

School Health Survey 2023-2024

The Texas Education Code (TEC), §38.0141, requires the Texas Education Agency (TEA) to collect data relating to student health and physical activity from each school district/charter district. The School Health Survey has been developed for this purpose. The data gathered will allow the agency to better address the various health-related needs of Texas schools and students statewide.

The survey will take approximately 15-30 minutes to complete. This survey must be completed **ONLINE** and can be submitted only once for each school district (including a district designated as a district of innovation) and open-enrollment charter school. Responses should reflect the entire 2023-2024 academic year and may require input from different staff members within the district/charter school to completely answer the survey questions.

Please coordinate with staff to ensure there is one submission per school district/open-enrollment charter and continue the survey on the same device and location (IP address). Should a school district or open-enrollment charter submit the survey more than once, the most recent submission, even if incomplete, will be considered the final submission.

Survey completion deadline – **FRIDAY, May 24, 2024**

INSTRUCTIONS

The online submission requires you to complete the entire survey. To make changes, simply click on the new response. In some cases, you will need to unclick a previous answer to change the response. To move through the survey, click the previous/next (Forward arrow/Back arrow) buttons at the bottom of each page.

At the end of the survey, you may wish to print a copy of the completed survey for your records **BEFORE** you click "DONE." After clicking "DONE" you will not be able to re-enter the survey to make changes. You will receive a "pop-up" message as your confirmation receipt. You will not receive any other confirmation.

Thank you for your participation in the 2023-2024 School Health Survey.
