School Action Fund (Cycle 9), LASO 3

The School Action Fund is designed to support districts in planning and implementing a whole school model. SAF’s ultimate goal is for every campus we support to be rated A or B at the end of two years of implementation.

Innovative School Models

Innovative school models to incorporate all aspects of the learning acceleration framework

Estimated Total Funding Available	\$8 Million-Direct
Estimated Range of Award	\$185K - \$375K per campus
Estimated Award Numbers	36 campuses
Estimated Timeline: Planning Grants	March 2025 – June 2026
Estimated Timeline: Implementation Grants	SY 2025 – 2026

Elements of Successful School Actions

Why Reassign?

Purpose

School actions are **whole-school strategies** districts use to increase access to high-quality schools by meeting community needs an/or addressing chronic underperformance.

The 4 school actions that TEA supports are:

- Restart an existing school
- Create a new school
- Reassign students to high performing campuses after school closure
- Redesign an existing school

Eligibility

Eligibility

Title 1
and
Federal Accountability
Designation:

- CSI
- TSI
- Not ATS

Not previously awarded SAF, since 2019-2020

Best Fit For

Districts interested in:

- transforming **campus and district systems** to enable better student experiences.
- Dramatically improving for **chronically underperforming campuses**.
- Creating **new school options** for families.
- **Integrating multiple strategies** such as HQIM, RBIS, and new academic and staffing models.

If district and campus leaders are supported to plan deeply every aspect of the school action and implement that plan with fidelity, then more students will have access to high-quality learning environments and outcomes will dramatically improve.

What's included in a School Action Fund grant?

Technical Assistance

Pre-approved TA providers with deep content expertise to support planning and implementation

Tools & Resources

Access to tailored tools and resources from TEA

Funding

Planning (1 year): approx. \$185k per school
Continuation (up to 2 years): \$375k-\$500k per school

Leader Professional Development

Opportunities for school leaders to participate in action-specific **professional development** or **school design programs**

The Center for School Actions ([CSA](#)) works with campuses and LEAs to support strategic decision-making to identify and select best-fit school actions. Visit their website for tools, resources, and webinars.

Step 1: Select an Action

1. Restart an Under-Performing School

- New leader and mostly new teachers
- New academic program implemented in Year 1 (not phased in)

2. Create a New School

- New school w/new CDCN phased in one grade level at a time
- New school leader, new teachers, new academic program

3. Redesign an Existing School

- New academic program implemented in Year 1 (not phased in)

4. Reassign Students to a High-Performing Campus

- Students reassigned to A/B rated campuses following deep community engagement and student and family support
- Campus closed in Year 1 w/ transition support provided to students in receiving schools

Step 2: Select a Governance Type

A. District- Run

- Flexibility from district policy/ practice required

B. 1882 Partnership \$

- Must meet all 1882 designation requirements

C. Governance Type and Model: N/A

- Target campus will close
- Students may be assigned to any A/B-rated campus in district, regardless of governance type or model

Step 3: Identify school model

1. ACE
2. Advanced STEM*
3. ADSY Full Year \$

4. Turnaround Partnership \$
 - F-rated campuses, Restart only
 - Eligible for pause in accountability sanctions
5. Innovation Partnership \$

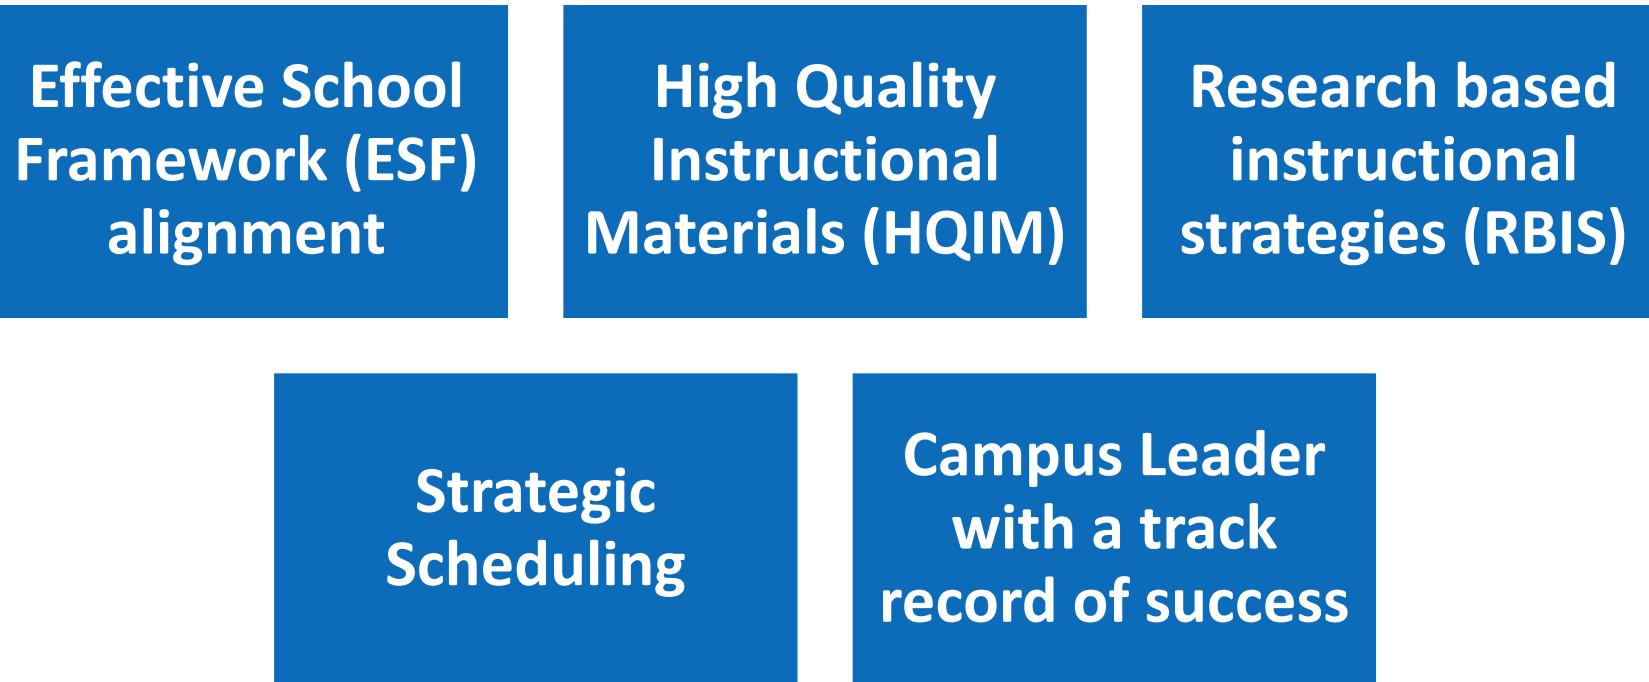

*Advanced STEM available for Elementary and Middle schools only

\$ Actions/Models that yield additional sustained funding opportunities.

Note: Planning and/or implementation grants available. Districts already working with an approved TA provider may elect to apply for an implementation grant.

Elements of Successful School Actions

Regardless of action or model, all School Action Fund campuses will include the following elements:

Selecting an Action

The School Action [Self-Assessment](#):

- Helps spark conversations with your fellow district leaders, your school board, and your families.
- Provides a starting place to understand which actions are the most likely to align with your school and community assets and needs.

*Recommendations you will receive within this tool are created based off formulas. **This tool is not an exact science.** You know your district best, so please keep the human element in mind as you work through the assessment.*

Why a Reassign Action?

- Chronic underperformance
- Under-enrollment
- Aging facilities

Is there a high-performing campus (A/B) that students can attend instead?

Community Engagement

- Extensive and transparent **communication with families and community stakeholders** is vital throughout the reassignment process. The district must engage in deep community involvement to ensure that families provided high-quality A/B options within the district and that students are supported during the transition

Student Experience

- During planning, students are given opportunities to **engage with the staff** at the receiving schools, explore receiving campuses, and begin building a new climate and culture
- Ensure receiving campuses and educators are **prepared to welcome** and support incoming students

Student, Family and Staff Supports

- Include academic monitoring, positive social support, and **adjusting to the new school environment**
- **Targeted professional development** is provided to meet the needs of the teachers
- The physical campus is closed until facility decisions are made.
- The CDCN is **closed**

District and Campus Collaboration

- Coordination among (staff of) the closing school, the receiving schools, and district leadership.
- A strong transition plan that addresses logistical issues like transportation, staffing, and scheduling is essential.

Monitoring and Follow Up

- Ongoing academic and behavioral monitoring of reassigned students is conducted to ensure that they are thriving in their new school.
- The district is to maintain accountability for the outcomes of the reassigned students.

Benefits of Reassign Action

Improve Educational Opportunities

Enhanced Student Support

Strengthening Receiving Schools

Efficient use of District Resources

Transparent Communication

How will the action be implemented?

Profile of a District in Planning

- Establish a need
- Engage community members broadly in conversations about what is most important to them for a school to be high-quality. In addition to the academic achievement of students, they may identify:
 - the types of academic models and enrichment programs offered to students
 - facilities/building quality
- Use overall quality metrics, data, Accountability measures, and federal accountability to identify campus(es) to be closed and the best-fit highest quality receiving campus(es)

Next steps for the district: Focus on campus-level planning at each closing & receiving campus(es) pairs.

Focus on the receiving campus leadership team.

- Rooted in the Effective Campus Framework
- Focused on systems and structures to support new students

Monitoring student data to evaluate and close gaps between closing and receiving student groups in:

- Student belonging
- Measures of learning
- Strong Tier I instruction through HQIM implementation
- **Year 2:** Enhancements or additions to academic and elective programming opportunities for students.

Campus Closure

Campus closure. A campus may be closed by:

(1) the **commissioner** if it is assigned an unacceptable performance rating for **five consecutive school years**

(2) the **school district**

- If the campus is rated "acceptable"
- District will not use the facility for educational purposes for at least one school year
- District will transition all students to higher performing campuses but cannot be more than 50% of the new campus' enrollment
- Close and repurpose

A Campus May be Closed...

... by the district when the campus has received an Acceptable Rating.

- District may close a campus at any time, for any reason, such as
 - Under/low enrollment
 - Natural disasters
- Notify TEA of request to close CDCN

... by the district when the campus has received an Unacceptable Rating.

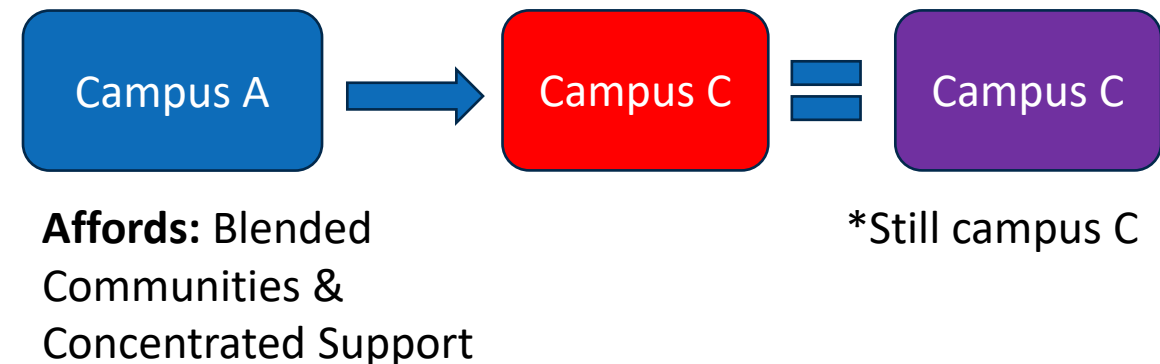

- District requests closure through TEA committee to close CDCN.
 - District will not use the facility for educational purposes for at least one school year.
 - District will reassign all students to high-performing campuses but cannot be more than 50% of any individual new campus' enrollment

... by the district when the campus has 4 or more Unacceptable ratings.

- Only Commissioner may
 - Close campus, or
 - Assign Board of Managers
 - Administrative code rules that a campus cannot be closed by a district if it **could** receive its fifth unacceptable rating

Consolidation vs Closure

- Closure – A campus is closed.
Students are assigned to high-performing schools or enrollment is opened to all high-quality schools
- Consolidation – A campus is closed.
Two school communities (or, more) are merged, utilizing the better/best facilities and leadership of the higher-performing school

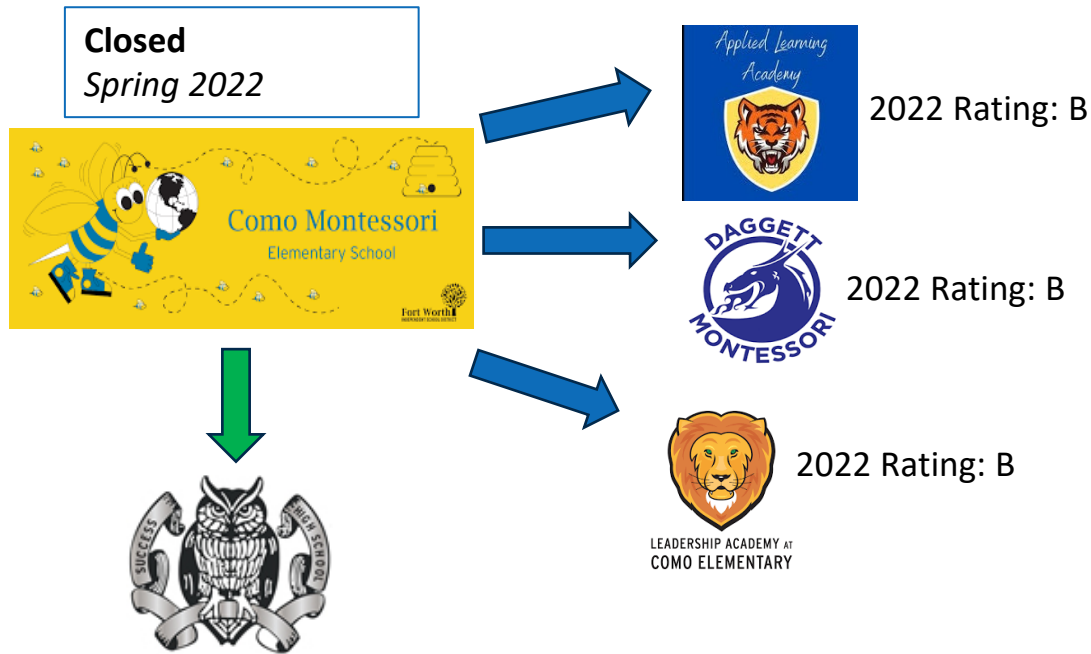

SAF Reassign Action Successes

Campus Closure/Reassign: 95+% of Students in Chronically Underperforming Campus Reassigned to Higher-Performing Campuses

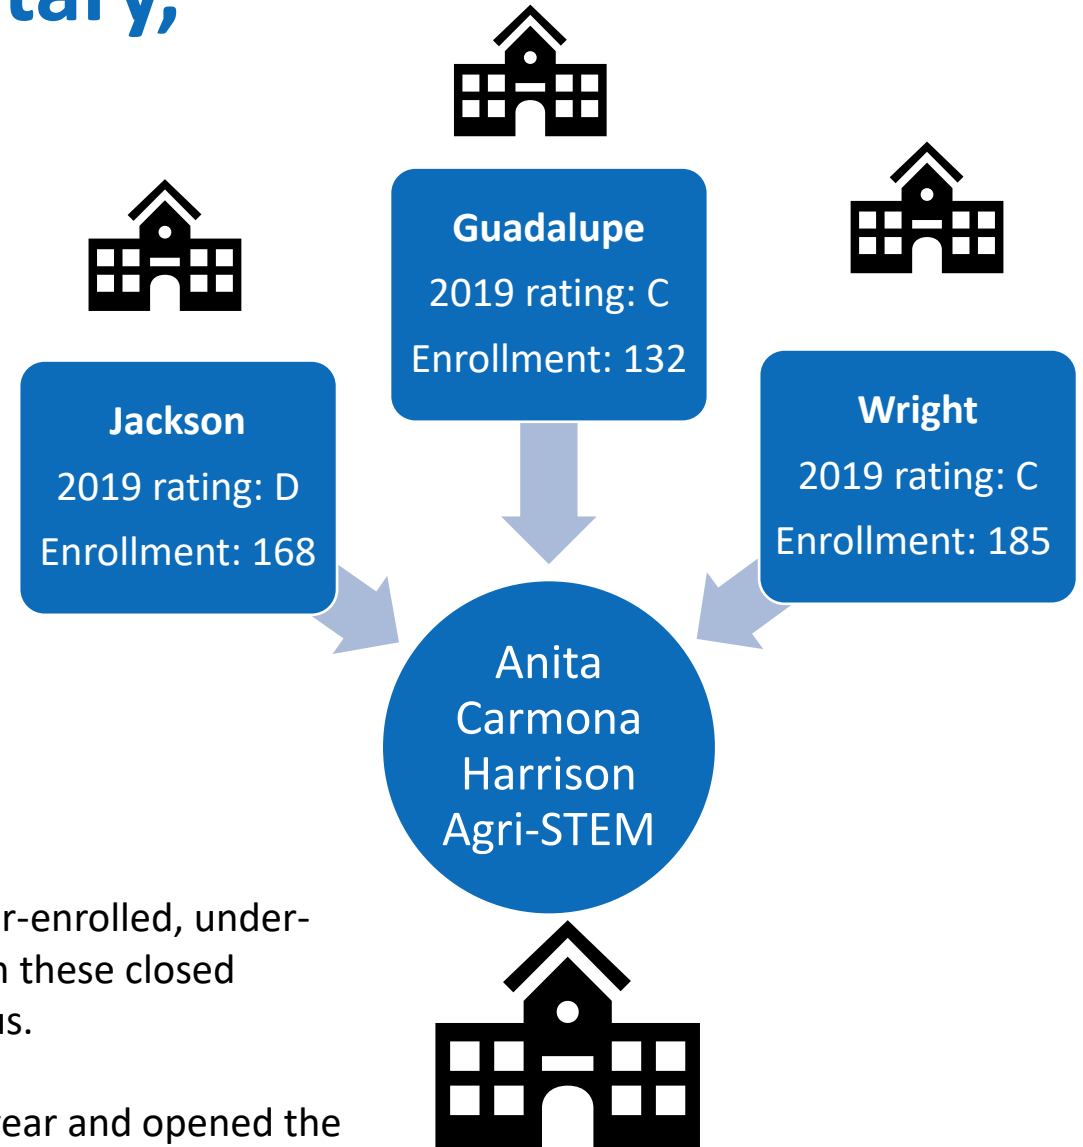

Ft. Worth ISD closed Como Montessori School and offered students seats at nearby higher-performing campuses. The building has been repurposed to be an alternative High School.

Repurposed
Different grade level band & academic model
Success High School

- Multiple factors led to Ft. Worth ISD’s decision to close Como Montessori, including
 - Declining enrollment
 - Inconsistent implementation of the Montessori model
- District provided families with options at high-performing campuses, both
 - Other Montessori campuses
 - Choice-schools
- Receiving schools were provided opportunities for
 - Professional development
 - Engage with families prior to the transition

Carmona-Harrison Elementary, Lubbock ISD

In partnership with community members, the Lubbock ISD closed three under-enrolled, under-performing campuses, and consolidated into one new campus. Students from these closed campuses were given priority enrollment in the new, open enrollment campus.

Through the **School Action Fund** the district planned the launch for one full year and opened the new school in Fall 2021, with a Agri-STEM model specific to the needs of the community.
