

## Child Abuse Prevention and Awareness & Human Trafficking Webinar Series

Educators are in a unique position to recognize, report and help to prevent child abuse and human trafficking. Educators are vital in recognizing the warning signs of abused or neglected students and guiding potential victims to available resources and support. This webinar series is a collaboration of state and regional agencies to assist and support school leaders with fulfilling their mandated duties and requirements concerning child abuse and neglect and promoting the well-being and safety of all Texas school students.

**All Zoom meetings will be held from 10:30-11:30 am. They are open to all Educational Service Centers, Local Education Agencies, and Community Partners.**
