## Enrollment and Membership

For reference, the definitions below describe the difference between enrollment and membership.

**Enrollment:** Students reported as enrolled as per the current year Student Attendance Accountability Handbook (see above link) on the October Snapshot.

**Membership:** Membership differs from enrollment as it does not include those students who are served for less than two hours per day. A student is in membership if he/she is enrolled and is either:

- scheduled to attend at least two hours of instruction each school day or
- participating in an alternative attendance accounting program.
