

Educator Preparation Data Dashboard

The purpose of this document is to provide information about the version updates to the Educator Preparation Data Dashboards. Launched in September 2019, these dashboards serve to inform report the data surrounding educator preparation throughout the state of Texas as required through statutory mandates. Created in iterative cycles, these dashboards are updated quarterly with the intended purpose of incorporating user and audience feedback. The 90 Day iteration cycle and timelines detail the development process.

Off Cycle Updates

| Change Type | Page | Issue | Update |
|-------------|-------------|--|--|
| Technical | Indicator 2 | Upon receiving a question from user, reviewed the calculations and discovered the data visualization misrepresented the data by presenting the average of the averages instead of the average of the observations. | By changing the calculations on the visualization to present the average of all of the observations, the visualization was more accurately aligned with the statewide average. The update was made on October 4, 2019. |
