To the Superintendent Addressed:

2023 Accelerated Testers Student Listings

This correspondence is to notify you that the Final 2023 Accelerated Testers Student Listings and explanatory materials are now available in the [TEA Login](#) (TEAL) Accountability application. Please note that the data in these reports are confidential.

Accelerated testers are defined as students who complete a STAAR EOC at the Approaches Grade Level or above standard in Algebra I, English II, and/or Biology prior to grade 9. To fulfill federal testing requirements, these accelerated students must take a corresponding subject area SAT or ACT while in high school.

Accelerated testers are included on the Final 2023 Accelerated Testers Student Listing if the student was reported as enrolled in grade 12 for the 2022–23 PEIMS snapshot. Students are attributed to the district/campus at which they were reported for snapshot. The Final 2023 Accelerated Testers Student Listings reflect which subject area the student is considered accelerated and if the student has a corresponding SAT or ACT on record. Results as of May 2022 (2021–22, 2020–21, and 2019–20 school years) are included. The 2023 accountability calculations will include results through May 2023, and the August 2023 STAAR student listings released in TEAL Accountability will include these additional results.

The students included on the final listing will be evaluated as accelerated testers for 2023 accountability reports.

Performance Level Cut Points

SAT and/or ACT results for accelerated testers are included in STAAR components in the subject areas of English language arts (ELA)/reading, mathematics, and science at the standards provided below.
