer, or enforce the league constitution or league contest rules.

(1) be registered with the league and comply with the registration requirements of Subsections (c) and (c-1);

(2) have completed initial and continuing education programs regarding league rules;

(e) The league may charge and collect a registration fee only to defray the cost of registering sports officials and shall post the amount of the fee on the league's Internet website and make the information available at other places the league determines appropriate. The amount of the fee may not exceed the amount reasonably determined by the league to be necessary to cover the cost of administering registration.

(f) The league may revoke or suspend the league registration of a sports official determined by the league to have violated the provisions of the league constitution or contest rules governing sports officials or other league policy applicable to sports officials. Before the league may take action to revoke or suspend a sports official's registration, the league shall notify and consult with the local chapter or association of sports officials of which the sports official is a member. The local chapter or association may, on or before the 15th day after the date notice is received from the league, take action to adjudicate the alleged violation. If after the 15th day after the date notice is received from the league the local chapter or association has failed to take action against the sports official or takes action that the league finds to be insufficient, the league may take action against the sports official. The league shall adopt rules to provide a sports official with the opportunity for an appeals process before the league revokes or suspends the sports official's registration. In adopting rules under this subsection, the league shall make a determination of the actions and subsequent sanctions that would be considered sufficient under this subsection.

(g) The league may not sponsor or organize or attempt to sponsor or organize any association of sports officials in which the majority of the membership is composed of sports officials who officiate team sports.

(h) The league may set rates or fee schedules payable by a school district or open-enrollment charter school to a sports official.

(i) Before the league may take any action that amends rules related to the activities of sports officials, other than an action against an individual sports official under Subsection (f), the league must submit the proposed action for public review and comment, including:

(f) For purposes of this subsection, "weapon" includes any weapon described under Section 37.007(a)(1). This section does not prevent a student's locked, unattended confinement in an emergency situation while awaiting the arrival of law enforcement personnel if:

### Sec. 37.008. Disciplinary Alternative Education Programs

(a) Each school district shall provide a disciplinary alternative education program that:

(1) is provided in a setting other than a student's regular classroom;

(2) is located on or off of a regular school campus;

(3) provides for the students who are assigned to the disciplinary alternative education program to be separated from students who are not assigned to the program;

(4) focuses on English language arts, mathematics, science, history, and self-discipline;

(5) provides for students' educational and behavioral needs;

(6) provides supervision and counseling; and

(7) employs only teachers who meet all certification requirements established under Subchapter B, Chapter 21.

(a-1) The agency shall adopt minimum standards for the operation of disciplinary alternative education programs, including standards relating to:

(1) student/teacher ratios;

(2) student health and safety;

(3) reporting of abuse, neglect, or exploitation of students;

(4) training for teachers in behavior management and safety procedures; and

(5) planning for a student's transition from a disciplinary alternative education program to a regular campus.

(a-2) Expired.

(a-3) Expired.

(b) A disciplinary alternative education program may provide for a student's transfer to:

(1) a different campus;

(2) a school-community guidance center; or

(3) a community-based alternative school.

(c) An off-campus disciplinary alternative education program is not subject to a requirement imposed by this title, other than a limitation on liability, a reporting requirement, or a requirement imposed by this chapter or by Chapter 39 or 39A.

(d) A school district may provide a disciplinary alternative education program jointly with one or more other districts.

(e) Each school district shall cooperate with government agencies and community organizations that provide services in the district to students placed in a disciplinary alternative education program.

(f) A student removed to a disciplinary alternative education program is counted in computing the average daily attendance of students in the district for the student's time in actual attendance in the program.

(g) A school district shall allocate to a disciplinary alternative education program the same expenditure per student attending the disciplinary alternative education program, including federal, state, and local funds, that would be allocated to the student's school if the student were attending

the student's regularly assigned education program, including a special education program.

(h) A school district may not place a student, other than a student suspended as provided under Section 37.005 or expelled as provided under Section 37.007, in an unsupervised setting as a result of conduct for which a student may be placed in a disciplinary alternative education program.

(i) On request of a school district, a regional education service center may provide to the district information on developing a disciplinary alternative education program that takes into consideration the district's size, wealth, and existing facilities in determining the program best suited to the district.

(j) If a student placed in a disciplinary alternative education program enrolls in another school district before the expiration of the period of placement, the board of trustees of the district requiring the placement shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the placement order. The district in which the student enrolls shall inform each educator who will have responsibility for, or will be under the direction and supervision of an educator who will have responsibility for, the instruction of the student of the contents of the placement order. Each educator shall keep the information received under this subsection confidential from any person not entitled to the information under this subsection, except that the educator may share the information with the student's parent or guardian as provided for by state or federal law. The district in which the student enrolls may continue the disciplinary alternative education program placement under the terms of the order or may allow the student to attend regular classes without completing the period of placement. A district may take any action permitted by this subsection if:

(1) the student was placed in a disciplinary alternative education program by an open-enrollment charter school under Section 12.131 and the charter school provides to the district a copy of the placement order; or

(2) the student was placed in a disciplinary alternative education program by a school district in another state and:

(A) the out-of-state district provides to the district a copy of the placement order; and

(B) the grounds for the placement by the out-of-state district are grounds for placement in the district in which the student is enrolling.

(j-1) If a student was placed in a disciplinary alternative education program by a school district in another state for a period that exceeds one year

and a school district in this state in which the student enrolls continues the placement under Subsection (j), the district shall reduce the period of the placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.

(k) A program of educational and support services may be provided to a student and the student's parents when the offense involves drugs or alcohol as specified under Section 37.006 or 37.007. A disciplinary alternative education program that provides chemical dependency treatment services must be licensed under Chapter 464, Health and Safety Code.

(l) A school district is required to provide in the district's disciplinary alternative education program a course necessary to fulfill a student's high school graduation requirements only as provided by this subsection. A school district shall offer a student removed to a disciplinary alternative education program an opportunity to complete coursework before the beginning of the next school year. The school district may provide the student an opportunity to complete coursework through any method available, including a correspondence course, distance learning, or summer school. The district may not charge the student for a course provided under this subsection.

(l-1) A school district shall provide the parents of a student removed to a disciplinary alternative education program with written notice of the district's obligation under Subsection (l) to provide the student with an opportunity to complete coursework required for graduation. The notice must:

(1) include information regarding all methods available for completing the coursework; and

(2) state that the methods are available at no cost to the student.

(m) The commissioner shall adopt rules necessary to evaluate annually the performance of each district's disciplinary alternative education program established under this subchapter. The evaluation required by this section shall be based on indicators defined by the commissioner, but must include student performance on assessment instruments required under Sections 39.023(a) and (c). Academically, the mission of disciplinary alternative education programs shall be to enable students to perform at grade level.

(m-1) The commissioner shall develop a process for evaluating a school district disciplinary alternative education program electronically. The

commissioner shall also develop a system and standards for review of the evaluation or use systems already available at the agency. The system must be designed to identify districts that are at high risk of having inaccurate disciplinary alternative education program data or of failing to comply with disciplinary alternative education program requirements. The commissioner shall notify the board of trustees of a district of any objection the commissioner has to the district's disciplinary alternative education program data or of a violation of a law or rule revealed by the data, including any violation of disciplinary alternative education program requirements, or of any recommendation by the commissioner concerning the data. If the data reflect that a penal law has been violated, the commissioner shall notify the county attorney, district attorney, or criminal district attorney, as appropriate, and the attorney general. The commissioner is entitled to access to all district records the commissioner considers necessary or appropriate for the review, analysis, or approval of disciplinary alternative education program data.

(a) Subject to Subsection (h), but notwithstanding any other provision of this subchapter, the board of trustees of a school district, or the board's designee, after an opportunity for a hearing may expel a student and elect to place the student in an alternative setting as provided by Subsection (a-1) if:

(1) the student:

(A) has received deferred prosecution under Section 53.03, Family Code, for conduct defined as:

(a-1) The student must be placed in:

(1) a juvenile justice alternative education program, if the school district is located in a county that operates a juvenile justice alternative education program or the school district contracts with the juvenile board of another county for the provision of a juvenile justice alternative education program; or

(2) a disciplinary alternative education program.

(b) Any decision of the board of trustees or the board's designee under this section is final and may not be appealed.

#### Sec. 37.0082. Assessment Of Academic Growth Of Students In Disciplinary Alternative Education Programs

(a) To assess a student's academic growth during placement in a disciplinary alternative education program, a school district shall administer to a student placed in a program for a period of 90 school days or longer an assessment instrument approved by the commissioner for that purpose. The instrument shall be administered:

(1) initially on placement of the student in the program; and

(2) subsequently on the date of the student's departure from the program, or as near that date as possible.

(b) The assessment instrument required by this section:

(1) must be designed to assess at least a student's basic skills in reading and mathematics;

#### HISTORY

(Added by Acts 2007, 80th Leg., R.S., Ch. 1240, Sec. 2, eff. June 15, 2007.)

#### Sec. 37.009. Conference; Hearing; Review

(a) Not later than the third class day after the day on which a student is removed from class by the teacher under Section 37.002(b) or (d) or by the school principal or other appropriate administrator under Section 37.001(a)(2) or 37.006, the

campus behavior coordinator or other appropriate administrator shall schedule a conference among the campus behavior coordinator or other appropriate administrator, a parent or guardian of the student, the teacher removing the student from class, if any, and the student. At the conference, the student is entitled to written or oral notice of the reasons for the removal, an explanation of the basis for the removal, and an opportunity to respond to the reasons for the removal. The student may not be returned to the regular classroom pending the conference. Following the conference, and whether or not each requested person is in attendance after valid attempts to require the person's attendance, the campus behavior coordinator, after consideration of the factors under Section 37.001(a)(4), shall order the placement of the student for a period consistent with the student code of conduct. Before ordering the suspension, expulsion, removal to a disciplinary alternative education program, or placement in a juvenile justice alternative education program of a student, the behavior coordinator must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the behavior coordinator concerns a mandatory or discretionary action. If school district policy allows a student to appeal to the board of trustees or the board's designee a decision of the campus behavior coordinator or other appropriate administrator, other than an expulsion under Section 37.007, the decision of the board or the board's designee is final and may not be appealed. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that the student is a threat to the safety of other students or to district employees.

(b) If a student's placement in a disciplinary alternative education program is to extend beyond 60 days or the end of the next grading period, whichever is earlier, a student's parent or guardian is entitled to notice of and an opportunity to participate in a proceeding before the board of trustees of the school district or the board's designee, as provided by policy of the board of trustees of the district. Any decision of the board or the board's designee under this subsection is final and may not be appealed.

(c) Before it may place a student in a disciplinary alternative education program for a period

that extends beyond the end of the school year, the board or the board's designee must determine that:

(1) the student's presence in the regular classroom program or at the student's regular campus presents a danger of physical harm to the student or to another individual; or

(2) the student has engaged in serious or persistent misbehavior that violates the district's student code of conduct.

(d) The board or the board's designee shall set a term for a student's placement in a disciplinary alternative education program. If the period of the placement is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of the placement may not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.

(e) A student placed in a disciplinary alternative education program shall be provided a review of the student's status, including a review of the student's academic status, by the board's designee at intervals not to exceed 120 days. In the case of a high school student, the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The district is not required under this subsection to provide a course in the district's disciplinary alternative education program except as required by Section 37.008(l). At the review, the student or the student's parent or guardian must be given the opportunity to present arguments for the student's return to the regular classroom or campus. The student may not be returned to the classroom of the teacher who removed the student without that teacher's consent. The teacher may not be coerced to consent.

(f) Before a student may be expelled under Section 37.007, the board or the board's designee must provide the student a hearing at which the student is afforded appropriate due process as required by the federal constitution and which the student's parent or guardian is invited, in writing, to attend. At the hearing, the student is entitled to be represented by the student's parent or guardian or another adult who can provide guidance to the student and who is not an employee of the school district. If the school district makes a good-faith effort to inform the student and the student's parent or guardian of the time and place of the hearing, the district may hold the hearing regardless of whether the student, the student's parent or guardian, or

another adult representing the student attends. Before ordering the expulsion of a student, the board of trustees must consider whether the student acted in self-defense, the intent or lack of intent at the time the student engaged in the conduct, the student's disciplinary history, and whether the student has a disability that substantially impairs the student's capacity to appreciate the wrongfulness of the student's conduct, regardless of whether the decision of the board concerns a mandatory or discretionary action. If the decision to expel a student is made by the board's designee, the decision may be appealed to the board. The decision of the board may be appealed by trial de novo to a district court of the county in which the school district's central administrative office is located.

(g) The board or the board's designee shall deliver to the student and the student's parent or guardian a copy of the order placing the student in a disciplinary alternative education program under Section 37.001, 37.002, or 37.006 or expelling the student under Section 37.007.

(h) If the period of an expulsion is inconsistent with the guidelines included in the student code of conduct under Section 37.001(a)(5), the order must give notice of the inconsistency. The period of an expulsion may not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student. After a school district notifies the parents or guardians of a student that the student has been expelled, the parent or guardian shall provide adequate supervision of the student during the period of expulsion.

(i) If a student withdraws from the district before an order for placement in a disciplinary alternative education program or expulsion is entered under this section, the principal or board, as appropriate, may complete the proceedings and enter an order. If the student subsequently enrolls in the district during the same or subsequent school year, the district may enforce the order at that time except for any period of the placement or expulsion that has been served by the student on enrollment in another district that honored the order. If the principal or board fails to enter an order after the student withdraws, the next district in which the student enrolls may complete the proceedings and enter an order.

(j) If, during the term of a placement or expulsion ordered under this section, a student engages in additional conduct for which placement in a disciplinary alternative education program or expulsion is required or permitted, additional proceedings may be conducted under this section regarding that

conduct and the principal or board, as appropriate, may enter an additional order as a result of those proceedings.

#### **Sec. 37.0091. Notice To Noncustodial Parent**

(a) A noncustodial parent may request in writing that a school district or school, for the remainder of the school year in which the request is received, provide that parent with a copy of any written notification relating to student misconduct under Section 37.006 or 37.007 that is generally provided by the district or school to a student's parent or guardian.

(b) A school district or school may not unreasonably deny a request authorized by Subsection (a).

(c) Notwithstanding any other provision of this section, a school district or school shall comply with any applicable court order of which the district or school has knowledge.

#### **HISTORY**

(Added by Acts 2003, 78th Leg., ch. 1055, Sec. 14, eff. June 20, 2003.)

#### **Sec. 37.010. Court Involvement**

(a) Not later than the second business day after the date a hearing is held under Section 37.009, the board of trustees of a school district or the board's designee shall deliver a copy of the order placing a student in a disciplinary alternative education program under Section 37.006 or expelling a student under Section 37.007 and any information required under Section 52.04, Family Code, to the authorized officer of the juvenile court in the county in which the student resides. In a county that operates a program under Section 37.011, an expelled student shall to the extent provided by law or by the memorandum of understanding immediately attend the educational program from the date of expulsion, except that in a county with a population greater than 125,000, every expelled student who is not detained or receiving treatment under an order of the juvenile court must be enrolled in an educational program.

(b) If a student is expelled under Section 37.007(c), the board or its designee shall refer the student to the authorized officer of the juvenile court for appropriate proceedings under Title 3, Family Code.

(c) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding with the district's board of trustees

concerning the juvenile probation department's role in supervising and providing other support services for students in disciplinary alternative education programs, a court may not order a student expelled under Section 37.007 to attend a regular classroom, a regular campus, or a school district disciplinary alternative education program as a condition of probation.

(d) Unless the juvenile board for the county in which the district's central administrative office is located has entered into a memorandum of understanding as described by Subsection (c), if a court orders a student to attend a disciplinary alternative education program as a condition of probation once during a school year and the student is referred to juvenile court again during that school year, the juvenile court may not order the student to attend a disciplinary alternative education program in a district without the district's consent until the student has successfully completed any sentencing requirements the court imposes.

(e) Any placement in a disciplinary alternative education program by a court under this section must prohibit the student from attending or participating in school-sponsored or school-related activities.

(f) If a student is expelled under Section 37.007, on the recommendation of the committee established under Section 37.003 or on its own initiative, a district may readmit the student while the student is completing any court disposition requirements the court imposes. After the student has successfully completed any court disposition requirements the court imposes, including conditions of a deferred prosecution ordered by the court, or such conditions required by the prosecutor or probation department, if the student meets the requirements for admission into the public schools established by this title, a district may not refuse to admit the student, but the district may place the student in the disciplinary alternative education program. Notwithstanding Section 37.002(d), the student may not be returned to the classroom of the teacher under whose supervision the offense occurred without that teacher's consent. The teacher may not be coerced to consent.

(g) If an expelled student enrolls in another school district, the board of trustees of the district that expelled the student shall provide to the district in which the student enrolls, at the same time other records of the student are provided, a copy of the expulsion order and the referral to the authorized officer of the juvenile court. The district in which the student enrolls may continue the expulsion under the terms of the order, may place the student in a disciplinary alternative education program for the period specified by the expulsion

order, or may allow the student to attend regular classes without completing the period of expulsion. A district may take any action permitted by this subsection if the student was expelled by a school district in another state if:

(1) the out-of-state district provides to the district a copy of the expulsion order; and

(2) the grounds for the expulsion are also grounds for expulsion in the district in which the student is enrolling.

(g-1) If a student was expelled by a school district in another state for a period that exceeds one year and a school district in this state continues the expulsion or places the student in a disciplinary alternative education program under Subsection (g), the district shall reduce the period of the expulsion or placement so that the aggregate period does not exceed one year unless, after a review, the district determines that:

(1) the student is a threat to the safety of other students or to district employees; or

(2) extended placement is in the best interest of the student.

(h) A person is not liable in civil damages for a referral to juvenile court as required by this section.

#### Sec. 37.011. Juvenile Justice Alternative Education Program

(a) The juvenile board of a county with a population greater than 125,000 shall develop a juvenile justice alternative education program, subject to the approval of the Texas Juvenile Justice Department. The juvenile board of a county with a population of 125,000 or less may develop a juvenile justice alternative education program. For the purposes of this subchapter, only a disciplinary alternative education program operated under the authority of a juvenile board of a county is considered a juvenile justice alternative education program. A juvenile justice alternative education program in a county with a population of 125,000 or less:

(1) is not required to be approved by the department; and

(2) is not subject to Subsection (c), (d), (f), or (g).

(a-1) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000 is considered to be a county with a population of 125,000 or less if:

(1) the county had a population of 125,000 or less according to the 2000 federal census; and

(2) the juvenile board of the county enters into, with the approval of the Texas Juvenile Justice Department, a memorandum of understanding with each school district within the county that:

(A) outlines the responsibilities of the board and school districts in minimizing the number of students expelled without receiving alternative educational services; and

(B) includes the coordination procedures required by Section 37.013.

(a-2) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000 is considered to be a county with a population of 125,000 or less if the county:

(1) has a population of 180,000 or less;

(2) is adjacent to two counties, each of which has a population of more than 1.7 million; and

(3) has seven or more school districts located wholly within the county's boundaries.

(a-3) For purposes of this section and Section 37.010(a), a county with a population greater than 125,000 is considered to be a county with a population of 125,000 or less if the county:

(1) has a population of more than 200,000 and less than 220,000;

(2) has five or more school districts located wholly within the county's boundaries; and

(3) has located in the county a juvenile justice alternative education program that, on May 1, 2011, served fewer than 15 students.

(a-4) A school district located in a county considered to be a county with a population of 125,000 or less under Subsection (a-3) shall provide educational services to a student who is expelled from school under this chapter. The district is entitled to count the student in the district's average daily attendance for purposes of receipt of state funds under the Foundation School Program. An educational placement under this section may include:

(1) the district's disciplinary alternative education program; or

(2) a contracted placement with:

(A) another school district;

(B) an open-enrollment charter school;

(C) an institution of higher education;

(D) an adult literacy council; or

(E) a community organization that can provide an educational program that allows the student to complete the credits required for high school graduation.

(a-5) For purposes of Subsection (a-4), an educational placement other than a school district's disciplinary alternative education program is subject to the educational and certification requirements

applicable to an open-enrollment charter school under Subchapter D, Chapter 12.

(b) If a student admitted into the public schools of a school district under Section 25.001(b) is expelled from school for conduct for which expulsion is required under Section 37.007(a), (d), or (e), or for conduct that contains the elements of the offense of terroristic threat as described by Section 22.07(c-1), (d), or (e), Penal Code, the juvenile court, the juvenile board, or the juvenile board's designee, as appropriate, shall:

(1) if the student is placed on probation under Section 54.04, Family Code, order the student to attend the juvenile justice alternative education program in the county in which the student resides from the date of disposition as a condition of probation, unless the child is placed in a post-adjudication treatment facility;

(2) if the student is placed on deferred prosecution under Section 53.03, Family Code, by the court, prosecutor, or probation department, require the student to immediately attend the juvenile justice alternative education program in the county in which the student resides for a period not to exceed six months as a condition of the deferred prosecution;

(3) in determining the conditions of the deferred prosecution or court-ordered probation, consider the length of the school district's expulsion order for the student; and

(4) provide timely educational services to the student in the juvenile justice alternative education program in the county in which the student resides, regardless of the student's age or whether the juvenile court has jurisdiction over the student.

(b-1) Subsection (b)(4) does not require that educational services be provided to a student who is not entitled to admission into the public schools of a school district under Section 25.001(b).

(c) A juvenile justice alternative education program shall adopt a student code of conduct in accordance with Section 37.001.

(d) A juvenile justice alternative education program must focus on English language arts, mathematics, science, social studies, and self-discipline. Each school district shall consider course credit earned by a student while in a juvenile justice alternative education program as credit earned in a district school. Each program shall administer assessment instruments under Subchapter B, Chapter 39, and shall offer a high school equivalency program. The juvenile board or the board's designee, with the parent or guardian of each student, shall regularly review the student's academic progress. In the case of a high school student, the board

or the board's designee, with the student's parent or guardian, shall review the student's progress towards meeting high school graduation requirements and shall establish a specific graduation plan for the student. The program is not required to provide a course necessary to fulfill a student's high school graduation requirements other than a course specified by this subsection.

(e) A juvenile justice alternative education program may be provided in a facility owned by a school district. A school district may provide personnel and services for a juvenile justice alternative education program under a contract with the juvenile board.

(f) A juvenile justice alternative education program must operate at least seven hours per day and 180 days per year, except that a program may apply to the Texas Juvenile Justice Department for a waiver of the 180-day requirement. The department may not grant a waiver to a program under this subsection for a number of days that exceeds the highest number of instructional days waived by the commissioner during the same school year for a school district served by the program.

(g) A juvenile justice alternative education program shall be subject to a written operating policy developed by the local juvenile justice board and submitted to the Texas Juvenile Justice Department for review and comment. A juvenile justice alternative education program is not subject to a requirement imposed by this title, other than a reporting requirement or a requirement imposed by this chapter or by Chapter 39 or 39A.

(h) Academically, the mission of juvenile justice alternative education programs shall be to enable students to perform at grade level. For purposes of accountability under Chapters 39 and 39A, a student enrolled in a juvenile justice alternative education program is reported as if the student were enrolled at the student's assigned campus in the student's regularly assigned education program, including a special education program. Annually the Texas Juvenile Justice Department, with the agreement of the commissioner, shall develop and implement a system of accountability consistent with Chapters 39 and 39A, where appropriate, to assure that students make progress toward grade level while attending a juvenile justice alternative education program. The department shall adopt rules for the distribution of funds appropriated under this section to juvenile boards in counties required to establish juvenile justice alternative education programs. Except as determined by the commissioner, a student served by a juvenile justice alternative education program on the basis of an expulsion required under Section 37.007(a), (d), or (e) is not eligible for Foundation School Program

funding under Chapter 31 or 48 if the juvenile justice alternative education program receives funding from the department under this subchapter.

(i) A student transferred to a juvenile justice alternative education program must participate in the program for the full period ordered by the juvenile court unless the student's school district agrees to accept the student before the date ordered by the juvenile court. The juvenile court may not order a period of transfer under this section that exceeds the term of any probation ordered by the juvenile court.

(j) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's professional employees and volunteers are immune from liability to the same extent as a school district's professional employees and volunteers.

(k) Each school district in a county with a population greater than 125,000 and the county juvenile board shall annually enter into a joint memorandum of understanding that:

(1) outlines the responsibilities of the juvenile board concerning the establishment and operation of a juvenile justice alternative education program under this section;

(2) defines the amount and conditions on payments from the school district to the juvenile board for students of the school district served in the juvenile justice alternative education program whose placement was not made on the basis of an expulsion required under Section 37.007(a), (d), or (e);

(3) establishes that a student may be placed in the juvenile justice alternative education program if the student engages in serious misbehavior, as defined by Section 37.007(c);

(4) identifies and requires a timely placement and specifies a term of placement for expelled students for whom the school district has received a notice under Section 52.041(d), Family Code;

(5) establishes services for the transitioning of expelled students to the school district prior to the completion of the student's placement in the juvenile justice alternative education program;

(6) establishes a plan that provides transportation services for students placed in the juvenile justice alternative education program;

(7) establishes the circumstances and conditions under which a juvenile may be allowed to remain in the juvenile justice alternative

education program setting once the juvenile is no longer under juvenile court jurisdiction; and

(8) establishes a plan to address special education services required by law.

(l) The school district shall be responsible for providing an immediate educational program for students who engage in behavior resulting in expulsion under Section 37.007(b) and (f) but who are not eligible for admission into the juvenile justice alternative education program in accordance with the memorandum of understanding required under this section. The school district may provide the program or the school district may contract with a county juvenile board, a private provider, or one or more other school districts to provide the program. The memorandum of understanding shall address the circumstances under which such students who continue to engage in serious misbehavior, as defined by Section 37.007(c), shall be admitted into the juvenile justice alternative education program.

(m) Each school district in a county with a population greater than 125,000 and the county juvenile board shall adopt a joint memorandum of understanding as required by this section not later than September 1 of each school year.

(n) If a student who is ordered to attend a juvenile justice alternative education program moves from one county to another, the juvenile court may request the juvenile justice alternative education program in the county to which the student moves to provide educational services to the student in accordance with the local memorandum of understanding between the school district and juvenile board in the receiving county.

(o) In relation to the development and operation of a juvenile justice alternative education program, a juvenile board and a county and a commissioners court are immune from liability to the same extent as a school district, and the juvenile board's or county's employees and volunteers are immune from liability to the same extent as a school district's employees and volunteers.

(p) If a district elects to contract with the juvenile board for placement in the juvenile justice alternative education program of students expelled under Section 37.007(b), (c), and (f) and the juvenile board and district are unable to reach an agreement in the memorandum of understanding, either party may request that the issues of dispute be referred to a binding arbitration process that uses a qualified alternative dispute resolution arbitrator in which each party will pay its pro rata share of the arbitration costs. Each party must submit its final proposal to the arbitrator. If the parties cannot agree on an arbitrator, the juvenile board shall select an arbitrator, the school districts shall select an arbitrator, and

those two arbitrators shall select an arbitrator who will decide the issues in dispute. An arbitration decision issued under this subsection is enforceable in a court in the county in which the juvenile justice alternative education program is located. Any decision by an arbitrator concerning the amount of the funding for a student who is expelled and attending a juvenile justice alternative education program must provide an amount sufficient based on operation of the juvenile justice alternative education program in accordance with this chapter. In determining the amount to be paid by a school district for an expelled student enrolled in a juvenile justice alternative education program, the arbitrator shall consider the relevant factors, including evidence of:

(1) the actual average total per student expenditure in the district's alternative education setting;

(2) the expected per student cost in the juvenile justice alternative education program as described and agreed on in the memorandum of understanding and in compliance with this chapter; and

(3) the costs necessary to achieve the accountability goals under this chapter.

(q) In accordance with rules adopted by the board of trustees for the Teacher Retirement System of Texas, a certified educator employed by a juvenile board in a juvenile justice alternative education program shall be eligible for membership and participation in the system to the same extent that an employee of a public school district is eligible. The juvenile board shall make any contribution that otherwise would be the responsibility of the school district if the person were employed by the school district, and the state shall make any contribution to the same extent as if the person were employed by a school district.

#### **Sec. 39.004. Conduct Of Special Investigations**

(a) The agency shall adopt written procedures for conducting special investigations, including procedures that allow the agency to obtain information from district employees in a manner that prevents a district or campus from screening the information. The agency shall make the procedures available on the agency Internet website. Agency staff must be trained in the procedures and must follow the procedures in conducting the special investigation.

(a-1) During the pendency of a special investigation under this section, the agency is not required to disclose the identity of any witness.

(b) After completing a special investigation, the agency shall present preliminary findings to any person or entity the agency finds has violated a law, rule, or policy.

(c) In presenting the agency's preliminary findings to a school district under Subsection (b), the agency:

(1) shall provide to the district a written report of the agency's preliminary findings of the investigation;

(2) shall provide to the district any evidence relied on by the agency in making the preliminary findings;

(3) shall disclose to the district the identity of any witness whose statements the agency relied on in making the preliminary findings; and

(4) may not include recommended sanctions or interventions.

(d) A written report of preliminary findings under Subsection (c) and all associated materials produced by the agency in support of the report are excepted from public disclosure as audit working papers of the agency under Section 552.116, Government Code. A school district may publicly release a report of preliminary findings only if the release is approved by an affirmative vote of the board of trustees of the district.

(e) Unless otherwise provided by law, all evidence collected by the agency in connection with a special investigation, including witness statements and videos of agency interviews, are confidential and not subject to disclosure under Chapter 552, Government Code, except that evidence described by this section may be disclosed:

(1) to a person with a legitimate interest in the investigation; or

(2) in connection with an administrative or other legal proceeding brought under this title.

(f) Not later than 30 days after the date on which the board of trustees of the school district receives the written report of the preliminary findings under Subsection (c), the board of trustees of a school district may accept the agency's findings or respond in writing to the agency.

(g) The agency shall consider any response submitted by the board of trustees of the school district under Subsection (f) before providing the board of trustees of a school district a final report in writing that includes proposed sanctions or interventions.

(h) Before the commissioner determines to order a sanction or intervention based on a final report, other than a sanction or intervention described by Section 39.005, the commissioner or the commissioner's designee shall provide an informal review. An informal review provided under this section is not a contested case for purposes of Chapter 2001, Government Code.

(i) In conducting a special investigation under Section 39.003, the commissioner or the commissioner's designee may subpoena a current or former school district employee, agent, or official to compel the employee, agent, or official to attend a deposition or produce documents reasonably necessary for the investigation.

(j) If a person fails to comply with a subpoena issued under Subsection (i), the commissioner, acting through the attorney general, may file suit to enforce the subpoena in a district court in this state. On a finding that good cause exists for issuing the subpoena, the court shall order the person to comply with the subpoena and the court may punish a person who fails to obey the court order.

(k) A court may not enjoin a special investigation conducted under this section prior to the conclusion of the special investigation.

(l) A school district must exhaust the administrative remedies provided under this subchapter before appealing the findings or final recommendations of a special investigation conducted under this section to a court.

#### **Sec. 39.005. Hearing Following Investigation**

(a) This section applies to a school district that is the subject of a special investigation conducted under Section 39.003 that resulted in a final report in which

the agency recommends the appointment of a board of managers, alternative management of a campus, or closure of the district or a district campus.

(b) Except as provided by Subsection (c), not later than 15 days after the date on which the board of trustees of the school district receives the final report of a special investigation under Section 39.004(g), a board of trustees of a school district to which this section applies may request a hearing if the board of trustees disagrees with the final report or a sanction or intervention recommended by the agency in the report.

(c) A school district and the agency may agree in writing to extend the time period for requesting a hearing under Subsection (b) by not more than an additional 30 days.

(d) If a board of trustees of a school district requests a hearing under Subsection (b), the hearing shall be conducted by the State Office of Administrative Hearings unless the district and the agency agree in writing to the appointment of another qualified person to conduct the hearing.

(e) Except as otherwise provided by this subchapter, a hearing conducted under this section is a contested case under Chapter 2001, Government Code.

(f) A hearing conducted under this section shall be held at the administrative offices of the school district that requested the hearing or at another location within the geographic boundaries of the district agreed to by the district and the agency, unless the district and the agency agree in writing to a different location.

(g) To protect the privacy of a witness who is a child, the hearing examiner or the person conducting the hearing may:

(1) close the hearing to receive the testimony of the witness; or

(2) order that the testimony or a statement of the witness be presented using the procedures prescribed by Article 38.071, Code of Criminal Procedure.

(h) Not later than 90 days after the date on which the school district requests a hearing under Subsection (b), the hearing examiner or the person conducting the hearing shall issue and submit to the commissioner findings of fact and conclusions of law. The hearing examiner or the person conducting the hearing may not issue a recommendation for relief.

(i) A hearing conducted under this section may not be held on a Saturday, Sunday, or state or federal holiday, unless agreed to by the school district that requested the hearing and the agency.

**Sec. 39.006. Commissioner Determination**

(a) After a hearing is conducted under Section 39.005, the commissioner shall provide an opportunity for the agency and the school district to present oral argument to the commissioner regarding the disagreement that formed the basis of the hearing. The commissioner shall provide the agency and the district with equal time for oral argument.

(b) After hearing any oral argument presented under Subsection (a), the commissioner shall issue a written decision to the school district that contains:

- (1) findings of fact;
- (2) conclusions of law; and
- (3) sanctions, interventions, or other actions authorized by law.

(c) In determining the written decision under Subsection (b), the commissioner shall consider:

- (1) the record of the hearing conducted under Section 39.005;
- (2) the findings of fact and conclusions of law issued by the hearing examiner or the person conducting the hearing under Section 39.005(h); and
- (3) the oral arguments presented under Subsection (a).

(d) The commissioner may accept, reject, or amend the conclusions of law issued by the hearing examiner or the person who conducted the hearing under Section 39.005 regarding the interpretation of a provision of this code.

(e) The commissioner may not reject or amend a finding of fact issued by the hearing examiner or the person who conducted the hearing under Section 39.005, unless the commissioner, after reviewing the record, determines that a finding of fact is not supported by substantial, admissible evidence.

(f) The commissioner shall provide in writing the legal basis and reason for any amendment or rejection of a finding of fact or conclusion of law made by the hearing examiner or the person who conducted the hearing under Section 39.005.

**HISTORY**

(Added by Acts 2021, Texas Acts of the 87th Leg. - Regular Session, ch. 1046, Sec. 2.05, eff. 9/1/2021.)

**Sec. 39.007. Judicial Appeal**

(a) Notwithstanding Chapter 2001, Government Code, a school district may only appeal a decision made by the commissioner under Section 39.006 in accordance with this section.

(b) A school district may appeal a decision made by the commissioner under Section 39.006 to:

- (1) a district court with jurisdiction in the county in which the school district's central administrative offices are located; or
- (2) a district court in Travis County, if agreed to by the school district and the commissioner.

(c) A school district must file an appeal under this section not later than 30 days after the date on which the district received the written decision of the commissioner under Section 39.006(b).

(d) The filing of an appeal under this section does not affect or stay the enforcement of the commissioner's written decision issued under Section 39.006(b).

(e) A court hearing an appeal under this section shall review the decision issued by the commissioner under Section 39.006(b) under the substantial evidence rule as provided by Subchapter G, Chapter 2001, Government Code, after examining:

- (1) the evidentiary record of the hearing conducted under Section 39.005;
- (2) the findings of fact issued by the hearing examiner or the person that conducted the hearing under Section 39.005; and
- (3) any amendment or rejection of a finding of fact made by the commissioner under Section 39.006.

(f) A court hearing an appeal under this section may not take additional evidence.

(g) A court hearing an appeal under this section may review any amendment to or rejection of a finding of fact made by the commissioner. If the court determines that the amendment or rejection was not supported by substantial evidence, the court shall reject the commissioner's amended finding of fact and consider instead the original finding issued by the hearing examiner or the person who conducted the hearing under Section 39.005.

(h) Notwithstanding Section 2001.174, Government Code, the court may not reverse or remand a decision issued by the commissioner under Section 39.006(b) based on a procedural error or irregularity made by the commissioner, an agency investigator, or the hearing examiner or the person who conducted the hearing under Section 39.005, unless the court determines that the procedural error or irregularity is likely to have caused an erroneous decision by the commissioner.

### Sec. 39.021. Essential Skills And Knowledge

The State Board of Education by rule shall establish the essential skills and knowledge that all

students should learn to achieve the goals provided under Section 4.002.

#### HISTORY

(Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

### Sec. 39.022. Assessment Program

(a) The State Board of Education by rule shall create and implement a statewide assessment program that is knowledge- and skills-based to ensure school accountability for student achievement that achieves the goals provided under Section 4.002. After adopting rules under this section, the State Board of Education shall consider the importance of maintaining stability in the statewide assessment program when adopting any subsequent modification of the rules.

(b) It is the policy of this state that the statewide assessment program be designed to:

- (1) provide assessment instruments that are as short as practicable; and
- (2) minimize the disruption to the educational program.

#### HISTORY

(Amended by Acts 2019, Texas Acts of the 86th Leg.- Regular Session, ch. 1315, Sec. 1, eff. 6/14/2019. Amended by Acts 1999, 76th Leg., ch. 397, Sec. 2, eff. Sept. 1, 1999. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

Notes – Section 10 of Acts 2019, 86th Leg., Ch. 1315 (H.B. 3906) provides: “Unless this Act provides for an effective date later than September 1, 2019, this Act applies beginning with the 2019-2020 school year.”

### Sec. 39.023. Adoption And Administration Of Instruments

(a) The agency shall adopt or develop appropriate criterion-referenced assessment instruments designed to assess essential knowledge and skills in reading, writing, mathematics, social studies, and science. Except as provided by Subsection (a-2), all students, other than students assessed under Subsection (b) or (1) or exempted under Section 39.027, shall be assessed in:

- (1) mathematics, annually in grades three through eight;
- (2) reading, annually in grades three through eight;
- (3) social studies, in grade eight;
- (4) science, in grades five and eight; and
- (5) any other subject and grade required by federal law.

(a-1) The agency shall develop assessment instruments required under Subsection (a) in a manner that allows, to the extent practicable:

- (1) the score a student receives to provide reliable information relating to a student's satisfactory performance for each performance standard under Section 39.0241; and

(2) an appropriate range of performances to serve as a valid indication of growth in student achievement.

(a-2) A student is not required to be assessed in a subject otherwise assessed at the student's grade level under Subsection (a) if the student:

(1) is enrolled in a course in the subject intended for students above the student's grade level and will be administered an assessment instrument adopted or developed under Subsection (a) that aligns with the curriculum for the course in which the student is enrolled; or

(2) is enrolled in a course in the subject for which the student will receive high school academic credit and will be administered an end-of-course assessment instrument adopted under Subsection (c) for the course.

(a-3) **[Added by Acts 2013, 83rd Leg. - Regular Session, ch. 861, Sec. 2]** The agency may not adopt or develop a criterion-referenced assessment instrument under this section based on common core state standards as defined by Section 28.002(b-1). This subsection does not prohibit the use of college advanced placement tests or international baccalaureate examinations as those terms are defined by Section 28.051.

(a-3) **[Added by Acts 2013, 83rd Leg. - Regular Session, ch. 1267, Sec. 1]** For each assessment instrument administered under Subsection (a) or (a-5), the agency shall determine, based on available information for that assessment instrument, the minimum satisfactory adjusted scale score. The minimum satisfactory adjusted scale score is the sum of the scale score that indicates satisfactory performance on that assessment instrument, as determined by the commissioner under Section 39.0241(a), plus the minimum number of points that when added to the scale score produces a score that, within a three percent margin of error, is predictive that a student achieving that score would achieve satisfactory performance on an assessment instrument in the same subject administered to the student during the following school year.

(a-4) For purposes of Subsection (a)(1), the State Board of Education by rule may designate sections of a mathematics assessment instrument for a grade level that:

(1) may be completed with the aid of technology; and

(2) must be completed without the aid of technology.

(a-5) A student shall be assessed in grade six in a subject for which an assessment instrument is administered under Subsection (a) in grade five if, on the final assessment instrument in that subject

administered under Subsection (a) to the student in grade five during the preceding school year, the student did not achieve a score equal to or greater than the minimum satisfactory adjusted scale score for that assessment instrument, as determined under Subsection (a-3).

(a-6) A student shall be assessed in grade seven in a subject for which an assessment instrument was administered under Subsection (a-5) to the student in grade six if, on the final assessment instrument in that subject administered to the student in grade six during the preceding school year, the student did not achieve a score equal to or greater than the minimum satisfactory adjusted scale score for that assessment instrument, as determined under Subsection (a-3).

(a-7) A student assessed in mathematics under Subsection (a-4), (a-5), or (a-6) shall be assessed without the aid of technology.

(a-8) A school district or open-enrollment charter school may, for its own use in determining whether students are performing at a satisfactory level, administer to a student at the appropriate grade level, other than a student required to be assessed, an assessment instrument developed for purposes of Subsection (a-4), (a-5), or (a-6). At the request of a district or open-enrollment charter school, the agency shall provide, allow for the administration of, and score each assessment instrument administered under this subsection in the same manner and at the same cost as for assessment instruments required to be administered under the applicable subsection. The results of an assessment instrument administered under this subsection may not be included as an indicator of achievement under Section 39.053 or any other provision.

(a-9) If there is a conflict between this section and a federal law or regulation as a result of forgoing under this section certain administration of assessment instruments to students who have recently performed successfully on assessment instruments assessing the same subject, the commissioner shall seek a waiver from the application of the conflicting federal law or regulation. In seeking a waiver, the commissioner shall submit all relevant data, including data relating to:

(1) the likelihood that a student who achieves a score on an assessment instrument equal to or greater than the minimum satisfactory adjusted scale score for that assessment instrument, as determined under Subsection (a-3), will, in subsequent years, perform satisfactorily on assessment instruments in the same subject;

(2) the costs associated with ongoing assessment of students who have proven likely

to perform successfully on subsequent assessment instruments; and

(3) the benefit of redirecting resources from assessment of students who have proven likely to perform successfully on subsequent assessment instruments toward enabling lower performing students to perform successfully on assessment instruments after one school year.

(a-10) This subsection and Subsections (a-3), (a-4), (a-5), (a-6), (a-7), (a-8), and (a-9) expire September 1, 2017.

(a-11) Before an assessment instrument adopted or developed under Subsection (a) may be administered under that subsection, the assessment instrument must, on the basis of empirical evidence, be determined to be valid and reliable by an entity that is independent of the agency and of any other entity that developed the assessment instrument.

(a-12) An assessment instrument adopted or developed under Subsection (a) may not have more than three parts. A part of an assessment instrument must be designed so that:

(1) if administered to students in grades three and four, 85 percent of students will be able to complete that part within 60 minutes; and

(2) if administered to students in grades five through eight, 85 percent of students will be able to complete that part within 75 minutes.

(a-13) The amount of time allowed for administration of an assessment instrument adopted or developed under Subsection (a) may not exceed eight hours, and the administration may occur in multiple parts over more than one day.

(a-14) Subsections (a-12) and (a-13) do not apply to the administration of assessment instruments for a grade level if, as a result of the time restriction imposed, the assessment instrument no longer:

(1) complies with federal law; or

(2) is valid and reliable, based on findings and recommendations made by the advisory committees established under Section 02.

(a-15) Subsections (a-12) and (a-13) do not apply to a classroom portfolio method used to assess writing performance.

(a-16) An assessment instrument under this section may not be administered to a kindergarten student except for the purpose of determining whether the student is entitled to the benefit of the Foundation School Program as provided under this code.

(b) The agency shall develop or adopt appropriate criterion-referenced alternative assessment instruments to be administered to each student in

a special education program under Subchapter A, Chapter 29, for whom an assessment instrument adopted under Subsection (a), even with allowable accommodations, would not provide an appropriate measure of student achievement, as determined by the student's admission, review, and dismissal committee.

(b-1) The agency, in conjunction with appropriate interested persons, shall redevelop assessment instruments adopted or developed under Subsection (b) for administration to significantly cognitively disabled students in a manner consistent with federal law. An assessment instrument under this subsection may not require a teacher to prepare tasks or materials for a student who will be administered such an assessment instrument. A classroom portfolio method used to assess writing performance may require a teacher to prepare tasks and materials.

(c) The agency shall also adopt end-of-course assessment instruments for secondary-level courses in Algebra I, biology, English I, English II, and United States history. The Algebra I end-of-course assessment instrument must be administered with the aid of technology, but may include one or more parts that prohibit the use of technology. The English I and English II end-of-course assessment instruments must each assess essential knowledge and skills in both reading and writing and must provide a single score. A school district shall comply with State Board of Education rules regarding administration of the assessment instruments listed in this subsection. If a student is in a special education program under Subchapter A, Chapter 29, the student's admission, review, and dismissal committee shall determine whether any allowable modification is necessary in administering to the student an assessment instrument required under this subsection. The State Board of Education shall administer the assessment instruments. An end-of-course assessment instrument may be administered in multiple parts over more than one day. The State Board of Education shall adopt a schedule for the administration of end-of-course assessment instruments that complies with the requirements of Subsection (c-3).

(c-1) The agency shall develop any assessment instrument required under this section in a manner that allows for the measurement of annual improvement in student achievement as required by Sections 39.034(c) and (d).

(c-2) The agency may adopt end-of-course assessment instruments for courses not listed in Subsection (c). A student's performance on an end-of-course assessment instrument adopted under this subsection is not subject to the performance

requirements established under Subsection (c) or Section 39.025.

(c-3) Except as provided by Subsection (c-7) or as otherwise provided by this subsection, in adopting a schedule for the administration of assessment instruments under this section, the State Board of Education shall ensure that assessment instruments administered under Subsection (a) or (c) are not administered on the first instructional day of a week. On request by a school district or open-enrollment charter school, the commissioner may allow the district or school to administer an assessment instrument required under Subsection (a) or (c) on the first instructional day of a week if administering the assessment instrument on another instructional day would result in a significant administrative burden due to specific local conditions.

(c-4) To the extent practicable and subject to Section 39.024, the agency shall ensure that each end-of-course assessment instrument adopted under Subsection (c) is:

(1) developed in a manner that measures a student's performance under the college readiness standards established under Section 28.008; and

(2) validated by national postsecondary education experts for college readiness content and performance standards.

(c-5) A student's performance on an end-of-course assessment instrument required under Subsection (c) must be included in the student's academic achievement record.

(c-6) In adopting an end-of-course assessment instrument under this section, the agency shall consider the use of an existing assessment instrument that is currently available. The agency may use an existing assessment instrument that is currently available only if the assessment instrument:

(1) is aligned with the essential knowledge and skills of the subject being assessed; and

(2) allows for the measurement of annual improvement in student achievement as provided by Subsection (c-1).

(c-7) Subsection (c-3) does not apply to a classroom portfolio method used to assess writing performance if student performance under that method is less than 50 percent of a student's overall assessed performance in writing.

(c-8) Beginning with the 2022-2023 school year, not more than 75 percent of the available points on an assessment instrument developed under Subsection (a) or (c) may be attributable to questions presented in a multiple choice format.

(c-9) The United States history end-of-course assessment instrument adopted under Subsection

(c) must include 10 questions randomly selected by the agency from the civics test administered by the United States Citizenship and Immigration Services as part of the naturalization process under the federal Immigration and Nationality Act ( 8 U.S.C. Section 1101 et seq.). The agency shall:

(1) ensure that the questions included in the assessment instrument align with the essential knowledge and skills adopted for the United States history course for which the instrument is administered; and

(2) annually issue a report:

(A) providing the questions included in the assessment instrument under this subsection and the answers to those questions; and

(B) detailing student performance on the questions included in the assessment instrument under this subsection, both statewide and disaggregated by school district and campus.

(d) The commissioner may participate in multistate efforts to develop voluntary standardized end-of-course assessment instruments. The commissioner by rule may require a school district to administer an end-of-course assessment instrument developed through the multistate efforts. The admission, review, and dismissal committee of a student in a special education program under Subchapter A, Chapter 29, shall determine whether any allowable modification is necessary in administering to the student an end-of-course assessment instrument.

(e) Under rules adopted by the State Board of Education, every third year, the agency shall release the questions and answer keys to each assessment instrument administered under Subsection (a), (b), (c), (d), or (l), excluding any assessment instrument administered to a student for the purpose of retaking the assessment instrument, after the last time the instrument is administered for that school year. To ensure a valid bank of questions for use each year, the agency is not required to release a question that is being field-tested and was not used to compute the student's score on the instrument. The agency shall also release, under board rule, each question that is no longer being field-tested and that was not used to compute a student's score.

(e-1) The agency may defer releasing assessment instrument questions and answer keys as required by Subsection (e) to the extent necessary to develop additional assessment instruments.

(f) The assessment instruments shall be designed to include assessment of a student's

problem-solving ability and complex-thinking skills using a method of assessing those abilities and skills that is demonstrated to be highly reliable.

(g) The State Board of Education may adopt one appropriate, nationally recognized, norm-referenced assessment instrument in reading and mathematics to be administered to a selected sample of students in the spring. If adopted, a norm-referenced assessment instrument must be a secured test. The state may pay the costs of purchasing and scoring the adopted assessment instrument and of distributing the results of the adopted instrument to the school districts. A district that administers the norm-referenced test adopted under this subsection shall report the results to the agency in a manner prescribed by the commissioner.

(h) The agency shall notify school districts and campuses of the results of assessment instruments administered under this section not later than the 21st day after the date the assessment instrument is administered. The school district shall disclose to each district teacher the results of assessment instruments administered to students taught by the teacher in the subject for the school year in which the assessment instrument is administered.

(i) The provisions of this section, except Subsection (d), are subject to modification by rules adopted under Section 39.022. Each assessment instrument adopted under those rules and each assessment instrument required under Subsection (d) must be reliable and valid and must meet any applicable federal requirements for measurement of student progress.

(j) Repealed by Acts 2007, 80th Leg., R.S., Ch. 1312, Sec. 18, eff. September 1, 2007.

(l) The State Board of Education shall adopt rules for the administration of the assessment instruments adopted under Subsection (a) in Spanish to emergent bilingual students in grades three through five, as defined by Section 29.052, whose primary language is Spanish, and who are not otherwise exempt from the administration of an assessment instrument under Section 39.027(a) (1) or (2). Each emergent bilingual student whose primary language is Spanish, other than a student to whom Subsection (b) applies, may be assessed using assessment instruments in Spanish under this subsection for up to three years or assessment instruments in English under Subsection (a). The language proficiency assessment committee established under Section 29.063 shall determine which students are administered assessment instruments in Spanish under this subsection.

The rules adopted under this subsection shall ensure that the language proficiency assessment committee provides that the exempted students are administered the assessment instruments under Subsections (a) and (c) at the earliest practical date.

(n) This subsection applies only to a student who is determined to have dyslexia or a related disorder and who is an individual with a disability under 29 U.S.C. Section 705(20) and its subsequent amendments. The agency shall adopt or develop appropriate criterion-referenced assessment instruments designed to assess the ability of and to be administered to each student to whom this subsection applies for whom the assessment instruments adopted under Subsection (a), even with allowable modifications, would not provide an appropriate measure of student achievement, as determined by the committee established by the board of trustees of the district to determine the placement of students with dyslexia or related disorders. The committee shall determine whether any allowable modification is necessary in administering to a student an assessment instrument required under this subsection. The assessment instruments required under this subsection shall be administered on the same schedule as the assessment instruments administered under Subsection (a).

(o) The agency shall adopt or develop optional interim assessment instruments for each subject or course for each grade level subject to assessment under this section. A school district or open-enrollment charter school may not be required to administer interim assessment instruments adopted or developed under this subsection. An interim assessment instrument:

(a) During the 2015-2016 school year, the agency, in coordination with the entity that has been contracted to develop or implement assessment instruments under Section 39.023, shall conduct a study to develop a writing assessment method as an alternative to the writing assessment instruments required under Sections 39.023(a) and (c). The writing assessment method must be designed to assess:

(1) a student's mastery of the essential knowledge and skills in writing through timed writing samples;

(2) improvement of a student's writing skills from the beginning of the school year to the end of the school year;

(3) a student's ability to follow the writing process from rough draft to final product; and

**Sec. 39.025. Secondary-Level Performance Required**

(a) The commissioner shall adopt rules requiring a student in the foundation high school program

under Section 28.025 to be administered an end-of-course assessment instrument listed in Section 39.023(c) only for a course in which the student is enrolled and for which an end-of-course assessment instrument is administered. A student is required to achieve a scale score that indicates satisfactory performance, as determined by the commissioner under Section 39.0241(a), on each end-of-course assessment instrument administered to the student. For each scale score required under this subsection that is not based on a 100-point scale scoring system, the commissioner shall provide for conversion, in accordance with commissioner rule, of the scale score to an equivalent score based on a 100-point scale scoring system. A student may not receive a high school diploma until the student has performed satisfactorily on end-of-course assessment instruments in the manner provided under this subsection. This subsection does not require a student to demonstrate readiness to enroll in an institution of higher education.

(a-1) A student enrolled in a college preparatory mathematics or English language arts course under Section 28.014 who satisfies the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the Texas Higher Education Coordinating Board under Section 51.334 on an assessment instrument designated by the coordinating board under that section administered at the end of the college preparatory mathematics or English language arts course satisfies the requirements concerning and is exempt from the administration of the Algebra I or the English I and English II end-of-course assessment instruments, as applicable, as prescribed by Section 39.023(c), even if the student did not perform satisfactorily on a previous administration of the applicable end-of-course assessment instrument. A student who fails to perform satisfactorily on the assessment instrument designated by the coordinating board under Section 51.334 administered as provided by this subsection may retake that assessment instrument for purposes of this subsection or may take the appropriate end-of-course assessment instrument.

(a-2) The commissioner shall determine a method by which a student's satisfactory performance on an advanced placement test, an international baccalaureate examination, an SAT Subject Test, the SAT, the ACT, or any nationally recognized norm-referenced assessment instrument used by institutions of higher education to award course credit based on satisfactory performance on the assessment instrument shall be used to satisfy the requirements concerning an end-of-course assessment instrument in an equivalent course as prescribed by Subsection (a). The commissioner shall determine a method by which a student's

satisfactory performance on the PSAT or the ACT-Plan shall be used to satisfy the requirements concerning an end-of-course assessment instrument in an equivalent course as prescribed by Subsection (a). A student who fails to perform satisfactorily on a test or other assessment instrument authorized under this subsection, other than the PSAT or the ACT-Plan, may retake that test or other assessment instrument for purposes of this subsection or may take the appropriate end-of-course assessment instrument. A student who fails to perform satisfactorily on the PSAT or the ACT-Plan must take the appropriate end-of-course assessment instrument. The commissioner shall adopt rules as necessary for the administration of this subsection.

(a-3) A student who, after retaking an end-of-course assessment instrument for Algebra I or English II, has failed to perform satisfactorily as required by Subsection (a), but who receives a score of proficient on the Texas Success Initiative (TSI) diagnostic assessment for the corresponding subject for which the student failed to perform satisfactorily on the end-of-course assessment instrument satisfies the requirement concerning the Algebra I or English II end-of-course assessment, as applicable.

(a-4) The admission, review, and dismissal committee of a student in a special education program under Subchapter A, Chapter 29, shall determine whether, to receive a high school diploma, the student is required to achieve satisfactory performance on end-of-course assessment instruments.

(a-5) Notwithstanding Subsection (a), a student who has failed to perform satisfactorily on end-of-course assessment instruments in the manner provided under this section may receive a high school diploma if the student has qualified for graduation under Section 28.0258.

(b) Each time an end-of-course assessment instrument adopted under Section 39.023(c) is administered, a student who failed to achieve a score requirement under Subsection (a) may retake the assessment instrument. A student is not required to retake a course as a condition of retaking an end-of-course assessment instrument.

(b-1) A school district shall provide each student who fails to perform satisfactorily as determined by the commissioner under Section 39.0241(a) on an end-of-course assessment instrument with accelerated instruction under Section 28.0217 in the subject assessed by the assessment instrument.

(b-2) [Repealed by 2015 amendment.]

(c) A student who has been denied a high school diploma under this section and who subsequently performs at the level necessary to comply with the requirements of this section shall be issued a high school diploma.

(c-1) A school district may not administer an assessment instrument required for graduation administered under this section as this section existed:

(1) before September 1, 1999; or

(2) before amendment by Chapter 1312 (S.B. 1031), Acts of the 80th Legislature, Regular Session, 2007.

(c-2) A school district may administer to a student who failed to perform satisfactorily on an assessment instrument described by Subsection (c-1) an alternate assessment instrument designated by the commissioner. The commissioner shall determine the level of performance considered to be satisfactory on an alternate assessment instrument. The district may not administer to the student an assessment instrument or a part of an assessment instrument that assesses a subject that was not assessed in an assessment instrument applicable to the student described by Subsection (c-1). The commissioner shall make available to districts information necessary to administer the alternate assessment instrument authorized by this subsection. The commissioner's determination regarding designation of an appropriate alternate assessment instrument under this subsection and the performance required on the assessment instrument is final and may not be appealed.

(d) Notwithstanding Subsection (a), the commissioner by rule shall adopt one or more alternative nationally recognized norm referenced assessment instruments under this section to administer to a student to qualify for a high school diploma if the student enrolls after January 1 of the school year in which the student is otherwise eligible to graduate:

(1) for the first time in a public school in this state; or

(2) after an absence of at least four years from any public school in this state.

(e) The commissioner shall establish a required performance level for an assessment instrument adopted under Subsection (d) that is at least as rigorous as the performance level required to be met under Subsection (a).

(e-1) Nothing in this section has the effect of prohibiting the administration of an end-of-course assessment instrument listed in Section 39.023(c) to a student enrolled below the high school level who is enrolled in the course for which the assessment instrument is adopted. The commissioner shall adopt rules necessary to ensure that the student's performance on the assessment instrument is considered in the same manner for purposes of this section as the performance of a student enrolled at the high school level.

(f) The commissioner shall by rule adopt a transition plan to implement the amendments made by

Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007, replacing general subject assessment instruments administered at the high school level with end-of-course assessment instruments. The rules must provide for the end-of-course assessment instruments adopted under Section 39.023(c) to be administered beginning with students enrolled in the ninth grade for the first time during the 2011-2012 school year. During the period under which the transition to end-of-course assessment instruments is made:

(1) for students entering a grade above the ninth grade during the 2011-2012 school year or students repeating ninth grade during the 2011-2012 school year, the commissioner shall retain, administer, and use for purposes of accreditation and other campus and district accountability measures under this chapter the assessment instruments required by Section 39.023(a) or (c), as that section existed before amendment by Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007; and

(2) a student subject to Subdivision (1) may not receive a high school diploma unless the student has performed satisfactorily on the SAT, the ACT, the Texas Success Initiative (TSI) diagnostic assessment, or the current assessment instrument or instruments administered for graduation purposes as provided by Subsection (f-1) or on each required assessment instrument administered under Section 39.023(c), as that section existed before amendment by Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007.

(f-1) The commissioner shall establish satisfactory performance levels for the SAT, the ACT, the Texas Success Initiative (TSI) diagnostic assessment, and the current assessment instrument or instruments administered for graduation purposes that are equivalent in rigor to the performance level required to be met under Subsection (a), as that subsection existed before amendment by Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007, that qualify a student subject to Subsection (f)(1) to receive a high school diploma. Notwithstanding Subsection (f), the commissioner is not required after September 1, 2017, to maintain and administer assessment instruments administered under Section 39.023(c), as that section existed before amendment by Chapter 1312 (S.B. No. 1031), Acts of the 80th Legislature, Regular Session, 2007.

(f-2) A school district shall determine which assessment or assessments described by Subsection (f-1) qualify a student subject to Subsection (f)(1) to receive a high school diploma from the district.

(g) Rules adopted under Subsection (f) must require that each student who will be subject to the requirements of Subsection (a) is entitled to notice of the specific requirements applicable to the student. Notice under this subsection must be provided not later than the date the student enters the eighth grade.

#### Sec. 39.026. Local Option

In addition to the assessment instruments adopted by the agency and administered by the State Board of Education, a school district may adopt and administer criterion-referenced or norm-referenced assessment instruments, or both, at any grade level. A norm-referenced assessment instrument

adopted under this section must be economical, nationally recognized, and state-approved.

#### **HISTORY**

(Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

### **Sec. 39.0261. College Preparation Assessments**

(a) In addition to the assessment instruments otherwise authorized or required by this subchapter:

(1) each school year and at state cost, a school district may administer to students in the spring of the eighth grade an established, valid, reliable, and nationally norm-referenced preliminary college preparation assessment instrument for the purpose of diagnosing the academic strengths and deficiencies of students before entrance into high school;

(2) each school year and at state cost, a school district may administer to students in the 10th grade an established, valid, reliable, and nationally norm-referenced preliminary college preparation assessment instrument for the purpose of measuring a student's progress toward readiness for college and the workplace; and

(3) high school students in the spring of the 11th grade or during the 12th grade may select and take once, at state cost:

(A) one of the valid, reliable, and nationally norm-referenced assessment instruments used by colleges and universities as part of their undergraduate admissions processes; or

(B) the assessment instrument designated by the Texas Higher Education Coordinating Board under Section 51.334.

(a-1) Notwithstanding Subsection (a)(3), the commissioner by rule may allow a student to take at state cost an assessment instrument described by that subdivision if circumstances existed that prevented the student from taking the assessment instrument before the student graduated from high school.

(b) The agency shall:

(1) select and approve vendors of the specific assessment instruments administered under this section and negotiate with each approved vendor a price for each assessment instrument; and

(2) provide reimbursement to a school district in the amount negotiated under Subdivision (1) for the administration of the assessment instrument from funds appropriated for that purpose.

(c) The agency shall ensure that a school district is not reimbursed under Subsection (b) for the administration of an assessment instrument to a student to whom the assessment instrument is

not actually administered. The agency may comply with this subsection by any reasonable means, including by creating a refund system under which a school district returns any payment made for a student who registered for the administration of an assessment instrument but did not appear for the administration.

(d) A vendor that administers an assessment instrument for a district under this section shall report the results of the assessment instrument to the agency. The agency shall:

(1) include a student's results on the assessment instrument in the electronic student records system established under Section 7.010; and

(2) ensure that a student and the student's parent receive a report of the student's results on the assessment instrument.

(e) Subsection (a)(3) does not prohibit a high school student from selecting and taking, at the student's own expense, an assessment instrument described by that subdivision.

(f) The provisions of this section regarding assessment instruments administered under Subsection (a)(1) or (2) apply only if the legislature appropriates funds for those purposes.

**Sec. 39.053. Performance Indicators: Achievement**

(a) The commissioner shall adopt a set of indicators of the quality of learning and achievement, including the indicators under Subsection (c). The commissioner periodically shall review the indicators for the consideration of appropriate revisions.

(a-1) The indicators adopted by the commissioner under Subsection (a) must measure and evaluate school districts and campuses with respect to:

(1) improving student preparedness for success in:

(A) subsequent grade levels; and

(B) entering the workforce, the military, or postsecondary education;

(2) reducing, with the goal of eliminating, student academic achievement differentials among students from different racial and ethnic groups and socioeconomic backgrounds; and

(3) informing parents and the community regarding campus and district performance.

(b) Performance on the achievement indicators adopted under Subsection (c) shall be compared to state-established standards. The indicators must be based on information that is disaggregated by race, ethnicity, and socioeconomic status.

(c) School districts and campuses must be evaluated based on three domains of indicators of achievement adopted under this section that include:

(1) in the student achievement domain, indicators of student achievement that must include:

(A) for evaluating the performance of districts and campuses generally:

(i) an indicator that accounts for the results of assessment instruments required under Sections 39.023(a), (c), and (l), as applicable for the district and campus, including the results of assessment instruments required for graduation retaken by a student, aggregated across grade levels by subject area, including:

(a) for the performance standard determined by the commissioner under Section 39.0241(a), the percentage of students who performed satisfactorily on the assessment instruments, aggregated across grade levels by subject area; and

(b) for the college readiness performance standard as determined under Section 39.0241, the percentage of students who performed satisfactorily on the assessment instruments, aggregated across grade levels by subject area; and

(ii) an indicator that accounts for the results of assessment instruments required under Section 39.023(b), as applicable for the district and campus, including the percentage of students who performed satisfactorily on the assessment instruments, as determined by the performance standard adopted by the agency, aggregated across grade levels by subject area; and

(B) for evaluating the performance of high school campuses and districts that include high school campuses, indicators that account for:

(i) students who satisfy the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the Texas Higher Education Coordinating

Board under Section 51.334 on an assessment instrument in reading or mathematics designated by the coordinating board under that section;

(ii) students who satisfy relevant performance standards on advanced placement tests or similar assessments;

(iii) students who earn dual course credits in the dual credit courses;

(iv) students who enlist in the armed forces of the United States or the Texas National Guard;

(v) students who earn industry certifications;

(vi) students admitted into post-secondary industry certification programs that require as a prerequisite for entrance successful performance at the secondary level;

(vii) students whose successful completion of a course or courses under Section 28.014 indicates the student's preparation to enroll and succeed, without remediation, in an entry-level general education course for a baccalaureate degree or associate degree;

(viii) students who successfully met standards on a composite of indicators that through research indicates the student's preparation to enroll and succeed, without remediation, in an entry-level general education course for a baccalaureate degree or associate degree;

(ix) high school graduation rates, computed in accordance with standards and definitions adopted in compliance with the Every Student Succeeds Act ( 20 U.S.C. Section 6301 et seq.) subject to the exclusions provided by Subsections (g), (g-1), (g-2), (g-3), and (g-4);

(x) students who successfully completed an OnRamps dual enrollment course;

(xi) students who successfully completed a practicum or internship approved by the State Board of Education;

(xii) students who are awarded an associate degree; and

(xiii) students who successfully completed a program of study in career and technical education;

(2) in the school progress domain, indicators for effectiveness in promoting student learning, which must include:

(A) for assessment instruments, including assessment instruments under Subdivisions (1)(A)(i) and (ii), the percentage of students who met the standard for improvement, as determined by the commissioner; and

(B) for evaluating relative performance, the performance of districts and campuses compared to similar districts or campuses; and

(3) in the closing the gaps domain, the use of disaggregated data to demonstrate the differentials among students from different racial and ethnic groups, socioeconomic backgrounds, and other factors, including:

(A) students formerly receiving special education services;

(B) students continuously enrolled; and

(C) students who are mobile.

(c-1) An indicator adopted under Subsection (c) that would measure improvements in student achievement cannot negatively affect the commissioner's review of a school district or campus if that district or campus is already achieving at the highest level for that indicator.

(c-2) The commissioner by rule shall determine a method by which a student's performance may be included in determining the performance rating of a school district or campus under Section 39.054 if, before the student graduates, the student:

(1) satisfies the Texas Success Initiative (TSI) college readiness benchmarks prescribed by the Texas Higher Education Coordinating Board under Section 51.334 on an assessment instrument designated by the coordinating board under that section; or

(2) performs satisfactorily on an assessment instrument under Section 39.023(c), notwithstanding Subsection (d) of this section.

(c-3) Any standard for improvement determined by the commissioner as described by Subsection (c)(2)(A) must allow for appropriately crediting a student for growth if the student performs at the highest achievement standard in the previous and current school year.

(d) For purposes of Subsection (c), the commissioner by rule shall determine the period within which a student must retake an assessment instrument for that assessment instrument to be considered in determining the performance rating of the district under Section 39.054.

(d-1) In aggregating results of assessment instruments across grade levels by subject in accordance with Subsection (c)(1)(A)(i), the performance of a student enrolled below the high school level on an assessment instrument required under Section 39.023(c) is included with results

relating to other students enrolled at the same grade level.

(e) For purposes of Subsection (c)(3)(A), a student formerly receiving special education services means a student whose enrollment information:

(1) for the preceding school year, as reported through the Public Education Information Management System (PEIMS), indicates the student was enrolled at the campus and was participating in a special education program; and

(2) for the current school year, as reported through the Public Education Information Management System (PEIMS) and as reported on assessment instruments administered to the student under Section 39.023, indicates the student is enrolled at the campus and is not participating in a special education program.

(f) Annually, the commissioner shall define the state standard for the current school year for each achievement indicator adopted under this section. In consultation with educators, parents, and business and industry representatives, as necessary, the commissioner shall establish and modify standards to continuously improve student performance to achieve the goals of eliminating achievement gaps based on race, ethnicity, and socioeconomic status and to ensure this state is a national leader in preparing students for postsecondary success.

(g) In computing dropout and completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), the commissioner may not consider as a dropout a student whose failure to attend school results from:

(1) the student's expulsion under Section 37.007; and

(2) as applicable:

(A) adjudication as having engaged in delinquent conduct or conduct indicating a need for supervision, as defined by Section 51.03, Family Code; or

(B) conviction of and sentencing for an offense under the Penal Code.

(g-1) In computing dropout and completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), the commissioner shall exclude:

(1) students who are ordered by a court to attend a high school equivalency certificate program but who have not yet earned a high school equivalency certificate;

(2) students who were previously reported to the state as dropouts, including a student who is reported as a dropout, reenrolls, and drops out again, regardless of the number of times of reenrollment and dropping out;

(3) students in attendance who are not in membership for purposes of average daily attendance;

(4) students whose initial enrollment in a school in the United States in grades 7 through 12 was as an unschooled asylee or refugee as defined by Section 39.027(a-1);

(5) students who are detained at a county pre-adjudication or post-adjudication juvenile detention facility and:

(A) in the district exclusively as a function of having been detained at the facility but are otherwise not students of the district in which the facility is located; or

(B) provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility;

(6) students who are incarcerated in state jails and federal penitentiaries as adults and as persons certified to stand trial as adults; and

(7) students who have suffered a condition, injury, or illness that requires substantial medical care and leaves the student:

(A) unable to attend school; and

(B) assigned to a medical or residential treatment facility.

(g-2) In computing completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), the commissioner shall exclude students who:

(1) are at least 18 years of age as of September 1 of the school year as reported for the fall semester Public Education Information Management System (PEIMS) submission and have satisfied the credit requirements for high school graduation;

(2) have not completed their individualized education program under 19 T.A.C. Section 89.1070(b)(2) and the Individuals with Disabilities Education Act ( 20 U.S.C. Section 1400 et seq.); and

(3) are enrolled and receiving individualized education program services.

(g-3) In the computation of dropout and completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), a student who is released from a juvenile pre-adjudication secure detention facility or juvenile post-adjudication secure correctional facility and fails to enroll in school or a student who leaves a residential treatment center after receiving treatment for fewer than 85 days and fails to enroll in school may not be considered to have dropped out from the school district or campus serving the facility or center unless that district or campus is the one to which the student is regularly assigned. The agency may not limit an

appeal relating to dropout computations under this subsection.

(g-4) For purposes of the computation of dropout and completion rates such as high school graduation rates under Subsection (c)(1)(B)(ix), the commissioner shall exclude a student who was reported as having dropped out of school under Section 48.009(b-4), and the student may not be considered to have dropped out from the school district or campus in which the student was last enrolled.

(h) Each school district shall cooperate with the agency in determining whether a student is a dropout for purposes of accreditation and evaluating performance by school districts and campuses under this chapter.

(i) Each school district shall submit the data required for the indicators adopted under this section to the commissioner.

(a) The commissioner shall study the feasibility of incorporating for evaluating school district and campus performance under this subchapter an indicator that accounts for extracurricular and cocurricular student activity. If the commissioner determines that an extracurricular and cocurricular student activity indicator is appropriate, the commissioner may adopt the indicator.

(b) To determine the feasibility of adopting an indicator under this section, the commissioner may require a school district or campus to report requested information relating to extracurricular and cocurricular student activity.

(c) The commissioner may establish an advisory committee to assist in determining the feasibility of incorporating an extracurricular and cocurricular student activity indicator for evaluating school district and campus performance.

(d) Not later than December 1, 2022, the commissioner shall report to the legislature on the feasibility of incorporating an extracurricular and cocurricular student activity indicator, unless the commissioner adopts an indicator under this section before that date.

(a) Notwithstanding any other law, the commissioner shall assign each district and campus a performance rating not later than August 15 of each year.

(b) This section expires September 1, 2016.

#### HISTORY

(Added by Acts 2015, Texas Acts of the 84th Leg. - Regular Session, ch. 1094, Sec. 3, eff. 9/1/2015, op. beginning with the 2015-2016 school year.)

### Sec. 39.054. Methods And Standards For Evaluating Performance

(a) Except as provided by Subsection (a-4), the commissioner shall adopt rules to evaluate school district and campus performance and assign each district and campus an overall performance rating of A, B, C, D, or F. In addition to the overall performance rating, the commissioner shall assign each district and campus a separate domain performance rating of A, B, C, D, or F for each domain under Section 39.053(c). An overall or domain performance rating of A reflects exemplary performance. An overall or domain performance rating of B reflects recognized performance. An overall or domain performance rating of C reflects acceptable performance. An overall or domain performance rating of D reflects performance that needs improvement. An overall or domain performance rating of F reflects unacceptable performance. A district may not receive an overall or domain performance rating of A if the district includes any campus with a corresponding overall or domain performance rating of D or F. If a school district has been approved under Section 4 to assign campus performance ratings and the commissioner has not assigned a campus an overall performance rating of D or F, the commissioner shall assign the campus an overall performance rating based on the school district assigned performance rating under Section 39.0544.

(a-1) For purposes of assigning an overall performance rating for a district or campus under Subsection (a), the commissioner shall:

(1) consider either the district's or campus's performance rating under the student achievement domain under Section 39.053(c) (1) or the school progress domain under Section 39.053(c)(2), whichever performance rating is higher, unless the district or campus received a performance rating of F in either domain, in which case the district or campus may not be assigned a performance rating higher than a B for the composite for the two domains; and

(2) attribute not less than 30 percent of the performance rating to the closing the gaps domain under Section 39.053(c)(3).

(a-2) The commissioner by rule may adopt procedures to ensure that a repeated performance rating

of D or F or unacceptable in one domain, particularly performance that is not significantly improving, is reflected in the overall performance rating of a district or campus under this section or a campus under Section 39.0544 and is not compensated for by a performance rating of A, B, or C in another domain.

(a-3) Not later than August 15 of each year, the following information shall be made publicly available as provided by rules adopted under this section:

- (1) the performance ratings for each school district and campus; and
- (2) if applicable, the number of consecutive school years of unacceptable performance ratings for each district and campus.

(a-4) **[Added by Acts 2021, Texas Acts of the 87th Leg. - Regular Session, ch. 973]** Notwithstanding any other law, the commissioner may assign a school district or campus an overall performance rating of "Not Rated" if the commissioner determines that the assignment of a performance rating of A, B, C, D, or F would be inappropriate because:

- (1) the district or campus is located in an area that is subject to a declaration of a state of disaster under Chapter 418, Government Code, and due to the disaster, performance indicators for the district or campus are difficult to measure or evaluate and would not accurately reflect quality of learning and achievement for the district or campus;
- (2) the district or campus has experienced breaches or other failures in data integrity to the extent that accurate analysis of data regarding performance indicators is not possible;
- (3) the number of students enrolled in the district or campus is insufficient to accurately evaluate the performance of the district or campus; or
- (4) for other reasons outside the control of the district or campus, the performance indicators would not accurately reflect quality of learning and achievement for the district or campus.

(a-5) Notwithstanding any other law, an overall performance rating of "Not Rated" is not included in calculating consecutive school years of unacceptable performance ratings and is not considered a break in consecutive school years of unacceptable performance ratings for purposes of any provision of this code.

(b) For purposes of assigning school districts and campuses an overall and a domain performance rating under Subsection (a), the commissioner shall ensure that the method used to evaluate

performance is implemented in a manner that provides the mathematical possibility that all districts and campuses receive an A rating.

(b-1) Consideration of the effectiveness of district programs under Section 39.052(b)(2)(B) or (C):

(1) must:

(A) be based on data collected through the Public Education Information Management System (PEIMS) for purposes of accountability under this chapter; and

(B) include the results of assessments required under Section 39.023; and

(2) may be based on the results of a special investigation conducted under Section 39.003.

(c) [Repealed by 2017 amendment.]

(d) [Repealed by 2015 amendment.]

(d-1) [Repealed by 2015 amendment.]

(e) Each annual performance review under this section shall include an analysis of the achievement indicators adopted under Section 39.053, including Subsection (c) of that section, to determine school district and campus performance in relation to standards established for each indicator.

(f) [Transferred by 2017 amendment.]

A reference in law to an unacceptable performance rating or unacceptable performance includes an overall or domain performance rating of F. For the purposes of public reporting requirements, an overall or domain performance rating of D shall be referred to as performance that needs improvement.

(b) A reference in law to an acceptable performance rating or acceptable performance for a

school district, open-enrollment charter school, district campus, or charter school campus includes an overall performance rating of D if, since previously receiving an overall performance rating of C or higher, the district, charter school, district campus, or charter school campus:

(B) performance ratings based on locally developed domains or sets of accountability measures;

(2) may permit a district or school to assign weights to each domain or set of accountability measures described in Subdivision (1), as determined by the district or school, provided that the domains specified in Subdivision (1) (A) must in the aggregate account for at least 50 percent of the overall performance rating;

(3) must require that each locally developed domain or set of accountability measures:

(A) contains levels of performance that allow for differentiation, with assigned standards for achieving the differentiated levels;

(B) provides for the assignment of a letter grade of A, B, C, D, or F; and

(C) meets standards for reliability and validity;

(b) The commissioner shall develop a process to approve a request by a school district or open-enrollment charter school to assign campus performance ratings in accordance with this section. Under that process, a district or school must obtain approval of a local accountability plan submitted by the district or school to the agency. A plan may be approved only if:

(1) after review, the agency determines the plan meets the minimum requirements under this section and agency rule;

(2) to which the most recent performance rating assigned, other than a "Not Rated" rating, is a D, F, or performance that needs improvement.

(b) Notwithstanding any other law, the commissioner shall adopt rules to develop and implement alternative methods and standards for evaluating the performance for the 2020-2021 school year of a campus to which this section applies. The rules adopted under this section must evaluate a campus under the domains of indicators of achievement listed in Sections 39.053(c)(1) and (2).

In this subchapter:

- (1) "Parent" includes a guardian or other person having lawful control of a student.
- (2) "System" means a financial accountability rating system developed under this subchapter.

**HISTORY**

(Amended by Acts 2009, 81st Leg., R.S., Ch. 895, Sec. 59, eff. June 19, 2009.)

**Sec. 39.082. Development And Implementation**

(a) The commissioner shall, in consultation with the comptroller, develop and implement separate financial accountability rating systems for school districts and open-enrollment charter schools in this state that:

- (1) distinguish among school districts and distinguish among open-enrollment charter schools, as applicable, based on levels of financial performance;
- (2) include procedures to:
  - (A) provide additional transparency to public education finance; and
  - (B) enable the commissioner and school district and open-enrollment charter school administrators to provide meaningful financial oversight and improvement; and
- (3) include processes for anticipating the future financial solvency of each school district and open-enrollment charter school, including analysis of district and school revenues and expenditures for preceding school years.

(b) The system must include uniform indicators adopted by commissioner rule by which to measure the financial management performance and future

financial solvency of a district or open-enrollment charter school. In adopting indicators under this subsection, the commissioner shall assign a point value to each indicator to be used in a scoring matrix developed by the commissioner. Any reference to a teacher in an indicator adopted by the commissioner under this subsection means a classroom teacher.

(c) The system may not include an indicator under Subsection (b) or any other performance measure that:

- (1) requires a school district to spend at least 65 percent or any other specified percentage of district operating funds for instructional purposes; or
- (2) lowers the financial management performance rating of a school district for failure to spend at least 65 percent or any other specified percentage of district operating funds for instructional purposes.

(c-1) [Effective January 5, 2022] The system may not include an indicator under Subsection (b) or any other performance measure that penalizes a school district for failure to collect the amount of taxes equal to the total amount of tax refunds provided under Section 26.1115(c), Tax Code.

(d) The commissioner shall evaluate indicators adopted under Subsection (b) at least once every three years.

(e) Under the financial accountability rating system developed under this section, each school district or open-enrollment charter school, as applicable, shall be assigned a financial accountability rating. In adopting rules under this section, the commissioner, in consultation with the comptroller, shall determine the criteria for each designated performance rating.

(e-1) The financial performance of a charter school operated by a public institution of higher education under Subchapter D or E, Chapter 12, shall be evaluated using only the indicators adopted under this section determined by the commissioner by rule as appropriate to accurately measure the financial performance of such charter schools.

(f) A district or open-enrollment charter school shall receive the lowest rating under the system if the district or school fails to achieve a satisfactory rating on:

- (1) an indicator adopted under Subsection (b) relating to financial management or solvency that the commissioner determines to be critical; or
- (2) a category of indicators that suggest trends leading to financial distress as determined by the commissioner.

(g) Before assigning a final rating under the system, the commissioner shall assign each district or open-enrollment charter school a preliminary

rating. A district or school may submit additional information to the commissioner relating to any indicator on which performance was considered unsatisfactory. The commissioner shall consider any additional information submitted by a district or school before assigning a final rating. If the commissioner determines that the additional information negates the concern raised by the indicator on which performance was considered unsatisfactory, the commissioner may not penalize the district or school on the basis of the indicator.

(h) The commissioner shall adopt rules for the implementation of this section.

(h-1) The commissioner shall adopt initial rules necessary to implement the changes to this section made by the 83rd Legislature, Regular Session, 2013, not later than March 1, 2015. This subsection expires April 1, 2015.

(i) Not later than August 8 of each year, the financial accountability rating of each school district and open-enrollment charter school under the financial accountability rating system developed under this section shall be made publicly available as provided by rules adopted under this section.

(a) From amounts appropriated for this subchapter, the commissioner may administer a grant program that provides grants to school districts to defray financial hardships resulting from changes made to Chapter 41 and this chapter that apply after the 2016-2017 school year.

(b) The commissioner shall award grants under this subchapter to districts as provided by Section 42.452.

(c) Except as provided by Subsection (d), funding provided to a district under this subchapter is in addition to all other funding provided under Chapter 41 and this chapter.

(d) A district is not eligible for funding under this subchapter for a school year if the district receives for that school year an adjustment of the district's taxable value of property under Section 42.2521. A district may decline an adjustment under Section 42.2521 to maintain eligibility for funding under this subchapter.

(e) The commissioner may obtain additional information as needed from a district or other state or local agency to make determinations in awarding grants under this subchapter.

**HISTORY**

(Added by Acts 2017SP1, 2017, ch. 8, Sec. 6, eff. 11/14/2017.)

**Sec. 42.452. Award Of Grants; Amount**

(a) The commissioner shall award grants to school districts based on the following formula:

$$HG = (PL-CL) \times (TR) \times (TAHG/TEHG)$$

where:

"HG" is the amount of a district's hardship grant;

"PL" is the amount of funding under previous law to which a district would be entitled under Chapter 41 and this chapter as those chapters existed on January 1, 2017, determined using current school year data for the district;

"CL" is the amount of current law funding under Chapter 41 and this chapter to which a district is entitled;

"TR" is a district's maintenance and operations tax rate, as specified by the comptroller's most recent certified report;

"TAHG" is the total funding available for grants under Section 42.456 for a school year; and

"TEHG" is the sum of the combined amounts for all districts calculated by applying the formula  $(PL-CL) \times (TR)$  for each district.

(b) A school district's hardship grant awarded under this subchapter for a school year may not exceed the lesser of:

(1) the amount equal to 10 percent of the total amount of funds available for grants under this subchapter for that school year; or

(2) the amount by which "PL" exceeds "CL" for that district for that school year.

(c) For purposes of calculating the formula under Subsection (a), the commissioner shall:

(1) in determining the values of "PL" and "CL" for a school district, exclude the amount of revenue received by the district as a result of Section 13.054 or an administrative rule related to that section;

(2) if the value of (PL-CL) for a school district results in a negative number, use zero for the value of (PL-CL);

(3) if a school district's maintenance and operations tax rate ("TR") is greater than \$1, use \$1 for the value of "TR";

(4) use a maintenance and operations tax rate ("TR") of \$1 for each open-enrollment charter school, each special-purpose school district established under Subchapter H, Chapter 11, and the South Texas Independent School District; and

(5) if (TAHG/TEHG) equals a value greater than one, use a value of one for (TAHG/TEHG).

(d) If funds remain available under this subchapter for a school year after determining initial grant amounts under Subsection (a), as adjusted to reflect the limits imposed by Subsection (b), the commissioner shall reapply the formula as necessary to award all available funds.

(e) If the commissioner reapplies the formula in accordance with Subsection (d), a school district that was ineligible under Section 42.455 for a grant during the initial application of the formula for that school year is eligible to receive a grant as a result of the formula reapplication.

(A) exhaust all legal remedies in collecting delinquent taxes; and

(B) levy a tax at the maximum lawful rate on the bona fide valuation of taxable property located in the district.

(b) Revenue collected by either method specified by Subsection (a) shall be distributed proportionately to all owners of the defaulted securities in compliance with the following:

(b) Application must be made to the State Board of Education by the district that issued the bonds and must show that:

(1) delinquent interest totals at least 50 percent of the principal amount of the bonds; and

(2) taxable valuation has decreased to such an extent that a full application of the proceeds of the voted authorized tax authorized to be levied on the \$100 taxable property valuation will not meet interest and principal annually maturing on the bonds.

(c) The State Board of Education may effect a refunding of the debt due and to become due only if the board finds that:

(1) the district is unable to pay the sums already matured and the sums contracted to be paid as they mature by paying annually to the State Board of Education the full proceeds of a 50-cent tax levy on the \$100 of all taxable valuation of property in the district;

(2) the taxable valuation of property in the district has decreased at least 75 percent since the bonds were issued and that the decrease was not caused by the district or any of its officials;

(3) the district for a period of at least five years before applying to the State Board of Education for refunding has levied a tax of 50 cents on the \$100 of taxable valuation of property in the district, and that despite such levies, the aggregate amount due the State Board of Education exceeds the aggregate amount due at the beginning of the period;

(4) the district has not authorized and sold additional bonds during the five-year period immediately preceding the application; and

(5) the district has in good faith endeavored to pay its debt in accordance with the contract evidenced by the bonds held for the account of the permanent school fund or the available school fund.

(1) the principal amount of the refunding bonds may not be less than the total amount of the bonds, matured interest coupons, accrued interest, and interest on delinquent interest then actually due to the permanent school fund or the available school fund; and

(2) the rate of interest to be borne by the refunding bonds may be lower than that borne by the bonds to be refunded if in consideration of the interest reduction the district agrees to levy a tax each year for a period of 40 years at a rate sufficient to produce annually a sum equal to 90 percent of the amount that can be calculated by the levy of a tax at the rate of 50 cents on the \$100 of taxable valuation of property as determined by the latest approved tax roll of the district, and in determining the rate of interest to be borne by the refunding bonds, the State Board of Education shall be governed by the following:

(A) the State Board of Education may require the rate to be a percent per annum as in its judgment will represent the

maximum rate that can be paid by the district and still permit an orderly and certain retirement of the refunding bonds within 40 years from their date;

(B) the interest rate of refunding bonds to be received in exchange for bonds owned by the permanent school fund may not be less than the minimum rate at which bonds may then be purchased as investments for the permanent school fund; and

(C) the rate of interest of refunding bonds to be received in exchange for bonds owned by the available school fund may be set by the State Board of Education at any rate the board considers feasible, and the refunding bonds may, at the discretion of the State Board of Education, be made non-interest bearing to a date fixed by the board.

(e) The State Board of Education may not make a revision, readjustment, modification, refinancing, or refunding that will release or extinguish any debt or obligation then due and payable to the permanent school fund or to the available school fund.

(f) Except as otherwise provided or permitted by this section, the refunding of the bonds of school districts authorized by this section must be in compliance with the general provisions with regard to the refunding of school district bonds.

(b) In this section, "defaulted obligations" includes delinquent interest whether represented by coupons or not, interest on delinquent interest, and any other form of obligation due the available school fund.

(c) The obligor must apply to the State Board of Education and show:

(1) that the obligations due the available school fund have been in default in whole or in part for a continuous period of at least 15 years; and

(2) that the obligor is not in default in the payment of the principal of any bonds owned by the permanent school fund.

(d) If the State Board of Education finds that the requirements provided by Subsection (c) have been met, it may approve a refinancing or the issuance of refunding bonds on the conditions:

(1) that the refunding bonds must mature serially in not exceeding 40 years from the date of issuance;

(2) that the principal amount of the refunding bonds may be not less than the total amount of the obligations then in default and due the available school fund; and

(3) that the refunding bonds must bear interest at a rate or rates determined by the State Board of Education to be for the best interest of the available school fund.

(e) The State Board of Education may accept refunding bonds in lieu of either matured or unmatured bonds held for the benefit of the permanent school fund if the rate of interest on the new refunding bonds is at least the same rate as that of the bonds being refunded.

Notice under this subsection shall be published not earlier than the 30th day or later than the 10th day before the date of the hearing.

(c) The notice of public meeting to discuss and adopt the budget and the proposed tax rate may not be smaller than one-quarter page of a standard-size or a tabloid-size newspaper, and the headline on the notice must be in 18-point or larger type. Subject to Subsection (d), the notice must:

- (1) contain a statement in the following form:

**"NOTICE OF PUBLIC MEETING TO DISCUSS BUDGET AND PROPOSED TAX RATE**

"The (name of school district) will hold a public meeting at (time, date, year) in (name of room, building, physical location, city, state). The purpose of this meeting is to discuss the school district's budget that will determine the tax rate that will be adopted. Public participation in the discussion is invited." The statement of the purpose of the meeting must be in bold type. In reduced type, the notice must state: "The tax rate that is ultimately adopted at this meeting or at a separate meeting at a later date may not exceed the proposed rate shown below unless the district publishes a revised notice containing the same information and comparisons set out below and holds another public meeting to discuss the revised notice." In addition, in reduced type, the notice must state: "Visit [Texas.gov/PropertyTaxes](http://Texas.gov/PropertyTaxes) to find a link to your local property tax database on which you can easily access information regarding your property taxes, including information about proposed tax rates and scheduled public hearings of each entity that taxes your property.";

(2) contain a section entitled "Comparison of Proposed Budget with Last Year's Budget," which must show the difference, expressed as a percent increase or decrease, as applicable, in the amounts budgeted for the preceding fiscal year and the amount budgeted for the fiscal year that begins in the current tax year for each of the following:

- (A) maintenance and operations;
- (B) debt service; and
- (C) total expenditures;

(3) contain a section entitled "Total Appraised Value and Total Taxable Value," which must show the total appraised value and the total taxable value of all property and the total appraised value and the total taxable value of new property taxable by the district in the preceding tax year and the current tax year as calculated under Section 26.04, Tax Code;

(4) contain a statement of the total amount of the outstanding and unpaid bonded indebtedness of the school district;

(5) contain a section entitled "Comparison of Proposed Rates with Last Year's Rates," which must:

for columns entitled "Maintenance & Operations," "Interest & Sinking Fund," and "Total," which is the sum of "Maintenance & Operations" and "Interest & Sinking Fund":

(i) the school district's "Last Year's Rate";

(ii) the "Rate to Maintain Same Level of Maintenance & Operations Revenue & Pay Debt Service," which:

(a) in the case of "Maintenance & Operations," is the tax rate that, when applied to the current taxable value for the district, as certified by the chief appraiser under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, would impose taxes in an amount that, when added to state funds to be distributed to the district under Chapter 48, would provide the same amount of maintenance and operations taxes and state funds distributed under Chapter 48 per student in average daily attendance for the applicable school year that was available to the district in the preceding school year; and

(b) in the case of "Interest & Sinking Fund," is the tax rate that, when applied to the current taxable value for the district, as certified by the chief appraiser under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, and when multiplied by the district's anticipated collection rate, would impose taxes in an amount that, when added to state funds to be distributed to the district under Chapter 46 and any excess taxes collected to service the district's debt during the preceding tax year but not used for that purpose during that year, would provide the amount required to service the district's debt; and

(iii) the "Proposed Rate";

(B) contain fourth and fifth columns aligned with the columns required by Paragraph (A) that show, for each row required by Paragraph (A):

(i) the "Local Revenue per Student," which is computed by multiplying the district's total taxable value of property, as certified by the chief appraiser for the applicable school year under Section 26.01, Tax Code, and as adjusted to reflect changes made by the chief appraiser as of the time the notice is prepared, by the total tax rate, and dividing the product by the number of students in average daily attendance in the district for the applicable school year; and

(ii) the "State Revenue per Student," which is computed by determining

the amount of state aid received or to be received by the district under Chapters 43, 46, and 48 and dividing that amount by the number of students in average daily attendance in the district for the applicable school year; and

(C) contain an asterisk after each calculation for "Interest & Sinking Fund" and a footnote to the section that, in reduced type, states "The Interest & Sinking Fund tax revenue is used to pay for bonded indebtedness on construction, equipment, or both. The bonds, and the tax rate necessary to pay those bonds, were approved by the voters of this district.";

(6) contain a section entitled "Comparison of Proposed Levy with Last Year's Levy on Average Residence," which must:

(A) show in rows the information described by Subparagraphs (i)-(iv), rounded to the nearest dollar, for columns entitled "Last Year" and "This Year":

(i) "Average Market Value of Residences," determined using the same group of residences for each year;

(ii) "Average Taxable Value of Residences," determined after taking into account the limitation on the appraised value of residences under Section 23.23, Tax Code, and after subtracting all homestead exemptions applicable in each year, other than exemptions available only to disabled persons or persons 65 years of age or older or their surviving spouses, and using the same group of residences for each year;

(iii) "Last Year's Rate Versus Proposed Rate per \$100 Value"; and

(iv) "Taxes Due on Average Residence," determined using the same group of residences for each year; and

(B) contain the following information: "Increase (Decrease) in Taxes" expressed in dollars and cents, which is computed by subtracting the "Taxes Due on Average Residence" for the preceding tax year from the "Taxes Due on Average Residence" for the current tax year;

(7) contain the following statement in bold print: "Under state law, the dollar amount of school taxes imposed on the residence of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the

amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value.";

(8) contain the following statement in bold print: "Notice of Voter-Approval Rate: The highest tax rate the district can adopt before requiring voter approval at an election is (the school district voter-approval rate determined under Section 26.08, Tax Code). This election will be automatically held if the district adopts a rate in excess of the voter-approval rate of (the school district voter-approval rate)."; and

(9) contain a section entitled "Fund Balances," which must include the estimated amount of interest and sinking fund balances and the estimated amount of maintenance and operation or general fund balances remaining at the end of the current fiscal year that are not encumbered with or by corresponding debt obligation, less estimated funds necessary for the operation of the district before the receipt of the first payment under Chapter 48 in the succeeding school year.

(c-1) The notice described by Subsection (c) must state in a distinct row or on a separate or individual line for each of the following taxes:

(1) the proposed rate of the school district's maintenance tax described by Section 45.003, under the heading "Maintenance Tax"; and

(2) if the school district has issued ad valorem tax bonds under Section 45.001, the proposed rate of the tax to pay for the bonds, under the heading "School Debt Service Tax Approved by Local Voters."

(c-2) The notice described by Subsection (c) must include a statement that a school district may not increase the district's maintenance and operations tax rate to create a surplus in maintenance and operations tax revenue for the purpose of paying the district's debt service.

(d) The comptroller shall prescribe the language and format to be used in the part of the notice required by Subsection (c). A notice under Subsection (c) is not valid if it does not substantially conform to the language and format prescribed by the comptroller under this subsection.

(e) A person who owns taxable property in a school district is entitled to an injunction restraining the collection of taxes by the district if the district has not complied with the requirements of Subsections (b), (c), (c-1), (c-2), and (d), and, if applicable, Subsection (i), and the failure to comply was not in good faith. An action to enjoin the collection of taxes must be filed before the date the district delivers substantially all of its tax bills.

(f) The board of trustees, at the meeting called for that purpose, shall adopt a budget to cover all

expenditures for the school district for the next succeeding fiscal year. Any taxpayer of the district may be present and participate in the meeting.

(g) The budget must be adopted before the adoption of the tax rate for the tax year in which the fiscal year covered by the budget begins.

(g-1) If the rate calculated under Subsection (c) (5)(A)(ii)(b) decreases after the publication of the notice required by this section, the president is not required to publish another notice or call another meeting to discuss and adopt the budget and the proposed lower tax rate.

(h) Notwithstanding any other provision of this section, a school district with a fiscal year beginning July 1 may use the certified estimate of the taxable value of district property required by Section 26.01(e), Tax Code, in preparing the notice required by this section if the district does not receive on or before June 7 the certified appraisal roll for the district required by Section 26.01(a), Tax Code.

(i) A school district that uses a certified estimate, as authorized by Subsection (h), may adopt a budget at the public meeting designated in the notice prepared using the estimate, but the district may not adopt a tax rate before the district receives the certified appraisal roll for the district required by Section 26.01(a), Tax Code. After receipt of the certified appraisal roll, the district must publish a revised notice and hold another public meeting before the district may adopt a tax rate that exceeds:

- (1) the rate proposed in the notice prepared using the estimate; or
- (2) the district's voter-approval rate determined under Section 26.08, Tax Code, using the certified appraisal roll.

(j) Notwithstanding Subsections (g), (h), and (i), a school district may adopt a budget after the district adopts a tax rate for the tax year in which the fiscal year covered by the budget begins if the district elects to adopt a tax rate before receiving the certified appraisal roll for the district as provided by Section 26.05(g), Tax Code. If a school district elects to adopt a tax rate before adopting a budget, the district must publish notice and hold a meeting for the purpose of discussing the proposed tax rate as provided by this section. Following adoption of the tax rate, the district must publish notice and hold another public meeting before the district may adopt a budget. The comptroller shall prescribe the language and format to be used in the notices. The school district may use the certified estimate of taxable value in preparing a notice under this subsection.

- (2) the reputation of the vendor and of the vendor's goods or services;
- (3) the quality of the vendor's goods or services;
- (4) the extent to which the goods or services meet the district's needs;

(5) the vendor's past relationship with the district;

(6) the impact on the ability of the district to comply with laws and rules relating to historically underutilized businesses;

(7) the total long-term cost to the district to acquire the vendor's goods or services;

(A) has its principal place of business in this state; or

(B) employs at least 500 persons in this state; and

(9) any other relevant factor specifically listed in the request for bids or proposals.

(b-1) In awarding a contract by competitive sealed bid under this section, a school district that has its central administrative office located in a municipality with a population of less than 250,000 may consider a bidder's principal place of business in the manner provided by Section 271.9051, Local Government Code. This subsection does not apply to the purchase of telecommunications services or information services, as those terms are defined by 47 U.S.C. Section 153.

(c) The state auditor may audit purchases of goods or services by the district.

(d) The board of trustees of the district may adopt rules and procedures for the acquisition of goods or services.

If there is not a newspaper in

that county, the advertising shall be published in a newspaper in the county nearest the county seat of the county in which the district's central administrative office is located. In a two-step procurement process, the time and place where the second-step bids, proposals, or responses will be received are not required to be published separately.

(h) [As amended by Acts 1999, 76th Leg., ch. 922, Sec. 1] If school equipment, a school facility, or a portion of a school facility is destroyed, severely damaged, or experiences a major unforeseen operational or structural failure, and the board of trustees determines that the delay posed by the contract methods required by this section would prevent or substantially impair the conduct of classes or other essential school activities, then contracts for the replacement or repair of the equipment, school facility, or portion of the school facility may be made by a method other than the methods required by this section.

(h) [As amended by Acts 1999, 76th Leg., ch. 1225, Sec. 1] If school equipment or a part of a school facility or personal property is destroyed or severely damaged or, as a result of an unforeseen catastrophe or emergency, undergoes major operational or structural failure, and the board of trustees determines that the delay posed by the methods provided for in this section would prevent or substantially impair the conduct of classes or other essential school activities, then contracts for the replacement or repair of the equipment or the part of the school facility may be made by methods other than those required by this section.

**Sec. 44.901. Energy Savings Performance Contracts**

(a) In this section, "energy savings performance contract" has the meaning assigned by Section 302.001, Local Government Code.

(b) Repealed by Acts 2009, 81st Leg., R.S., Ch. 1347, Sec. 5, eff. June 19, 2009.

(c) Each energy or water conservation measure must comply with current local, state, and federal construction, plumbing, and environmental codes and regulations. Notwithstanding Subsection (a), an energy savings performance contract may not include improvements or equipment that allow or cause water from any condensing, cooling, or industrial process or any system of nonpotable usage over which the public water supply system officials do not have sanitary control, to be returned to the potable water supply.

(d) The board may enter into energy savings performance contracts only with persons who are experienced in the design, implementation, and installation of the energy or water conservation measures addressed by the contract.

(e) Before entering into an energy savings performance contract, the board shall require the provider of the energy or water conservation measures to file with the board a payment and performance bond relating to the installation of the measures in accordance with Chapter 2253, Government Code. The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

(f) An energy savings performance contract may be financed:

(1) under a lease/purchase contract that has a term not to exceed 20 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing;

(2) with the proceeds of bonds; or

(3) under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years

from the final date of installation or the average useful life of the energy or water conservation or usage measures.

(f-1) Notwithstanding other law, the board may use any available money to pay the provider of the energy or water conservation measures under this section, and the board is not required to pay for such costs solely out of the savings realized by the school district under an energy savings performance contract. The board may contract with the provider to perform work that is related to, connected with, or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

(g) An energy savings performance contract shall contain provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the school district under the contract. If the term of an energy savings performance contract exceeds one year, the school district's contractual obligations in any one year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures, as determined by the school district in this subsection, divided by the number of years in the contract term.

(h) An energy savings performance contract shall be let according to the procedures established for procuring certain professional services by Section 2254.004, Government Code. Notice of the request for qualifications shall be published in the manner provided for competitive bidding.

(i) Before entering into an energy savings performance contract, the board must require that the cost savings projected by an offeror be reviewed by a licensed professional engineer who has a minimum of three years of experience in energy calculation and review, is not an officer or employee of an offeror for the contract under review, and is not otherwise associated with the contract. In conducting the review, the engineer shall focus primarily on the proposed improvements from an engineering perspective, the methodology and calculations related to cost savings, increases in revenue, and, if applicable, efficiency or accuracy of metering equipment. An engineer who reviews a contract shall maintain the confidentiality of any proprietary information the engineer acquires while reviewing the contract. Sections 1001.053 and 1001.407, Occupations Code, apply to work performed under the contract.

(j) Chapter 2269, Government Code, does not apply to this section.

(a) The board of trustees of a school district shall establish a long-range energy plan to reduce the district's annual electric consumption by five percent beginning with the 2008 state fiscal year and consume electricity in subsequent fiscal years in accordance with the district's energy plan.

(b) The plan required under Subsection (a) must include:

(1) strategies for achieving energy efficiency that:

(A) result in net savings for the district; or

(B) can be achieved without financial cost to the district; and

(2) for each strategy identified under Subdivision (1), the initial, short-term capital costs and lifetime costs and savings that may result from implementation of the strategy.

(b-1) For purposes of Subsection (b), a strategy for achieving energy efficiency includes facility design and construction.

(c) In determining under Subsection (b) whether a strategy may result in financial cost to the district, the board of trustees shall consider the total net costs and savings that may occur over the seven-year period following implementation of the strategy.

(d) The board of trustees may submit the plan required under Subsection (a) to the State Energy Conservation Office for the purposes of determining whether funds available through loan programs administered by the office or tax incentives administered by the state or federal government are available to the district. (b) A district to which this section applies may, in the issuance of bonds as provided by Sections 45.001 and 45.003(b)(1), exercise the powers granted to the governing body of an issuer with regard to the issuance of obligations and execution of credit agreements under Chapter 1371, Government Code.

(c) A proposition to issue bonds to which this section applies must, in addition to meeting the requirements of Section 45.003(b)(1), include the question of whether the governing board or commissioners court may levy, pledge, assess, and collect annual ad valorem taxes, on all taxable property in the district, sufficient, without limit as to rate or amount, to pay the principal of and interest on the bonds and the costs of any credit agreements executed in connection with the bonds.

(d) A district may not issue bonds to which this section applies in an amount greater than the greater of:

### Sec. 45.002. Maintenance Taxes

The governing board of an independent school district, including the city council or commission that has jurisdiction over a municipally controlled independent school district, the governing board of a rural high school district, and the commissioners court of a county, on behalf of each common school district under its jurisdiction, may levy, assess, and collect annual ad valorem taxes for the further maintenance of public schools in the district, subject to Section 45.003.

#### HISTORY

(Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

### Sec. 45.0021. Restriction On Maintenance Tax Levy

(a) A school district may not levy the district's maintenance taxes described by Section 45.002 at a rate intended to create a surplus in maintenance tax revenue for the purpose of paying the district's debt service.

(b) A person who owns taxable property in a school district is entitled to an injunction restraining the collection of taxes by the district if the district adopts a maintenance tax rate in violation of Subsection (a). An action to enjoin the collection of taxes must be filed before the date the district delivers substantially all of the district's tax bills.

(c) The agency shall:

(1) develop a method to identify school districts that may have adopted a maintenance tax rate in violation of Subsection (a), which must include a review of data over multiple years;

(2) for each school district identified under the method developed under Subdivision (1), investigate as necessary to determine whether the district has adopted a maintenance tax rate in violation of Subsection (a);

(3) if the agency determines that a school district has adopted a maintenance tax rate in violation of Subsection (a):

(A) order the district to comply with Subsection (a) not later than three years after the date of the order; and

(B) assist the district in developing a corrective action plan that, to the extent feasible, does not result in a net increase in the district's total tax rate; and

(4) post on the agency's Internet website a list of each school district the agency has determined to have adopted a maintenance tax rate in violation of Subsection (a).

(d) The implementation of a corrective action plan under Subsection (c)(3)(B) does not prohibit a school district from increasing the district's total tax rate as necessary to achieve other legal purposes.

(e) If a school district fails to take action under a corrective action plan developed under Subsection (c)(3)(B), the commissioner may reduce the district's entitlement under Chapter 48 by an amount equal to the difference between:

(1) the amount of state and local funding the district received as a result of adopting a maintenance tax rate in violation of Subsection (a); and

(2) the amount of state and local funding the district would have received if the district had not adopted a maintenance tax rate in violation of Subsection (a).

(f) This section does not prohibit a school district from:

(1) using a surplus in maintenance tax revenue to pay the district's debt service if:

(A) the district's interest and sinking fund tax revenue is insufficient to pay the district's debt service due to circumstances beyond the district's control; and

(B) the use of the surplus maintenance tax revenue to pay the district's debt service is necessary to prevent a default on the district's debt;

(2) paying a portion of the district's maintenance tax revenue into the tax increment fund for a reinvestment zone under Chapter 311, Tax Code; or

(3) using money disbursed from the tax increment fund for a reinvestment zone under Chapter 311, Tax Code, in accordance with the agreement entered into by the district with the governing body of the municipality or county that designated the zone under Section 311.013(f) of that code.

### Sec. 45.003. Bond And Tax Elections

(a) Bonds described by Section 45.001 may not be issued and taxes described by Section 45.001 or 45.002 may not be levied unless authorized by a majority of the qualified voters of the district, voting at an election held for that purpose, at the expense of the district, in accordance with the Election Code, except as provided by this section. Each election must be called by resolution or order of the governing board or commissioners court. The

resolution or order must state the date of the election, the proposition or propositions to be submitted and voted on, the polling place or places, and any other matters considered necessary or advisable by the governing board or commissioners court.

(b) A proposition submitted to authorize the issuance of bonds must include the question of whether the governing board or commissioners court may levy, pledge, assess, and collect annual ad valorem taxes, on all taxable property in the district, either:

(1) sufficient, without limit as to rate or amount, to pay the principal of and interest on the bonds; or

(2) sufficient to pay the principal of and interest on the bonds, provided that the annual aggregate bond taxes in the district may never be more than the rate stated in the proposition.

(b-1) The ballot proposition under Subsection (b) must include the following statement: "THIS IS A PROPERTY TAX INCREASE."

(c) If bonds are ever voted in a district pursuant to Subsection (b)(1), then all bonds thereafter proposed must be submitted pursuant to that subsection, and Subsection (b)(2) does not apply to the district.

(d) A proposition submitted to authorize the levy of maintenance taxes must include the question of whether the governing board or commissioners court may levy, assess, and collect annual ad valorem taxes for the further maintenance of public schools, at a rate not to exceed the rate stated in the proposition. For any year, the maintenance tax rate per \$100 of taxable value adopted by the district may not exceed the rate equal to the sum of \$0.17 and the district's maximum compressed rate, as determined under Section 48.2551.

(d-1) Except as otherwise provided by this subsection or Section 26.08(a-1), Tax Code, if the voter-approval tax rate of a school district under Section 26.08(n), Tax Code, excluding the district's current debt rate under Section 26.08(n)(1)(C), Tax Code, for the 2019 tax year is equal to or exceeds \$0.97 per \$100 of taxable value, the district may not adopt a maintenance and operations tax rate for the 2019 tax year that exceeds the district's voter-approval rate, excluding the district's current debt rate under Section 26.08(n)(1)(C), Tax Code. A school district that, before January 1, 2019, adopted a strategic plan through action taken by the board of trustees in a public meeting that proposed a maintenance and operations tax rate for the 2019 tax year that exceeds the rate permitted under this subsection may, subject

to voter approval, adopt the rate proposed in the plan minus the amount by which the district is required to reduce the district's enrichment tax rate under Section 48.202(f). This subsection expires September 1, 2020.

(e) A rate that exceeds the maximum rate specified by Subsection (d) for the year in which the tax is to be imposed is void. A school district with a tax rate that is void under this subsection may, subject to requirements imposed by other law, adopt a rate for that year that does not exceed the maximum rate specified by Subsection (d) for that year.

(f) Notwithstanding any other law, a district that levied a maintenance tax for the 2005 tax year at a rate greater than \$1.50 per \$100 of taxable value in the district as permitted by special law may not levy a maintenance tax at a rate that exceeds the rate per \$100 of taxable value that is equal to the sum of:

(1) \$0.17; and

(2) the product of 66.67 percent multiplied by the rate of the maintenance tax levied by the district for the 2005 tax year, minus the amount by which \$1.00 exceeds the product of the state compression percentage, as determined under Section 48.255, multiplied by \$1.00.

(g) Notwithstanding Section 1251.052, Government Code, the question of whether to approve the issuance of bonds for the construction, acquisition, and equipment of school buildings in the district, the purchase of new school buses, and the purchase of necessary sites for school buildings may be submitted to the voters in a single ballot proposition, except that bonds for each of the following purposes must be stated in a separate proposition:

(1) the construction, acquisition, or equipment of a stadium with seating capacity for more than 1,000 spectators;

(2) the construction, acquisition, or equipment of a natatorium;

(3) the construction, acquisition, or equipment of another recreational facility other than a gymnasium, playground, or play area;

(4) the construction, acquisition, or equipment of a performing arts facility;

(5) the construction, acquisition, or equipment of housing for teachers as determined by the district to be necessary to have a sufficient number of teachers for the district; and

#### **Sec. 45.0031. Limitation On Issuance Of Tax-Supported Bonds**

(a) Before issuing bonds described by Section 45.001, a school district must demonstrate to the attorney general under Subsection (b) or (c) that, with respect to the proposed issuance, the district has a projected ability to pay the principal of and interest on the proposed bonds and all previously issued bonds other than bonds authorized to be issued at an election held on or before April 1, 1991, and issued before September 1, 1992, from a tax at a rate not to exceed \$0.50 per \$100 of valuation.

(b) A district may demonstrate the ability to comply with Subsection (a) by using the most recent taxable value of property in the district, combined with state assistance to which the district is entitled under Chapter 46 or 48 that may be lawfully used for the payment of bonds.

(c) A district may demonstrate the ability to comply with Subsection (a) by using a projected future taxable value of property in the district anticipated for the earlier of the tax year five years after the current tax year or the tax year in which the final payment is due for the bonds submitted to the attorney general, combined with state assistance

to which the district is entitled under Chapter 46 or 48 that may be lawfully used for the payment of bonds. The district must submit to the attorney general a certification of the district's projected taxable value of property that is prepared by a registered professional appraiser certified under Chapter 1151, Occupations Code, who has demonstrated professional experience in projecting taxable values of property or who can by contract obtain any necessary assistance from a person who has that experience. To demonstrate the professional experience required by this subsection, a registered professional appraiser must provide to the district written documentation relating to two previous projects for which the appraiser projected taxable values of property. Until the bonds submitted to the attorney general are approved or disapproved, the district must maintain the documentation and on request provide the documentation to the attorney general or comptroller. The certification of the district's projected taxable value of property must be signed by the district's superintendent. The attorney general must base a determination of whether the district has complied with Subsection (a) on a taxable value of property that is equal to 90 percent of the value certified under this subsection.

(d) A district that demonstrates to the attorney general that the district's ability to comply with Subsection (a) is contingent on receiving state assistance may not adopt a tax rate for a year for purposes of paying the principal of and interest on the bonds unless the district credits to the account of the interest and sinking fund of the bonds the amount of state assistance equal to the amount needed to demonstrate compliance and received or to be received in that year.

(e) If a district demonstrates to the attorney general the district's ability to comply with Subsection (a) using a projected future taxable value of property under Subsection (c) and subsequently imposes a tax to pay the principal of and interest on bonds to which Subsection (a) applies at a rate that exceeds the limit imposed by Subsection (a), the attorney general may not approve a subsequent issuance of bonds unless the attorney general finds that the district has a projected ability to pay the principal of and interest on the proposed bonds and all previously issued bonds to which Subsection (a) applies from a tax at a rate not to exceed \$0.45 per \$100 of valuation.

### Sec. 45.0032. Components Of Maintenance And Operations Tax

(a) A school district's tier one maintenance and operations tax rate is the number of cents levied by the district for maintenance and operations that does not exceed the maximum compressed rate, as determined under Section 48.2551.

(b) A district's enrichment tax rate consists of:

(1) any cents of additional maintenance and operations tax effort, not to exceed eight cents over the maximum tax rate described by Subsection (a); and

(2) any cents of additional maintenance and operations tax effort that exceeds the sum of the maximum tax rate described by Subsection (a) and the maximum number of cents permitted under Subdivision (1).

(c) For a district to which Section 45.003(f) applies, any cents of maintenance and operations tax effort that exceeds the maximum rate permitted under Section 45.003(d) are not included in the district's tier one maintenance and operations tax rate under Subsection (a) or the district's enrichment tax rate under Subsection (b), and the district is not entitled to the guaranteed yield amount of state funds under Section 48.202 for those cents of tax effort.

(d) For a district to which Section 26.042(e), Tax Code, applies, the amount by which the district's maintenance tax rate exceeds the district's voter-approval tax rate, excluding the district's current debt rate under Section 26.08(n)(3), Tax Code, for the preceding year is not considered in determining a district's tier one maintenance and operations tax rate under Subsection (a) or the district's enrichment tax rate under Subsection (b) for the current tax year.

### Sec. 45.004. Refunding Bonds

(a) In this section:

(1) "Bond" includes a note or other evidence of indebtedness.

(2) "Total debt service" means the amount of principal and unpaid interest on a bond to final maturity.

(b) Each governing board or commissioners court described by Section 45.001 may refund or refinance all or any part of any of the district's outstanding bonds and matured or unmatured but unpaid interest on those bonds payable from ad

valorem taxes by issuing refunding bonds payable from ad valorem taxes.

(c) A series or issue of refunding bonds may not be issued unless:

(1) the total debt service on the refunding bonds will amount to less than the total debt service on the bonds being refunded;

(2) if a maximum interest rate was voted for the bonds being refunded, the refunding bonds do not bear interest at a rate higher than that maximum rate; and

(3) the refunding bonds are payable from taxes of the same nature as those pledged to the payment of the obligations being refunded.

(d) Refunding bonds may be made redeemable before maturity.

(e) The refunding bonds may be:

(1) issued and delivered in lieu of, and on surrender to the comptroller and cancellation of, the obligations being refunded, and the comptroller shall register the refunding bonds and deliver them in accordance with the resolution or order authorizing the refunding bonds; or

(2) sold for cash in any principal amounts necessary to provide all or any part of the money required to:

(A) pay the principal of any bonds being refunded and the interest to accrue on the bonds to maturity; or

(B) redeem any bonds being refunded before maturity, including principal, any required redemption premium, and the interest to accrue on the bonds to the redemption date.

(f) The refunding may be accomplished in one or in several installment deliveries. Refunding bonds also may be issued and delivered in accordance with any other applicable law.

(g) To refund bonds or to pay or redeem bonds in whole or in part without issuing refunding bonds, the governing board or commissioners court may deposit directly with the paying agent the proceeds from the sale of refunding bonds or any other available funds or resources. The deposit must be in an amount sufficient, after taking into account both the principal and interest to accrue on the assets of any escrow account created under Subsection (h), to provide for the payment or redemption of the bonds and assumed obligations that are to be refunded or to be paid or redeemed. The deposit constitutes the making of firm banking and financial arrangements for the discharge and final payment or redemption of the bonds being refunded.

(h) The governing board or commissioners court may enter into an escrow or a similar agreement

with the paying agent with respect to the safekeeping, investment, reinvestment, administration, or disposition of the deposits, but the deposits may be invested and reinvested only in direct obligations of the United States, including obligations the principal of and interest on which are unconditionally guaranteed by the United States and that mature or bear interest payable at times and in amounts sufficient to provide for the scheduled payment or redemption of the bonds. The governing board or commissioners court shall enter into an appropriate escrow or a similar agreement if any of the bonds are scheduled to be paid or redeemed on a date later than the next succeeding scheduled interest payment date.

(i) If the governing body or commissioners court has entered into an escrow or a similar agreement under Subsection (h), the refunded bonds are considered to be defeased and may not be included in or considered to be an indebtedness of the district for the purpose of a limitation on outstanding indebtedness or taxation or for any other purpose.

(j) Refunding bonds may be issued under this section to refund any bonds that are scheduled to mature or that are subject to redemption before maturity, not more than 20 years from the date of the refunding bonds. The refunding bonds may be sold at public or private sale under the procedures, at the price, and on the terms determined by the governing board or commissioners court. In addition, the bonds may be sold bearing interest at the rate determined by the governing board or commissioners court, but not to exceed the maximum rate prescribed by Chapter 1204, Government Code. The governing board or commissioners court may pledge to the payment of any refunding bonds any surplus income to be available from the investment or reinvestment of any deposit made as authorized by this section or any other available revenues, income, or resources.

(k) The refunding bonds may be issued in an additional amount sufficient to pay the costs and expenses of issuing the bonds and sufficient to fund any debt service reserve, contingency, or other similar fund considered necessary or advisable by the governing board or commissioners court.

(b) Notwithstanding Section 45.003, a school district may levy, assess, and collect maintenance taxes at a rate that exceeds \$1.50 per \$100 valuation of taxable property if:

(1) additional ad valorem taxes are necessary to pay a debt of the district that:

(A) resulted from the rendition of a judgment against the district before May 1, 1995;

(B) is greater than \$5 million;

(C) decreases a property owner's ad valorem tax liability;

(D) requires the district to refund to the property owner the difference between the amount of taxes paid by the property owner and the amount of taxes for which the property owner is liable; and

(E) is payable according to the judgment in more than one of the district's fiscal years; and

(2) the additional taxes are approved by the voters of the district at an election held for that purpose.

(c) Except as provided by Subsection (e), any additional maintenance taxes that the district collects under this section may be used only to pay the district's debt under Subsection (b)(1).

(d) Except as provided by Subsection (e), the authority of a school district to levy the additional ad valorem taxes under this section expires when the judgment against the district is paid.

(e) The governing body of a school district shall pay the district's debt under Subsection (b)(1) in a lump sum. To satisfy the district's debt under Subsection (b)(1), the governing body may levy and collect additional maintenance taxes as provided by Subsection (b) and may issue bonds. If bonds are issued:

(1) the district may use any additional maintenance taxes collected by the district under this section to pay debt service on the bonds; and

(2) the authority of the district to levy the additional ad valorem taxes expires when the bonds are paid in full or the judgment is paid, whichever occurs later.

(f) The governing body of a school district that adopts a tax rate that exceeds \$1.50 per \$100 valuation of taxable property may set the amount of the exemption from taxation authorized by Section 11.13(n), Tax Code, at any time before the date the governing body adopts the district's tax rate for the tax year in which the election approving the additional taxes is held.

(g) The authority to issue bonds granted by this section expires June 1, 1996.

See Acts 2013, 83rd Leg. - Regular Session, ch. 280, Sec. 4.

Notes - Section 4 of Acts 2013, 83rd Leg., Ch. 280 (H.B. 885) provides: "This Act applies only to a bond issued, refunded, or refinanced on or after the effective date of this Act [September 1, 2013] by an open-enrollment charter school designated as a charter district under Section 12.135, Education Code. A bond issued, refunded, or refinanced before the effective date of this Act by an open-enrollment charter school designated as a charter district is governed by the law in effect immediately before that date, and that law is continued in effect for that purpose."

**Sec. 45.053. Limitation; Value Estimates**

(a) Except as provided by Subsection (d), the commissioner may not approve bonds for guarantee under this subchapter if the approval would result in the total amount of outstanding guaranteed bonds under this subchapter exceeding an amount equal to 2-1/2 times the cost value of the permanent school fund, as estimated by the board and certified by the state auditor.

(b) Each year, the state auditor shall analyze the status of guaranteed bonds under this subchapter as compared to the cost value of the permanent school fund. Based on that analysis, the state auditor shall certify whether the amount of bonds guaranteed under this subchapter is within the limit prescribed by this section.

(c) The commissioner shall prepare and the board shall adopt an annual report on the status of the guaranteed bond program under this subchapter.

(d) The board by rule may increase the limit prescribed by Subsection (a) to an amount not to exceed five times the cost value of the permanent school fund, provided that the increased limit is consistent with federal law and regulations and does not prevent the bonds to be guaranteed from receiving the highest available credit rating, as determined by the board. The board shall at least annually consider whether to change any limit in accordance with this subsection. This subsection may not be construed in a manner that impairs, limits, or removes the guarantee of bonds that have been approved by the commissioner.

**HISTORY**

(Amended by Acts 2009, 81st Leg., R.S., Ch. 1328, Sec. 68A, eff. September 1, 2009. Amended by Acts 2007, 80th Leg., R.S., Ch. 139, Sec. 1, eff. May 18, 2007. Amended by Acts 2003, 78th Leg., ch. 89, Sec. 1, eff. May 20, 2003. Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

**Sec. 45.0531. Additional Limitation: Reservation Of Percentage Of Permanent School Fund Value**

(a) In addition to the limitation on the approval of bonds for guarantee under Section 45.053, the board by rule may establish a percentage of the

cost value of the permanent school fund to be reserved from use in guaranteeing bonds under this subchapter.

(b) If the board has reserved a portion of the permanent school fund under Subsection (a), each year, the state auditor shall analyze the status of the reserved portion compared to the cost value of the permanent school fund. Based on that analysis, the state auditor shall certify whether the portion of the permanent school fund reserved from use in guaranteeing bonds under this subchapter satisfies the reserve percentage established.

(c) If the board has reserved a portion of the permanent school fund under Subsection (a), the board shall at least annually consider whether to change the reserve percentage established to ensure that the reserve percentage allows compliance with federal law and regulations and serves to enable bonds guaranteed under this subchapter to receive the highest available credit rating, as determined by the board.

(d) This section may not be construed in a manner that impairs, limits, or removes the guarantee of bonds that have been approved by the commissioner.

**HISTORY**

(Added by Acts 2009, 81st Leg., R.S., Ch. 1328, Sec. 69, eff. September 1, 2009.)

**Sec. 45.0532. Limitation On Guarantee Of Charter District Bonds**

(a) In addition to the general limitation under Section 45.053, the commissioner may not approve charter district bonds for guarantee under this subchapter in a total amount that exceeds the charter capacity of the guaranteed bond program.

(a-1) The commissioner may not approve charter district refunding or refinanced bonds for guarantee under this subchapter in a total amount that exceeds one-half of the charter capacity.

(b) For purposes of this section, the charter capacity of the guaranteed bond program is the percentage of the total capacity of the guaranteed bond program established by the board under Sections 45.053(d) and 45.0531 that is equal to the percentage of the number of students enrolled in open-enrollment charter schools in this state compared to the total number of students enrolled in all public schools in this state, as determined by the commissioner. Each time the board increases the limit under Section 45.053(d), the total amount of charter district bonds that may be guaranteed increases accordingly under Subsection (a).

(b-1) The charter capacity provided by Subsection (b) applies beginning with the state fiscal year that begins September 1, 2021. Subject to Subsections (b-2) and (b-3), the board shall establish a

charter capacity for the preceding state fiscal years by increasing the total limitation on the amount of charter district bonds that could be guaranteed under the law in effect on January 1, 2017, by the following amount:

(1) for the state fiscal year that begins September 1, 2017, 20 percent of the difference between the charter capacity provided by Subsection (b) and the charter capacity in effect on January 1, 2017;

(2) for the state fiscal year that begins September 1, 2018, 40 percent of the difference between the charter capacity provided by Subsection (b) and the charter capacity in effect on January 1, 2017;

(3) for the state fiscal year that begins September 1, 2019, 60 percent of the difference between the charter capacity provided by Subsection (b) and the charter capacity in effect on January 1, 2017; and

(4) for the state fiscal year that begins September 1, 2020, 80 percent of the difference between the charter capacity provided by Subsection (b) and the charter capacity in effect on January 1, 2017.

(b-2) For any year, the board may increase the charter capacity by less than the amount provided by Subsection (b-1) or may decline to increase the charter capacity by any amount if:

(1) the board determines that increasing the charter capacity by the amount provided by Subsection (b-1) would likely result in a negative impact on the bond ratings provided by one or more nationally recognized investment rating firms for school district or charter district bonds for which a guarantee is requested under this subchapter; or

(2) one or more charter districts default on payment of maturing or matured principal or interest on a guaranteed bond, resulting in a negative impact on the bond ratings provided by one or more nationally recognized investment rating firms for school district or charter district bonds for which a guarantee is requested under this subchapter.

(b-3) If the board makes a determination described by Subsection (b-2) for any year and modifies the schedule provided by Subsection (b-1) for that year, the board may also make appropriate adjustments to the schedule for subsequent years to reflect the modification, provided that the charter capacity for any year may not exceed the limit provided for that year by the schedule.

(b-4) Subsections (b-1), (b-2), and (b-3) and this subsection expire September 1, 2022.

(c) Notwithstanding Subsections (a) and (b), the commissioner may not approve charter district

bonds for guarantee under this subchapter if the guarantee will result in lower bond ratings for school district bonds for which a guarantee is requested under this subchapter.

(d) The commissioner may request that the comptroller place the portion of the permanent school fund committed to the guarantee of charter district bonds in a segregated account if the commissioner determines that a separate account is needed to avoid any negative impact on the bond ratings of school district bonds for which a guarantee is requested under this subchapter.

(e) A guarantee of charter district bonds must be made in accordance with this chapter and any applicable federal law.

**Sec. 45.082. Sale Of Property; Revenue Bonds**

(a) The board of a district may sell real property owned by the district and issue revenue bonds

payable from the proceeds of the sale subject to this section.

(b) The board must determine by order that the real property is not required for the current needs of the district for educational purposes, and the proceeds from the sale are required and will be used for:

- (1) constructing or equipping school buildings in the district or purchasing necessary sites for school buildings; or
- (2) paying the principal of and interest and premium on any bonds issued pursuant to this subchapter.

(c) The board is not required to comply with this section if the sale is:

- (1) to a corporation established by the district under Chapter 303, Local Government Code; and
- (2) subject to a lease-purchase agreement under which the district will acquire the real property.

(d) The real property may be sold for the price and on the terms determined by order of the board to be most advantageous to the district. The sale may be made pursuant to an installment sale agreement or contract or any other method. The sale must be for cash and all payments for the real property must be scheduled to be paid not more than 10 years after the date of execution of the agreement or contract of sale. Real property may not be sold for less than an aggregate price equal to its fair market value as determined by an appraisal obtained by the district not more than 180 days before the publication of the notice required by Subsection (e)(3). The appraisal is conclusive of the fair market value of the property for purposes of this subchapter.

(e) Before selling or executing any agreement or contract for the sale of the real property, the board shall:

- (1) determine which real estate is proposed to be sold;
- (2) determine the scope of the terms on which it will consider selling the real property, and, if the sale price is to be paid in installments, require the purchasers of the real property to secure the payment of the sale price by escrowing collateral acceptable to the board such as a letter of credit, United States government bonds, or any other generally recognized form of guarantee or security;
- (3) publish a notice to prospective purchasers at least two weeks before the date set for receiving proposals in a real estate journal and in at least two newspapers of general circulation in the district, requesting sealed written proposals from prospective purchasers to

(f) Except as provided by this subsection, the sale must have been previously approved by a majority of the qualified voters of the district voting at an election held in the district at which a proposition to ascertain approval is submitted. An election is not required if the board determines by order that the proceeds from the sale of the real property are required and will be used for constructing or equipping or for paying the principal of, and interest and premium, if any, on bonds issued pursuant to this subchapter for the purpose of constructing or equipping a school building that is to be constructed pursuant to an order or judgment entered by a United States District Judge in any action or cause in which the district is a party.

#### **Sec. 45.084. Contracts**

The district may execute contracts for constructing or equipping school buildings in the district or for purchasing any necessary sites for school buildings in the manner provided by law. If any contract recites that payments under the contract are to be made either from the proceeds from the sale of real property under an installment sale agreement or any similar method pursuant to this subchapter or from proceeds from the sale of bonds issued pursuant to this subchapter, then the contract may be made payable in installments to correspond with the receipt by the district either of proceeds under the sale agreement or proceeds from the sale of any bonds to be issued and delivered in more than one issue, series, or installment, and the contract is not a prohibited debt or indebtedness of the district if the payments under the contract are required to be made solely from the proceeds from the sale of real property or the bonds.

#### **HISTORY**

(Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

#### **Sec. 45.085. Bond Requirements**

(a) In addition to the powers granted by this subchapter, any board, for and on behalf of its district, may issue, sell, and deliver revenue bonds of its district from time to time and in one or more issues, series, or installments, with the principal of and interest and premium, if any, on the bonds to be payable from and secured by liens on and pledges of all or any part of any of the revenue, income, payments, or receipts derived by the district from the sale of real property pursuant to this subchapter, and those amounts may be pledged by the district to the payment of the principal of and interest and premium, if any, on such bonds, subject to this section.

(b) Bonds must be issued by an order of the board.

(c) The bonds must be issued for the purpose of constructing or equipping school buildings in the district or purchasing necessary sites for school buildings.

(d) The bonds shall mature, come due, or be payable serially, in installments, or otherwise, within not to exceed 90 days after the last date on which the final payment is due to the district from the sale of the real property. The bond order may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, under any terms set forth in the bond order.

(e) The bonds may be executed, made redeemable before maturity or due date, and be issued in the form, denominations, and manner and under the terms provided in the bond order. The bonds may be sold in the manner, at the price, and under the terms and may bear interest at the rates provided in the bond order.

(f) If so provided in any bond order, the proceeds from the sale of the bonds may be used for paying interest on the bonds during the period of constructing or equipping any school buildings to be provided through the issuance of the bonds or for creating a reserve fund for the payment of principal and interest on the bonds. The proceeds may be placed on time deposit, in certificates of deposit, or invested, until needed, to the extent and in the manner provided in any bond order. The proceeds also may be used for paying the costs and expenses of issuing the bonds and selling the real property.

(g) The bonds may be payable only from the revenues described by Subsection (a) and may not be payable or paid from any taxes levied and collected in the district.

(h) Chapter 1201, Chapter 1204, and Subchapters A-C, Chapter 1207, Government Code, apply to bonds issued pursuant to this subchapter.

(i) If bonds are issued pursuant to this subchapter, the bonds, along with the appropriate proceedings authorizing their issuance, and the sale agreement the proceeds from which they are payable shall be submitted to the attorney general for examination. If after the initial issuance of any bonds under this subchapter payable from the proceeds of a particular sale agreement, one or more subsequent issues, series, or installments of bonds are issued as additional parity bonds, on a parity with the initial bonds and payable from the proceeds of that sale agreement, then, at the option of the board, the subsequent issues, series, or installments of bonds need not be submitted to the attorney general or approved by the attorney general or registered by the comptroller, and the subsequent bonds are, on delivery of and payment for the bonds, valid and incontestable in the same manner and with the same effect as if they had been approved by the attorney general and registered by the comptroller as were the initial bonds.

district were originally authorized, issued, and sold:

(Added by Acts 1995, 74th Leg., ch. 260, Sec. 1, eff. May 30, 1995.)

#### **Sec. 45.103. Interest-Bearing Time Warrants**

(a) Any school district in need of funds to construct, repair, or renovate school buildings, purchase school buildings and school equipment, or equip school properties with necessary heating, water, sanitation, lunchroom, or electric facilities or in need of funds with which to employ a person who has special skill and experience to compile taxation data and that is financially unable out of available funds to construct, repair, renovate, or purchase school buildings, purchase school equipment, or equip school properties with necessary heating, water, sanitation, lunchroom, or electric facilities or is unable to pay the person for compiling taxation data, may, subject to this section, issue interest-bearing time warrants, in amounts sufficient to construct, purchase, equip, or improve school buildings and facilities or to pay all or part of the compensation of the person to compile taxation data, any law to the contrary notwithstanding. The warrants shall mature in serial installments of not more than 15 years from their date of issue. The warrants on maturity may be payable out of any available funds of the school district in the order of their maturity dates. Any interest-bearing time warrants may be issued and sold by the district for not less than their face value, and the proceeds used to provide funds required for the purpose for which they are issued. The warrants shall be entitled to first payment out of any available funds of the district as they become due. Included in the purposes for which interest-bearing time warrants may be issued is the payment of any amounts owed by the school district that was incurred in carrying out any of those purposes.

(a-1) A school district may also issue interest-bearing time warrants to refund warrants previously issued under this section if the refunding warrants are coterminous with the refunded obligations.

(b) Interest-bearing time warrants may not be issued or sold by a common school district or rural high school district until they are approved by the

county board of school trustees. The board shall, on application of the school district, inquire into the financial conditions and needs of the district, and may not approve the issuance of interest-bearing time warrants unless in its opinion the district:

(1) is in need of constructing, purchasing, repairing, or renovating a school building, obtaining the school equipment, or equipping school properties with necessary heating, water, sanitation, lunchroom, or electric facilities; and

(2) will be able with the resources in prospect to liquidate the warrants at their maturity.

(c) A school district may not issue interest-bearing time warrants in excess of five percent of the assessed valuation of the district for the year in which the warrants are issued. The payment of interest-bearing time warrants in any one year may not exceed the anticipated surplus income of the district for the year in which the warrants are issued, based on the budget of the district for that year. The anticipated income computed under this section is exclusive of all bond taxes. A school district may not have outstanding at any one time warrants totaling in excess of \$1 million under this section.

(d) If interest-bearing time warrants issued under this section are outstanding, the officer in charge of the collection of delinquent taxes shall pay those collections to the legal depository of the district, to be deposited and held in a special fund for the payment of the interest-bearing time warrants, and except as otherwise provided by this section, collections of delinquent taxes may not be applied or used for any other purpose.

(e) Interest and penalties on delinquent taxes are considered a part of those taxes for purposes of this section. If any delinquent taxes, including interest and penalties, are canceled, waived, released, or reduced either by the school district or in any other way, with or without its consent, the amount of the loss sustained shall be paid by the district to the special fund provided for by Subsection (d) out of funds not otherwise pledged to that special fund.

(f) All school districts issuing interest-bearing time warrants may encumber and mortgage any property purchased with the proceeds of the warrants or any property, including teachers' residences, owned by the district to secure the payment of legally incurred obligations, except that a lien may not be placed on any school building in which actual classroom instruction of students is conducted.

(g) In this section, "interest-bearing time warrant" includes a promissory note or other evidence of indebtedness issued under this section.

(h) Taxes levied to pay principal and interest of bonds that are delinquent are not included in the term "delinquent taxes" as used in this section.

### **Sec. 45.104. Pledge Of Delinquent Taxes As Security For Loan**

(a) The board of trustees of any school district may pledge its delinquent taxes levied for maintenance purposes for specific past, current, and future school years as security for a loan, and may evidence any such loan with negotiable notes, and the delinquent taxes pledged shall be applied against the principal and interest of the loan. Negotiable notes issued under this subsection must mature not more than 20 years from their date.

(b) A school district may not pledge delinquent taxes levied for school bonds as security for a loan.

(c) Funds secured through loans secured by delinquent taxes may be employed for any legal maintenance expenditure or purpose of the school district, including all costs incurred in connection with:

(1) environmental cleanup and asbestos removal programs implemented by school districts; or

(2) maintenance, repair, rehabilitation, or replacement of heating, air conditioning, water, sanitation, roofing, flooring, electric, or other building systems of existing school properties.

(d) A loan secured by delinquent taxes may bear interest at a rate not to exceed the maximum rate provided by Section 1204.006, Government Code.

#### **HISTORY**

### **Sec. 45.105. Authorized Expenditures**

(a) The public school funds may not be spent except as provided by this section.

(b) The state and county available funds may be used only for the payment of teachers' and superintendents' salaries and interest on money borrowed on short time to pay those salaries that become due before the school funds for the current year become available. Loans for the purpose of payment of teachers may not be paid out of funds other than those for the current year.

(c) Local school funds from district taxes, tuition fees of students not entitled to a free education, other local sources, and state funds not designated for a specific purpose may be used for the purposes listed for state and county available funds and for

purchasing appliances and supplies, paying insurance premiums, paying janitors and other employees, buying school sites, buying, building, repairing, and renting school buildings, including acquiring school buildings and sites by leasing through annual payments with an ultimate option to purchase, and, except as provided by Subsection (c-1), for other purposes necessary in the conduct of the public schools determined by the board of trustees. The accounts and vouchers for county districts must be approved by the county superintendent. If the state available school fund in any municipality or district is sufficient to maintain the schools in any year for at least eight months and leave a surplus, the surplus may be spent for the purposes listed in this subsection.

(c-1) Funds described by Subsection (c) may not be used to initiate or maintain any action or proceeding against the state or an agency or officer of the state arising out of a decision, order, or determination that is final and unappealable under a provision of this code, except that funds may be used for an action or proceeding that is specifically authorized by a provision of this code or a rule adopted under this code and that results in a final and unappealable decision, order, or determination.

(d) An independent school district that has in its limits a municipality with a population of 150,000 or more or that contains at least 170 square miles, has \$850 million or more assessed value of taxable property on the most recent approved tax roll and has a growth in average daily attendance of 11 percent or more for each of the preceding five years as determined by the agency may, in buying school sites or additions to school sites and in building school buildings, issue and deliver negotiable or nonnegotiable notes representing all or part of the cost to the school district of the land or building. The district may secure the notes by a vendor's lien or deed of trust lien against the land or building. By resolution or order of the governing body made at or before the delivery of the notes, the district may set aside and appropriate as a trust fund, and the sole and only fund, for the payment of the principal of and interest on the notes that part of the local school funds, levied and collected by the school district in that year or subsequent years, as the governing body determines. The aggregate amount of local school funds set aside in or for any subsequent year for the retirement of the notes may not exceed, in any one subsequent year, 10 percent of the local school funds collected during that year. The district may issue the notes only if approved by majority vote of the qualified voters voting in an election conducted in the manner provided by Section 45.003 for approval of bonds.

(e) The governing body of an independent school district that governs a junior college district under

Subchapter B, Chapter 130, in a county with a population of more than two million may dedicate a specific percentage of the local tax levy to the use of the junior college district for facilities and equipment or for the maintenance and operating expenses of the junior college district. To be effective, the dedication must be made by the governing body on or before the date on which the governing body adopts its tax rate for a year. The amount of local tax funds derived from the percentage of the local tax levy dedicated to a junior college district from a tax levy may not exceed the amount that would be levied by five percent of the no-new-revenue tax rate for the tax year calculated as provided by Section 26.04, Tax Code, on all property taxable by the school district. All real property purchased with these funds is the property of the school district, but is subject to the exclusive control of the governing body of the junior college district for as long as the junior college district uses the property for educational purposes.

(f) Funds from a junior college district branch campus maintenance tax levied by a school district board of trustees under Section 130.253 may be used as provided by that section.

The notes may be payable from and secured by a lien on and pledge of any available funds of the district, including proceeds of a maintenance tax. The term "maintenance expenses" or "maintenance expenditures" as used in this section means any lawful expenditure of the school district other than payment of principal of and interest on bonds. The term includes expenditures relating to notes issued to refund notes previously issued under this section if the refunding notes are coterminous with the refunded obligation. The term also includes all costs incurred in connection with environmental cleanup and asbestos cleanup and removal programs implemented by school districts or in connection with the maintenance, repair, rehabilitation, or replacement of heating, air conditioning, water, sanitation, roofing, flooring, electric, or other building systems of existing school properties. Notes issued pursuant to this section may be issued to mature in not more than 20 years from their date. Notes issued for a term longer than one year must be treated as "debt" as defined in Section 26.012(7), Tax Code.

(b) Notes may be issued under this section only after a budget has been adopted for the current school year.

(c) Notes issued under this section must be authorized by resolution adopted by a majority vote of the board of trustees, signed by the president or vice president and attested by the secretary of the board.

The contract may be for any period not exceeding 75 years and may contain terms agreed on by the parties.

(a-1) An independent school district and an institution of higher education, as defined by Section 61.003, located wholly or partially in the boundaries of the county in which the district is located may contract for the district to contribute district resources to pay a portion of the costs of the design or construction of an instructional facility or a stadium or other athletic facilities owned by or under the control of the institution of higher education. A district may contribute district resources under this subsection only if the district and municipality enter into a written agreement authorizing the district to use that facility.

If voted and pledged, the maintenance tax shall be assessed, levied, and collected annually in the same manner as provided by general law applicable to independent school districts for other maintenance taxes.

(d) A maintenance tax may not be pledged to the payment of any contract under this section or assessed, levied, or collected unless an election is held in the district and the maintenance tax is favorably voted by a majority of the qualified voters of the district voting at the election. The election order for an election under this subsection must include the polling place or places and any other matters considered advisable by the board of trustees.

(a) This section applies to any independent school district that has previously voted or authorized school bonds for a specific purpose or purposes and the purpose or purposes have been accomplished by other means or have been abandoned and all or a portion of the bonds authorized remain unissued.

(b) The board of trustees of the district may, on its own motion, order an election to submit to the qualified voters of the district the proposition of whether or not the authorized but unissued bonds may be issued, sold, and delivered for other and different purposes specified in the election order and the election notice. The election shall be ordered, held, and conducted in the same form and manner as that at which the bonds were originally authorized.

(c) If a majority of those voting at the election vote in favor of the sale and delivery of the unissued bonds and the use of the proceeds of the bonds for the purpose or purposes specified in the election order and the election notice, the board of trustees may issue, sell, and deliver the bonds and use the

proceeds of the bonds for the purpose or purposes authorized at the election.

(a) A school district may use the unspent proceeds of issued general obligation bonds only:

(1) for the specific purposes for which the bonds were authorized;

(A) the specific purposes are accomplished or abandoned; and

(i) a purpose other than to retire the bonds; and

(ii) the purpose specified at the time the vote is taken.

(b) In addition to other requirements of law, notice of a public meeting held under this section must include a statement that the board of trustees will consider the use of unspent bond proceeds for a purpose other than the specific purposes for which the bonds were authorized.

(c) A public meeting held under this section must provide the public an opportunity to address the board of trustees on the question of using the unspent bond proceeds for a purpose other than the specific purposes for which the bonds were authorized.

**HISTORY**

(Added by Acts 2019, Texas Acts of the 86th Leg.- Regular Session, ch. 726, Sec. 1, eff. 9/1/2019.)

**Sec. 45.111. Certificates Of Indebtedness; Issuance By Certain School And Junior College Districts**

(a) Any school district, including a junior college district, situated in a county with a population of 200,000 or more may issue interest-bearing certificates of indebtedness to provide funds for erecting or equipping school buildings in the boundaries of the district or refinancing outstanding certificates as provided by this section. The term "certificates," as used in this section, includes all obligations authorized to be issued under this section and the interest on those obligations.

(b) The governing body of the district shall provide for the payment of the certificates issued under this section by appropriating and pledging

local school funds derived from maintenance taxes levied and assessed under Sections 45.002 and 130.122; Chapter 273, Acts of the 53rd Legislature, Regular Session, 1953 (Article 2784g, Vernon's Texas Civil Statutes); or other similar law that limits the amount of tax that may be levied for maintenance purposes, as distinguished from bond requirements. The appropriation and pledge may be in the nature of a continuing irrevocable pledge to apply the first moneys collected annually from the tax levy to the payment of the obligations or by the irrevocable present levy and appropriation of the amount of the maintenance tax required to meet the annual debt service requirements of the obligations, in which event the governing body shall covenant to annually set aside the amount in the annual tax levy, showing the same is a portion of the maintenance tax. The governing body shall annually budget the amount required to pay the principal and interest of the obligations that may be scheduled to become due in any fiscal year. This section may not be construed as permitting the levy of a maintenance tax in excess of the amount approved by the qualified voters of the district.

(c) A district may not at any one time have certificates outstanding and unpaid in principal amount in excess of \$250,000, unless the excessive amount becomes the obligation of the district by assumption under Subsection (k) or the new certificates are being issued to refund or refinance outstanding obligations under Subsection (i).

(d) The principal amount of certificates that may be authorized at any one time and the scheduling of their principal maturity are further restricted as follows:

(1) if the assessed valuation is more than \$1 million and less than \$15 million, the limiting factor is 25 cents;

(2) if the assessed valuation is \$15 million or more but less than \$35 million, the limiting factor is 15 cents; and

(3) if the assessed valuation is \$35 million or more, the limiting factor is 5 cents.

(e) Assessed valuation means the valuation for school district purposes on the tax rolls of the district most recently approved before the authorization of the certificates. The limiting factor for a particular district, as prescribed by Subsection (d), is multiplied by the assessed valuation of the district, and the product is the maximum amount of debt service requirements on the certificates that may be scheduled to become due in any fiscal year on a cumulative basis. A district that has an assessed valuation less than \$1 million may not issue certificates under this section.

(f) Certificates authorized to be issued under this section shall be payable at the times and be in such

form and denomination or denominations either in coupon form or registered as to principal, interest, or both. The certificates may contain options for redemption before the scheduled maturity and may be payable at the place and may contain other provisions as the governing body of the district determines. A certificate may not mature over a period in excess of 25 years from the date of the certificate or bear interest at a rate in excess of seven percent per annum.

(g) Except if issued in exchange for certificates outstanding as provided by Subsection (i), the certificates shall be sold for cash at not less than the face or par value plus accrued interest. The proceeds shall be applied for the purpose for which the certificates were issued, except that all accrued interest and premium received, if any, shall be deposited in the interest and sinking fund established for the payment of the obligations. The cost of issuing the obligations, including attorneys', printing, and fiscal fees, may be paid from the proceeds, except if certificates are sold under Subsection (i).

(h) The certificates, including interest whether issued in coupon or registered form, are securities within the meaning of Chapter 8, Business & Commerce Code, and that chapter applies to the certificates after their approval by the attorney general and registration by the comptroller.

(i) Each governing body may refund or refinance outstanding certificates by issuing new interest-bearing certificates within the limitations and conditions provided in this section. The new certificates shall be issued and delivered in lieu of and on surrender to the comptroller and the cancellation of the obligations being refunded, and the comptroller shall register the new certificates and deliver them in accordance with the order authorizing their issuance. The new certificates may be issued in accordance with Subchapter A, Chapter 1207, Government Code, and delivered in accordance with Subchapter B or C of that chapter.

(j) A certified copy of all proceedings relating to the authorization of the certificates shall be submitted to the attorney general.

(k) Certificates issued under this section are an indebtedness of the school district issuing them, but the holder of a certificate does not have the right to demand payment out of any fund other than those pledged to its payment. If the boundary lines of any issuing district are changed while the certificates remain outstanding, the indebtedness shall be adjusted or assumed as provided under general law for the adjustment of bond indebtedness payable from taxation.

(l) For purposes of this section, the governing body of a common school district is the commissioners court of the county having administrative

jurisdiction. The governing body of an independent school district, a rural high school district, or a junior college district is its board of trustees, and the governing body of a municipally controlled school district is the city or town council or commission. Certificates shall be authorized by order of the governing body of the district.

(a) A school district, including a junior college district or community college district, may enter into a contract with a term not to exceed seven years to purchase investments with the proceeds of taxes levied or to be levied by the district for the purpose of paying debt service on bonds issued by the district.

(b) A contract under this section may provide for the purchase of investments at a stated yield or yields.

(c) Before entering a contract under this section, a school district must solicit and receive bids from at least three separate providers. The district must accept the qualifying bid that provides for the highest yield investments over the term of the contract.

(d) A contract under this section may provide only for the purchase of an obligation described by Section 2256.009(a)(1), Government Code, other than an obligation described by Section 2256.009(b) of that code.

(b) The commissioner may not endorse particular bonds for credit enhancement under this subchapter until the commissioner has:

- (1) made the determinations required under Subsection (a); and
- (2) determined that the endorsement will not cause the projected debt service coming due during the remainder of the fiscal year for bonds provided credit enhancement under this subchapter to exceed the lesser of:
  - (A) one-half of the amount of funds due to public schools from the Foundation School Program for the remainder of the fiscal year; or
  - (B) one-half of the amount of funds anticipated to be on hand in the Foundation School Program to make payments for the remainder of the fiscal year.

(c) The commissioner may not endorse particular bonds for credit enhancement under this subchapter unless the commissioner has determined that

The commissioner may adopt a single form on which a district seeking guarantee or credit enhancement of eligible bonds may apply simultaneously first for a guarantee under Subchapter C and then, if that guarantee is rejected, for credit enhancement under this subchapter.

(b) An application under Subsection (a) must:

(1) include the information required by Section 45.055(b); and

(b) Immediately following receipt of the funds for payment of the principal or interest, the paying agent shall pay the amount due.

(c) The procedures prescribed by Subsections (a) and (b) apply to each payment of principal or interest on bonds as the payment becomes due until the bonds mature or are defeased in accordance with state law.

(d) If money appropriated for the Foundation School Program is used for purposes of this subchapter and as a result there is insufficient money to fully fund the Foundation School Program, the commissioner shall, to the extent necessary, reduce each school district's foundation school fund allocations, other than any portion appropriated from the available school fund, in the same manner provided by Section 48.266(f) for a case in which school district entitlements exceed the amount appropriated. The following fiscal year, a district's entitlement under Section 48.266 is increased by an amount equal to the reduction under this subsection.

(e) A payment made under this section by the state on behalf of a school district of funds the district owes on bonds for which credit enhancement is provided under this subchapter creates a repayment obligation of the district to the state regardless of the maturity date of, or any payment of interest on, the bonds.

- (2) pay the remaining principal of and interest on the bonds as the principal and interest become due.

(d) If a school district fails to comply with the commissioner's order under Subsection (c), the commissioner may impose any sanction on the district authorized to be imposed on a district under Chapter 39A, including appointment of a board of managers or annexation to another district, regardless of the district's accreditation status or the duration of a particular accreditation status.

(e) Any part of a school district's tax rate attributable to producing revenue for purposes of Subsection (c)(1) is considered part of the district's:

- (1) current debt rate for purposes of computing a voter-approval tax rate under Section 26.08, Tax Code; and
- (2) interest and sinking fund tax rate.

(f) On reimbursement by a school district as required by this section, the commissioner shall pay to the district any amount withheld under this section.

### Sec. 46.003. School Facilities Allotment

(a) For each year, except as provided by Sections 46.005 and 46.006, a school district is guaranteed a specified amount per student in state and local funds for each cent of tax effort, up to the maximum rate under Subsection (b), to pay the principal of and interest on eligible bonds issued to construct, acquire, renovate, or improve an instructional facility. The amount of state support is determined by the formula:

$$\text{FYA} = (\text{FYL} \times \text{ADA} \times \text{BTR} \times 100) - (\text{BTR} \times (\text{DPV}/100))$$

where:

"FYA" is the guaranteed facilities yield amount of state funds allocated to the district for the year;

"FYL" is the dollar amount guaranteed level of state and local funds per student per cent of

tax effort, which is \$35 or a greater amount for any year provided by appropriation;

"ADA" is the greater of the number of students in average daily attendance, as determined under Section 48.005, in the district or 400;

"BTR" is the district's bond tax rate for the current year, which is determined by dividing the amount budgeted by the district for payment of eligible bonds by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, Section 48.258, divided by 100; and

"DPV" is the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, Section 48.258.

(b) The bond tax rate under Subsection (a) may not exceed the rate that would be necessary for the current year, using state funds under Subsection (a), to make payments of principal and interest on the bonds for which the tax is pledged.

(c) To enable the district to collect local funds sufficient to pay the district's share of the debt service, a district may levy a bond tax at a rate higher than the maximum rate for which it may receive state assistance.

(d) The amount budgeted by a district for payment of eligible bonds may include:

(1) bond taxes collected in the current school year;

(2) bond taxes collected in a preceding school year in excess of the amount necessary to pay the district's share of actual debt service on bonds in that year, provided that the taxes were not used to generate other state financial assistance for the district; or

(3) maintenance and operations taxes collected in the current school year or a preceding school year in excess of the amount eligible to be used to generate other state financial assistance for the district.

(e) Bonds are eligible to be paid with state and local funds under this section if:

(1) taxes to pay the principal of and interest on the bonds were first levied in the 1997-1998 school year or a later school year; and

(2) the bonds do not have a weighted average maturity of less than eight years.

(f) A district may use state funds received under this section only to pay the principal of and interest on the bonds for which the district received the funds.

(g) The board of trustees and voters of a school district shall determine district needs concerning construction, acquisition, renovation, or improvement of instructional facilities.

(h) To receive state assistance under this subchapter, a school district must apply to the commissioner in accordance with rules adopted by the commissioner before issuing bonds that will be paid with state assistance. Until the bonds are fully paid or the instructional facility is sold:

(1) a school district is entitled to continue receiving state assistance without reapplying to the commissioner; and

(2) the guaranteed level of state and local funds per student per cent of tax effort applicable to the bonds may not be reduced below the level provided for the year in which the bonds were issued.

(2) payments under a lease-purchase agreement are considered to be payments of principal of and interest on bonds.

(b) Section 46.003(b) applies to taxes levied to pay a district's share of the payments under a lease-purchase agreement for which the district receives state assistance under this subchapter.

(c) A lease-purchase agreement must be for a term of at least eight years to be eligible to be paid with state and local funds under this subchapter.

#### **Sec. 46.005. Limitation On Guaranteed Amount**

The guaranteed amount of state and local funds for a new project that a district may be awarded in any state fiscal biennium under Section 46.003 for a school district may not exceed the lesser of:

(1) the amount the actual debt service payments the district makes in the biennium in which the bonds are issued; or

#### **Sec. 46.006. Shortage Or Excess Of Funds Appropriated For New Projects**

(a) If the total amount appropriated for a year for new projects is less than the amount of money to which school districts applying for state assistance are entitled for that year, the commissioner shall rank each school district applying by wealth per student. For purposes of this section, a district's wealth per student is reduced by 10 percent for each state fiscal biennium in which the district did not receive assistance under this subchapter.

(b) A district's wealth per student is reduced for purposes of this section if a district has had substantial student enrollment growth in the preceding five-year period. The reduction is in addition to any reduction under Subsection (a) and is computed before the district's wealth per student is reduced under that subsection, if applicable. A district's wealth per student is reduced:

(1) by five percent, if the district has an enrollment growth rate in that period that is 10 percent or more but less than 15 percent;

those subsections, if applicable. This subsection expires September 1, 2012.

(d) The commissioner shall adjust the rankings after making the reductions in wealth per student required by Subsections (a), (b), and (c).

(a) Each school district is guaranteed a specified amount per student in state and local funds for each cent of tax effort to pay the principal of and interest on eligible bonds. The amount of state support, subject only to the maximum amount under Section 46.034, is determined by the formula:

EDA = (EDGL X ADA X EDTR X 100) - (EDTR X (DPV/100)) where:

"EDA" is the amount of state funds to be allocated to the district for assistance with existing debt;

"EDGL" is the dollar amount guaranteed level of state and local funds per student per cent of tax effort, which is the lesser of:

(1) \$40 or a greater amount for any year provided by appropriation; or

(2) the amount that would result in a total additional amount of state funds under this subchapter for the current year equal to \$60 million in excess of the state funds to which school districts would have been entitled under this section if the guaranteed level amount were \$35;

"ADA" is the number of students in average daily attendance, as determined under Section 48.005, in the district;

"EDTR" is the existing debt tax rate of the district, which is determined by dividing the amount budgeted by the district for payment of eligible bonds by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258, divided by 100; and

"DPV" is the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258.

(b) The existing debt tax rate of the district under Subsection (a) may not exceed the rate that would be necessary for the current year, using state funds under Subsection (a), to make payments of principal and interest on the bonds for which the tax is pledged.

(c) The amount budgeted by a district for payment of eligible bonds may include:

(1) bond taxes collected in the current school year;

(2) bond taxes collected in a preceding school year in excess of the amount necessary to pay the district's share of actual debt service on bonds in that year, provided that the taxes were not used to generate other state financial assistance for the district; or

(3) maintenance and operations taxes collected in the current school year or a preceding school year in excess of the amount eligible to be used to generate other state financial assistance for the district.

(b-1) Notwithstanding Subsection (b), a school district is entitled to state assistance under this subchapter based on the district's tax rate for the current school year if the district demonstrates to the commissioner's satisfaction that the district meets the criteria under Section 46.006(c-2).

(c) If the amount required to pay the principal of and interest on eligible bonds in a school year is less than the amount of payments made by the district on the bonds during the final school year of the preceding state fiscal biennium or the district's audited debt service collections for that school year, the district may not receive aid in excess of the amount that, when added to the district's local revenue for the school year, equals the amount required to pay the principal of and interest on the bonds.

(a) Beginning with the 2015-2016 school year and continuing through the 2021-2022 school year, a school district is entitled to additional state aid under this subchapter to the extent that state and local revenue used to service debt eligible under this chapter is less than the state and local revenue that would have been available to the district under this chapter as it existed on September 1, 2015, if the increase in the residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, and the additional limitation on tax increases under Section 1-b(d) of that article as proposed by S.J.R. 1, 84th Legislature, Regular Session, 2015, had not occurred.

(a-1) Beginning with the 2022-2023 school year, a school district is entitled to additional state aid under this subchapter to the extent that state and local revenue used to service debt eligible under this chapter is less than the state and local revenue that would have been available to the district under this chapter as it existed on September 1, 2021, if any increase in the residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, as proposed by the 87th Legislature, 3rd Called Session, 2021, had not occurred.

(b) Subject to Subsections (c), (d), and (e), additional state aid under this section through the 2021-2022 school year is equal to the amount by which the loss of local interest and sinking revenue for debt service attributable to the increase in the residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, and the additional limitation on tax increases under Section 1-b(d) of that article as proposed by S.J.R. 1, 84th Legislature, Regular Session, 2015, is not offset by a gain in state aid under this chapter.

(b-1) Subject to Subsections (c-1), (d), and (e), additional state aid under this section beginning with the 2022-2023 school year is equal to the amount by which the loss of local interest and sinking revenue for debt service attributable to any increase in the residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, as proposed by the 87th Legislature, 3rd Called Session, 2021, is not offset by a gain in state aid under this chapter.

(c) For the purpose of determining state aid under Subsections (a) and (b), local interest and sinking revenue for debt service is limited to revenue required to service debt eligible under this chapter as of September 1, 2015, including refunding of that

debt, subject to Section 46.061. The limitation imposed by Section 46.034(a) does not apply for the purpose of determining state aid under this section.

(c-1) For the purpose of determining state aid under Subsections (a-1) and (b-1), local interest and sinking revenue for debt service is limited to revenue required to service debt eligible under this chapter as of September 1, 2021, including refunding of that debt, subject to Section 46.061. The limitation imposed by Section 46.034(a) does not apply for the purpose of determining state aid under this section.

(d) If the amount required to pay debt service eligible under this section is less than the sum of state and local assistance provided under this chapter, including the amount of additional aid provided under this section, the district may not receive aid under this section in excess of the amount that, when added to the district's local interest and sinking revenue for debt service for the school year, as defined by this section, and state aid under Subchapters A and B, equals the amount required to pay the eligible debt service.

(e) The commissioner, using information provided by the comptroller and other information as necessary, shall compute the amount of additional state aid to which a district is entitled under this section. A determination by the commissioner under this section is final and may not be appealed.

**Sec. 48.005. [Renumbered from 42.005] Average Daily Attendance**

(a) In this chapter, average daily attendance is:

(1) the quotient of the sum of attendance for each day of the minimum number of days of instruction as described under Section 25.081(a) divided by the minimum number of days of instruction;

(2) for a district that operates under a flexible year program under Section 29.0821, the quotient of the sum of attendance for each actual day of instruction as permitted by Section 29.0821(b)(1) divided by the number of actual days of instruction as permitted by Section 29.0821(b)(1);

(3) for a district that operates under a flexible school day program under Section 29.0822, the average daily attendance as calculated by the commissioner in accordance with Sections 29.0822(d) and (d-1); or

(4) for a district that operates a half-day program or a full-day program under Section 29.153(c), one-half of the average daily attendance calculated under Subdivision (1).

(b) A school district that experiences a decline of two percent or more in average daily attendance shall be funded on the basis of:

(1) the actual average daily attendance of the preceding school year, if the decline is the result of the closing or reduction in personnel of a military base; or

(2) subject to Subsection (e), an average daily attendance not to exceed 98 percent of the actual average daily attendance of the preceding school year, if the decline is not the result of the closing or reduction in personnel of a military base.

(c) The commissioner shall adjust the average daily attendance of a school district that has a significant percentage of students who are migratory children as defined by 20 U.S.C. Section 6399.

(d) The commissioner may adjust the average daily attendance of a school district in which a disaster, flood, extreme weather condition, fuel curtailment, or other calamity has a significant effect on the district's attendance. In addition to providing the adjustment for the amount of instructional days during the semester in which the calamity first occurred, an adjustment under this section may only be provided based on a particular calamity for an additional amount of instructional days equivalent to one school year. The commissioner

may divide the adjustment between two consecutive school years.

(e) For each school year, the commissioner shall adjust the average daily attendance of school districts that are entitled to funding on the basis of an adjusted average daily attendance under Subsection (b)(2) so that:

(1) all districts are funded on the basis of the same percentage of the preceding year's actual average daily attendance; and

(2) the total cost to the state does not exceed the amount specifically appropriated for that year for purposes of Subsection (b)(2).

(f) An open-enrollment charter school is not entitled to funding based on an adjustment under Subsection (b)(2).

(g) If a student may receive course credit toward the student's high school academic requirements and toward the student's higher education academic requirements for a single course, including a course provided under Section 28.009 by a public institution of higher education, the time during which the student attends the course shall be counted as part of the minimum number of instructional hours required for a student to be considered a full-time student in average daily attendance for purposes of this section.

(g-1) The commissioner shall adopt rules to calculate average daily attendance for students participating in a blended learning program in which classroom instruction is supplemented with applied workforce learning opportunities, including participation of students in internships, externships, and apprenticeships.

(h) Subject to rules adopted by the commissioner under Section 48.007(b), time that a student participates in an off-campus instructional program approved under Section 48.007(a) shall be counted as part of the minimum number of instructional hours required for a student to be considered a full-time student in average daily attendance for purposes of this section.

(h-1) Subject to rules adopted by the commissioner under Section 48.007(b), time that a student participates in a course or program provided under Section 48.0071(b) shall be counted as part of the minimum number of instructional hours required for a student to be considered a full-time student in average daily attendance for purposes of this section. This subsection expires September 1, 2023.

(i) A district or a charter school operating under Chapter 12 that operates a prekindergarten program is eligible to receive one-half of average daily attendance under Subsection (a) if the district's or charter school's prekindergarten program provides

at least 32,400 minutes of instructional time to students.

(j) A district or charter school is eligible to earn full average daily attendance under Subsection (a) if the district or school provides at least 43,200 minutes of instructional time to students enrolled in:

(1) a dropout recovery school or program operating under Section 12.1141(c) or Section 39.0548;

(2) an alternative education program operating under Section 37.008;

(4) a school program offered at a correctional facility; or

(5) a school operating under Subchapter G, Chapter 12.

(k) A charter school operating under a charter granted under Chapter 12 before January 1, 2015, is eligible to earn full average daily attendance under Subsection (a), as that subsection existed immediately before January 1, 2015, for:

(1) all campuses of the charter school operating before January 1, 2015; and

(2) any campus or site expansion approved on or after January 1, 2015, provided that the charter school received an academic accountability performance rating of C or higher, and the campus or site expansion is approved by the commissioner.

(l) A school district campus or charter school described by Subsection (j) may operate more than one program and be eligible for full average daily attendance for each program if the programs operated by the district campus or charter school satisfy all applicable state and federal requirements.

(m) The commissioner shall adopt rules necessary to implement this section, including rules that:

(1) establish the minimum amount of instructional time per day that allows a school district or charter school to be eligible for full average daily attendance, which may differ based on the instructional program offered by the district or charter school;

(2) establish the requirements necessary for a school district or charter school to be eligible for one-half of average daily attendance, which may differ based on the instructional program offered by the district or charter school;

(3) proportionally reduce the average daily attendance for a school district if any campus or instructional program in the district

provides fewer than the required minimum minutes of instruction to students; and

(4) allow a grade or course repeated under Section 28.02124 to qualify for average daily attendance even if the student previously passed or earned credit for the grade or course, if the grade or course would otherwise be eligible.

(m-1) Except for students enrolled in programs or courses offered under Chapter 30A or Section 48.053, a school district or open-enrollment charter school may not count for purposes of calculating the district's or school's average daily attendance a student who received virtual or remote instruction for a majority of the instructional days during the preceding school year if the student:

(1) did not achieve satisfactory performance or higher or the equivalent in the preceding school year on:

(A) each assessment instrument administered to the student under Section 39.023 or 39.025; or

(B) if the student was not administered an assessment instrument that was required to be administered to the student under Section 39.023 or 39.025 during the preceding school year, an assessment instrument designed to show grade-level proficiency in the essential knowledge and skills identified under Section 28.002 by the State Board of Education for the student's grade level;

(2) had a number of unexcused absences that exceeds 10 percent of the number of instructional days in the preceding school year; or

(3) did not earn a grade of C or higher or the equivalent in each of the foundation curriculum courses taken virtually or remotely in the preceding school year.

(m-2) Subsection (m-1) and this subsection expire September 1, 2023.

(n) To assist school districts in implementing this section as amended by H.B. 2442, Acts of the 85th Legislature, Regular Session, 2017, the commissioner may waive a requirement of this section or adopt rules to implement this section.

(c) For funding purposes, the number of contact hours credited per day for each student in the off home campus instructional arrangement may not exceed the contact hours credited per day for the multidistrict class instructional arrangement in the 1992-1993 school year.

(d) For funding purposes the contact hours credited per day for each student in the resource room; self-contained, mild and moderate; and self-contained, severe, instructional arrangements may not exceed the average of the statewide total contact hours credited per day for those three instructional arrangements in the 1992-1993 school year.

(e) The commissioner by rule shall prescribe the qualifications an instructional arrangement must meet in order to be funded as a particular instructional arrangement under this section. In prescribing the qualifications that a mainstream instructional arrangement must meet, the commissioner shall establish requirements that students with disabilities and their teachers receive the direct, indirect, and support services that are necessary to enrich the regular classroom and enable student success.

(f) In this section, "full-time equivalent student" means 30 hours of contact a week between a special education student and special education program personnel.

(g) The commissioner shall adopt rules and procedures governing contracts for residential placement of special education students. The legislature shall provide by appropriation for the state's share of the costs of those placements.

(h) At least 55 percent of the funds allocated under this section must be used in the special education program under Subchapter A, Chapter 29.

(j) A school district that provides an extended year program required by federal law for special education students who may regress is entitled to receive funds in an amount equal to 75 percent, or a lesser percentage determined by the commissioner, of the basic allotment, or, if applicable, the sum of the basic allotment and the allotment under Section 48.101 to which the district is entitled for each full-time equivalent student in average daily attendance, multiplied by the amount designated for the student's instructional arrangement under this section, for each day the program is provided divided by the number of days in the minimum

school year. The total amount of state funding for extended year services under this section may not exceed \$10 million per year. A school district may use funds received under this section only in providing an extended year program.

(k) From the total amount of funds appropriated for special education under this section, the commissioner shall withhold an amount specified in the General Appropriations Act, and distribute that amount to school districts for programs under Section 29.014. The program established under that section is required only in school districts in which the program is financed by funds distributed under this subsection and any other funds available for the program. After deducting the amount withheld under this subsection from the total amount appropriated for special education, the commissioner shall reduce each district's allotment proportionately and shall allocate funds to each district accordingly.

(c) For purposes of the allotment under Subsection (b), the commissioner shall establish an index for economically disadvantaged census block groups in the state that provides criteria for determining which census block groups are economically disadvantaged and categorizes economically disadvantaged census block groups in five tiers according to relative severity of economic disadvantage. In determining the severity of economic disadvantage in a census block group, the commissioner shall consider:

(e) If insufficient data is available for any school year to evaluate the level of economic disadvantage in a census block group, a school district is entitled to an annual allotment equal to the basic allotment multiplied by 0.225 for each student who is educationally disadvantaged and resides in that census block group.

(e-1) For each student who is a homeless child or youth as defined by 42 U.S.C. Section 11434a, a school district is entitled to an annual allotment equal to the basic allotment multiplied by the highest weight provided under Subsection (d).

The agency shall provide to school districts a resource for use in determining the census block group in which a student resides.

(j) The commissioner shall adopt rules for the method of determining the number of students who qualify for an allotment under this section at a campus that participates in the Community Eligibility Provision administered by the United States Department of Agriculture, as provided by the Healthy, Hunger-Free Kids Act of 2010 ( Pub. L. No. 111-296).

(B) students at risk of dropping out of school, as defined by Section 29.081, and all other students; or

(B) provide for streamlined reporting on the use of those funds; and

(2) may not prohibit the use of those funds for any purpose for which the use of those funds was authorized under former Section 42.152 as that section existed on September 1, 2018.

(m) The State Board of Education shall adopt rules requiring a report on the use of funds under Subsection (k) as part of the annual audit under

Section 44.008 and shall develop minimum requirements for that report.

(n) The commissioner annually shall review each report required under Subsection (m) for the preceding school year and:

(1) identify each school district that was not in compliance with Subsection (k) during that school year; and

(2) provide each district identified under Subdivision (1) a reasonable opportunity to comply with Subsection (k).

(o) The commissioner, in the year following a determination under Subsection (n) that a school district was not in compliance with Subsection (k) for the 2021-2022 school year or a subsequent school year, shall withhold from the district's foundation school fund payment an amount equal to the amount of compensatory education funds the commissioner determines were not used in compliance with Subsection (k). The commissioner shall release to a district funds withheld under this subsection when the district provides to the commissioner a detailed plan to spend those funds in compliance with Subsection (k). In determining whether a school district is subject to the withholding of funding required under this subsection, the commissioner may consider the district's average use of funds for the three preceding school years.

(c) Not more than five percent of a district's students in average daily attendance are eligible for funding under this section.

(d) If the amount of state funds for which school districts are eligible under this section exceeds the amount of state funds appropriated in any year for the programs, the commissioner shall reduce each district's tier one allotments in the same manner described for a reduction in allotments under Section 48.266.

(e) If the total amount of funds allotted under this section before a date set by rule of the State Board of Education is less than the total amount appropriated for a school year, the commissioner shall transfer the remainder to any program for which an allotment under Section 48.104 may be used.

(f) After each district has received allotted funds for this program, the State Board of Education may use up to \$500,000 of the funds allocated under this section for programs such as MATHCOUNTS, Future Problem Solving, Odyssey of the Mind, and Academic Decathlon, as long as these funds are used to train personnel and provide program services. #### **Sec. 48.110. College, Career, Or Military Readiness Outcomes Bonus**

(a) The purpose of this section is to further the goal set under the state's master plan for higher education developed under Section 61.051 for at least 60 percent of all adults aged 25 to 34 in this state to achieve a postsecondary degree or workforce credential by 2030.

(b) For purposes of the outcomes bonus under this section, the commissioner shall determine the threshold percentage as provided by Subsection (g) for college, career, or military readiness as described by Subsection (f) for each of the following cohorts:

(1) annual graduates who are educationally disadvantaged;

(2) annual graduates who are not educationally disadvantaged; and

(3) annual graduates who are enrolled in a special education program under Subchapter A, Chapter 29, regardless of whether the annual graduates are educationally disadvantaged.

(c) Each year, the commissioner shall determine for each school district the minimum number of annual graduates in each cohort described by Subsection (b) who would have to demonstrate college, career, or military readiness as described by Subsection (f) in order for the district to achieve a percentage of college, career, or military readiness for that cohort equal to the threshold percentage established for that cohort under Subsection (b).

(d) For each annual graduate in a cohort described by Subsection (b) who demonstrates college, career, or military readiness as described by Subsection (f) in excess of the minimum number of students determined for the applicable district cohort under Subsection (c), a school district is entitled to an annual outcomes bonus of:

(1) if the annual graduate is educationally disadvantaged, \$5,000;

(2) if the annual graduate is not educationally disadvantaged, \$3,000; and

(3) if the annual graduate is enrolled in a special education program under Subchapter A, Chapter 29, §2,000, regardless of whether the annual graduate is educationally disadvantaged.

(e) A school district is entitled to an outcomes bonus under each subdivision of Subsection (d) for which an annual graduate qualifies.

(f) For purposes of this section, an annual graduate demonstrates:

(1) college readiness if the annual graduate:

(A) both:

(i) achieves college readiness standards used for accountability purposes under Chapter 39 on the ACT, the SAT, or an assessment instrument designated by the Texas Higher Education Coordinating Board under Section 51.334; and

(ii) during a time period established by commissioner rule, enrolls at a postsecondary educational institution; or

(B) earns an associate degree from a postsecondary educational institution approved by the Texas Higher Education Coordinating Board while attending high school or during a time period established by commissioner rule;

(2) career readiness if the annual graduate:

(A) achieves college readiness standards used for accountability purposes under Chapter 39 on the ACT, the SAT, or an assessment instrument designated by the Texas Higher Education Coordinating Board under Section 51.334; and

(B) during a time period established by commissioner rule, earns an industry-accepted certificate; and

(3) military readiness if the annual graduate:

(A) achieves a passing score set by the applicable military branch on the Armed Services Vocational Aptitude Battery; and

(B) during a time period established by commissioner rule, enlists in the armed forces of the United States or the Texas National Guard.

(g) The commissioner shall establish the threshold percentages under Subsection (b) using the 25th percentile of statewide college, career, or military readiness as described by Subsection (f) for the applicable cohort of annual graduates during the 2016-2017 school year.

(h) On application by a school district, the commissioner may allow annual graduates from the district to satisfy the requirement for demonstrating career readiness under Subsection (f)(2)(B) by successfully completing a coherent sequence of

courses required to obtain an industry-accepted certificate. The district must demonstrate in the application that the district is unable to provide sufficient courses or programs to enable students enrolled at the district to earn an industry-accepted certificate within the time period established by the commissioner under Subsection (f)(2)(B). The commissioner by rule shall provide the criteria required for an application under this subsection.

(i) At least 55 percent of the funds allocated under this section must be used in grades 8 through 12 to improve college, career, and military readiness outcomes as described by Subsection (f).

#### HISTORY

(Added by Acts 2019, Texas Acts of the 86th Leg. - Regular Session, ch. 943, Sec. 1.031, eff. 9/1/2019.)

### Sec. 48.111. Fast Growth Allotment

(a) Except as provided by Subsection (c), a school district is entitled to an annual allotment equal to the basic allotment multiplied by the applicable weight under Subsection (a-1) for each enrolled student equal to the difference, if the difference is greater than zero, that results from subtracting 250 from the difference between the number of students enrolled in the district during the school year immediately preceding the current school year and the number of students enrolled in the district during the school year six years preceding the current school year.

(a-1) For purposes of Subsection (a), the agency shall assign the following weights:

(1) 0.48 for each student enrolled at a district in the top 40 percent of districts, as determined based on the number of students calculated under Subsection (a);

(2) 0.33 for each student enrolled at a district in the middle 30 percent of districts, as

determined based on the number of students calculated under Subsection (a); and

(3) 0.18 for each student enrolled at a district in the bottom 30 percent of districts, as determined based on the number of students calculated under Subsection (a).

(a-2) Notwithstanding Subsection (a-1), for the 2021-2022 school year, instead of using the weights under that subsection, the agency shall substitute the following weights:

(1) 0.45 for each student enrolled at a district in the top 40 percent of districts, as determined based on the number of students calculated under Subsection (a);

(2) 0.30 for each student enrolled at a district in the middle 30 percent of districts, as determined based on the number of students calculated under Subsection (a); and

(3) 0.15 for each student enrolled at a district in the bottom 30 percent of districts, as determined based on the number of students calculated under Subsection (a).

(a-3) Subsection (a-2) and this subsection expire September 1, 2024.

(b) For purposes of Subsection (a), in determining the number of students enrolled in a school district, the commissioner shall exclude students enrolled in the district who receive full-time instruction through the state virtual school network under Chapter 30A.

(c) Notwithstanding Subsection (a), the total amount that may be used to provide allotments under Subsection (a) may not exceed \$320 million. If the total amount of allotments to which districts are entitled under Subsection (a) for a school year exceeds the amount permitted under this subsection, the commissioner shall proportionately reduce each district's allotment under this section.

(c-1) Notwithstanding Subsection (c), the total amount that may be used to provide allotments under Subsection (a) may not exceed:

(1) for the 2021-2022 school year, \$270 million;

(2) for the 2022-2023 school year, \$310 million; and

(3) for the 2023-2024 school year, \$315 million.

(c-2) Subsection (c-1) and this subsection expire September 1, 2025.

(d) Subject to the limitation under Subsection (d-1), for the 2021-2022 school year, the agency shall provide to each school district, regardless of whether the district is entitled to an allotment under Subsection (a) for the 2021-2022 school year, an amount equal to the difference, if the difference is greater than zero, between the amount of the allotment for the 2019-2020 school year under this section, as this section existed on September 1, 2019, and the amount of the allotment for the 2021-2022 school year.

(d-1) The total amount that may be used to provide funding under Subsection (d) may not exceed \$40 million. If the total amount of funding to which districts are entitled under Subsection (d) for a school year exceeds the amount permitted under this subsection, the commissioner shall proportionately reduce each district's amount under Subsection (d).

(d-2) The amounts to which school districts are entitled under Subsection (d) are not subject to the amount limitations described by Subsections (c) and (c-1).

(d-3) Subsections (d), (d-1), (d-2), and this subsection expire September 1, 2023.

#### **Sec. 48.112. Teacher Incentive Allotment**

(a) In this section, "rural campus" means a school campus that is:

(1) located in:

(A) an area that is not designated as an urbanized area or an urban cluster by the United States Census Bureau; and

(B) a school district with fewer than 5,000 enrolled students; or

(2) designated as a rural campus under rules adopted by the commissioner.

(b) To ensure classroom teachers in this state have access to a six-figure salary, the allotment provided to a school district under this section offers resources to the district to increase teacher compensation and prioritize funding for high needs and rural district campuses.

(c) For each classroom teacher with a teacher designation under Section 21.3521 employed by a school district, the school district is entitled to an allotment equal to the following applicable base amount increased by the high needs and rural factor as determined under Subsection (d):

(1) \$12,000, or an increased amount not to exceed \$32,000 as determined under Subsection (d), for each master teacher;

(2) \$6,000, or an increased amount not to exceed \$18,000 as determined under Subsection (d), for each exemplary teacher; and

(3) \$3,000, or an increased amount not to exceed \$9,000 as determined under Subsection (d), for each recognized teacher.

(d) The high needs and rural factor is determined by multiplying the following applicable amounts by the average of the point value assigned to each student at a district campus under Subsection (e):

(1) \$5,000 for each master teacher;

(2) \$3,000 for each exemplary teacher; and

(3) \$1,500 for each recognized teacher.

(e) Except as provided by Subsection (f), a point value for each student at a district campus shall be assigned as follows:

(1) 0, for a student for whom the district does not receive a compensatory education allotment under Section 48.104(b) or (e); or

(2) 0.5, 1.0, 2.0, 3.0, or 4.0, respectively, from least to most severe economic disadvantage according to the census block group in which the student resides, for a student for whom the district receives a compensatory education allotment under Section 48.104(b) or (e).

(f) If the campus at which a student is enrolled is classified as a rural campus, a student is assigned the point value two tiers higher than the student's point value determined under Subsection (e)(1) or (2).

(g) A district is entitled to receive an increased allotment under this section in the amount necessary for reimbursement for any fees paid under Section 21.3521.

(h) The commissioner shall annually make available to the public a list of campuses with the projected allotment amounts per teacher designation at each campus.

(i) A district shall annually certify that:

(1) funds received under this section were used as follows:

(A) at least 90 percent of each allotment received under Subsection (c) was used for the compensation of teachers employed at the campus at which the teacher for whom the district received the allotment is employed; and

(B) any other funds received under this section were used for costs associated with implementing Section 21.3521, including efforts to support teachers in obtaining designations; and

(2) the district prioritized high needs campuses in the district in using funds received under this section.

(j) The Texas School for the Deaf and the Texas School for the Blind and Visually Impaired are entitled to an allotment under this section. If the commissioner determines that assigning point values under Subsections (e) and (f) to students enrolled in the Texas School for the Deaf or the Texas School for the Blind and Visually Impaired is impractical, the commissioner may use the average point value assigned for those students' home districts for purposes of calculating the high needs and rural factor.

Section 48.154.	Tuition Allotment For Districts Not Offering All Grade Levels

48.156.	Certification Examination Reimbursement

#### **Sec. 48.151. Transportation Allotment**

(a) Each district or county operating a transportation system is entitled to allotments for transportation costs as provided by this section.

(b) As used in this section:

(1) "Regular eligible student" means a student who:

(A) resides two or more miles from the student's campus of regular attendance, measured along the shortest route that may be traveled on public roads, and who is not classified as a student eligible for special education services; or

(B) is a homeless child or youth, as defined by 42 U.S.C. Section 11434a.

(2) "Eligible special education student" means a student who is eligible for special education services under Section 29.003 and who would be unable to attend classes without special transportation services.

(c) Each district or county operating a regular transportation system is entitled to an allotment based on a rate per mile per regular eligible student set by the legislature in the General Appropriations Act.

(d) A district or county may apply for and on approval of the commissioner receive an additional amount of up to 10 percent of its regular transportation allotment to be used for the transportation of children living within two miles of the school they attend who would be subject to hazardous traffic conditions or a high risk of violence if they walked to school.

(d-1) For purposes of Subsection (d), each board of trustees shall provide to the commissioner an explanation of the hazardous traffic conditions or areas presenting a high risk of violence applicable to that district and shall identify the specific hazardous or high-risk areas for which the allocation is requested. A hazardous traffic condition exists where no walkway is provided and children must walk along or cross a freeway or expressway, an underpass, an overpass or a bridge, an uncontrolled major traffic artery, an industrial or commercial area, or another comparable condition. An area presents a high risk of violence if law enforcement records indicate a high incidence of violent crimes in the area. Each board of trustees requesting funds for an area presenting a high risk of violence must, in addition to the explanation required by this subsection, provide the commissioner with

consolidated law enforcement records that document violent crimes identified by reporting agencies within the relevant jurisdiction.

(d-2) A district or county may use all or part of any funds received under Subsection (d) to support community walking transportation programs, including walking school bus programs, provided that the district or county requires each supported program to submit a financial report to the district or county each semester that covers services provided by the program for the benefit of the district or county. The commissioner shall adopt rules governing the transportation allotment as necessary to permit a district or county to receive funds under Subsection (d) that may be used to support innovative school safety projects, including community walking transportation programs as provided by this subsection and any other appropriate safety project, including rules defining an approved walking route mile that may be used as necessary in implementing this subsection.

(e) The commissioner may grant an amount set by appropriation for private or commercial transportation for eligible students from isolated areas. The need for this type of transportation grant shall be determined on an individual basis and the amount granted shall not exceed the actual cost. The grants may be made only in extreme hardship cases. A grant may not be made if the students live within two miles of an approved school bus route.

(f) The cost of transporting career and technology education students from one campus to another inside a district, from a sending district to another secondary public school for a career and technology program or an area career and technology school or to an approved post-secondary institution under a contract for instruction approved by the agency, or from a district campus to a location at which students are provided work-based learning under the district's career and technology program shall be reimbursed based on the number of actual miles traveled times the district's official extracurricular travel per mile rate as set by the board of trustees and approved by the agency.

(g) A school district or county that provides special transportation services for eligible special education students is entitled to a state allocation paid on a previous year's cost-per-mile basis. The rate per mile allowable shall be set by appropriation based on data gathered from the first year of each preceding biennium. Districts may use a portion of their support allocation to pay transportation costs, if necessary. The commissioner may grant an amount set by appropriation for private transportation to reimburse parents or their agents for transporting eligible special education students. The mileage allowed shall be computed along the

shortest public road from the student's home to school and back, morning and afternoon. The need for this type transportation shall be determined on an individual basis and shall be approved only in extreme hardship cases.

(h) Funds allotted under this section must be used in providing transportation services. Transporting a meal or instructional materials as provided by Subsection (n) is included in transportation services under this subsection.

(i) In the case of a district belonging to a county transportation system, the district's transportation allotment for purposes of determining a district's foundation school program allocations is determined on the basis of the number of approved daily route miles in the district.

(j) The Texas School for the Deaf is entitled to an allotment under this section. The commissioner shall determine the appropriate allotment.

(k) Notwithstanding any other provision of this section, the commissioner may not reduce the allotment to which a district or county is entitled under this section because the district or county provides transportation for an eligible student to and from a child-care facility, as defined by Section 42.002, Human Resources Code, or a grandparent's residence instead of the student's residence, as authorized by Section 34.007 of this code.

(l) A school district may, with the funds allotted under this section, provide a bus pass or card for another transportation system to each student who is eligible to use the regular transportation system of the district but for whom the regular transportation system of the district is not a feasible method of providing transportation. The commissioner by rule shall provide procedures for a school district to provide bus passes or cards to students under this subsection.

(m) A school district shall be reimbursed on a per-mile basis for the cost of transporting a dual credit student to another campus in the district, a campus in another district, or a postsecondary educational institution for purposes of attending the course, if the course is not available at the student's campus.

(n) For the duration of a declared disaster, a school district located in an area that is wholly or partly the subject of a disaster declaration by the governor under Chapter 418, Government Code, or by the president of the United States may be reimbursed on a per-mile basis for the cost of transporting a meal or instructional materials to a student's residence or to another location, designated by the district, for pick up by the student.

(d) For the first school year in which students attend a new instructional facility, a school district is entitled to an allotment of \$1,000 for each student in average daily attendance at the facility. For the second school year in which students attend that instructional facility, a school district is entitled to an allotment of \$1,000 for each additional student in average daily attendance at the facility.

(e) For purposes of this section, the number of additional students in average daily attendance at a facility is the difference between the number of students in average daily attendance in the current year at that facility and the number of students in average daily attendance at that facility in the preceding year.

(f) The amount appropriated for allotments under this section may not exceed \$100 million in a school year. **Sec. 48.202. Tier Two Allotment**

(a) Each school district is guaranteed a specified amount per weighted student in state and local funds for each cent of tax effort over that required for the district's local fund assignment up to the maximum level specified in this subchapter. The amount of state support, subject only to the maximum amount under Section 48.203, is determined by the formula:

$$GYA = (GL \times WADA \times DTR \times 100) - LR$$

where:

“GYA” is the guaranteed yield amount of state funds to be allocated to the district;

“GL” is the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort, which is an amount described by Subsection (a-1) or a greater amount for any year provided by appropriation;

“WADA” is the number of students in weighted average daily attendance, which is calculated by dividing the sum of the school district's allotments under Subchapters B and C by the basic allotment for the applicable year;

“DTR” is the district enrichment tax rate of the school district, which is determined by subtracting the amounts specified by Subsection (b) from the total amount of maintenance and operations taxes collected by the school district for the applicable

school year and dividing the difference by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258 or by the quotient of the value of “DPV” as determined under Section 48.256(d) if that subsection applies to the district, divided by 100; and

“LR” is the local revenue, which is determined by multiplying “DTR” by the quotient of the district's taxable value of property as determined under Subchapter M, Chapter 403, Government Code, or, if applicable, under Section 48.258 or by the quotient of the value of “DPV” as determined under Section 48.256(d) if that subsection applies to the district, divided by 100.

(a-1) For purposes of Subsection (a), the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort (“GL”) for a school district is:

- (1) the greater of the amount of district tax revenue per weighted student per cent of tax effort available to a school district at the 96th percentile of wealth per weighted student or the amount that results from multiplying 6,160, or the greater amount provided under Section 48.051(b), if applicable, by 0.016, for the first eight cents by which the district's maintenance and operations tax rate exceeds the district's tier one tax rate; and

- (2) subject to Subsection (f), the amount that results from multiplying \$6,160, or the greater amount provided under Section 48.051(b), if applicable, by 0.008, for the district's maintenance and operations tax effort that exceeds the amount of tax effort described by Subdivision (1).

(a-2) The limitation on district enrichment tax rate (“DTR”) under Section 48.203 does not apply to the district's maintenance and operations tax effort described by Subsection (a-1)(1).

(b) In computing the district enrichment tax rate of a school district, the total amount of maintenance and operations taxes collected by the school district does not include the amount of:

- (1) the district's local fund assignment under Section 48.256; or

- (2) taxes paid into a tax increment fund under Chapter 311, Tax Code.

(c) For purposes of this section, school district taxes for which credit is granted under Section 31.035, 31.036, or 31.037, Tax Code, are considered taxes collected by the school district as if the taxes were paid when the credit for the taxes was granted.

(d) For purposes of this section, the total amount of maintenance and operations taxes collected for an applicable school year by a school district with alternate tax dates, as authorized by

Section 26.135, Tax Code, is the amount of taxes collected on or after January 1 of the year in which the school year begins and not later than December 31 of the same year.

(e) For purposes of this section, school district taxes for which credit is granted under former Subchapter D, Chapter 313, Tax Code, are considered taxes collected by the school district as if the taxes were paid when the credit for the taxes was granted.

Text of subsection effective on January 01, 2022

(e-1) For purposes of this section, the total amount of maintenance and operations taxes collected by a school district includes the amount of taxes refunded under Section 26.1115(c), Tax Code.

(f) For a school year in which the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort ("GL") under Subsection (a-1)(2) exceeds the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort ("GL") under Subsection (a-1)(2) for the preceding school year, a school district shall reduce the district's tax rate under Section 45.0032(b)(2) for the tax year that corresponds to that school year to a rate that results in the amount of state and local funds per weighted student per cent of tax effort available to the district at the dollar amount guaranteed level for the preceding school year. A school district is not entitled to the amount equal to the increase of revenue described by this subsection for the school year for which the district must reduce the district's tax rate. Unless Section 26.042(e), Tax Code, applies to the district, for a tax year in which a district must reduce the district's tax rate under this subsection, the district may not increase the district's maintenance and operations tax rate to a rate that exceeds the maximum maintenance and operations tax rate permitted under Section 45.003(d) or (f), as applicable, minus the reduction of tax effort required under this subsection. This subsection does not apply if the amount of state funds appropriated for a school year specifically excludes the amount necessary to provide the dollar amount guaranteed level of state and local funds per weighted student per cent of tax effort under Subsection (a-1)(2).
