

Local Accountability System Overview

Spring 2025

Overview

- Plan Development
- LAS Example
- Possibilities with LAS
- Ideal Candidates
- Next Steps

Objectives

- Understand the purpose and key components of the Local Accountability System (LAS).
- Gather information and resources to start conversations with your stakeholders in your District, or Open-enrollment Charter School, on participating in LAS.

According to state law, the purpose of A—F accountability is:

- to **continuously improve student performance**
- to **eliminate achievement gaps** based on race, ethnicity, and socioeconomic status
- to ensure Texas is a national leader in **preparing students for postsecondary success**

Improve Student
Performance

Eliminate
Achievement Gaps

Prepare Students for
Postsecondary Success

Districts and Open-Enrollment Charter Schools use additional measures to monitor continuous improvement, eliminate achievement gaps, and prepare students for postsecondary success.

What is a Local Accountability System?

The Local Accountability System (LAS) allows districts and open-enrollment charter schools to create LAS plans to measure outcomes reflecting **locally determined needs and strengths**.

Similar to the State *A—F* Accountability System, LAS is a tool to drive continuous improvement for students.

Campuses with an overall state rating of A, B, or C can combine their LAS ratings with the state rating for final reporting purposes.

Benefits of Local Accountability Systems

Local Relevance

Allowing schools to tailor their accountability measures to their community's specific needs and values.

Community Engagement

Involving parents, students, educators, and community members in the process fosters a sense of ownership in the educational outcomes.

Empowerment

Schools and districts can customize their accountability measures to align with their specific goals, allowing flexibility in defining and achieving success.

Holistic Assessment

LAS can include many components, such as student engagement, extra- and co-curricular activities, and community service participation.

Continuous Improvement

LAS can provide timely and relevant feedback, helping schools improve.

Public Reporting

LAS ratings are publicly released with state accountability on TXSchools.gov and the Campus Report Card.

Public Reporting: TXSchools.gov

- Overall rating is combined for campuses with an overall state rating of **C or above**.
- Each LAS Domain is displayed.
- Tell me more** has specific details derived from the LAS Plan.
- Local Accountability Details** has a link to the district's website where the full plan is stored.

The screenshot displays the 'ACCOUNTABILITY OVERVIEW' page. It features an 'Overall Rating' of B (87 out of 100) and a 'Change Over Time' table. Below this is the 'Overall Performance Details' section with three metrics: Student Achievement (C, 76 out of 100), School Progress (B, 86 out of 100), and Closing the Gaps (B, 88 out of 100). The 'Local Accountability Performance Details' section includes Academics (A, 94 out of 100), Culture and Climate (B, 81 out of 100), and Locally Determined (B, 87 out of 100). Annotations include orange arrows pointing to the Overall, State, and LAS sections, and orange circles highlighting the 'TELL ME MORE' and 'LOCAL ACCOUNTABILITY DETAILS' buttons.

Academic Year	Overall Rating	Score
2021-22	B	87
2020-21	Not Rated*	N/A
2019-20	Not Rated*	N/A
2018-19	B	83
2017-18	Met Standard	79

* Given the impact of COVID-19, all districts and schools received a label of Not Rated, Declared State of Disaster for their 2019-20 and 2020-21 accountability ratings.

This shows how overall performance at the school has changed over time.

Overall Performance Details

Metric	Rating	Score
Student Achievement	C	76 out of 100
School Progress	B	86 out of 100
Closing the Gaps	B	88 out of 100

Local Accountability Performance Details

Domain	Rating	Score
Academics	A	94 out of 100
Culture and Climate	B	81 out of 100
Locally Determined	B	87 out of 100

Monitor NJROTC course request to meet or exceed 125 students per year Provide 90% or better student requests of ASVAB testing Collect 90% or better of military enlistment forms with proper documentation required for state accountability
			<ul style="list-style-type: none"> NJROTC Enrollment ASVAB Participation/Testing Military Enlistments 	<ul style="list-style-type: none"> Annually increase the percentage of student self-reported Responsible Decision-Making Skills attainment: Annually increase the percentage of student self-reported Self Awareness Skills attainment: Annually increase the percentage of student self-reported Self-Management Skills attainment:

Planning Year

- LAS Resources and Training
- Gather community input
- Alignment of goals and components
- ➔ ■ **Create the plan**
- Collect baseline data and create rating scale

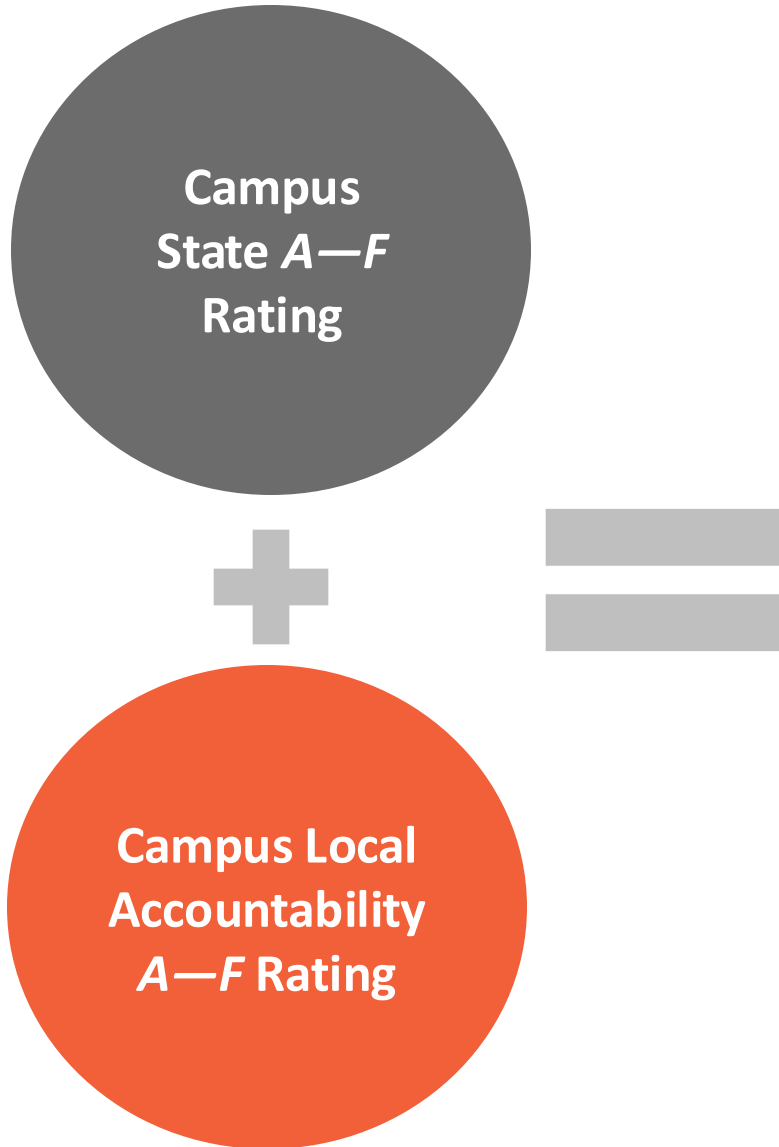

A Local Accountability Plan includes the following information:

1. District Plan Rationale and Weight
2. Component Summary and Weight
3. Component Descriptions and Rationale
4. Valid and Reliable Measures
5. Data Collection Protocols
6. Baseline Data
7. Campus Rating Scale

The Campus State Rating must account for at least 50% of the Overall Campus Score.

Combined Rating Examples

If a Campus State Rating is a C or better, then the Local Accountability Ratings will be combined with the State Rating.

Elementary Schools

Middle Schools

High Schools

K-12

Specific school types

-or-

All school types

All schools within that school type will be included in the plan.

Domains

Academic Achievement

Culture and Climate

Extra- and Co-curricular

Future Ready Learning

Locally Determined

Components

- K-2 Literacy
- 8th grade Algebra I enrollment and success
- Geometry success
- K-7 Social Studies

- Student perception of Teacher Quality
- School Safety
- Teacher Retention
- Safe Learning Environments

- Internships
- Campus Organizations and sports, UIL
- Student professional organizations

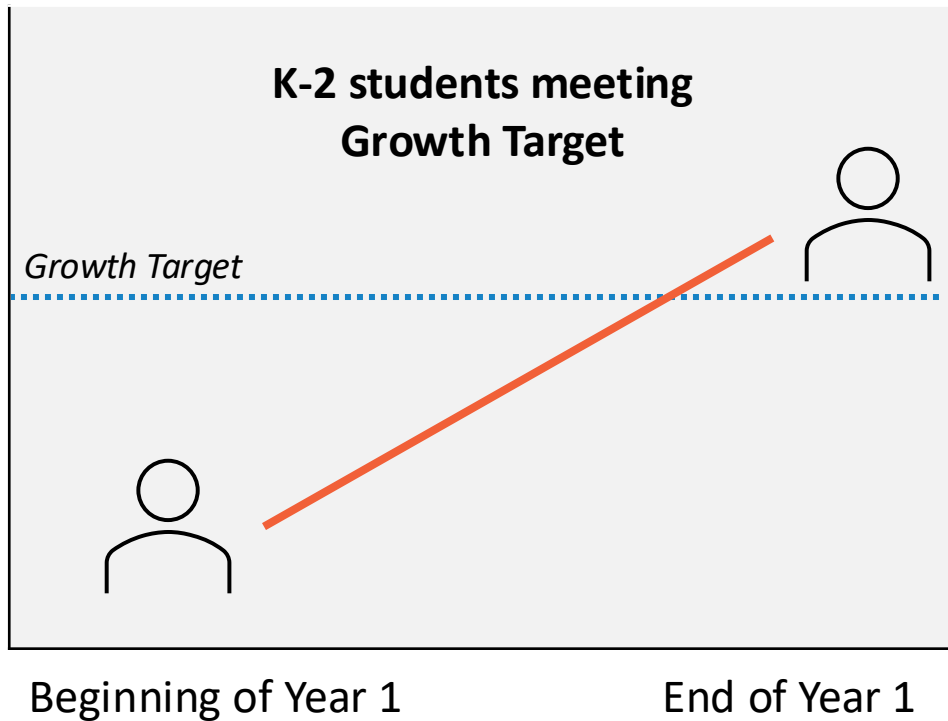

- AP enrollment and success
- Authentic work-based learning experiences
- 6-8 IBCs

- Attendance
- T-TESS
- Fitness Gram

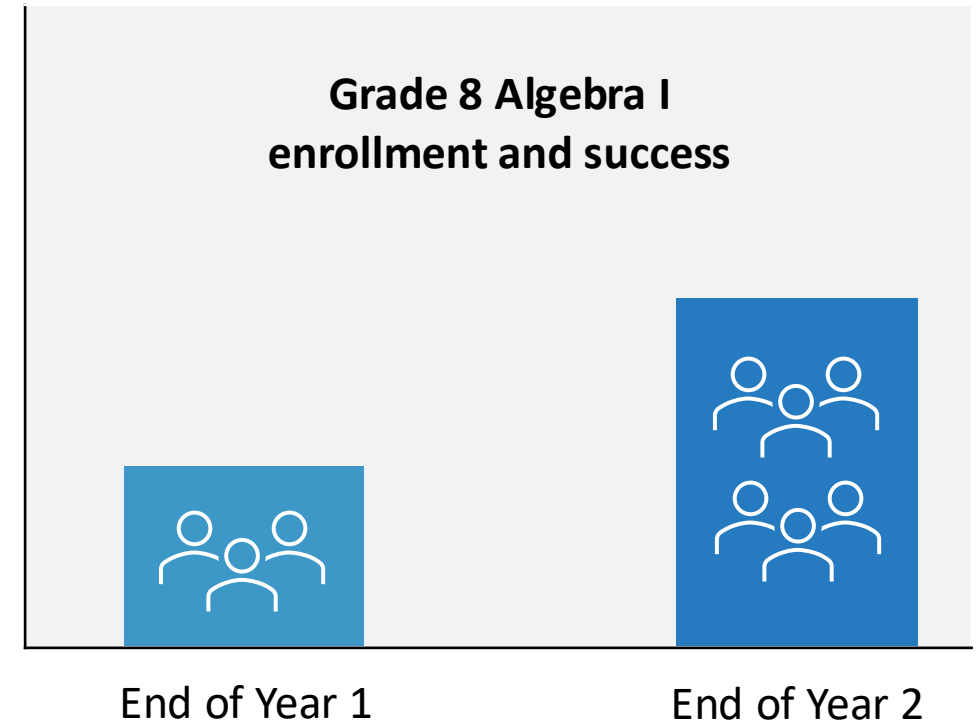

The District/Charter determines which components to include in the plan. These are some examples that could fit within each domain. A LAS plan can have **1-5 domains and 2-10 components**, per school-type.

Measures can be yearly growth targets.

Measures can be year-over-year growth.

Planning Year

- LAS Resources and Training
- Gather community input
- Alignment of goals and components
- Create the plan
- ➔ ■ **Collect baseline data and create rating scale**

- Baseline data is needed to set your rating scale
- Collect baseline data on each component for each school type.
- Your baseline is typically set at the mid-C-range.

Example Component: AP Course Completion and Exam Success

Letter Grade	Minimum % met	Maximum % met
A	80	100
B	60	79
C	40	59
D	20	39
F	0	19

A **district baseline average of 49%** is placed near the middle of the C-range on the Campus Rating Scale.

Planning Year

Plan Development

- LAS Resources and Training
- Gather community input
- Alignment of goals and components
- Create the plan
- Collect baseline data and create rating scale

TEA Collaboration

Our mission is to **provide guidance and support** to districts and open-enrollment charter schools, in creating robust local accountability systems that foster a culture of transparency, collaboration, and continuous improvement.

Local Accountability System Plan Example

A Local Accountability Plan includes the following information:

1. District Plan Rationale and Weight
2. Component Summary and Weight
3. Component Descriptions and Rationale
4. Valid and Reliable Measures
5. Data Collection Protocols
6. Baseline Data
7. Campus Rating Scale

A Local Accountability Plan includes the following information:

- 1. District Plan Rationale and Weight**
2. Component Summary and Weight
3. Component Descriptions and Rationale
4. Valid and Reliable Measures
5. Data Collection Protocols
6. Baseline Data
7. Campus Rating Scale

District Rationale

ABC ISD's Local Accountability System (LAS) is an extension of work that was established with our Theory of Action. To accomplish our Theory of Action we have five core components:

- I. State Accountability
- II. Academics (non-state tested)
- III. Parent Satisfaction (including school safety)
- IV. Student classroom experience
- V. Extracurricular activity

Components II—V are included in our LAS...

The district rationale explains why, and how, the district has created a Local Accountability System.

District Rationale (cont.)

The selection of these components was the result of collaboration among district leaders, campus administrators, Trustees, teachers, parents, and community members. We sent surveys to all of the previously stated groups of people and a focus group analyzed the results. We held nine 2-hour meetings with stakeholders to finalize the components of our plan. Our meeting minutes can be found here [link](#).

Weights for the components were set to align with district goals, Board goals, and feedback from district leadership.

We created a system to represent what we value as a district, recognizing the importance of a “whole-child” approach to evaluate our schools’ performance.

The district rationale explains why, and how, the district has created a Local Accountability System

Local Accountability System Overall Weight

For our campuses that score a C or above on the state system, we will attribute our Local Accountability System at 30% value. The State System will count at a 70% value.

The LAS overall weight indicates how the state and local systems will be calculated for campuses with a state rating of C or higher.

A Local Accountability Plan includes the following information:

1. District Plan Rationale and Weight
2. **Component Summary and Weight**
3. Component Descriptions and Rationale
4. Valid and Reliable Measures
5. Data Collection Protocols
6. Baseline Data
7. Campus Rating Scale

Component Summary and Weight Example

School Type/Group	Component Name	Domain	Component Weight
Elementary 14 campuses	Increase literacy skills for all students in K—2	Academic Achievement	25%
	Increase math fluency for all students in grades K—2	Academic Achievement	25%
	Parent/ Guardian Satisfaction: survey of favorable responses on academic orientation, communication, and school safety (K—5)	Culture and Climate	20%
	Student Classroom Experience: survey of favorable responses of teacher quality (K—5)	Culture and Climate	20%
	Percentage of students who have participated in at least one co- or extra-curricular activity that has been approved by ABC ISD (3—5)	Co- and Extra-Curricular Activity	10%

The plan summary and weight is an overview of the LAS for a particular school type, in this example the school type is all Elementary level campuses in the district.

A Local Accountability Plan includes the following information:

1. District Plan Rationale and Weight
2. Component Summary and Weight
- 3. Component Descriptions and Rationale**
4. Valid and Reliable Measures
5. Data Collection Protocols
6. Baseline Data
7. Campus Rating Scale

Increase literary skills for all students in K—2

Description and Rationale

We have identified early literacy as a focus for improvement. To provide a solid foundation in literacy, we are focusing on early literacy skills: letter recognition, phonics awareness, vocabulary related to familiar concepts, and simple story comprehension. We will measure student growth within each school year using [*District Choice Vendor*] for K—2 in Reading.

Vendor Examples: MAP Growth Assessment, iReady, etc.

The component description and rationale are provided to convey why the Elementary-level schools are focused on this component

A Local Accountability Plan includes the following information:

1. District Plan Rationale and Weight
2. Component Summary and Weight
3. Component Descriptions and Rationale
4. **Valid and Reliable Measures**
5. Data Collection Protocols
6. Baseline Data
7. Campus Rating Scale

Increase literary skills for all students in K—2

Measure

The [*District Choice Vendor*] Growth Assessment for K-2 Reading is a computer-adaptive test that measures both achievement and growth regardless of grade level. It tracks progress throughout the school year and across multiple years.

We will measure student growth from the beginning to the end of the year. Growth reports provide growth projections based on nationally representative norms. These projections, shown in scale score points and growth percentiles, indicate changes in achievement when growth targets are met or exceeded.

End-of-year data will show which students met or exceeded their growth targets.

Details about the measure are described to explain the validity and reliability.

A Local Accountability Plan includes the following information:

1. District Plan Rationale and Weight
2. Component Summary and Weight
3. Component Descriptions and Rationale
4. Valid and Reliable Measures
5. **Data Collection Protocols**
6. Baseline Data
7. Campus Rating Scale

Increase literary skills for all students in K—2

Data Collection Protocol

Students will take the pre-test within the first six weeks of the school year in a small-group secure testing environment. Students will take the post-test during the last nine weeks of the school year in a small-group secure testing environment. Data will be stored in the [*Vendor*] system for analysis and reporting.

The data collection protocol explains when and how the data will be collected and stored.

A Local Accountability Plan includes the following information:

1. District Plan Rationale and Weight
2. Component Summary and Weight
3. Component Descriptions and Rationale
4. Valid and Reliable Measures
5. Data Collection Protocols
6. **Baseline Data**
7. Campus Rating Scale

Increase literary skills for all students in K—2

Baseline Data

We examined each campus and the overall district average from the beginning to the end of year assessments for grades K—2 during the 2023-24 school year. We found that, on average, **65% of students in the district** met their growth targets.

The baseline data summarizes the average of the district overall.

This will set the mid-point of the rating scale.

A Local Accountability Plan includes the following information:

1. District Plan Rationale and Weight
2. Component Summary and Weight
3. Component Descriptions and Rationale
4. Valid and Reliable Measures
5. Data Collection Protocols
6. Baseline Data
7. **Campus Rating Scale**

Increase literary skills for all students in K—2

Campus Rating Scale

Letter Grade	Minimum % met growth target	Maximum % met growth target	# of campuses
A	86	100	1
B	72	85	2
C	58	71	8
D	44	57	3
F	30	43	0

65

The **district average of 65%** was placed near the middle of the C-range on the Campus Rating Scale.

The floor of 30 was selected to align with the state accountability system.

The district has 14 campuses. Each campus is represented with its corresponding baseline data range.

Possibilities with Local Accountability Systems

- LAS provides relevance to teacher practice.
- District leaders provide campus support to reinforce components in the LAS.
- District and campus leaders actively promote the LAS.

Elementary Schools

- K—2 Literacy
- K—2 Math
- K—4 Science
- K—5 Social Studies

Middle Schools

- 6—7 Science
- 6—7 Social Studies

High Schools

- HS English Courses (English III and IV)
- HS Science Courses (Chemistry, Physics)
- HS Math Courses (Geometry)
- HS Social Studies Courses (Government, Economics)

Advanced Placement

Enrollment and Success

Industry Based Certifications

6—8 Certifications

9—12 Certification 2+

Rural Pathways in Excellence Partnerships

Enrollment and Success

Dual Credit

Persistence, Enrollment,
and Success

Ideal Candidates to Begin a Local Accountability System

You are a perfect candidate for LAS if you are committed to any of the following:

Starting to plan goals and priorities for student success

Have established goals and priorities for student success

Implementing innovative initiatives for student success

Tracking improvement and impact through:

- Teacher Incentive Allotment
- Lone Star Governance
- Effective District Framework
- Effective Schools Framework
- System of Great Schools
- Texas Strategic Leadership

 Local Accountability System
 Inmate Education, Division
 LAC@tx.texas.gov
 512-423-2708

Overview

House Bill (HB) 322, passed by the 85th Texas Legislature in 2017, established the Local Accountability System (LAS) to allow districts and open-enrollment charter schools to develop local accountability system plans for their campuses. A LAS plan captures and showcases outcomes aligned with locally determined needs and strengths.

Creating a local accountability plan is a critical first step toward success. Texas is the first state in the nation to encourage districts to choose locally determined measures to be included in a district official state accountability rating.

A district local accountability plan provides stakeholders with detailed information about school performance and progress over time. Local accountability plans may vary by school type (elementary school, middle school, high school, and an ED) and by school group (major schools, early college high schools, etc.), but must only depart to an extent as applicable by school type and group.

Once approved by the Texas Education Agency (TEA), the plan is operational and remains unchanged for three to five years.

Participation in local accountability is at the district level and is voluntary.

Benefits for Districts and Open-Enrollment Charter Schools

- Provide parents, families, and communities with detailed information about local school performance and progress over time.
- Communicate local priorities and demonstrate a commitment to achieving the components in the local plan.
- Signify the importance of local goals by publicly releasing LAS ratings.
- Measure what is important to your community and apply scores to your overall campus rating.

Resources

The resources below provide additional information about the local accountability plan requirements along with a sample plan and components.

- [Local Accountability General Info \(PDF\)](#)
- [Local Accountability System Technical Guide \(PDF\)](#) - Access our system technical guide for processes and requirements for creating a local accountability plan.
- [Sample Plan and Components \(PDF\)](#) - Learn what a completed local accountability plan includes and review models to help you develop one for your district.
- [Local Accountability System Planner \(.doc download\)](#) - Use this planning tool to get started on your LAS Plan.

Getting Started

Discuss as a District

Most districts use existing priorities and needs that have been identified through formal and informal planning. These priorities could be based on student academic outcomes, school climate surveys, instructional effectiveness, and many other possible options. The goal is to create a vision and articulated plan that is a base for growth over a three to five-year period.

One-on-one Consultations

For a one-on-one consultation with tailored advice, support, and strategies on local accountability system plan development, contact us at lac@tea.texas.gov.

Complete a Notice of Interest (NOI)

The NOI serves as an introduction and will result in an initial meeting with TEA staff. The NOI collects information about district strengths and goals related to creating a local accountability plan. The non-binding and districts may choose which accountability year to apply the approved plan. District staff will work collaboratively with TEA to create a district local accountability plan. The timeline is summarized for each district.

The plan development process may encompass several months to a year depending on community goals based on the availability of baseline data and district decisions for selecting an implementation year.

Overview

House Bill (H.B.) 3022, passed by the 85th Texas Legislature in 2017, established the Local Accountability System (LAS) to allow districts and open-enrollment charter schools to develop local accountability system plans for their campuses. A LAS plan captures and measures outcomes aligned with locally determined needs and strengths.

Creating a local accountability plan is a voluntary, free-of-charge initiative. Texas is the first state in the nation to encourage districts to choose locally determined measures to be included in a campus official state accountability rating.

A district's local accountability plan provides stakeholders with detailed information about school performance and progress over time. Local accountability plans may vary by school type (elementary school, middle school, high school, and K-12) and by school program (charter schools, early college high schools, etc.), but must comply with all components as applicable by school type and grade.

Once approved by the Texas Education Agency (TEA), the plan is operational and remains unchanged for three to five years.

Participation in local accountability is at the district level and is voluntary.

Benefits for Districts and Open-Enrollment Charter Schools

- Provide parents, families, and communities with detailed information about local school performance and progress over time.
- Communicate local priorities and demonstrate a commitment to achieving the components in the local plan.
- Signify the importance of local goals by publicly releasing LAS ratings.
- Measure what is important to your community and apply across to your overall campus rating.

For a one-on-one consultation with tailored advice, support, and strategies on local accountability system plan development, contact lac@doe.texas.gov.

Complete a Notice of Interest (NOI)

The NOI serves as an introduction and will result in an initial meeting with TEA staff. The NOI collects information about district strengths and goals related to creating a local accountability plan. The non-binding and districts may choose which accountability year to apply the approved plan. District staff will work collaboratively with TEA to create a district local accountability plan. The timeline is summarized for each district.

The plan development process may encompass several months to a year depending on community goals based on the availability of baseline data and district decisions for selecting an implementation year.
