TEXAS STUDENT DATA SYSTEM

tsds

Simple Solution. Brighter Futures.

Gain insights into the TSDS Upgrade Project.

The Texas Student Data System (TSDS), a major initiative by the Texas Education Agency, is a statewide system that modernizes and improves the quality of data collection, management, and reporting in Texas education that in turn improves student learning.

1) Public Education Information Management System (PEIMS) Submissions
(inclusive of Student Information System data, Human Resource data, and Finance data)
a) PEIMS Fall
b) PEIMS Mid-Year
c) PEIMS Summer
d) PEIMS Extended Year

Core Collections
2. Charter School Waitlist
3. Child Find
4. Class Roster
5. Early Childhood Data System
6. Residential Facility Tracker
7. Special Education Language Acquisition
8. State Performance Plan Indicator 14

9) Unique ID/Enrollment Tracking

TSDS is being updated during the 2024-25 school year to improve data accuracy and student supports. See appendix for project history.

Oct. 25 2024	PEIMS Fall Snapshot Date. Data reported for the PEIMS Fall submission is as of October 25, 2024.
DEC. 12 2024	PEIMS Fall Initial Submission Due Date (first submission for all LEAs)
JAN. 16 2025	PEIMS Fall Resubmission Due Date (data correction period if needed)

Jan 16 is the deadline for accurate data

Effective Date data elements allow entry of information well after PEIMS snapshot.

Example: A student is determined to be At-Risk on October 16, 2024. The At-Risk status for that student was not entered into the SIS until November 11, 2024. When entered, the SIS prompts for the Begin Date which is noted for that as '10/16/24'. The LEA transmits data from the SIS to the IODS periodically throughout November. The LEA promotes to PEIMS December 16, 2024. As a result, the student is still properly classified for the PEIMS Fall submission Snapshot as At Risk.

441	LEAs have promoted data through the TSDS applications for the PEIMS Fall submission in 2024-2025 school year and are actively reviewing reports and working through the validations.
114	LEAs that had promoted this time last year

NEXT STEPS FOR YOUR LEA

TEA
Texas Education Agency®

1 Ensure TEAL access has been approved for TSDS Portal, DMC, PEIMS, and ^Core. ⭐

2 Ensure a Key & Secret has been created for each SIS, ERP, and ^ECDS vendor. ⭐

3 Coordinate with your vendors to send data to the TSDS IODS. ⭐

4 Coordinate with your vendors to resolve any Level 1 (API) errors. ⭐

5 Verify data is publishing as expected in the DMC.

6 Schedule and review Level 2 Business Validations.

7 Promote TSDS PEIMS and Core data through the TSDS applications. ⭐

8 Verify TSDS submissions with the available data validations and reports. ⭐

9 Run the TSDS PEIMS Disaggregation Report & compare to your source system data.

10 **PEIMS Coordinator Completes the PEIMS Fall Submission.** ⭐

You can track your status on steps with a Star on TEA's website. New status checks available as of 10/16. Coming 10/30
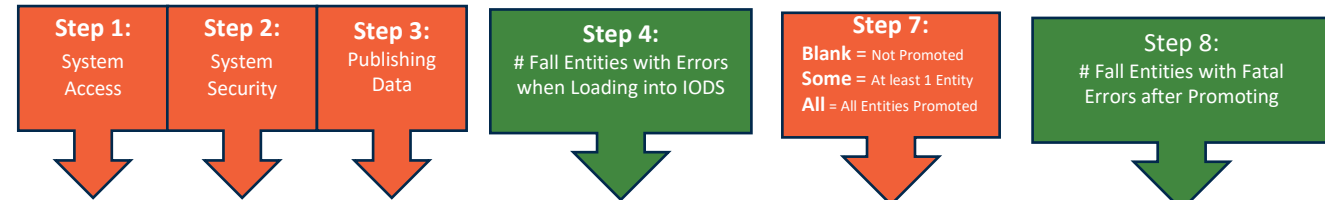

At any step, if you have any difficulties, you can:

(a) Contact your ESC PEIMS coordinator, or

(b) Submit a Help Desk ticket to TEA

^ Not needed for PEIMS Fall, but needed for other submissions due in the spring

For PEIMS Fall, there are 23 different record types (entities). When data from these record types are published to the TEA IODS, publishing errors can occur. These are known as L1 or API errors. If any record type has an L1 error for any record based on data that was published in the last seven calendar days, it will be counted in this report. A count of 8, for example, would note that 8 different record types have an L1 error. For each type of record, for example a student record, there could be more than one L1 error. Seeing a number here indicates L1 errors have occurred in the last seven days.

Validation Error Type	Validation Error Explanations
Fatal	On the PEIMS Fall snapshot date, a student participating in the Bilingual Program, the ESL Program, or an approved alternative language program must be reported with a Parental Permission.
Special Warning	A student that is 3 - 5 years old on the PEIMS Fall snapshot date and enrolled in "EE" generally should be receiving special education Preschool Student with Disabilities Services.
Warning	On the PEIMS Fall snapshot date, if a parent or guardian has approved placement of an Emergent Bilingual (EB) student in the Bilingual Program, then the student typically will not be enrolled in EntryGradeLevel "09"-"12".

For PEIMS Fall, there are 23 different record types grouped into 16 subcategories that can be validated. If any record type has a single fatal error for any record based on data that was last validated, it will be counted in this report. A count of 6, for example, would note that 6 different subcategories of records have fatal errors. For each type of record, for example a student record, there could be more than one fatal error. Seeing a number here indicates that fatal errors must still be addressed.

This report will not show a zero, as we do not know when you are loading your final set of data. But based on when you load records into the IODS, or promote to PEIMS, you can use this report to determine whether fatal errors remain.

Note: Step 6 allows for a review of identical validation errors from within the IODS, before promotion to PEIMS

Dear **Dr. Superintendent**

The District PEIMS Coordinator has marked the Learning ISD 2024-2025 PEIMS Fall Submission as "**COMPLETE**."

The submission will now go to the Superintendent for approval and the ESC for acceptance. The submission is now locked and cannot be changed, unless the ESC rejects the collection.

The following report(s) have been automatically generated for your organization and attached to this email. **The Superintendent is required to review the attached report and verify its contents before approving the PEIMS Fall submission as "COMPLETE":**

EXPECTATIONS & ACTIONS

POSSIBLE ISSUES

1. LEAs may be required to cleanup their source data due to data standard.

2. Vendor products may need to be updated throughout the year.

3. Vendor technology issues may arise due to specific LEA integrations.

4. LEAs will need additional support on specific issues during the transition.

SUPPORTS

1. Regional Educational Service Centers are available to assist LEAs.

2. Dedicated TEA Vendor Coordinator is available to triage communication.

3. TEA technical staff are available to provide guidance when applicable.

4. Established support ticket system is available to report and monitor issues.

MOVING FORWARD

TEA | Texas Education Agency

- TEA will report statewide status updates on monthly Superintendent call through the end of the PEIMS Fall resubmission window (January 2025).

- Superintendents should ensure their teams are moving through the Next Steps for LEAs.

- Check your status on steps 1, 2, 3, 4, 7 and 8: TSDS Upgrade Status by LEA **(updated every Wednesday)** posted on the TEA/TSDS website under Upgrade Project Documentation.

- Contact your ESC or TEA for support.
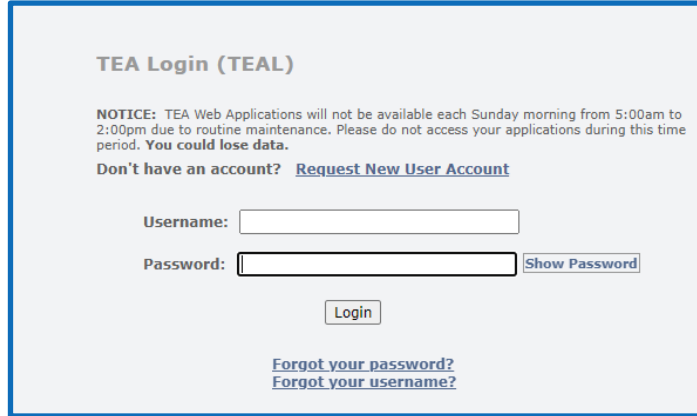

Our Goals:
(1) Initial data loaded for PEIMS Fall for your district by December 12
(2) Data loaded and fully correct for PEIMS Fall for your district by January 16

APPENDIX

ED-FI DATA STANDARD

- Set of data standards and technology that allows local school systems to gain access to real time tools to support students via individual LEA Operational Data Store (ODS)

- Version 4.0 allows for the submission of data using **automated API transactional data loads** instead of **manual XML batch loads**
  - which will improve system performance and reduce the burden of bulk loading for schools;
  - allows schools to have access to their data sooner; identify errors sooner and correct data sooner;
  - provides a mechanism for near real-time sync of the school system's individual ODS and their local systems along with TEA tools.
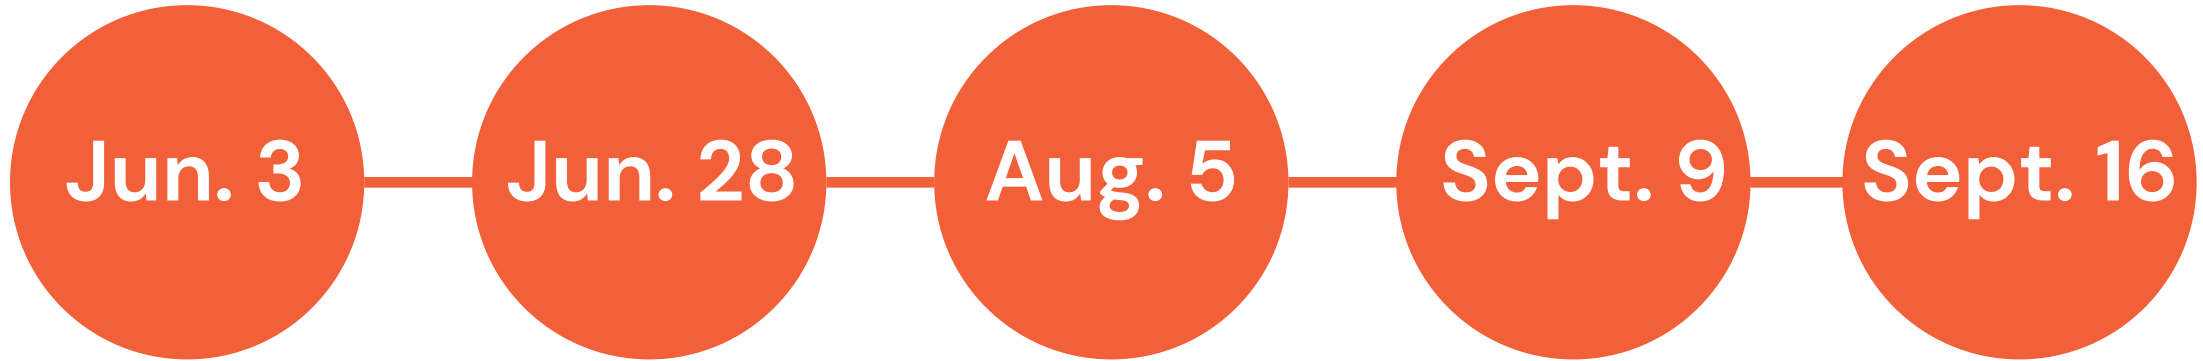

TSDS Upgrade Helps Schools and Improves Student Supports

- Implementing API transactional data loads:
  1. Allows school systems to integrate with other local systems that are Ed-Fi compliant, including:
     - Early warning systems that alert administrators to absenteeism
     - Graduation Plan advisement tools
     - Learning Management Systems
  2. Allows for more time to validate and ensure accuracy of state-reported data that ensures school systems maximize:
     - Funding
     - Accountability
  3. Allows for school administrators and state leaders to have insight into more near real-time actionable data, including:
     - Teacher vacancy
     - Student absences in time of crisis
     - Student course access – eg, high performing math students accessing Algebra I in 8th grade

Allowing more time to ensure accurate data to maximize funding and accountability

Implemented Seven (7) Additional CORE Data Submissions into the Texas Student Data System

TSDS was developed based on: Texas Data Collection and Reporting Systems Investigation report (1/27/2009)

**Moved LEAs from a PEIMS data reporting system, EDIT+ that had been in existence since 1987. This system was based on an 80-column flat file format for submitting data.

Texas Education Agency®

PILOT PROGRAM: September 2021 – August 2023

✓ Most TSDS vendors participated to develop and test their product solutions.

✓ Limited number of LEAs conducted testing against PEIMS Fall, Class Roster, and Child Find.

PARALLEL SUBMISSION: August 2023 – August 2024

✓ All TSDS vendors participated and tested their product solutions in a Production-like environment.

✓ In partnership with school systems, TEA and vendors were able to make iterative software updates, ultimately confirming full data comparisons for every data collection between the old system and the new system.

GO-LIVE: Now in the 2024-2025 School Year

❑ All LEAs will submit their TSDS data through the API.

❑ XML submissions are no longer accepted for TSDS.

❑ Charter School Waitlist Submission due October 25, 2024.

❑ PEIMS Fall Submission due December 12, 2024.
