INTRODUCTION

Note: The commissioner rules in effect during the time of the charter school application process will apply.

The Texas Education Agency (TEA) welcomes applications for high-quality charter schools seeking to open in SY 2025 and beyond. Applicants are strongly encouraged to read this entire document and the corresponding Charter Request for Application RFA 701-25-105 before developing any application content.

The Commissioner of Education (the commissioner) is actively committed to attracting charter applicants who are capable of operating high-quality charter schools. The information requested through the application will inform the commissioner's decision to propose Generation 30 charter awards.

On May 30, 1995, the Texas Legislature created the Public Charter School Program to maintain a portfolio of secular, tuition-free, public charter schools that:

- Improve student learning;
- Increase the choice of learning opportunities within the public-school system;
- Create professional opportunities that attract new teachers to the public-school system;
- Establish a new form of accountability for public schools; and
- Encourage different and innovative learning methods.

The commissioner has vested authority to award Subchapter D Open-Enrollment charters and Subchapter E College/University charters (Texas Education Code §§12.101 and 12.1011 and 12.152, respectively). Pursuant to statute, the commissioner must adopt an open-enrollment charter application form, procedures, and evaluation criteria to be used in determining whether to award a charter. Collectively, the (1) Instructions and Guidance; (2) Application; and (3) Evaluation Criteria fulfill this requirement.

SPONSORING ENTITY AND CHARTER HOLDER

During the application process, the eligible entity applying for a charter shall be referred to as the "sponsoring entity" or "applicant" or "charter applicant." The term "charter holder" is exclusively reserved for applicants who are awarded a charter after the application process. The charter holder is the entity to which public education funds are paid if the application is approved by the commissioner and a contract is signed.

Prior to the submission of an application, TEA staff members are limited to fielding general inquiries that are associated with timelines and the overall application process. TEA staff members may not speak to application content.

ELIGIBILITY

In accordance with Texas Education Code (TEC), §12.1011, notwithstanding TEC, §12.101(b), the commissioner of education may grant a charter to high-performing entities.

For an applicant to be eligible for consideration as a high-performing entity, the applicant must demonstrate one of the following criteria:

- The entity is affiliated with a charter operator that operates one or more charter schools in another state. The affiliated charter operator must have performed at an overall level that is comparable to the highest or second highest performance rating category under TEC, Chapter 39, Subchapter C, or
 - The entity must propose to operate the charter school program that is currently implemented in the affiliated charter operator's existing charter schools.
 - A charter operator may be considered affiliated with an entity if it utilizes shared structures, practices, or materials, including, but not limited to, a shared management structure, shared financial management or staff development practices, or shared proprietary materials, including those related to instruction.
- The entity is currently operating charter programs under TEC, Chapter 12, Subchapter C or E. The entity must have performed at an overall level in the highest or second highest performance rating category under TEC, Chapter 39, Subchapter C.

The TEA will make determinations on completeness during the completion check process. Applications that are deemed to be incomplete will be removed from any further consideration during the high-performing entities application cycle.

The TEA will make determinations on eligibility during the data analysis and eligibility review period. Applications that are deemed to be ineligible will be removed from any further consideration during the high-performing entities application cycle.

Additionally, for eligibility purposes, the proposed school model must comply with allowable provisions under state law. If the model is not executable under current law, then the application may be removed from consideration or subject to contingencies at the end of the application process.

Each application will be reviewed on its own merits and scored in accordance with the evaluation criteria published by the TEA.

The portfolio workbook will serve as a critical data source for the analysis phase. It is essential that the data is accurate and complete to prevent any issues. TEA will use this data to assess whether a charter school meets the standard to be evaluated as a high-performing entity and has performed at a level of performance comparable to an A or B rating. In the evaluation phase, we will review current performance ratings and student achievement data on state assessments to determine if the student achievement score corresponds to an A or B rating on Domain 1 of Texas' accountability system.

If the applicant meets all requirements, the applicant will advance to the due diligence period.

Evaluation criteria for each narrative section are included in the "Terminology, Resources, and Evaluation Criteria" section of this guide.

Any actions that are inconsistent with the terms and requirements of the charter shall constitute a material violation of the charter contract.

The commissioner will periodically evaluate each open-enrollment charter school. The commissioner may revise, revoke, modify the governance of, or deny renewal of the charter if the commissioner determines that the charter holder has failed to satisfy any of the student, financial, compliance, and/or health and safety performance standards set out in [19 Texas Administrative Code \(TAC\) §§100.1037–100.1055](#). The procedures for commissioner action and intervention are outlined in [TEC §12.116](#) and [TAC §§100.1037–100.1055](#). The TEA defines plagiarism as the representation of the words or ideas of another as one’s own in an application. The TEA is cognizant that to discuss an existing curriculum, instructional framework, or educational model key concepts must be mentioned. It is not acceptable to copy and paste a description from another source, unless that source was originally produced by the same affiliated entity in any other published materials. The majority of each narrative response should be original writing and thinking with citations to support specific assertions or descriptions. To avoid

plagiarism, every direct quotation must be identified by quotation marks or by appropriate indentation and must be cited properly. Acknowledgement is also required when material from any source is paraphrased or summarized in whole or in part.

Style Guidance

Narrative responses should be brief and specific whenever possible. It is most helpful if descriptions of vision, processes, and design are clear and concise rather than abstract or general. Do not repeat content discussed in other sections of the application. If needed, applicants may refer to or cite other responses in the narrative or attachment sections.
